IN THE FIVE POINT SYSTEM OF PROGRAMMING EVALUATION—

Public Service

IN IOWA, **WHO** IS THE PREFERRED PUBLIC SERVICE STATION

Ever since the birth of radio, the industry's wisest leaders have recognized radio's potentialities and responsibilities in the public welfare. They have understood that sound Public Service, far from being a mere restraint or "tax" on the industry, is its best justification for existence, *its best "life insurance" for building and holding the*

esteem and confidence of the nation. Station WHO has always put Public Service at the top of its programming activities. Not second or third or tenth. *First.* WHO is the spark plug for dozens of public-service projects which *regularly* enlist the hearts, minds, pocketbooks and *work* of millions of citizens in Iowa Plus.

For instance: Our European Relief Project, carried almost daily on our station for several years, has sent many tons of food and clothing (over 54,000 parcels, by very conservative estimate) to needy Europeans. One typical listener recently reported shipments of over 500 lbs. — forwarded us such grateful European responses as: "With all our heart we thank you again and again for your true friendship and we pray the Great God might always beware you from all what is terrible" — etc., etc.

Another for instance: Our Annual Corn Belt Plowing Match and Soil Conservation Day has drawn up to 100,000 farmers per year, to witness newest agricultural developments. Of one such recent Day, the Chief of the U. S. Soil Conservation Service said "this is perhaps the most important thing that has taken place on American farm lands for 350 years" . . .

More for instance: Every day of the week, WHO carries at least one hour of Public Service programs, including "The Billboard" (a highly popular and effective program exclusively devoted to special appeals) — "Veterans' Forum" (in which veterans' problems are discussed and solved) — "Flight Lines" (in which the Director of the Iowa Aeronautics Commission speaks) — "Iowa Round-table" (forums and panels conducted by civic leaders) — "Governor Beardsley Hour" (our State's First Executive) — "Country Home" (a program for farm women) — "Highways to Safety", "National Guard Show", "News and Views About Religion", and hosts of others, including many church services. All of these are sponsored . . . by WHO only!

This is Point Four in the Five Point System of Programming Evaluation, which helps explain WHO's outstanding position as a public facility and as an advertising medium, in Iowa Plus. We suggest your consideration of this and the other four points as vital factors in time-buying.

IS PRESIDENT TRUMAN's "security" order to federal agencies (see page 29) intended as preliminary to restoration of full-fledged Office of Censorship? It's known in recent months key officials who served in World War II censorship have been advised that recall to service is possible. President's directive last week may be part of Administration strategy to create a clamor for reactivation of censorship office as better solution to security question than agency-by-agency security review.

ABC, sweating out FCC action on its projected \$25 million-plus merger with United Paramount, is confronted with prospects of new financing unless approval is forthcoming reasonably soon. With its leases in New York, Chicago, San Francisco and Los Angeles expiring in April 1952 (NBC is its landlord) it will require an estimated \$5 million to \$7.5 million for housing alone by that time.

NEW NATIONAL radio-advertiser merchandising premium plan will be announced this week by Radio Dollars Inc., sparked by Ben Strouse, WWDC Washington, and Howard Rudolph, WTH Baltimore. Franchises will be offered as one-station exclusive in each community. Idea envisages radio advertisers giving out "radio dollars" with purchase of each of their products, redeemable in nationally-advertised premiums.

BECAUSE NBC is 100% owned by RCA, actual figures on network's revenues heretofore have never been made public but were integrated in overall RCA accounts. Current brochure titled, "RCA, What It Is—What It Does," breaks down these figures. In 1950 NBC did \$92,373,000, or 15.8% of gross RCA revenue. In 1949 it amounted to \$72,867,000, or 18.3% of RCA's gross that year.

DESPITE GLOOMY reports on confirmation of FCC Comr. Frieda B. Henneck for New York Federal judgeship after opposition got in licks last week (see story page 31) there's still plenty of wise money around betting Miss Henneck will win judicial toga. At worst, it's thought, Senate might not act prior to mid-October adjournment, which then would leave way open for recess appointment by President Truman and confirmation at next session.

AMERICAN TOBACCO Co. reportedly making plans for using Jack Benny on CBS-TV six or more times during coming year, replacing telecasts of *This Is Show Business* (Sun., 7:30-8 p.m.) at five-week intervals beginning Nov. 4. Company sponsors Benny program regularly on CBS radio, Sun., 7-7:30 p.m. BBDO, N. Y. is agency.

WHEN CBS Television formally begins operation of its TV station in Los Angeles from new transmitter site on Mt. Wilson on Oct. 28 call letters will be switched from KTSL (for Thomas S. Lee) to KNXT, tying in with its

(Continued on page 114)

Upcoming

Oct. 2: Hearing resumes on New York District Court Judgeship Nomination of FCC Comr. Frieda Henneck, Executive Session of Senate Judiciary Committee, Senate Office Bldg., Washington.

Oct. 8-9: District 17 NARTB Meeting, Davenport Hotel, Spokane, Wash.

(More Upcomings on page 30)

Bulletins

JOSEPH E. BAUDINO, general manager of Westinghouse Radio Stations Inc., elected vice president and director. He succeeded Walter E. Benoit as general manager July 1 when latter was named general manager of parent Westinghouse Electric Corp. Air-Arm Division, Baltimore. Mr. Benoit resigned WRS vice presidency but was re-elected director. Mark W. Cresap Jr., vice president of parent firm and assistant to president, erected WRS director. E. C. Dehne, assistant secretary-treasurer of parent company, elected WRS assistant treasurer.

WALTER WINCHELL has signed lifetime contract with ABC, network disclosed Friday. It is understood he will continue to broadcast for present sponsor, Warner-Hudnut Co. He will serve as consultant to ABC in addition to duties as newscaster.

ASCAP WOULD PREJUDICE BMI VIDEO LICENSEES

ASCAP has served notice it intends to ask U. S. District Court, Southern District of New York, to modify interim television fee to: 1, consider station income from spot adjacencies in per program rates, and 2, refuse per program licenses to stations that are BMI licensees.

Society currently engaged in court battle with All-Industry Television Per Program Committee. ASCAP indicated its intent to examine some TV station owners.

MAINE GROUP PROTESTS TREASURY BOND TACTICS

MAINE Broadcasters Assn. sent strong protest to U. S. Treasury Secretary John W. Snyder and Portland office because of letter from Savings Bond Division asking stations "to join with other groups in sponsoring newspaper advertisements . . . The local newspapers have ads and mats and will be pleased to show them to you."

Murray Carpenter, WABI Bangor, on behalf of association, called Treasury request "outrageously discriminatory." He reminded that radio has donated huge amounts of time and talent to bond sales and asked that Treasury issue similar letter asking retailers to purchase radio advertising.

Business Briefly

HOOD RADIO-TV ● Hood Rubber Co., Watertown, Mass., buying spot announcements in 41 radio markets starting Oct. 15 for 10 weeks for its farm division; also buying spot TV in seven major markets for women's division. Agency, McCann-Erickson, New York.

ARMY SPOT TEST ● Headquarters, New York Military District, Organized Reserve Corps, U. S. Army, to Getshall & Richard, New York, for test radio spot campaign in 14 New York state markets (excluding New York City), scheduled to begin this week. Length of test depends on results. If successful, expansion is contemplated.

TIDE PLACING ● Procter & Gamble Co. Cincinnati (Tide), placing additional spot radio campaign starting Oct. 8 for 52 weeks. Agency, Benton & Bowles, New York.

CLORETS PLAN ● American Chicle Co., New York (Clorets), understood to be adding several radio markets starting Oct. 1-Nov. 30. Agency, Dancer-Fitzgerald-Sample, New York.

RELIGIOUS SERIES ● Baltimore Tabernacle adding 15 to 20 radio markets for its one-hour *Tabernacle Show*, 52 weeks. Agency, Walter F. Bennett, Philadelphia.

FELLOWS COMPLETES COMMITTEE ASSIGNMENTS

SECOND NARTB standing committee—AM—named Friday by President Harold E. Fellows, along with board committees covering by-laws, convention and membership. New committees follow:

AM Committee—Glenn Shaw, KLX Oakland, chairman; William C. Grove, KFBC Cheyenne, Wyo.; Edgar Kobak, WTWA Thomson, Ga.; Harry W. Linder, KLWM Willmar, Minn.; John Esau, KTUL Tulsa; John Patt, WJR Detroit; Lee Little, KTVG Tucson; G. Richard Shafro, WIS Columbia, S. C.; F. C. Sowell, WLAC Nashville. Alternates: R. A. Borel, WENS Columbus; Richard H. Mason, WPTF Raleigh; John Elmer, WCBM Baltimore; Simon R. Goldman, WJTN Jamestown, N. C.

Board By-Laws—A. D. Willard Jr., WGAC Augusta, Ga., chairman; Leonard Kapper, WCAC Pittsburgh; W. D. Rogers Jr., KEYL (TV) San Antonio.

Board Convention—James D. Shouse, WLW Cincinnati, chairman; Harold Wheelahan, WMSB New Orleans; Merrill Lindsay, WSOY Decatur, Ill.; George B. Storer, Fort Industry stations.

Board Membership—Radio, active and associate: Craig Lawrence, WCOP Boston, chairman; Thad Holt, WAPI Birmingham; Richard M. Fairbanks, WIBC Indianapolis; Kenyon Brown, KWFT Wichita Falls, Tex.; H. Quenton Cox, KGW Portland, Ore.; Calvin J. Smith, KFAC Los Angeles; Jack Todd, KAKE Wichita, Television, associate: Clair R. McCollough, WGAL-TV Lancaster, Pa.; Paul Rauborn, KTLA (TV) Los Angeles; Eugene S. Thomas, WOR-TV New York. (Television active membership committee comprises entire TV board.)

Y & R EXECUTIVE CHANGES

CHANGES in key personnel announced by Sigmund S. Larmon, president, Young & Rubicam, New York. Walter K. Nield, vice president in charge of art, named senior account supervisor on General Foods Corp. Frederick S. Sergenian, vice president and manager of art department, succeeds Mr. Nield. Replacing Mr. Sergenian is Walter P. Glenn, art supervisor.

OPERATION SPECIAL EVENT

May 19, 1951 was General Michaelis Day in Lancaster, Pennsylvania. The General, home from combat in Korea, is one of the county's most famous sons. In Korea he commanded the 27th "Wolfhound" Regiment of the 25th Division. As its leader, he lead one of the fiercest bayonet charges in America's military history. He was called home for re-assignment in Europe under General Eisenhower's command.

General John H. Michaelis was accorded as fine a welcome as was ever seen in Lancaster. However, out of his hectically busy day he took time to appear before the cameras of WGAL-TV. Many thousands of people in the area saw and heard this distinguished American right in their own homes.

Operation: SPECIAL EVENT is a regular occurrence at WGAL-TV. It is just one out of many such events and programs telecast in the public interest.

The man who makes **5** steers out of four

That fifth steer, though, really isn't an extra steer. It's extra beef on the other four; beef that would never exist were it not for this man called a "feeder."

He buys cattle from ranchers—lean animals that have been grazing on the open range. Then he takes them to his "beef factory" and feeds them—fills out their frames with all the well-balanced feeds the animals can hold.

Months later, he sells them—200 to 500 pounds heavier than they would be if they had been left on the open range. Thus, the feeder, in effect,

makes five steers out of every four he feeds—materially increases our national beef supply—helps make beef available during the months when range cattle are not coming to market.

But he takes a risk in doing this essential job.

The kind of living his boarders enjoy costs the feeder plenty. And between the time he buys and sells, many things can happen to put his calculations in the red.

Fortunately, though, most feeders are optimists.

And as long as they keep those beef critters eating, you'll continue to eat better, too!

agency

JAMES C. DOUGLAS appointed vice president and director of radio and TV, Erwin, Wasey & Co., L. A. He was coordinator of radio and TV for Colgate-Palmolive-Peet (see story page 54).

ALFRED STANFORD, vice president and director of advertising *New York Herald-Tribune*, to Benton & Bowles, N. Y., effective Oct. 1, as vice president and head of review plans board. Prior to his association with the newspaper Mr. Stanford was with Compton Adv. for 13 years.

WILLIAM E. CHAMBERS Jr., advertising manager National Sugar Refining Co., to Benton & Bowles, N. Y., as account executive for Post's Sugar Crisp Cereal, succeeding **WILLIAM E. PALMER**, who leaves agency Oct. 1 to join F. C. Ball Co., Muncie, Ind., as marketing director of consumer division.

LUIS G. DILLION, executive vice president Foote, Cone & Belding International Corp., resigns. Future plans will be announced.

JOSEPH H. CARO, vice president and director Earl Ludgin & Co., Chicago, appointed vice president and member of plans board Weiss & Geller, Chicago.

on all accounts

GENE FROMHERZ, media director at Aubrey, Moore and Wallace, Chicago, has chalked up 18 years of radio experience, but is completely outranked in television by his wife. She is Dorothy Chaquette Fromherz, time-buyer at Foote, Cone & Belding, who had the title of the "most Televised Girl in Kansas City" 16 years ago. Mr. Fromherz just barely knew what a scanning disc was in those days.

Since then he's added television as well as printed media to his activities. Media director at Aubrey, Moore & Wallace since January, he formerly free-lanced as a radio script writer for almost five years, turning out shows for *Grand Central Station*, *First Nighter*, *The Whistler* and *Curtain Time*, among others. An accomplished radio playwright, he has had his work featured more than that of any other author in the Grinnell College anthology of radio plays.

Although he has always preferred comedy writing to straight drama or mystery, he found better markets for the latter and shelved his comedy ambitions temporarily. He is negotiating now with a Broadway "angel" and producer

for production of a dramatic fantasy which he wrote during his free-lancing stint.

Mr. Fromherz, who started out in the brokerage business on Chicago's LaSalle St. and was bounced into radio by the stock market crash, snared his first advertising job in 1933 with First United Broadcasters. He was hired after steeping himself in trade journals and convincing the company president he could bring in new business.

His first account was Willard Tablets, and a later one, Sterling Insurance, grew rapidly in the new medium of radio.

He continued with account work, moving to J. Walter Thompson and Dancer-Fitzgerald-Sample, both Chicago, where he worked as timebuyer two and eight years, respectively. During his tenure at D-F-S the agency was in its soap opera heyday, and Mr. Fromherz bought a flock of

Mr. FROMHERZ

daytime shows for such clients as General Mills, Procter & Gamble and Falstaff Beer. At JWT he worked with clients such as Kraft Foods, Elgin Watch and Swift. His A-M-W accounts include International Harvester, Wayne Knit-

beat

GIL BABBITT appointed director of radio and TV, Harry Feigenbaum Adv. Agency, Phila. He was with Korn Agency, same city as TV and radio director.

MURRAY BOLEN, producer-director, Benton & Bowles, working out of New York office for past year, returns to agency's Hollywood office, to direct NBC *The Railroad Hour* and *Father Knows Best*. He replaces **FRAN VAN HARTESVELDT**, resigned to devote time to writing.

EARL EBI, director of radio and TV, Warwick & Legler, L. A., rejoins J. Walter Thompson Co., Hollywood, as director of CBS *Lux Radio Theatre*. He replaces **FRED MacKAYE**, resigned. Mr. Ebi was with J. Walter Thompson from 1943 to 1950 working out of both New York and Hollywood, as director on many major shows. Leaving there in 1950 as Hollywood TV director, he went into TV packaging, later joining W & L.

MICHAEL J. TURNER, group account manager G. M. Basford Co., N. Y., elected vice president.

HARRY A. EGBERT, copy and account executive Lavenson Bureau of Advertising, Phila., appointed radio and TV director.

LARRY AUERBACH, TV director NBC Chicago, to television production Biow Agency, N. Y.

WRIGHT NODINE, merchandising director W. Earl Bothwell Adv., Hollywood, named vice president in charge West Coast operations. He replaces **FRED JORDAN**, resigned to join Richfield Oil Corp., L. A., as advertising and sales promotion manager.

GORDON MINTER, senior director KTLA (TV) Hollywood, to Leo Burnett Co., L. A., as film director.

FRANK NICKEL, George L. DeVille Co., Chicago, to H. W. Kastor & Sons, Chicago, as art director.

RICHARD I. HIRSCH has opened his own advertising agency in Chicago. He is former advertising manager of L. Fish Furniture Co., same city.

CUNNINGHAM & WALSH, N. Y., planning to move to larger offices at 260 Madison Ave., next year.

JOHN PARSONS, sales manager Hoffman Television L. A., opens new advertising agency under his name in San Francisco. Offices at 450 Sutter Street.

SHIRLEY GREY, assistant to sales service manager WDTV (TV) Pittsburgh, appointed traffic manager W. Craig Chambers Inc., Pittsburgh.

FITZGERALD Adv., New Orleans, moves to new offices in Lee Circle Bldg., 1040 St. Charles Ave.

EUGENE N. WORRELL, staff Mt. Lebanon (Pa.) *News*, appointed assistant account executive Sykes Adv., Pittsburgh.

MOHAWK Adv. Co., Schenectady, moves to larger quarters at 151 Erie Blvd.

ALAN RHONE, supervisor of network film programming CBS Television, to J. Walter Thompson, N. Y., as staff director of radio-TV department.

LARRY SCHWARTZ, partner The Wexton Co., N. Y., appointed lecturer in sales promotion, City College, N. Y.

ALICE HOGAN appointed copywriter Eli Cohan Adv., Cincinnati.

O'NEIL, LARSON & McMAHON, Chicago, opens office in New York at 230 Madison Ave. to service east coast accounts. No manager has been named.

JOHN WILLOUGHBY, publicity director Needham, Louis & Brorby, Chicago, named managing director of agency's new subsidiary in Toronto, Needham, Louis & Brorby of Canada, Ltd. **EDWARD W. S. WEED** resigned from J. Walter Thompson, also Chicago, to work with Mr. Willoughby in handling Canadian accounts.

program developments from the

ASSOCIATED PROGRAM SERVICE

If all you need from a transcription library is a limited amount of material, all you should have to pay is a limited price. That's the astonishingly simple principle behind the APS announcement which is reaching the desk of broadcasters across the U. S. and Canada today. Specialized transcribed musical libraries to meet Special broadcasting needs are yours from now on at prices from \$19.50 per month up—and contracts run for just one year.

We've spent a whole year finding out exactly what broadcasters want from the transcription field. And this new service is the answer. It took a lot of planning to work it out . . . we had to streamline our entire operation and adopt a whole new concept of service to the industry. But the first flood of orders . . . of letters and telegrams that express a heartfelt "Thanks" from station operators large and small . . . make us feel pretty proud and happy. This week alone we'll save broadcasters over a quarter-million dollars!

Details? They're in a brochure you'll receive this week—and on a little red disc that will come with it. All we have space to say here is that we've built five specialized libraries from the rich, jumbo catalog that comprises the full basic APS Library. They are:

Commercial—All the famous APS commercial lead-ins . . . plus time, weather, dollar day, Christmas jingles . . . PLUS the COMPLETE SERIES to date of Mitch's transcribed sales meeting series and an additional new meeting every month. Cost: \$22.50 per month.

Production—A whole library of theme and good music . . . of interludes, fanfares, bridges, national anthems, stand-by music. Cost: \$19.50 per month.

Show Medley—Hours of show medleys . . . lavish, long-running medleys from top Broadway shows. Cost: \$22.50 monthly.

Popular—A complete pop dance and vocal library—featuring names like Flanagan, Jurgens, Masters, Knight, Carson, Mitchell, Brito, others. A big little library. Cost: \$39.50 monthly.

Radio Music—Cream of our pop concert music—Ted Dale, Glenn Osser, Al Goodman—hundreds of selections. Cost: \$47.50 monthly.

And, as ever, there's the FULL APS BASIC LIBRARY for the basic stations . . . the richest, soundest, best-played library ever! Yes . . . it's APS from now on . . . for every radio station! Watch for your copy of our brochure . . . write or wire at once!

Maurice B. Mitchell
Vice-President, General Manager

[EDITOR'S NOTE: Mr. Stolzoff's questions dealt with radio and television economics. The answers he found were in "Trends for Fall" features in the Sept. 17 issue of BROADCASTING • TELECASTING.]

* * *

No Bargain

EDITOR:

Relative to your . . . article appearing on page 94, column 2, of the Sept. 24, issue of BROADCASTING • TELECASTING relative to the approval by NPA of the Air Mart Corp. application for a new station at Oak Ridge, the article seems to indicate that the cost of the new station is \$3,300 when actually the cost was \$17,661.75.

Our NPA authorization dated Aug. 9 covered \$11,103.07 for equipment and \$3,300 for remodeling. The rest of the equipment we already had on hand for which we did not need NPA authorization.

The only reason for advising you of these facts and asking that a correction be made is because Owen J. McReynolds, the head of the Gates Radio Co.'s East Coast office, has an interest in this station and there may be some who might think that Mr. McReynolds was able to build the entire station with new equipment for only \$3,300. . . .

Harry J. Daly, Esq.
Metropolitan Bank Bldg.
Washington, D. C.

* * *

Optical Illusion

EDITOR:

Page 80 of your Sept. 17 issue carries a breakdown of television sets in foreign countries compiled by the Foreign Service Office of the Dept. of Commerce. Canada, which has no television stations in operation at present, is credited with the incredible total of 1,350,000 television sets.

This would be something in the order of one set for every four Canadian homes. The actual figure is somewhere in the neighborhood of 50,000. I know that BROADCASTING • TELECASTING, with its jealously guarded reputation for accuracy, will want to bring this correction to the attention of its readers, and there might be some profit

in bringing it to the attention of the foreign service department of the Dept. of Commerce, which must be doing its northward viewing with magnified lenses.

T. J. Allard
General Manager
Canadian Assn. of
Broadcasters
Ottawa

[EDITOR'S NOTE: An ambiguous report from the U. S. foreign service in Canada was wrongly interpreted by the Dept. of Commerce. Actual number of TV sets shipped to Canada, according to the Radio-Television Mfrs. Assn.: 58,216 as of last July 31.]

* * *

EDITOR:

FRANK PELLEGRIN'S STATEMENT IN SEPT. 17 ISSUE IS BY FAR BEST I HAVE SEEN ON THIS VITAL SUBJECT [comparable research among all media]. BELIEVE COPIES SHOULD BE DISTRIBUTED TO EVERY BROADCASTING STATION IN THE COUNTRY AS WELL AS TO OTHER INTERESTED PARTIES. DO YOU KNOW OF ANY PLANS FOR SUCH DISTRIBUTION.

Lee B. Wailes
V. P. Chg. of Operations
Fort Industry Co.
Birmingham, Mich.

[EDITOR'S NOTE: Mr. Wailes may be assured that distribution has already been made. The Sept. 17 issue of BROADCASTING • TELECASTING, like every other issue, went to nearly 16,000 subscribers and carried Mr. Pellegrin's text in full.]

ROYAL REQUEST WGAC's Grant Visits King

HUGH G. GRANT, commenorator on WGAC Augusta, Ga., spent several days in Washington a fortnight ago renewing an old friendship with exiled King Zog of Albania. The king and Mr. Grant became close friends when Mr. Grant was U. S. Minister to Albania.

Mr. Grant left his microphone at the king's request to join him in the nation's capital for a few days.

Mr. Grant has been asked by Radio Free Europe to prepare broadcasts to be beamed to Albanians.

A. D. Willard Jr., WGAC president and general manager, obtained Mr. Grant's services in the station last January. Mr. Grant discusses national and international events nightly for WGAC. He is familiar with many foreign lands cropping up in the news and is able to give listeners a personal slant.

► **FIFTH** year of *Sunoco 3-Star Extra* news programs on NBC gets underway today (Monday) as nightly "newspaper of the air" continues under sponsorship of Sun Oil Co. In charge of news commentary, heard Monday through Friday at 6:45 p.m., are Albert L. Warner, foreign affairs editor; Ray Henle, editor-in-chief, and Ned Brooks, national affairs editor.

► Priscilla Fortescue celebrated her 10th anniversary of broadcasting over WEEI Boston Sept. 14. Most of the sponsors have been participating in her program during the entire decade. Miss Fortescue interviewed Mrs. Celia Wellman, mother of William Wellman, MGM director, who was Miss Fortescue's first guest 10 years ago.

► Elder Lightfoot Solomon Michaux, the Negro "Happy Am I" preacher, began the 21st year of his

Radio Church of God, Sept. 23. Elder Michaux began broadcasts of his church services in 1931 over WJSV (now WTOP) Washington. Program today is heard Sunday 7-8 a.m. on WTOP a CBS station, and 9:30-10 a.m. on MBS. On his anniversary broadcast, congratulatory messages were read from many notables, including Gen. and Mrs. Dwight D. Eisenhower.

► *The Railroad Hour* Oct. 1 begins its fourth year with a performance of Cole Porter's "Jubilee" starring Gordon MacRae and Dorothy Kirsten.

► Lowell Thomas, CBS newscaster, celebrated his 25th anniversary of broadcasting last Saturday by inviting James Melton and his ball team to play opposite his own team, known as "The Nine Old Men." Mr. Melton's team was composed of members of his Ford TV show, while the nine old men included: Ed Eagan, Gene Tunney, Lanny Ross, Ed Murrow, Henry J. Taylor and others. Mr. Thomas' newscasts, five times weekly on CBS are sponsored by P&G's Ivory Soap.

WCKY BIRTHDAY

Wilson Gives Awards

VETERAN broadcaster L. B. Wilson, president and general manager of WCKY Cincinnati, has set a policy of giving a \$1,000 U. S. Defense Bond to every staff member who serves the station 20 years.

The policy was initiated on the station's 22d birthday, Sept. 16, when Mr. Wilson presented three 20-year staff members with a \$1,000 bond each. Receiving the awards were Charles H. Topmiller, station manager; Mrs. Jeanette Heinze, traffic manager, and George H. Moore, sales manager.

Mr. Wilson obtained the original license for the station in 1929 and has been owner and operator for the past 22 years. In presenting the awards, Mr. Wilson reminisced about WCKY's early days and of many personalities and events in the broadcasting business. Mr. Wilson recalled that he bought the first schedule of double-truck ads in BROADCASTING shortly after the publication was established in 1931.

GAS EXPLOSIONS and resultant fires in Brighton, fashionable Rochester suburb, which blew up 16 homes and damaged 25 others Sept. 21, gave radio and video stations an opportunity for quick, complete coverage and public service.

Rochester stations meeting the challenge were WHAM-AM-TV, WHEC, WARC, WRNY, WSAY and WVET.

Immediately following the blast, all stations threw equipment and personnel into the disaster area to gather first-hand stories from the injured, those who had lost their homes, witnesses of the explosions and fires, plus interviews with utility men brought in to cope with the emergency. Bulletins calling for volunteers from defense, policemen and firemen were aired.

WARC suggested to listeners they offer shelter for the displaced. Three station employees were on the phone nearly an hour taking names of persons offering space.

Mrs. David E. Kessler, wife of the WHAM news director, who lives in the neighborhood, phoned the station within two minutes after the blast occurred. Five WHAM reporters, two photographers and engineers were on the scene within an hour and began feeding running accounts as houses blew up and caught afire in rapid succession.

WBN Buffalo monitored WHAM and relayed information to its listeners, it was reported. WSYR Syracuse had a direct line into WHAM and recorded WHAM news-

casts. WENY Elmira and WGY Schenectady by long-distance phone recorded eye-witness accounts of Jack Ross, WHAM night news editor.

WHAM fed a summary to NBC for use by Morgan Beatty on *News of the World*. By coincidence, Lou Keller, of United Press radio, was visiting WHAM when the story broke. Mr. Keller fed reports to New York from the WHAM news room.

WHEC, because of the emergency, was permitted to broadcast direct from the disaster scene using telephone facilities instead of a microphone.

Persons in the area were without power so battery-operated portables and automobile radios were pressed into service by those anxious to know what was happening and what they were to do next.

WRNY's news editor, W. Eccles Huff, fed on-the-spot announcements and bulletins to the station all afternoon, airing requests and instructions to persons in the stricken area to remain outside their homes and for outsiders to keep away from the scene.

WSAY discussed each demolished house with its owner and eye-witnesses. The station also broadcast emergency announcements.

The WVET newsroom sent a running story to United Press and the Mutual network newsrooms. It also sent eye-witness reports by telephone recording to MBS for newsreel programs and to WEBR Buffalo.

RELAXED!

"Batters' Platters" is the most relaxed listening anywhere! Charles is the genial maestro of a nightly session of discs, small talk and unusual notes. His time period is peak locality: 7:00 p.m. Monday through Friday. Batters seems offhand, but...

17 OUT OF 18 PREFER WDAY, FARGO!

According to an independent survey made by students at North Dakota Agricultural College, 17 out of 18 families within a 90-mile radius of Fargo prefer WDAY to any other station. 3,969 farm families in the rich Red River Valley were asked "To what radio station does your family listen most?" 78.6% said WDAY, with the next station getting only 4.4%!

Fargo-Moorhead Hoopers credit WDAY with much the same overwhelming

popularity "in town". Despite the fact that the other three major networks are represented with local studios, WDAY consistently gets a 3-to-1 greater Share of Audience than all other Fargo-Moorhead stations combined!

WDAY is one of America's great radio buys, serving one of America's great farm markets. Write direct or ask Free & Peters for all the facts on WDAY and the rich Red River Valley!

WDAY • NBC • 970 KILOCYCLES • 5000 WATTS

FREE & PETERS, Inc., Exclusive National Representatives

500 watts VHF (ERP range, 1/2 to 2 kw) This is a control-room set-up—complete with an RCA 500-watt transmitter, announce booth, and film facilities. The arrangement, and an RCA 5-bay Super Turnstile Antenna, provides up to 2 kw ERP*—gets you on the air for minimum outlay.

2 kw VHF (ERP range, 2 to 20 kw) Similar to 500-watt plant, but uses an RCA 2-kw transmitter. The ideal set-up for getting up to 20 kw (ERP) for a small investment. "In line" racks at left of control console are: monitoring, audio, and video equipments, sync generator, and power supplies.

"Tailored" transmitter plants

50 kw VHF (ERP range, 50 to 200 kw) Block "U" set-up for RCA's "50-kw." This arrangement is well suited for local building situations—or where physical limitations call for an antenna of medium gain and high ERP. Note film camera control and preview monitor next to operator for his convenience.

1 kw UHF (ERP range, 1 to 20 kw) For areas where UHF channels will be assigned, the "1 kw" and UHF antenna make it practical to start with a minimum investment. It offers interesting possibilities for areas up to 150,000 people—could prove popular in communities up to 1 million. Note network, film projection spots, station break facilities.

10 kw VHF (ERP range, 10 to 100 kw) Using a "10-kw" and a high-gain antenna, this plant provides up to 100 kw, ERP. It includes film facilities for breaks and spots during network shows. Stations of this class and larger usually have studio facilities, along with program switching equipment (not shown).

20 kw VHF (ERP range, 20 to 200 kw) For the new TV station that wants to start right in with maximum power, using a "20-kw" and an RCA 12-section Super Turnstile antenna. The transmitter, arranged "in line," can also be set up in a block "U" arrangement like the "50 kw" shown below.

...for any TV power up to 200kw!

10-kw UHF (ERP range, 10 to 200 kw) Using an RCA "10-kw UHF" type TTU-10A and a TFU-24B high-gain antenna, this set-up offers the next logical step above the "1-kw" range. Or, you can start with 1 kw now—and increase power later simply by adding RCA matching amplifiers and associated equipment.

These models represent seven typical TV transmitter room arrangements for various power classes—from 500 watts to 200 kw, ERP*. They include the film equipment required for spot, station breaks, and network operation. They show the basic or minimum facilities you need to go "on the air" for a given power. The set-ups are worked out in accordance with tried-and-proved operating procedure and provide a handy means for estimating your space requirements. There is ample leeway to meet the particular needs of every station.

Your RCA Broadcast Sales Representative is ready to give you planning help like this—throughout your station! By all means, call him.

KWKH 41.6

"B" 26.8

1951

KWKH 45.3

"B" 21.3

THIS chart shows that KWKH led the Weekday-Afternoon Shreveport Hooper parade for March and April of 1949, 1950 and 1951!

Yes, and look at the margin of superiority. In 1949 KWKH got 6.7% more listeners than our nearest competition. By 1950 we were getting 55.2% more listeners. In 1951 we were 112.7% ahead of Station "B"—or fifteen times as great a "plurality" as in 1949!

But KWKH is 50,000 watts—gets 89% of its listeners outside Shreveport. BMB Report No. 2 gives KWKH a Daytime Audience of 303,230 families in 87 Louisiana, Arkansas and Texas counties. 64% of these families listen to KWKH "6 or 7 days weekly"!

What other facts would you like? Your Branham representative has them!

NBC 'RE-EVALUATION'

A REAPPRAISAL of the network rates of NBC Radio affiliates, followed by "appropriate adjustments," loomed as a possibility last week as the network's Basic Economic Committee convened to review what is described as the first fundamental re-evaluation of radio in a quarter-century [BROADCASTING • TELECASTING, Sept. 24].

Some affiliates' rates would be adjusted upward, some downward, some not at all if the plan is put into effect, it was reliably predicted on the basis of early developments in the meeting, the committee's third.

Although the formula for adjustments was not revealed—and indeed apparently was yet to be fully determined as BROADCASTING • TELECASTING went to press—the plan which appeared most likely in the Thursday and Friday sessions was reported to use radio coverage rather than so-called TV inroads as a primary base, with TV among other factors to be taken into consideration "further down the line."

Some affiliate representatives who have become conversant with the plan said they did not expect loud repercussions such as occurred, for example, when NBC vainly undertook to force evening rate reductions upon radio affiliates in TV markets.

Some Boosts Seen

These executives expressed the view that some affiliates' network rates would be boosted, evening as well as daytime, but there was no public indication of what percentage would fall into this favored class.

It was not felt, as of Friday, that any change would be recommended in the formula by which the network compensates affiliates for carrying network programs.

It was emphasized that the rate development was only a part of the network's and its committee's re-appraisal of the radio picture, which is slated to be presented to NBC's Stations Planning and Advisory Committee this week.

The fluid state of the study, insofar as final conclusions and proposals are concerned, was indicated by a high network official when he said the economic committee's sessions probably would continue

over the weekend and that he doubted the final draft could be whipped into shape for presentation to SPAC before Tuesday.

The SPAC meeting opens today and probably will extend through Thursday, it was indicated—another sign of the magnitude of the project.

Both network officials and affiliates' representatives on the economic committee are keeping rigid silence on the details of the study, patently determined to unveil it first to SPAC and then to affiliates generally. The possibility of some public statement by the network following SPAC's session was foreseen, however.

The study, by NBC's own state-

ments, is far-ranging. Among the subjects which have been specified are sales policies and methods, network operations and programming, in addition to the rate question.

It is also known that NBC, not alone among the networks, feels that radio must conform to changing times.

William S. Hedges, NBC vice president in charge of integrated services, voiced such views in a speech 10 days ago when he told a BMI program clinic at Rochester that "there can be no doubt that broadcasting is undergoing a revolution" and that "radio must learn to roll with the punches and to become flexible and adaptable if it is to have a prosperous future"

[BROADCASTING • TELECASTING, Sept. 24].

He also said:

"The point I want to leave with you is that in changing times such as these, network radio cannot be frozen to old patterns of operations which were developed in a different advertising era. It must gear itself to new types of opportunities not only for its own preservation but for the preservation of other forms of broadcasting which are dependent on it."

Unless broadcasters reckon with the "significant changes" which are taking place "in the economic conditions affecting radio," Mr. Hedges said, these changes "can prove fatal."

SPAC May Get Study Tuesday

BILL OF RIGHTS

Covers Radio, Court Holds

THE NATION'S COURTS last week recognized for the first time that 41 million American homes depend on radio as a basic source of news.

Thirty years after the birth of commercial broadcasting, an arm of the judiciary—the New Jersey Superior Court—handed down a decision recognizing radio's parallel position with the press as a primary, and certainly the fastest means of reporting current history.

Coming on the eve of the 162d anniversary of the Constitution's Bill of Rights, the decision was the first to establish radio's right to report a governmental proceeding.

The unprecedented decision put into an official court order the claim made unsuccessfully for decades by broadcasters themselves—that the Bill of Rights provisions protecting freedom of speech and the press also apply to broadcasting, a mechanical development the writers of the Constitution could not foresee.

In holding that the Asbury Park (N. J.) city council had violated freedom of the press by refusing to allow broadcast of a tax hearing, the court applied federal and state constitutional protection to broadcasting, and to television by inference.

Judge C. Thomas Schettino,

working without precedent to guide him in a situation requiring immediate action, handed down his historic ruling after hearing *Asbury Park Press* and its affiliated station, WJLK, challenge the council's denial of broadcast privileges as a denial of constitutional rights.

His decision, handed down late Monday, quickly aroused nationwide interest and brought many letters and telegrams of congratulation to Ernest Lass, general manager of *Asbury Park Press*, and Thomas B. McTigue, station manager. Among them were messages from NARTB Board Chairman Justin Miller, New Jersey Assn. of Broadcasters and National Assn. of Radio News Directors.

Radio News

In essence Judge Schettino held that radio news broadcasting comes within the basic meaning of the press under the Bill of Rights.

The cause of action developed when the council called a Sept. 25 hearing on an ordinance imposing up to 3% luxury tax on lodging, amusements and beverages sold over a bar. This type of tax was authorized several years ago by the state as an aid to resort cities.

Asbury Park Press had favored the tax in its columns. The station had broadcast tax programs be-

cause of intense local interest in the subject.

The Tuesday afternoon hearing pickup was the first ever attempted by WJLK from the council chamber. By hearing time most of the council members and city officials had abandoned their hostility to the broadcast.

When the council hearing opened Tuesday afternoon, Mayor George A. Smock II awaited the on-the-air signal from Tom Birchhead, WJLK news director, and Frank Huber, chief engineer, seated in a corner. Abraham Frankel, city attorney, had asked station personnel not to run around the room asking names.

Two desk mikes were used, with one in the aisle. These picked up the entire proceedings. About 35 persons attended the hearing. WJLK reported most of the city tuned into the hearing broadcast. The hearing lasted a little over two hours.

The council voted 4-0 to adopt the tax resolution, which goes to a general election Nov. 6.

Legal forces were set in motion Sept. 21 when the *Asbury Park Press* and WJLK along with John J. McKeon Sr., local grocer acting as a citizen and taxpayer, asked the court to direct the city to show cause why the broadcast should not be permitted.

At the Monday argument in Free-

(Continued on page 32)

ANA SPOTLIGHT

Now Turns on Magazines

TELEVISION—despite the advertising history it has made during the past year—received what many delegates considered surprisingly little attention at the annual meeting of the Assn. of National Advertisers' annual meeting in New York's Plaza Hotel from Monday through Wednesday last week.

Instead of raising a clamor about radio, as the group sometimes did in the past, the association heard a call for more explicit research on magazines.

Major event for broadcasters occurred during the closed business session Monday when Paul B. West, president, issued an expected but unscheduled statement concerning controversial ANA reports on television's effects on radio listening.

At the same closed session, Wesley I. Nunn, advertising manager for Standard Oil Co. of Indiana, was elected chairman of the board of directors to succeed Albert Brown, vice president of advertising and public relations for Best Foods Inc., who automatically becomes a director for the next year. Mr. West, who has served as ANA president since 1932, was reelected to that office, and J. Ward Maurer, director of advertising for the Wildroot Co., was named vice chairman of the board. New officers will serve a one-year term.

Election of Directors

Directors, elected for three years, include William H. Collins, Dravo Corp.; E. G. Gerbic, Johnson & Johnson; David W. Tibbott, New England Mutual Life Insurance Co.; A. S. Dempewolf, Celanese Corp. of America; Paul Willis, Carnation Co. B. R. Donaldson of Ford Motor Co. was re-elected for one year.

Other major events included a forecast that 1952 advertising budgets will approximate the 1951 level, a report on planning TV commercials, an explanation of the Ford Foundation's TV workshop, announcement of reorganization by Advertising Research Foundation, and a speech on communist propaganda techniques by CBS's Dick Hottel.

Andrew Heiskell, publisher of *Life* magazine, addressing the 450 delegates from 250 companies at the opening session Monday, asked, "Is reading obsolete?"

Answering the question, he said all new media are complementary rather than mutually exclusive.

Horace S. Schwerin, president of the Schwerin Research Corp., told the group "there is a staggering amount of waste in the field of TV commercials . . . most of it avoidable." His topic was "How to Increase the Efficiency of TV Commercials."

In planning a commercial, he advised that objectives be defined by considering (1) what brand name should be remembered, (2) what major ideas viewers should associate with each name, (3) which ideas should be believed, (4) what

dominant over-all impression should be left with the viewer.

Robert Saudak, director of TV and radio for the Ford Foundation, explained the Foundation's TV workshop, operating on a \$1,200,000 grant [BROADCASTING • TELECASTING, Aug. 20]. Stating his belief that "the two dynamic forces of business and government" deserve encouragement when they are working together, he explained that the workshop was a practical way to solve problems.

Programs dealing with one or more of the Foundation's five areas will be filmed in advance and offered for commercial sponsorship on a non-profit basis.

Besides the 26-week radio series scheduled to start on CBS Radio in November, the group plans three separate half-hour TV series of 13 shows each.

Reporting on a survey of members' opinions on available magazine research, Henry Schachte, chairman of the magazine committee, confirmed "the long-felt need" for more and better magazine research.

A survey—with 153 answers from the 300 companies in the magazine group—showed that only 1% considered present information, supplied by publishers themselves, as "very reliable"; 67% found

Mr. NUNN

magazines' self-analyses "fairly reliable," 28% found them sometimes reliable and the remaining 4% thought them generally unreliable.

The needs in magazine research were cited as: (1) To find the total people a magazine reaches, (2) to find how many people—unduplicated—a combination of two or more publications meet, (3) to measure duplication for use in concentrated coverage, and (4) to find the basic characteristics of the audience of each magazine.

Reorganization of Advertising Research Foundation, New York, to allow membership for and participation by advertisers, agencies, and media, was revealed Wednesday by H. M. Warren, chairman.

The organization has expanded its cooperative research facilities so it can perform five major functions: (1) To supervise conduct of research studies of general subscriber interest, (2) to review and appraise media research reports for subscribers, (3) to offer general advisory facilities to media subscribers, (4) to continue super-

"Gentlemen, I have sad news. Radio is very much alive!"

WEST ANSWERS Says No Pressure on Radio Rates

DENYING that the ANA had taken any action that could "properly" be construed as advertiser pressure on radio rates, Association President Paul B. West issued a statement at a closed ANA business session Monday to explain the controversial three reports about the "Impact of Television on Radio

Mr. West, Listening

[BROADCASTING • TELECASTING, Sept. 10].

Opinion that nighttime rates would require adjustment if advertisers were to continue to use radio was expressed individually by radio-using ANA members, polled

as they had been in past surveys, Mr. West said. Their answers also confirmed the radio and television committee's judgment, he added, that there was need for data on listening trends.

The reports were inaugurated, Mr. West explained, after thorough consideration by the Radio and TV Steering Committee, in line with the association's traditional practice of supplying members with information on significant trends. The association had previously issued circulation and cost studies of other media, including the recent magazine studies, report on business publications, and analysis of local and national newspaper rates, he pointed out. "The ANA," Mr. West affirmed, "is no less interested in the effect of television on the advertising audiences of maga-

zines and newspapers, for example, than on those of radio. Evidence bearing on these trends has been called to [members'] attention . . . as it became available."

Use of the studies, Mr. West reiterated, is left entirely to member companies. The committee acknowledged that it had no legitimate concern with negotiations on radio rates, he explained, when it stated in the first report, "no individual advertiser or trade group should attempt to dictate to the radio stations and networks a formula for pricing radio time." ANA Vice President and General Counsel I. W. Digges, followed and approved the legality as well as the business justification of this service at every stage, he added.

Construction of the report was (Continued on page 113)

IMPACT!

EACH WEEK ADULTS IN 3500 SAMPLE HOMES SPEND . . .

- 164,200 Hours Hearing Radio
- 87,600 Hours Seeing Television
- 55,200 Hours Reading Newspapers

By DR. RAYMOND A. KEMPER
RAYMOND A. KEMPER ASSOCIATES

MORE people are listening to radio over more sets in more Louisville-market homes and automobiles, than ever before. And, in terms of comparative circulation, Louisville radio still leads its closest competing media by wide margins.

These conclusions are clearly drawn from the results of a market-area research, recently completed by Raymond A. Kemper Associates, which involved comprehensive personal interviews with the adult heads of 3,500 urban, town and farm families within the 60-miles-of-Louisville area.

When the statistical results were projected to cover the total population of approximately 313,700 families presently in the market-area, we found:

549,000 in-the-home radio sets
306,800 homes with one, or more, in-the-home radio sets
150,000 homes with more than one in-the-home radio sets
128,300 radio-equipped automobiles and trucks
132,700 homes with radio sets in adult's bedrooms
104,200 homes with radio sets in kitchens
25,700 homes with radio sets in children's bedrooms
309,900 radio sets in rooms (and cars) where newspaper and magazine reading is improbable
460,200 radio sets in rooms (and cars) where television is impossible
15,575,600 adult-hours of radio listening during the 7-day week

Though the research was sponsored by WAVE, local NBC affiliate, we were not interested in conducting a mere inter-station "popularity contest." We were not out to "prove" anything! Our client needed facts—circulation facts, program-interest and program-preference facts, facts about the audience attitudes toward present-day radio practices and policies, and so on—to guide in the formulation of future operational plans.

Interviewing, which was completed between June 1 and June 17 of this year, was restricted to a single adult respondent from each of the 3500 households in the sample. Only adult respondents were interviewed and, wherever possible, the male head of the family was contacted. The 30 male and female college-student interviewers (all of them paid members of our research staff) are thoroughly trained researchers with considerable survey experience.

The respondent was given no positive indication of the specific nature of the study, nor was he told the name of the sponsor. The comprehensive question - schedule (which included questions relating to newspapers, magazines and tele-

HERE'S COMPARABLE RESEARCH that shows how radio, newspapers, magazines fare in a television area. No matter how you juggle the figures of this independently conducted survey of the Louisville market, you can't escape these facts:

RADIO IS BIG. It's installed in 98% of all homes while newspapers reach 95%, magazines, 78%; and television, 37%.

RADIO IS ACCESSIBLE. It goes where other media don't. Some 66.1% of all radio sets are in places where no TV receivers are available, and 44.5% of all radio sets operate in places newspapers and magazines are not commonly read.

RADIO COMMANDS ATTENTION. Adults spend more time listening to radio than to watching television and reading newspapers combined.

vision, as well as radio) was so designed as to de-emphasize the specific-research purpose.

Obviously, many aspects of the comprehensive body of data collected in the course of the research are of specific interest to the sponsor alone, and are not published here. Certain of the findings, however, may be of interest to other broadcasters.

In general, we found that radio still gives the Louisville-market merchandiser much more mileage for his advertising dollar than had been generally supposed. For example, in each 1000-household segment of the Louisville market there are about:

1,750 in-the-home radio sets;
978 homes with one, or more, in-the-home sets;
478 homes with more than one in-the-home sets;
409 radio-equipped cars and trucks;
423 homes with sets in adult's bedrooms;
332 homes with sets in kitchens;
82 homes with sets in children's bedrooms;
988 radio sets in rooms and places where newspaper and magazine reading is improbable;
1,467 radio sets in rooms and places where television is impossible;
47,970 adult-hours spent in radio listening during a typical 7-day week!

Specifically, we needed answers to questions such as these:

What is radio's circulation in today's Louisville - market? How many market homes and automobiles are radio-equipped? With how many radio sets? Just how much time are Louisville-market adults now spending listening to radio?

Circulation-wise, how are radio's competitors faring in this market?

What is radio's future in this market, and how may programming best be "tailored" to fit that future?

The 3500-household "probability sample"—selected from 128 urban, town and farm "sampling areas"—

was designed to truly represent the total population of families living within the 60-miles-of-Louisville territory.

To select the proportional farm-family segment of the sample, we first subdivided an up-to-date detailed map of the area by plotting three concentric circles at 15-, 30-, and 60-mile intervals from the center of urban Louisville. In turn, these circular segments were fractionated into quadrants, and 36 "sampling areas"—three from each of the 12 territorial segments—were selected. In each of these smaller sampling areas, a proportional number of *bona fide* farms

* * *

AUTHOR of radio and television stations' surveys, Dr. Raymond A. Kemper has been active initiating and carrying through a variety of market research and public opinion surveys in Louisville since 1948. Dr. Kemper is professor of industrial psychology at the U. of Louisville and holds directorship of the institution's Psychological Services Center. Early this year, he formed his own public relations and market research organization.

were randomly selected.

Proportional numbers of households were chosen, at random, from each of the 52 small towns and villages in the surveyed area. The urban households were chosen, at random, from 40 neighborhood sampling areas—proportional to the socio-economic and racial distributions in the population—of urban Louisville, Jeffersonville (Ind.), New Albany (Ind.), Indian Hills (Ky.), St. Matthews (Ky.) and Audubon Park (Ky.).

Practically everyone in the Louisville market is reached by radio!

Of the 3500 households in our sample, 97.8% have one or more in-the-home radio sets. We found:

98.3% of the URBAN homes are radio-equipped.
97.3% of the TOWN homes are radio-equipped.
96.1% of the FARM homes are radio-equipped.

And supplementing this comprehensive in-the-home coverage, we found that 40.9% of the market families have at least one radio-equipped car or truck. Urban families, though they average fewer cars, have a higher proportion of their vehicles equipped with radio receivers. This analysis shows:

44% of the URBAN families have radio-equipped cars.
36% of the TOWN families have radio-equipped cars.
37% of the FARM families have radio-equipped cars.

We wanted to know, as a matter of course, something of the comparable reach of the three major contenders for radio's title—newspapers, nationally-circulated magazines and television.

Of the 3500 households in the sample,

98% have one or more RADIO sets in their homes.

95% regularly receive one or more NEWSPAPERS.

78% regularly receive one or more MAGAZINES.

37% have TELEVISION sets.

When we considered the results in terms of the types of families, we found that the proportions-of-homes-reached was lower among TOWN and FARM households—lower, that is, except in the case of radio!

% OF URBAN HOMES REACHED BY VARIOUS MEDIA

Radio	98.3%
Newspapers	98.2%
Magazines	84.7%
Television	47.3%

% OF TOWN HOMES REACHED

Radio	97.3%

AUG. NETWORK GROSS DOWN 6% Due to Rate Cuts

EFFECT of the rate cuts for national radio network time introduced in July by CBS and NBC is evident in the table of gross time sales for August and January-August, this year and last, of the four nationwide networks released by Publishers Information Bureau for publication today (Monday). Combined network total for August 1951 is 6% below that for August 1950, while the eight-month combined gross for this year is down only 2.2% from the 1950 level.

Individually, CBS gross time sales in August of this year were off 4.1% from August 1950 and NBC suffered a decline of 16.6% ABC and MBS reductions were made as discounts on net and not cuts in gross billings and therefore are not reflected in the PIB figures (see explanation below).

ABC for August shows a decline of 2.2% from August of last year while Mutual shows an increase of 22%. PIB breakdown is shown in Table I.

Gross time sales for the previous seven months, January through July, were also tabulated by PIB (Table II):

Rate reductions put into effect July 1 by NBC and CBS—added to the normal let-down in radio

TABLE I
NETWORK RADIO

	Aug. 1951	Aug. 1950
ABC	\$ 2,210,352	\$ 2,250,244
CBS	4,455,528	4,644,066
MBS	1,329,375	1,090,222
NBC	3,808,906	4,566,293
Total	\$11,804,161	\$12,558,825
	Jan.-Aug. 1951	Jan.-Aug. 1950
ABC	\$ 21,870,502	\$ 23,999,013
CBS	48,106,005	47,218,878

ZIV SHOWS IN N.Y.

WNBC Buys Four

SALE of exclusive New York rights to the Frederic W. Ziv Co.'s top four transcribed radio packages to NBC's WNBC New York was announced last week by the Ziv company.

The four properties are *Bright Star*, featuring Irene Dunne and Fred MacMurray; *Bold Venture*, with Humphrey Bogart and Lauren Bacall; *Favorite Story*, with Ronald Colman and *Guy Lombard Show*. The contracts are for 52 weeks.

Ted Cott, WNBC general manager, said acquisition of the four packages represents an important forward step in WNBC's development and makes top-budgeted shows available to local advertisers at "realistic prices."

Bold Venture already has been re-sold by WNBC to Omnyl Pharmaceutical Co.'s Nu-Pax, to start Oct. 21 (see story page 44).

Negotiations for the properties were conducted by Mr. Cott for WNBC and by vice president Herbert Gordon for Ziv.

Strietmann Biscuit Co. of Cincinnati, subsidiary of United Biscuit Co. of America, has signed for 52 weeks of *Bright Star*. Firm will sponsor the Irene Dunne-Fred MacMurray series over WWNC, Asheville, N. C.; WHIS Bluefield, N. C.; WMFD Wilmington, N. C.; WDBJ Roanoke, Va.; and WWOX Lynchburg, Va.

NEW HALF-HOUR Ziv series, *Bright Star*, is sold by R. Main Morris (c), assistant manager, KLZ Denver, to the Central Bank & Trust Co. of that city for Monday night airing. Curt Freiburger (l), head of Denver agency bearing his name which handles the bank account, examines promotion material with Max Brooks (r), bank vice president.

SARNOFF LOOKS AHEAD On 45th Radio Year

BRIG. GEN. DAVID SARNOFF, RCA board chairman, last Thursday celebrated his completion of 45 years in radio by asking RCA research scientists to make three new inventions before his 50th radio anniversary five years hence.

Praising their past achievements, Gen. Sarnoff called on the scientists to invent an electronic amplifier for light for television, a television picture recorder and an electronic air-conditioner for home use.

This three-fold challenge was delivered following a luncheon in Gen. Sarnoff's honor held at the RCA Labs in Princeton, which were officially re-named the "David Sarnoff Research Center" at that time. A bronze plaque was presented by Gano Dunn, president, J. G. White Engineering Corp., and an RCA director. Plaque's inscription reads:

"Commemorating the 45th anniversary of David Sarnoff's entry into the field of radio on Sept. 30, 1906, this plaque is dedicated by his associates in the Radio Corp. of America as a symbol of their esteem and admiration.

"As a pioneer of wireless, he has contributed immeasurably to the development of radio, television and electronics as new services to the nation and to the American people.

"A creative crusader of progress endowed with a penetrating vision, David Sarnoff has continually led the way across new frontiers in science, art and industry to make the universe vibrant with international communications.

"These laboratories, the RCA Victor plants, the RCA world-wide radio circuits and the NBC radio-television networks, symbolize his faith in science, his constructive planning and enduring achievements.

"David Sarnoff's work, leadership and genius comprise radio's preeminent record of the past, television's brilliant performance of the present, and a rich legacy in communications for the future."

In asking RCA's research scientists for the three new inventions, Gen. Sarnoff said that he was fully aware of the challenge to their ingenuity, "but I know that you can solve the problems because you have an enviable record of accomplishment in science."

The electronic amplifier of light, which would provide brighter, clearer projected pictures for both home and theatre TV, giving a "big-looker" to television comparable to radio's "loud-speaker," was titled "Magnalux" by Gen. Sarnoff.

"A true photo-amplifier that could produce bigger and brighter pictures in fine detail would greatly advance television in the home," he said. "It is also needed for theatres and industrial purposes. The presently known optical systems cannot accomplish it. We can, of course, enlarge pictures optically, but in the process light is lost and

the pictures became dimmer instead of brighter. What is needed is a true amplifier of light itself."

The second Sarnoff request, for a "Videograph" which would record TV's picture signals on an inexpensive tape in the same way that sound is now recorded on discs or tape, would provide a permanent record for reproduction at any time and place.

"The television art needs an electronic recorder of television picture signals," Gen. Sarnoff stated. "Today, when a television program is recorded, the pictures pass from the camera through the major portion of the television system and first reproduce the picture on the face of a kinescope. Another and

special camera placed in front of the kinescope photographs the program on motion picture film. But that technique is costly, time-consuming and limited. The pictures pass through all the possible hazards of the television system and then through all the photographic process with its possible degradations. As a result, the recorded picture suffers in quality.

"In contrast with present kinescopic recordings on film," Gen. Sarnoff pointed out, "the instantaneous recording of the actual television picture signals on tape would be more economical, would save time in processing and would simplify certain problems of dis-

Gen. SARNOFF

America's Leaders Salute Gen. Sarnoff

Congratulations on your 45 years of great achievements in the field of radio, television and electronics. Through your leadership in American industrial life and in science you have contributed immensely to the growth of America and its preeminence in communications. It is most fitting therefore that RCA Laboratories at Princeton be named the David Sarnoff Research Center and I extend to you and your staff of scientists my warm wishes for continued progress.

Harry S. Truman
President of the United States.

I have just learned that on Thursday you will celebrate the 45th anniversary on your entrance into the radio industry. My heartfelt congratulations to you.

Throughout your years of service you have been a vital and imaginative force in the development and expansion of radio. Under your leadership and genius radio has grown from a very small beginning until today it serves as an integral part of our daily lives bringing to all of us the best in entertainment, public service and the tremendous news events of these times. May your anniversary be a very happy one indeed and may you continue to guide RCA for many years to come.

Thomas E. Dewey
Governor of State of New York.

Other messages were received from Frank B. Folsom, RCA president, now on a visit to Rome; Owen D. Young, first chairman of the Board of RCA; John T. Cahill, RCA director and general counsel, who was in Washington appearing before the Senate Judiciary Committee on the nomination of Frieda B. Hennock, FCC Commissioner, to a Federal District Court Judgeship in New York.

DEFENSE ADS

AMERICAN advertising media — and particularly radio and television—last week stood before the bar of Congressional opinion on the issue of funds for military recruiting activities.

The controversy joined a fortnight of Senatorial onslaughts on the wisdom of allowing the Dept. of Defense adequate monies to finance radio, TV and other media activities for the new fiscal year, which began last July 1.

Leading the attack was Sen. Joseph O'Mahoney (D-Wyo.), who protested the expenditure of nearly \$1 million for three network ra-

dio programs slated to get under way this month. He planned to urge outright cuts in radio funds when the matter comes before a joint Senate-House conference committee momentarily.

Spokesmen for both the Army and Air Force indicated, however, that both branches would proceed with their network radio plans in pursuit of a "vigorous recruitment program through voluntary means already authorized by Congress."

The view of the military traditionally has been that it would siph paid funds to those media which cooperate to the greatest ex-

tribution. Also, it would solve the national time-zone problem in telecasting. Any number of copies of such tapes could be made instantaneously and copies could be preserved for historic reference or other use."

The "Electronair," final request of the RCA chairman, was envisaged as a small, inexpensive home air conditioner that would fit any room and would operate noiselessly, without moving parts, by tubes or possibly through the action of electrons in solids.

Noting recent applications of the discovery that electrons will work in cold solids as well as in heated vacuum tubes, Gen. Sarnoff said: "Electrons in solids offer tremendous possibilities and I bid you harness them to work in 'solid comfort' instead of subjecting them to red hot heat. Indeed, cold electrons are a great challenge, the promise of which is already manifested in tiny transistors, now being developed for use as detectors and amplifiers in radio, wire and cable communications.

"You have succeeded in throwing away the spinning wheels in television," he declared, "and I am sure that you will also succeed in discarding the wheels and noise in air-conditioners."

O'Mahoney Protests Funds

tent in offering free time or space. Furthermore, spokesmen pointed out, the military has received "good returns" from money spent thus far on radio-TV.

Sen. O'Mahoney's concerted move the past two weeks, born of a sudden inclination for economy, is directed primarily at radio and television. Allowing these funds, he told BROADCASTING • TELECASTING, would "not be an effective and efficient way of spending the taxpayers' money."

With respect to other media funds, the Senator said he would (Continued on page 36)

EXCESS PROFITS Tax Relief Defended By Senate Group

PROPOSERS of excess profits tax "relief," backed up by radio and TV-conscious legislators, survived a series of Senate line bucks by administration stalwarts last week.

If the defending bloc can continue to withstand any last-minute attempts to get a higher tax rate and to knock out relief, broadcasters can hope the revenue bill will not be too cut-up in joint Senate-House conference.

The key bout for those who supported the relief formula, as reported by the Senate Finance Committee [BROADCASTING • TELECASTING, Sept. 24, 17], occurred last Tuesday. A faction led by Sen. Joseph C. O'Mahoney (D-Wyo.) failed that day in attempts to throw out a series of relief provisions for new businesses and others hit hardest by the Excess Profits Tax Act.

One of these provisions is a new relief formula written into the proposed revenue act by the Senate committee.

This section would permit radio-TV broadcasters to use their own earnings or the industry rate of return for computing their tax. The longer established broadcaster would benefit from the first method—that of using his firm's own earnings as a base.

The model bill (S 1861) that served as the basis for the committee's action was offered by Sen. J. Allen Frear (D-Del.) [BROADCASTING • TELECASTING, Aug. 6, July 30, 23].

Humphrey's Support

Unexpected support for the radio-TV industry came from an administration stalwart, Sen. Hubert H. Humphrey (D-Minn.), and repeated critic of the Senate Finance Committee bill.

Sen. Humphrey came to the industry's defense during debate Sept. 21. Pointing out the television industry "did not really get started until within the past three or four years," the Senator said:

"In that area I would surely recognize that one would have to adjust the base . . . because of its limited experience with the economic market."

He then outlined the "two favorable alternatives in computing its average earnings credit"—apply to the total radio-TV assets the radio assets alone or apply an industry rate of return alone on total of all assets.

Vote in the Senate defeating Sen. O'Mahoney's move to chuck out relief provisions was a steamrolling 70-to-15.

Co-captains of the defending forces were Sens. Walter F. George (D-Ga.), chairman of the finance group, and Eugene D. Millikin (R-Col.).

Sen. O'Mahoney shared the spotlight for the administration group, which tried to boost the \$5½ billion revenue measure closer to President Truman's request for a \$10 billion tax program, with Sens. Paul H. Douglas (D-Ill.) and Herbert H. Lehman (D-N.Y.).

During debate, Sen. O'Mahoney said the country seemed to be get-

ting concerned about growing companies "which can charge \$735 a minute." Sen. Millikin answered in part that television broadcasters are making money, "but they did not make money during the base years (1946-1949 inclusive)."

Man who helped prod action on excess profits relief for TV broadcasters in Senate is Sen. Frear (l), who talks about his model bill with Bob Kelly, his administrative assistant.

To bolster his argument that the television industry does not need relief, Sen. O'Mahoney produced an article, "Fabulous Upswing in TV Billings," which appeared in the Sept. 8 TV Digest. The article described the climb of gross sales among TV stations.

1897 Jack M. Draughon 1951

JACK M. DRAUGHON, manager and co-owner of WSIX-AM-FM Nashville, died Thursday morning after an extended illness. He was 54 years old and he had suffered two years from a heart affliction.

Mr. Draughon entered broadcasting over two decades ago with his younger brother, Louis. He was a nationally-known industry figure and had taken an active part in many of radio's important events.

The Draughons started WSIX in 1927 at Springfield, Tenn., about 25 miles from Nashville, as a sideline to their oil and tire business interests. They moved the local outlet to Nashville in 1937 and received a regional grant, 5 kw 980 kc, in 1941.

Jack Draughon had been confined to his bed much of the time since the summer of 1949, but had remained active in management of WSIX until recently. He lived on one of the Draughon farm properties outside Springfield. Before becoming bedfast he had commuted to the station in Nashville.

The Draughons had applied for TV some years ago but their application was caught in the FCC

Sen. Millikin summed up the TV broadcasters' plight, saying the question was "how to provide some kind of a constructive base to take care of that business and other new businesses which had no fair base period against which to relate their so-called excess profits."

Summary of the TV industry position was given on the Senate floor by Sen. George. He said it was "indisputable" that pioneering companies "suffered heavy losses" during the years 1946 through 1949.

"The fact that these losses would be suffered was clearly envisioned by these companies, but they had courage and foresight to see that television broadcasting would eventually become a profitable business," he said.

Radio Income

The Senator said now that the business is profitable, "these companies find that they not only have no normal earnings credit . . . but even their normal base period income from radio broadcasting . . . during the base period has been reduced below the normal level by the base period television broadcasting losses."

Sen. O'Mahoney showed the Senate, in opening debate Sept. 21 on tax-relief provisions, a letter from the Treasury Dept. that attacked these sections. However, Sen. George reminded the Wyoming Senator that "Mr. Lynch does not make the policies of the Treasury Dept." (The letter was signed by Thomas J. Lynch, the Treasury's general counsel.)

It was predicted that with a tax speed-up in the Senate, the bill may go to joint Senate-House conference sometime this week.

Mr. DRAUGHON

freeze. Louis Draughon has been in active charge of the station since his brother's condition became acute.

Funeral services were held Friday afternoon from the First Methodist Church of Springfield. Surviving are his widow, Nancy, and a daughter, Jacqueline.

CITRUS BUDGET

Radio-TV Portion Doubled

RADIO-TV budget of the Florida Citrus Commission for the citrus season just getting under way will be more than doubled, it was learned last week.

Figures were to be released generally in a radio interview yesterday between Ralph Henry, acting advertising manager for the citrus commission, and Jack Forsheew, Lakeland, Fla., manager for J. Walter Thompson Co., commission agency.

The agency will place \$2 million in consumer advertising during the upcoming season. Of this \$585,000 is to be spent in radio and television as compared to \$213,000 last year.

Local radio spots will be used on 43 stations in 32 markets. Video spots and participation shows will be used on 25 stations in 17 markets. All the markets are in the northeastern and north central sections of the country.

Interview between Messrs. Forsheew and Henry was to take place during a 15-minute weekly public service feature entitled, *Citrus Mutual Calling*. The program was carried over 12 Florida radio stations in the citrus belt.

TV Demonstration

"We've found this year that TV particularly gives us an opportunity to do something with Florida citrus that makes a natural sale, we feel, and that is the ability of TV to take the product into the home and show a demonstration of the product in use," Mr. Forsheew said.

"That's been a very costly operation with actual people before," he explained. "Now with TV we have the opportunity to do it. And all three citrus products lend themselves very well to have these home economists, who have their following in how to prepare tonight's meal or tomorrow's meal, do a wonderful job in showing them how to prepare citrus in many delightful dishes."

COCA-COLA ADDS

Also Considers TV

COCA-COLA Co., New York, through D'Arcy Adv. Co., New York, will sponsor an additional radio show and is contemplating adding another TV program to its present radio and TV schedule.

The new program in radio will feature Mario Lanza (summer replacement on the *Edgar Bergen show*) on Monday, 10-10:30 p.m., on NBC Radio. Coca-Cola also will retain the *Edgar Bergen-Charlie McCarthy Show* on CBS Radio, Sunday, 8-8:30 p.m.

This week a kinescope will be made of the Andre Kostelanetz program and a decision is expected within a fortnight as to whether the soft drink firm will underwrite the show.

NEWS 'SECURITY'

Curbs Ordered by President

RULES governing release of security information by all government departments, agencies and employees, handed down Tuesday by President Truman, quickly drew protest from news media on the ground that censorship would develop.

President Truman explained the action standardizes the classification system now used in the Defense and State Depts. He cautioned government officials against exercise of censorship and predicted more, instead of less, government information will become available to the public.

Taking an opposite stand, the American Society of Newspaper Editors made public its reasons for objecting, based on a review of the information order last summer. This position was laid out in a letter sent July 10 to Joseph Short, White House information secretary.

Many capital newsmen expressed fear the standardized security system would cause government officials to assume censorship powers and to "clam up" when asked for information.

The Radio Correspondents Assn. is expected to take up the matter at its next meeting, scheduled in about a fortnight. Some newscasters voiced individual concern lest enforcement of the rules bring about a degree of censorship despite White House disclaimers.

Edward R. Murrow, on a regular CBS Radio newscast, said that the President's order "represents a real loss in the freedom we are preparing to defend."

Late Thursday President Truman ordered Office of Price Stabilization to kill a news ban by which OPS directed employees not to disclose news embarrassing to the agency. OPS Director Michael DiSalle was quoted as saying he knew nothing about the OPS order.

Associated Press Managing Editors' Assn., meeting at San Francisco Wednesday, voiced alarm over the Presidential mandate. Kent Cooper, AP executive director, in referring to the order said, "I'm really alarmed by what is being done to cover up mistakes in public office."

James S. Pope, *Louisville Courier-Journal* managing editor and chairman of the ASNE's freedom of information committee, joined James R. Wiggins, managing editor of the *Washington Post*, in urging that editors mobilize their efforts to meet the restrictions on information. "Many crimes have been committed in the name of security," Mr. Wiggins reminded.

On Capitol Hill four Republican Senators criticized the information order. Sen. Francis Case (R-S. D.) asked newsmen to tell him of any attempt by federal agencies to suppress news.

Sen. George D. Aiken (R-Vt.) said he would be "very surprised" if no attempt is made to use the regulations to cover up mistakes. Sen. Owen Brewster (R-Me.) foresaw "an almost inevitable tendency to cover up mistakes" and Sen. Homer E. Ferguson (R-Mich.) feared the order would prevent "legitimate news from getting out of departments of the government."

The National Assembly for the Advancement of Public Relations, of Washington, called on the President to name a five-man review board to provide necessary safeguards and serve best interests of the nation. President of NAAPR is Bernard Tassler, managing editor of the *American Federationist*, monthly AFL magazine.

David Lawrence Suggestion

David Lawrence, syndicated columnist, suggested that the "Iron Curtain" has descended on relations between the executive branch of the government and the outside world. He contended the Administration's political appointees will decide what is or is not security information. He regretted no system of checking against abuse was created.

ANPA's opposition said in part:

We recognize there are some categories of official information which affect military security and therefore should be withheld from all except responsible government officers. Our

Back to Standard

ALL networks were slated to follow the calendar and switch back to standard time with opening programs yesterday (Sunday). Those having daylight saving time playback plans, calling for transcribed repeats one hour later than actual broadcasts, cancelled the operation after Saturday night signoffs.

interest arises only at the point where information is classified so as to deny public access.

We strongly oppose an executive order which formally designates each head of a government agency an authority to classify information as injurious to national security, without definition of what breaches national security, and without appeal or review. We feel that the net effect of this executive order would be to formalize the suppression of much news to which the public is entitled.

Signing the letter for ASNE were Alexander F. Jones, president; B. M. McKelway, James S. Pope, Jack H. Lockhart and Walker Stone.

After being informed of the Tuesday order Mr. Jones, executive editor of the *Syracuse Herald-Journal*, said:

"Any time you give a government department head authority to classify material as top secret on a security basis you are placing a

(Continued on page 38)

Danger Signals in the Name of Security AN EDITORIAL

PRESIDENT TRUMAN last week issued a directive which, however well intended, cannot result in anything but hopeless confusion among executive agencies of the federal government as to what constitutes releasable news and what should be withheld on grounds of security.

The President told the agencies to adopt uniform safeguards to prevent valuable intelligence from leaking to enemies. But he left it up to each to make its own decisions about what to tell and what to keep to itself.

No working newsmen who has had experience with government agencies will venture to hope that this plan will achieve the President's announced purpose of keeping secrets from our enemies on the one hand and keeping the U. S. public informed on the other.

Even if every government official dealing with this question makes an honest effort to be objective—a condition without precedent, we must forlornly point out—there will still be wide discrepancies in judgment among departments. The working newsmen may expect to encounter silence in one agency and garb in another on the same story.

Among all agencies, moreover, there will be an irresistible tendency to withhold information concerning which officials have the slightest doubt. An example of this sort of bureaucratic decision occurred last March when the FCC classified as "restricted" a conference on defense planning to which every broadcaster in the U. S. was invited. Mind you, the "restricted" label applied to the calling of the

meeting itself and not just to the details of the discussion.

Aside from errors in judgment that are inevitable in the President's system of secret-keeping, there exists an opportunity, which some will see as an invitation, for government officials to use these powers as a means of improving their own status. In the constant jockeying for position that goes on in Washington, Department Chief A might very well find it convenient to conceal news permanently or until its disclosure gave him a tactical advantage in whatever intramural vendetta he happened to be conducting against Department Chief B.

Now we do not mean to imply that there is no need to establish a system of preventing critical intelligence from reaching the enemy. Quite obviously, as long as the U. S. is confronted by a hostile alliance as big and treacherous as the Soviet, the U. S. will have secrets it must keep.

But the system of protecting security must be orderly and must guarantee the disclosure to the U. S. public of the absolute maximum of information consistent with the nation's welfare. The President's system assures neither.

What is needed is a reactivation of the Office of Censorship that functioned during World War II.

We are aware that on the surface it may seem strange that this publication advocates the formation of any government agency in whose title the word "censorship" appears.

No trade magazine to our knowledge has campaigned more steadily against government control over information than this journal has. But when national security is involved, as it is today, and when an attempt to protect it is made in a form that virtually guarantees failure, we feel the only thing to do is to put the censoring power in the hands of people who will use it with discretion.

An Office of Censorship should be recreated. Its chief should be a man of unassailable professional experience in news and should report directly to the President. His staff should be drawn from the better news brains in broadcasting and the press.

Only that kind of an organization is competent to reconcile the news media's avidity for news and the government's characteristic partiality to concealment. Byron Price, now deputy director general of UN, performed exemplary service during World War II as director of censorship, working voluntarily with press and radio without a single untoward incident.

No American newsmen likes censorship. But neither does any responsible human like war or what passes for "peace" at this chaotic moment.

If censorship over government news must come, as we believe it must, it should be administered by people who understand its inherent evils and who will not attempt to perpetuate it or their administration beyond the limits of the present emergency.

KVER SOLD

SALE of KVER Albuquerque, N. M., for \$80,000 to Mrs. Helen Price, Washington and Atlantic City, was reported last week. Transaction is subject to FCC approval.

Transfer applications were filed for WGAD Gadsden, Ala.; WJHO Opelika, Ala.; KWRN Reno, Nev.

FCC granted final approval to transfers of the following stations: KOLT Scottsbluff, Neb.; WREV, AM-FM Reidsville, N. C.; WHLN Harlan, Ky.; WNVN Norton, Va. and others. (Details in FCC ROUND-UP, page 111).

KVER licensee, Westernair Inc., will sell the station to Mrs. Price and Bert Arnold, an active broadcaster. He has been with WFLA Tampa, WQAM Miami, WGR Buffalo, N. Y., and other stations. Blackburn-Hamilton Co. handled the KVER sale.

W. Curtis DeLamar, publisher of the *Gadsden* (Ala.) *Times*, filed to buy WGAD there from General Newspapers Inc. for \$46,000. He is applying through Goosa Broadcasting Co., a corporation owned 60% by him, 30% by his wife and 10% by his daughter.

Owners of WJHO Opelika, Ala., requested permission to sell one-fourth interest to Miles H. Ferguson, local business man, for \$7,500 plus. Present partners are Yetta G. Samford, C. S. Shealy and Aileen M. Samford, executrix of the estate of Thomas D. Samford, Jr., deceased. The partnership does business as Opelika-Auburn Broadcasting Co.

A veteran broadcaster, Donald W. Reynolds, filed to purchase 50% interest in KWRN Reno, Nev., from Kenyon Brown for \$1,250. Mr. Reynolds is majority owner of KFSA-AM-FM Fort Smith and KBRS Springdale, Ark. He also holds interest in TV applications for Tulsa, Oklahoma City, Las Vegas, Little Rock and Erie, Pa. He is part owner of KHBG Okmulgee, Okla., KAKE Wichita, Kan., and WIKK Erie.

Three Other Stations File for Transfer

HAID TO WSPD

Succeeds Flanigan As Mgr.

APPOINTMENT of Allen L. Haid, manager of Fort Industry's WSAI Cincinnati, as manager of the company's WSPD-AM-FM-TV Detroit was announced last week. In his new post Mr. Haid succeeds E. Y. Flanigan, who died in late August [BROADCASTING • TELECASTING, Sept. 3].

Glenn Jackson, program director of the WSPD properties, was named vice president and general manager of WMMN, the Fort Industry station at Fairmont, W. Va. J. Robert Kerns, manager of WMMN, goes to WSAI as vice president and managing director.

The changes were announced by Richard Jones, Fort Industry vice president in charge of the company's northern district. The new WSPD manager is a former manager of WMMN who moved into the WSAI managementship when Fort Industry acquired that station earlier this year.

Halley Speaks

RUDOLPH HALLEY, prosecutor of the former Kefauver Committee and Liberal Party candidate for president of the New York City Council, will address the first luncheon meeting of the 1951-52 season of the Radio Executives Club of New York, Oct. 4, at the Waldorf-Astoria Hotel.

AMA Cites NBC

AMERICAN Medical Assn. recently bestowed a citation upon NBC in "appreciation of cordial cooperation and effective teamwork in health education by radio." Presentation was made at the close of *Worthy of His Hire*, an NBC radio documentary about employment of the physically handicapped, broadcast Sept. 23. Award was made by Dr. W. W. Bauer of AMA and was accepted by Niles Trammell, chairman of the NBC board.

AD ALLOWANCES

Proposal Preserves Power
WATERED-DOWN minority proposal, which would preserve most of the administration's powers over allowable advertising costs, was contained in legislation marking time in the Senate last week.

The minority substitute was offered by Sen. Homer Capehart (R-Ind.), author of the original formula, and three GOP colleagues, and represented a noticeable withdrawal from the position they had taken earlier.

The new administration proposal was outlined in a report filed with the upper chamber last week. Authorities say it would restrict the number of manufacturers who could apply for price boosts under a "financial hardship" clause, and permit the President to set unelastic ceilings for allowable advertising, selling, labor and other costs [BROADCASTING • TELECASTING, Sept. 24].

The new Capehart plan goes along with the administration pitch in these details, but sets aside exceptions which would:

(1) Require the President through the Office of Price Stabilization to issue regulations within 60 days and mandate a complete revision of all price levels.

(2) Employ a mandatory cutoff date of July 26 in allowance for sellers' increased costs in ceiling price levels.

(3) Allow a manufacturer, processor, or industrial service establishment to apply for an increased price ceiling beyond July 26 if he is paying increased labor costs beyond that date.

The bill (S 2170) was reported last Monday by the Senate Banking & Currency Committee. The minority substitute (S 2155), introduced Sept. 21, also was co-authored by Sens. John W. Bricker (R-Ohio), Everett Dirksen (R-Ill.) and Andrew F. Schoeppel (R-Kans.). The full committee earlier had adopted the administration plan, 9-4.

CBS BONUS

Add Three in Idaho

ADDITION of three new CBS radio bonus affiliates in Idaho [CLOSED CIRCUIT, Sept. 17] was announced last week, effective today (Monday). They are: KID Idaho Falls, on 1350 kc with 5 kw day and 500 w night, owned by Idaho Radio Corp. with C. N. Layne as general manager; KEYE Pocatello, on 1240 kc with 250 w full-time, owned by Radio & Television Broadcasting Co. of Idaho with Clayton S. Hale as general manager, and KVMV Twin Falls, on 1450 kc with 250 w full-time, owned by Radio Sales Corp. with Arch L. Madsen as general manager. KID and KEYE will be bonus to KSL, CBS radio affiliate in Salt Lake City, and KVMV will be bonus to KDSH Boise, Ida. Additions bring CBS Radio affiliates to 203.

SPEAKERS at the up-state New York BMI program clinic in Rochester, Sept. 20 [BROADCASTING • TELECASTING, Sept. 24], include (seated, l to r): Ken Sparnon, BMI field representative for New York state and clinic chairman; E. R. Vadeboncoeur, vice president and general manager, WSYR-AM-TV Syracuse; Dr. Howard Hanson, Eastman School of Music, Rochester; Carl Haverlin, BMI president; William A. Fay, vice president and general manager WHAM-AM-TV Rochester, director of NARTE District 2 and chairman, Up-State N. Y. Broadcasters Committee;

William S. Hedges, NBC vice president; Jack Knabb, Jack Knabb Adv., Rochester. Standing, Merl Galusha, supervisor, farm broadcasting, WGY Schenectady; Earl Kelly, manager, WYNY Watertown; Milton Slater, program director, WCAX Burlington, Vt.; W. Harold Moon, assistant general manager, BMI Canada, Toronto; Murray Arnold, program manager, WIP Philadelphia; Russell Sanjek, director of special projects, BMI New York; Glenn Dolberg, BMI director of station relations; W. Robert Rich, program director, WBEN Buffalo.

BEHIND closed doors, the Senate Judiciary Committee resumes hearings tomorrow (Tuesday) on the nomination of Frieda B. Henneck 'to be a judge of the U. S. District Court, Southern District of New York. Hearings were prolonged because of time consumed by opposition witnesses and by frequent interruptions of legislative activity on the floor of the Senate.

The executive session was a departure for the committee which normally holds such meetings in the presence of the public and newsmen.

It consumed all day Thursday and was put over until tomorrow after two witnesses testified Friday.

According to a source close to the proceedings it was indicated that some members of the committee feel the opposition may be scoring at least a long delay in any Senate action.

It was even speculated that the committee may stretch hearings out and possibly sit on the nomination thus setting up a recess appointment by the President. If this materialized, confirmation proceedings would be put off for some months. Because of continued delays in committee, the proceeding has entered what is fast becoming the Senate rush to adjourn.

Chairman Pat McCarran (D-Nev.) virtually decreed secrecy on the proceedings Thursday by announcing he would not call Miss Henneck to the stand and that he doubted whether the transcript of the hearings would be made public.

However, it is expected that Miss Henneck will volunteer testimony on her behalf. Sen. McCarran said the committee would permit her to testify. Miss Henneck was present in the hearing room during the sessions. Thursday was her 47th birthday.

Spokesmen for New York's legal groups led the parade of witnesses testifying in opposition to the nomination on grounds that Miss Henneck lacks experience and is not qualified for a judgeship.

Only witness testifying in support of Miss Henneck's nomination thus far was John T. Cahill, RCA director and general counsel. Mr. Cahill, a former U. S. attorney in New York's southern district, told newsmen he knew the Commissioner as a lawyer and was appearing on her behalf.

Among those who may testify are FCC Chairman Wayne Coy, Comr. Paul A. Walker and possibly Comr. Robert F. Jones.

Identified as witnesses Thursday were President Whitney Seymour, Louis M. Loeb, also with law firm representing *New York Times*, and Leo Fennelly, all of the Assn. of the Bar of the City of New York, and Henry Root Stern, New York County Lawyers Assn.

Appearing Friday in opposition were Howard F. Burns, of Cleveland, chairman of the American Bar Assn.'s judiciary committee, and Chester Wood of the New York State Bar Assn. Still others may be called tomorrow to argue against

confirmation, it was said.

A full committee, under the chairmanship of Sen. Pat McCarran (D-Nev.), attended the sessions. It was reported that Sen. Robert C. Hendrickson (R-N. J.) led the forces supporting Miss Henneck's nomination.

Sen. Warren G. Magnuson (D-Wash.), also a member of the Senate Interstate & Foreign Commerce Committee, said he wanted to hear both sides before taking a position on the nomination. And, he added, he thought that was the way all the Senators felt about it.

Sen. Magnuson also indicated that certain "legal cases" were discussed in committee.

It was reported that one matter injected into the proceedings was a lawsuit Miss Henneck filed against Julius Silver, who was her law partner from 1927 to 1934. It was further reported that the case involved a dispute over an agreement dissolving the partnership.

Also involved were royalties Miss Henneck was said to have alleged they were to share from the sale

of a new type of camera. Introduced in evidence was Judge Cornelius Smyth's opinion deciding against Miss Henneck.

Others said to be ready to testify in support include: Louis S. Posner, former vice chairman, New York State Mortgage Assn.; Jacob Holtzman, member, New York State Board of Regents; and Judge Agnes Craig, New York City Municipal Court. A number of women's bar associations from the New York City area have representatives at the Capitol. They also may testify. Some women's bar groups from the area have endorsed her nomination.

It was understood that the Federal Bar Assn. of New York, New Jersey and Connecticut is on record in favor of Miss Henneck.

Earlier in the week, Miss Henneck received backing from Attorney General J. Howard McGrath who said the Dept. of Justice would support the nomination "completely." He said she was "eminently qualified" for the judgeship.

The Attorney General thus added his voice to the President's, who flatly stated at a news conference that he was not going to withdraw the nomination he sent to the Senate June 12.

LIBRARY 'UNITS' New Service Feature Added by APS

MAKING a sharp departure from established transcription library practice, Associated Program Service announced last week its library has been divided into units which will be leased singly or in combination, as well as in toto as in the past.

The new policy was announced by Maurice B. Mitchell, APS vice president and general manager, who said a station's individual library needs will be substantially the only factor determining what it buys from APS.

If a station needs only popular tunes, or transcribed commercials, for example, it need buy only that library unit out of the present library service, Mr. Mitchell explained.

The decision to sell APS services in units, he said, resulted from frequent inquiries for specific portions rather than the full library. APS officials feel stations should not be "forced" to lease an entire library in order to get only the parts they need.

With the number of stations now exceeding 2,000, he explained, a large number are "specialist," emphasizing programming in specific fields, with the result their library needs center on certain basic types of music rather than the full range.

Many stations, he said, will still want the full APS service. This will still be available at the regular APS price.

For those who want only parts, the following breakdowns have been made (prices are at one-year minimum):

1. Commercial Library—composed

solely of transcribed commercials, including weather jingles, time jingles, lead-ins for 26 different types of advertisers, and others, plus the APS "Transcribed Sales Meetings." Available at \$22.50 a month.

2. Production Library—consists of 247 different cuts of production music: Bridges, moods, sound effects, stingers, interludes, fanfares, modulations, etc. at \$19.50 a month.

3. Show Medley Library—total of 82 medleys from major musical shows (250 selections); useful as open-end programs. \$22.50 a month.

4. Radio Music Library—composed of 687 titles (aside from "bonuses") in the popular concert and standard production music fields. \$47.50 a month.

5. Popular Library—Total of 720 different selections in popular dance music field (aside from "bonuses"), plus new releases monthly. \$39.50 a month.

To save recoupling costs and keep prices down, material on the reverse sides of discs comprising the new library units may be used as "bonuses," whether the reverses are part of the library or not. Index cards for the extra material are included without extra charge.

Stations which subscribe to two or more of the unit libraries are allowed a 10% discount on the cost of each.

The contract is for a minimum of one year, but provisions are made for longer station protection up to five years.

As a special bonus, APS is offering a collection of Christmas carols for subscriptions entered by Oct. 15.

NEW SONG by Meredith Willson, musical director of NBC Radio's *The Big Show*, titled "Three Chimes of Silver," has been proclaimed official song of NBC's 25th anniversary celebration by Charles R. Denny, executive vice president of the network.

BAB EFFORTS

Networks Pledge Support

STATEMENTS of officials of ABC, CBS, MBS, and NBC praising the objectives of BAB were released by the radio-promotion bureau last week on the heels of the announcement that the networks and their owned-and-operated stations have signed for membership [BROADCASTING • TELECASTING, Sept. 24].

Howard S. Meighan, president of the CBS Radio Division, said "the dominance of the essential and unique values of radio is unchanged. It is only some of the thinking about these values which has shifted. Now that BAB is armed with funds and backed with the unified energies of radio broadcasters, I am convinced this thinking will swing back to its proper perspective."

Charles R. Denny, NBC executive vice president, said, "We are in accord with the aims and objectives of BAB in its efforts to bring to the broadcasting industry, advertisers, agencies, and the public a complete awareness of radio's economic and social values. . . . We intend to participate fully in BAB's activities, not limiting our support to financial matters."

Speaking for ABC, President Robert E. Kintner said that "ABC is happy to join BAB because of the results we feel BAB can achieve in promoting and publicizing as well as further developing radio as the nation's largest mass communications medium. ABC has the strongest possible faith in the future of radio. . . ."

Mutual President Frank White called it "both a privilege and an obligation for Mutual to lend its tangible support to the growing activities of BAB. . . ."

AWRT Meeting

FIRST annual meeting of New York state chapter of newly organized American Women in Radio & Television will be held at Hotel Ten Eyck, Albany, Nov. 17-18. Two-day convention is slated to include two panel discussions, social events and business meeting. Jane Barton, program director, state radio bureau, Dept. of Commerce, will serve as chairman, and Beth Lee, formerly with WPTV Albany, vice chairman of the convention committee.

ONE-WAY GAZERS at NARTB District 11 meeting included (seated, l to r): Manny Marget, KVOX Moorhead; Harry W. Linder, KWLM Willmar, district director; Oliver Gramling, AP, Standing, S. (Bud) Fantle, KELO Sioux Falls; Robert Tinker, WNAX Yankton; Odin Ramsland, KDAL Duluth; Jack Hardesty, NARTB. District 11 met in Minneapolis.

Bill of Rights

(Continued from page 23)

hold, N. J., Judge Schettino heard William B. Novogrod, attorney for the newspaper and station, Mr. McKeon, and City Attorney Abraham Frankel, representing the city council. The court was told several councilmen had decided they had no objection to the broadcast after court action was instituted.

The court noted that the mayor and councilmen perhaps feared a rabble meeting would develop because of broadcasting, but later felt there would be no objection if the complete proceedings were broadcast. Frank L. Wilgus, WJLK news director, said the pickup installation would be simple.

Attorney Novogrod argued that the whole history of democracy is based on keeping the citizens informed and said public rights transcend all other interests. Granting

of permission could cause no harm to city officials, he said, whereas lack of permission would do "irreparable damage."

Mr. Frankel argued that because the rights of newscasts are not settled in law, the court should hesitate to hand down a rule. He cited decisions in which courts have held broadcasts of court proceedings are not "rights" of stations, and referred to the Kefauver crime hearings.

Judge Schettino felt the court should not dodge the question merely because it was unique. He continued that news broadcasting comes within the basic term of "press" in the federal and state constitutions.

Judge Schettino took the position that a ban on broadcasts of a public hearing would do irreparable damage to the constitutional rights of the press (Asbury Park Press Inc., operating WJLK). He said:

"On the basic human interest our country spends millions of dollars broadcasting its public affairs, its civilization, through the Voice of America to peoples who are slaves in suppressed nations.

Yet, when we have an opportunity to do the same to some of our own unenlightened local citizens we object because it is something novel or something new.

An enlightened local citizenry is the best offense against foreign, oppressive thinking and against the local, state and municipal corruption that has been revealed in our country.

Judge Schettino said he was not unmindful of the need to maintain decorum at public proceedings.

"It is one thing to say a mayor and council can control the mechanics of a meeting and something else to say that they have a right as public officials to exclude the

CENTER OF ATTRACTION for this group of NARTB District 11 delegates was Alice Kavanaugh, WTCN Minneapolis. Standing (l to r): Dalton LeMasurier, KDAL Duluth; Harry Hyett, WEAU Eau Claire; F. E. Fitzsimonds, KFJR Bismarck; Lee L. Whiting, KEYD Minneapolis; Burt Squire, BMI; Bill Young, Lang-Worth; John Boles, KCJB Minot, N. D. Seated beside Miss Kavanaugh, Ray Eppel, KORN Mitchell, S. D.

DISTRICT 12

Listener Trends Feature Opening Day Talks

(District 10 Story on page 72)

TRENDS in listener program choices were reviewed Thursday afternoon during the opening day of the NARTB District 12 meeting, held at the Broadview Hotel, Wichita. The discussion was first of the kind held during the current series of meetings.

dissemination of news of public interest in a mechanical manner which is new."

Judge Miller said:

"I have noted with very great pleasure and satisfaction the decision of Superior Court Judge Schettino of Asbury Park, N. J., holding that the public is entitled to have access to city council meetings through radio broadcasting.

Judge Schettino's decision recognizes that radio broadcasting, although a comparatively recent scientific development of public information, nevertheless is just as important as any of the older instruments of information.

Here we have a judge with vision, as well as legal learning, who understands that the law is a living, growing thing which must be restated from time to time in terms of varying and changing community problems.

His decision is a very proper recognition of the public's need and desire for accurate, on-the-spot radio coverage, and of their right to enjoy all the channels of speech and press which science and industry have made available to them.

Ben Chatfield, WMAZ Macon, Ga., president of National Assn. of Radio News Directors, and Charles McCuen, WTCN Minneapolis, NARND news director, congratulated WJLK on its fight on behalf of free speech.

After the hearing Mayor Smock was quoted in the *Press* as follows:

"WJLK performed an important public service by bringing the hearing to the public." He emphasized his belief the broadcast was a valuable service "because it was a complete broadcast of the hearing."

NJBA voiced its recognition of the importance of the decision. S. Carl Mark, of WTMT Trenton, who is NJBA president, issued this statement:

The decision of Judge Schettino in upholding the right of WJLK to broadcast a public council meeting affirms the belief held by every broadcaster that radio, like the press, performs a function guaranteed by the Constitution.

As in five of the six meetings held prior to the District 12 session, attendance ran ahead of one year ago. Eighty-three persons registered during the opening day, compared to a final registration of 80 in 1950. Total attendance for the seven meetings held thus far this year is 650, compared to 605 for the same districts a year ago.

Dr. Forrest L. Whan, U. of Wichita, conducted the session on audience preferences. Dr. Whan has been conducting audience studies for more than a decade.

Todd Presides

Jack Todd, KAKE Wichita, District 12 director, presided at the Thursday-Friday meeting. The opening morning session included talks by Carl Haverlin, BMI president; Oliver Gramling, AP assistant general manager, and Col. George A. Duerr, information section headquarters, Fifth Army. Robert K. Richards, NARTB public affairs director, described the new NARTB radio-TV operation and reviewed the association's government relations program.

The famed Wichita Kiwanis Gleec Club entertained the delegates at the Thursday luncheon.

Resolutions committee named by Director Todd comprised Fred L. Conger, WREN Topeka, chairman; Walter Turner, KWBW Hutchinson, and Guy Farnsworth, KCRC Enid.

Oklahoma and Kansas state associations reported to the meeting just before adjournment Thursday as NARTB started carrying out a membership suggestion that state groups take part in district meetings.

SET OUTPUT

TV Greatest Drop

PRODUCTION of radio receivers during the declining trend that has marked the first eight months of 1951 held up much better than that of TV sets, according to the monthly industry report compiled by Radio-Television Mfrs. Assn.

Radio output dropped 3.5% during the period compared to 13% for TV sets, RTMA found, amounting to 8,977,232 radio in 1951 compared to 9,303,000 in the first eight months of last year. TV output this year reached 3,633,516 sets in eight months compared to 4,184,400 for the same period a year ago.

August production included 48,323 radios with FM reception facilities, with 246,287 TV sets in 1951 having FM-band tuners.

WITH PRODUCED INQUIRIES
AT A LOWER COST THAN ANY
OTHER MEDIA USED=

Here's what the Regional Sales Director of the Wm. B. Reilly Company (Luzianne Coffee) says about WITH:

"During our recent TV-Radio promotion campaign, radio station WITH produced inquiries at a lower cost than any other media used."

There's just one good reason why: WITH delivers more buying listeners-per-dollar than any other radio or TV station in town. Let your Headley-Reed man tell you what WITH can do for you!

WITH

BALTIMORE, MARYLAND

TOM TINSLEY, President • Represented by HEADLEY-REED

WOR can
sell anything
at less cost
to more people,
more often,

*than any other station
in the United States!*

WOR can sell automobiles. (Ask Austin of England, Chrysler, Dodge, Ford, General Motors, Hudson, Willys, etc.)

WOR can sell plays and pictures. (Ask RKO, Paramount, Loew's, Twentieth Century Fox, United Artists, Universal—ask anyone in show business.)

WOR can sell beverages. (Ask Krueger, Ruppert, Schaefer, et al)

WOR can sell clothes. (Ask Bond.)

WOR can sell confections and soft drinks. (Ask Peter Paul, Breyer Ice Cream Co., Life-Savers, Pepsi-Cola, etc.)

WOR can sell food and drugs. (Ask anybody!)

WOR can sell...

..... but why go on about a station that has one of the most remarkable records in all hard-hitting media today.

WOR can sell anything

at less cost to more people,
more often, than any other
station in the United States!

WOR picked up hundreds of thousands of new customers for one client for less than 1/2-cent each! That's a *fact*! Ask the Hudson Pulp and Paper Co. Or call, write or bicycle over to

—that power-full station at
1440 Broadway, in New York

(Continued from page 27)

"look into that also." The Navy, he reported, has received substantial public service on the radio. Moreover, a number of small stations have notified him that the radio industry allots "millions of dollars" annually in free time. The Army and Air Force, he indicated, could follow suit in this regard.

The object of Sen. O'Mahoney's continuous tirades the past week have been the *Frankie Laine* show, starting on CBS next Sunday (Oct. 7); 15-minute programs featuring Bill Stern on NBC beginning Dec. 1; and the *Game of the Week* (football) starting Oct. 13 on ABC.

Of significance is the fact that funds for these three network shows were obligated or paid for under the budget for 1950-51 ending last June 30. A sum of \$735,000 is earmarked under a \$3.1 million recruiting largesse for radio and TV during the current fiscal year ending next June 30. This figure would cover only radio-TV announcements this fall and next spring and no programs.

According to Grant Advertising Inc., Washington, the exact sums obligated under the old budget are \$434,602 for the Laine show, to run 39 weeks; \$254,000 for the Stern series, scheduled to continue through the winter months; and \$117,000 for the *Game of the Week*, for the duration of the football season.

Other Shows Named

Other programs cited by the Senator were the *Roller Derby* on ABC and Madison Square Garden sports events. This series has been completed.

In expressing his belief that the network programs are of "doubtful value," The Wyoming Democrat was joined by Sen. Homer E. Ferguson (R-Mich.), who claimed "there is no rhyme or reason for this expenditure." Sen. O'Mahoney quoted Rep. George D. Mahon (D-Texas), another conferee, as agreeing with him.

Conferees also are certain to scrutinize monies for newspapers (\$525,000 or 25%) and magazines (\$420,000 or 20%). Thus, there may be sentiment also for cutting printed media funds. Committee is expected to meet shortly.

Senators sitting in joint conference committee, besides Sen. O'Mahoney, are Sens. Carl Hayden (D-Ariz.), Richard B. Russell (D-Ga.), Dennis Chavez (D-N.M.), Harry Byrd (D-Va.), Styles Bridges (R-N.H.), Kenneth Wherry (R-Neb.), Leverett Saltonstall (R-Mass.), and Sen. Ferguson. House members include in addition to Mr. Mahon, Reps. Harry Sheppard (D-Calif.), Robert L. Sikes (D-Fla.), John J. Riley (D-S.C.), Clarence Cannon (D-Mo.), John Taber (R-N.Y.), Richard B. Wigglesworth (R-Mass.) and Errett P. Scrivner (R-Kans.).

CBS-Radio carried *Luz Radio Theatre's* tribute to film industry last Monday with seven top films previewed.

INAUGURAL PARTY held Sept. 20 at opening of John E. Pearson Co.'s Minneapolis office included these guests (seated, l to r): James Bowden, manager of office; John E. Pearson; Earl Classen, Pillsbury Mills; Willis White, Leo Burnett Co., Chicago. Standing: George Clark, Pearson Chicago office; Loy Booton, Bruce Brewer Agency, Minneapolis; Robert Spaeth, General Mills; Dewitt Jones, Leo Burnett Co.

TRUMAN AIDE

FIRST inkling of concrete steps toward forming American policy on national and international frequency allocations—and particularly on possible restoration of precious spectrum space to radio-TV broadcasters—may develop at the government level later this month.

This was seen last week as Haraden Pratt, vice president of American Cable & Radio Corp., laid the groundwork in Washington for assumption of his duties as the President's telecommunications advisor.

Mr. Pratt expects to assume his responsibilities within the next fortnight. He will headquarter in the old State Dept. building, now occupied by the National Security Resources Board. Mr. Pratt will work with NSRB and the Chief Executive on international frequency problems and those entailed in the allocation as between government and civilian users [BROADCASTING • TELECASTING, Aug. 20, 6].

Confer With Truman

Mr. Pratt probably will confer with Mr. Truman at the outset, once he has cleared routine matters of setting up shop. He told BROADCASTING • TELECASTING last week he will assume his duties within the next two weeks. He hopes to function with a small staff.

Aside from working on government-civilian frequency allocation problems and international agreements, Mr. Pratt will work with the NSRB on issues touching on Presidential authorization to assign radio frequencies to government stations without regard to FCC's licensing regulations and to take over civilian telecommunications facilities, radio and wire, for emergency purposes. These are posed in Secs. 305 and 606 of the Communications Act.

Pratt Soon to Take Telecommunications Post

McFARLAND BILL Continues Under Study

HOUSE Interstate & Foreign Commerce Committee last week continued marking up the McFarland Bill to realign FCC procedures.

At the end of the week, the committee was reported to be deep in the long-contested section that deals with the relationship of the Commission staff to the members of the Commission.

The McFarland Bill (S 658) would not permit the Commission to consult with any of its prosecutory or investigatory staff when making its decision in contested hearings on applications.

Also barred would be conferences between hearing examiners and other FCC staff members.

These issues in particular, which have drawn fire from the FCC itself, have been slowing committee progress on the bill, it was understood.

Chairman Robert Crosser (D-Ohio), when questioned about the bill last week, said he could not speculate how much time the committee would take in its deliberations because the measure is so "controversial."

Truman Opens Drive

PRESIDENT TRUMAN was scheduled to make a four-minute address to the nation over the four major radio networks and coast-to-coast TV channels at 10:55 p.m. EST last night (Sunday) to launch the 1951 Red Feather Campaigns of America.

CCBA MEET

Views Sales, Shows

PROGRAMMING and sales dominated the first annual meeting of the Central Canada Broadcasters Assn. at Toronto, Sept. 24-25. Some 100 station executives, station representatives and advertising agency executives attended the meeting at the Royal York Hotel, under the chairmanship of Ralph Snelgrove, CKBB Barrie.

Murray Brown, CFPL London, was elected president of the CCBA starting January 1, with J. G. Hyland, CJIC Sault Ste. Marie, as first vice-president; Frank Ryan, CFRA Ottawa, second vice-president; Wm. Mitchell, CKCR Kitchener, treasurer; and Bob Lee, CHUM Toronto, secretary. Representing the CCBA on the CAB board will be Ken Sobie, CHML Hamilton; Ralph Snelgrove, CKBB Barrie; and J. A. Dupont, CJDA Montreal.

The CCBA went on record suggesting to the CAB that Harry Sedgwick, CFRB Toronto, be made honorary president of CAB for life. The meeting also decided to ask Ontario government authorities to (1) lift restrictions now limiting beer and liquor advertising on Ontario stations, (2) ask CAB to change number of directors from 11 to 12 and to serve two-year terms (3) urge CAB take steps to sit in on revision of regulations for all Canadian broadcasting, and (4) set up CCBA program exchange and technical committees.

AIR MUSIC POST

Patterson Named Counsel

ROBERT P. PATTERSON, former Secretary of War, has been named general counsel for Air Music Inc., President Linton Wells is to announce today (Monday). Air Music Inc. is associated with Functional Music Inc., Chicago, a Marshall Field enterprise.

According to Mr. Wells' announcement, Air Music's hundreds of subscribers include The National City Bank, Bankers Trust Co., J. Henry Schroder Banking Corp., Bowery Savings Banks, *Readers' Digest*, American Cyanamid Co., Insurance Co. of North America, Hotel Waldorf-Astoria, Liggett Drug Co., Sears Roebuck & Co., Gimbel's, Saks Fifth Avenue, Bulova Watch Co., Central Airlines Terminal, Loft Candy Co., Dun & Bradstreet and the Roxy Theatre.

Bowles Approved

NOMINATION of Chester Bowles to be Ambassador to India squeezed by a special Senate subcommittee last Wednesday. The Senators voted 3-2 to approve President Truman's nomination. Ambassador-designate Bowles is a former advertising executive and served as Governor of Connecticut. He started Benton & Bowles with Sen. William Benton (D-Conn.) in 1929.

RADIO'S HOLD

RADIO will maintain its position as a dominant mass medium of advertising, and probably improve this position regardless of development and expansion of other media, NARTB President Harold E. Fellows told a joint luncheon of the Omaha Ad Club and NARTB District 10 last Tuesday (see district meeting story page 72).

As late as last summer, Mr. Fellows said, 71% of the production of America's set manufacturers was devoted to building AM and FM radio sets, with factories finding demand far ahead of a year ago.

Mr. Fellows aimed several sharp comments at anti-radio elements. Citing figures showing how the number of radio stations has tripled in a decade, whereas advertising expenditure of the U. S. has more than doubled in the same period, he noted that over a hundred TV stations are on the air in 67 markets. But, he insisted, radio is holding its own in TV markets and in some cases is improving its position.

Will Continue Dominant, Fellows Declares

★ Radio's position as the lowest cost-per-thousand mass medium is based on its flexibility, intimacy of approach and speed, he said, adding that the medium perhaps has been derelict in failing to increase its own rates where such increases certainly are justified.

"Radio needs nothing today but the confidence of those who administer its affairs—such confidence on their part, for example, as already has been demonstrated by the listening public," according to Mr. Fellows. "For out of that confidence will grow a new, burning desire to make radio an even greater instrumentality than it has proven itself to be."

COMPTON NAMED

To Davis Engineering Staff

APPOINTMENT of Robin D. Compton to the staff of George C. Davis, radio-TV consulting engineer, was announced last week. Mr. Compton is a veteran of 25 years in radio and television and will devote most of his time to TV engineering.

Mr. Compton worked for twelve years with NBC in New York, specializing in television development and operation. He also supervised planning and construction of WPEN-TV (now WCAU-TV) Philadelphia and WOIC (now WTOP-TV) Washington, D. C.

Syracuse Talk

LLOYD GEORGE VENARD, vice president and New York manager of the O. L. Taylor Co., station representative, will speak today (Monday) at a meeting of the Syracuse Advertising Club.

News 'Security'

(Continued from page 29)

potent weapon in his hands. The result, inevitably, is further suppression of news.

"The order does not contain proper declassification provisions and there is not a definite appeal regulation. A reporter protesting a decision of a department head would really have to go to the Attorney General to appeal, although Joe Short could be of some assistance."

In explaining the order to newsmen, Mr. Short had offered to help whenever a reporter felt legitimate news was being withheld.

President Truman, in sending the regulations to government agency heads, said:

Specifies Purpose

"To put the matter bluntly, these regulations are designed to keep security information away from potential enemies and must not be used to withhold non-security information or to cover up mistakes made by any official or employee of the government."

The President said the order contains "no element of censorship, either direct or implied." He hoped "the American people will receive more, rather than less information about their government."

ASNE's committee had studied the order carefully when consulted last summer by the White House. A subcommittee of the National Security Council had reviewed the entire situation.

In cautioning government officials against censorship, the President wrote that the order applies only to officials and employees of the government, with the public requested to cooperate. No compulsion is placed on the public, however.

FRAUD CASE

C & W Files Bankruptcy

THE HOLIDAY fiasco that embarrassed radio and television stations last year and allegedly lined the pockets of Harold Cowan and Ralph Whitmore, partners in a Hollywood mail order agency, culminated last week in bankruptcy petitions.

The fabulous partners, whose glowingly described Christmas tree ornaments disappointed many listeners and didn't even reach other \$1 donors, according to evidence, went into court individually and as the firm of Cowan & Whitmore.

Literally hundreds of creditors, including many radio and TV stations, were listed in the petitions. Both men were indicted last March by a federal grand jury after they assertedly had reaped a fortune out of their holiday advertising [BROADCASTING • TELECASTING, March 5].

Mr. Cowan totaled liabilities at \$338,826 and assets at \$7,056. Mr. Whitmore's debts totaled \$329,910 against listed assets of \$9,556.

HOW TO WIN FRIENDS AND INFLUENCE DRUGGISTS

in the high-income Middle Atlantic market

Participate in the KYW "FEATURE DRUGS" Plan

We knew that Philadelphia's popular Hal Moore would attract thousands of listeners to the twice-a-day programs of KYW's "Feature Drugs." But we never expected such terrific response from druggists themselves! When you hear comments like these from the men behind the counter, you know they're in there pitching for the participating sponsors.

"It's a revelation to see how many people hear the program. A man I haven't seen for 20 years called in an order on the telephone."

"A neighborhood physician came in personally after bearing my store mentioned on the program."

"Even the kids in the neighborhood tell me what Hal Moore said on the program."

"About 30 people right in my neighborhood told me they heard it."

Yes, that's the kind of trade reaction you can expect when you participate in KYW's "Feature Drugs." But "reaction" is only part of the picture. You get *results*... in advertising, merchandising, sales. You get point-of-sale contacts, handled by a group of experienced drug merchandisers. You get pin-point promotions in hundreds of leading stores, with distribution of literature and samples where appropriate. You get regular reports on distribution, out-of-stock conditions, package visibility, shelf positions, rate of sale, competitive situations. In fact, KYW's "Feature Drugs" becomes a high-power extension of your own sales force in this important market! For availabilities and costs, check KYW or Free & Peters.

get-at-places. Where the other media, requiring as they do the visual attention of the customer, are restricted to certain 'recreation rooms' in the home, radio can insinuate its auditory presence into all sorts of 'utility rooms' as well. Our findings show:

- 75% have sets in Living Rooms.
- 42% have sets in Adult Bedrooms.
- 41% have sets in Autos & Trucks.
- 33% have sets in Kitchens.
- 8% have sets in Child Bedrooms.
- 8% have sets in Dining Rooms.
- 3% have sets in Basements.
- 3% have sets in Attics.
- 3% have Portable sets.
- 1% have sets in Lavatories.
- 1% have sets on Sun Porches.

Additional sets (less than 1% of the sample in each case) were found in barns, garages, 'dens', recreation rooms and utility rooms.

Radio, of course, is always in position to compete with the other media. However, in some areas radio's "squatters rights" are exclusive. Some 66.1% of all of the 7779 radio sets found among the 3500 sample households are in automobiles, or in rooms where there are no television receivers. By the same token, 44.5% of all radio sets were found in places where newspapers and magazines are not usually read—autos, kitchens, children's bedrooms, basements, barns, garages and utility rooms.

Radio's One-Two Punch

But, even then, measurement by this proportion-of-homes-reached yardstick does not do radio full justice. In our opinion, broadcasters (and now telecasters) have too long accepted a "double standard" of circulation morality. While the publisher is allowed to justify his circulation claims in terms of the number of units actually circulated, the broadcaster must attempt to justify his circulation in terms of the number of PLACES to which his units are circulated.

For example, the writer's own case is in point. In our home, with its three AM receivers plus one auto-radio and a television receiver, we regularly receive three daily newspapers and six nationally-circulated popular magazines. Under the circulation "double standard," our household is counted as one radio-home, one television-home, three newspaper-homes and six magazine-homes. And, following the pixie logic of one weird formula proposal we would be counted a non-radio home because of the presence of a television set.

In order to bring some clarification to a circulation picture muddled by the curious logic of this double standard, we compared all four media on the basis of the publisher's criterion—the number of units actually in circulation. In other words, we wanted to know how many sets, radio and TV, are in the market, as well as how many magazines and newspapers are circulated.

And when the results were in,

radio still led the pack—but by a wider margin than before. The average—units-in-circulation-per-family, for each of the media, was:

- 2.22 RADIO sets per family (1.75 in-the-home; 0.47 auto-radios).
- 2.03 nationally-circulated MAGAZINES per family (1.04 published monthly; 0.99 published weekly).
- 1.64 regularly-received NEWSPAPERS per family (1.42 published daily; 0.22 published weekly).
- 0.37 TV sets per family.

Ignoring, for the moment, the day-in-and-day-out availability of radio as contrasted to the restricted availability of newspapers and magazines, we find that Louisville market radio circulates a significantly greater number of units-per-family than does any of the competing media.

Louisville Radio-Active

To supplement what we had learned of the extent and intensity of radio's coverage of the Louisville market, we wanted to know something about the listening-habit patterns of families in that market. Particularly, we were interested in learning something about time-of-day and total-time-spent patterns. And, again, we wanted the comparable picture for each of the competing media.

We used three essentially similar series of questions to elicit the desired information relative to newspapers, television and radio. Additionally, we used a question-series specifically relating to the extent of auto-radio usage.

There is a somewhat greater use of radio on Sundays, but weekday patterns differ little from Saturday patterns.

Adults living in homes with one or more radio sets, average:

- 2.75 hours of radio listening on typical WEEKDAYS.
- 2.69 hours of radio listening on typical SATURDAYS.
- 3.04 hours of radio listening on typical SUNDAYS.

In the Louisville market, a 'rurban' community where the auto is a practical necessity to efficient family living, the extent to which auto-radios are used in a very important determinant of the intensity of radio circulation.

We used two questions to bring out the information we needed.

"ABOUT HOW OFTEN DO YOU, OR OTHER MEMBERS OF THE FAMILY, USE THE AUTO-RADIO WHEN DRIVING ABOUT LOCALLY ON EVERYDAY BUSINESS OR SOCIAL CALLS?"

"ABOUT HOW OFTEN DO YOU USE THE RADIO ON LONGER TRIPS?"

Percentages, based on replies from 1464 owners of radio-equipped cars show:

Use the car radio—	Shorter Trips	Longer Trips
"... almost all of the time"	%	%
"... quite a bit of the time"	34	42
"... only part of the time"	12	19
"... seldom"	16	14
"... almost never"	24	15
	14	10
	100%	100%

By projecting our per-day averages (of the amount of time spent

CLEAR CHANNEL — 50,000 WATTS

IRVING WAUGH, Commercial Manager
EDWARD PETRY, National Representative

SELL THE HEART OF VIRGINIA OVER **WMBG** RICHMOND,

The quickest way to get results in the South's top-ranking industrial market is through the station that sells your product with the strongest voice — WMBG, Richmond, Virginia.

WMBG's recent changes in transmitting equipment have added 84,968 families to its regular listeners. But still more important, this increase in signal strength (which approximates an increase in power up to 10,000 watts) gives WMBG the *most penetrating* coverage within its service area. Add top-flight NBC and local programming to this picture and you have the lion's share of one of the nation's most important markets.

This improvement in service to listeners and advertisers is typical of WMBG's leadership throughout its twenty-six year history. WMBG was the first commercial station in Virginia...the first in Richmond to broadcast daytime programs...the first to own its own buildings...the first to own a short-wave mobile unit and recording equipment...the first to use a directional antenna. It was the first station in Richmond with FM (WCOD)...the first in the entire South to build a television station (WTVR)—the three deservedly known today as the "First Stations of Virginia".

As exclusive representatives of WMBG for the past twelve years, John Blair & Company knows how successfully this pioneer station has moved goods for scores of spot radio advertisers. Today, WMBG is better equipped than ever to do the same for you...contact your John Blair man *today*.

INTERIOR of WMBG transmitter building. WMBG now uses FM tower as radiator of AM signal, providing a very substantial increase in WMBG coverage of the State of Virginia.

JERRY LANE, whose popular woman's program "Home Edition", features such guest stars as Maggi McNellis.

THE JOHN BLAIR WAY

VIRGINIA'S MOST PROGRESSIVE RADIO STATION

VIRGINIA STATE CAPITOL BUILDING. Richmond holds the industrial rank of first in the South and fourteenth in the Nation, based on value of manufactured products. It is the cigarette capital of the country, the trade center of the South Atlantic region. Its unusual economic stability stems from steady and widely diversified employment in strong consumer goods industries.

WILBUR M. HAVENS, President and General Manager, WMBC (AM), WTVR (TV), WCOD (FM).

WALTER A. BOWRY JR., Assistant General Manager.

NEWTON THOMAS, emcee of "The 1380 Club" and a favorite with WMBC's big morning audiences.

CHARLIE SPEARS, mailman's burden with his "Western Request Time".

JOHN BLAIR & COMPANY specializes in radio representation exclusively. Since we are entirely removed from any other operation or function, we are able to give the stations we represent our full time and our full efforts . . . as *specialists* in selling via spot radio.

RALPH JONES, "The Timekeeper", keeps listeners tuned to news of time and weather, music.

Owned and Operated by The Commercial Appeal

by adults listening to radio), we can estimate the average amount of radio-time-in time spent by adults during a typical 7-day week. Additionally, our data allow a similar computation for newspaper-reading, so that a comparison of the media is possible.

The average adult, living in a home with at least one radio set and at least one regularly received newspaper, spends 19.5 hours-per-week listening to radio, and 6.8 hours-per-week reading newspapers.

Adult residents of the television homes in our sample spend approximately:

- 27.3 hours-per-week viewing television;
- 15.5 hours-per-week listening to radio;
- 7.2 hours-per-week reading newspapers.

However, since only 37% of the market homes were equipped for TV reception, a better comparative criterion would be the total-number-of-adult-hours spent, during some time period, listening to radio, viewing television and reading newspapers.

The 8,612 adults living in the 3,500 sample households, spend, during a typical week:

- 164,200 hours in radio listening.
- 87,600 hours in televiewing.
- 55,200 hours in reading newspaper.

Though these are approximations (they have been rounded to the nearest 100-hours), they clearly show that significantly more adult-hours are spent listening to radio, than are spent reading newspapers and televiewing combined. Though these statistics are based on a relatively small sample of the total market population, the proportions would hold (if the sample is representative) their approximate relationship for the entire population.

On the basis of 1949 BMB data (Report No. 2), there were approximately 260,500 radio homes within 60 miles of Louisville in the Spring of 1949.* Projecting our own statistics to cover the present-day total population in the area—approximately 313,700 homes—we find that there are now (June 1951) approximately 306,500 radio-equipped homes in the market. An increase of some 18% during the two-year period!

Admittedly, such a projection could be dangerous. While we have full confidence in the representativeness of our sample and in the projectibility of the statistics we obtained in it, the BMB data—obtained, as they are, on the basis of responses to a mail-questionnaire—are of questionable validity. This limitation is especially significant when we realize that the people most likely to ignore such a questionnaire are those who do not have radio in their homes. However, duly discounting for the pos-

sibility that the 1949 BMB estimate was too low, it is clearly evident that the Louisville radio market has grown materially during the recent past. And, this increase involves the density as well as the comprehensiveness of coverage.

With its unique ability to reach customers in places and situations where the visual media cannot follow, radio will continue to hold its important place among the media available in this market. As older model cars are retired and replaced by newer models (which are usually radio-equipped), this continued expansion will probably be greatest among the auto-owning members of the population—the merchandisers' "bread and butter!" Additionally, we found an increasing number of sets in kitchens and other utility rooms (places *verboten* to video), where the housewife is able to continue her radio listening as she performs her every-day household chores. Clearly, radio is still "champ" in Louisville!

* Our 60-miles-of-Louisville circular survey area includes 34 Kentucky and Indiana counties, in whole or in part. Since the BMB data are presented in terms of "count units," we have had to systematically estimate the proper proportion to cover the market territory we surveyed. This figure—260,500 radio homes—represents our best estimate of the 1949 circulation picture.

NU-PAX CAMPAIGN

Start in N. Y. Market

ONE of the biggest advertising and merchandising campaigns ever employed to introduce a new drug product to a single market will be launched next month in New York for Nu-Pax, manufactured by Somnil Pharmaceutical Corp. of America, N. Y., through its agency, Emil Mogul Co., N. Y. The total budget for 1952 will run from \$500,000 to \$1,000,000, depending on results of opening drive.

Radio and TV will be used. Heading the radio lineup will be the Humphrey Bogart-Lauren Bacall show *Bold Venture*, a ZIV package, Sunday 5:30-6 p.m. on WNBC, New York. In addition, the schedule on that station includes a quarter-hour Sunday of the *Tex and Jinx* program, the three-hour *House of Music* show on Saturday afternoons and the morning *Bob and Ray* show, Monday through Saturday, Skitch Henderson, afternoon and nighttime shows Monday through Friday, plus Bill Stern across the board, Monday through Friday.

In addition Nu-Pax will participate on the following WNET-TV shows: *Date in Manhattan* and the new *Wayne Howell Show*.

The agency is also planning to introduce a novel twist in their use of station posters to merchandise the radio and TV shows. They are preparing a series of stickers, each featuring one of the radio and TV personalities used by Nu-Pax on its radio and TV schedule. Each poster will carry one of these stickers, so that consumers will see as many as half a dozen different ones in a single day and will get some idea of the array of talent promoting the new product.

TALENT PAY

SALARY problems of talent in the entertainment industries will be tackled Oct. 22 by a new Talent Committee, serving as an advisory body to the Salary Stabilization Board.

Procedure for talent compensation problems will be recommended to SSB after the new committee has made a thorough study, including broadcasting and telecasting employment. The entertainment industries have so many special problems in compensating artists, performers and related personnel

that SSB set up the advisory committee.

First meeting of the committee was held Monday in New York. Committee chairman is Roy Hendrickson. Other members are Neal Agnew and Philip Siff.

Series of Conferences

It plans to hold a series of informal conferences. These are to draw suggested methods of carrying out the Salary Stabilization Act in the entertainment field and proposed regulations by which most salary problems would be brought

Salary Board Group to Study

under a self-administering procedure, avoiding drawn-out government red-tape.

SSB's jurisdiction covers persons not represented by labor unions in their collective bargaining, dealing mainly with executives, artists and professional people. Union wage problems come under the Wage Stabilization Board.

Fifteen groups would come within the committee's jurisdiction under a proposed lineup. These would be actors; extra talent including dancers; producers and associated producers; directors and

producer-directors; assistant directors; dance directors; writers; song writers, music and lyrics; composers; musicians; art directors; wardrobe designers; cameramen, assistant and operative cameraman; sound engineers, professional; film editors.

Under the Defense Act setting up the Economic Stabilization Administration, wages were frozen as of last Jan. 25. No raises or bonuses are allowed except as provided in a series of regulations, but many of the wage situations in the entertainment industries do not come within the regulations. Creation of the SSB Talent Committee is designed to give industry a chance to handle its own affairs.

Those desiring to submit cases or recommendations to the committee are asked to file requests in quadruplicate to Joseph D. Cooper, executive director, Salary Stabilization Board, Room 1042, Federal Security Bldg. South, Washington 25, D. C. Requests must be filed by 3 p.m. Oct. 10.

The committee's Oct. 22 informal session will be held in the Bar Assn. Bldg., 42 W. 44th St., New York.

INGENUITY PAYS

KCJB, KSJB Buy Tent

KCJB Minot and KSJB Jamestown, N. D., composing the Dakota Radio Network, solved the problem of covering two state fairs this season by purchasing a huge tent.

For the Minot fair, KCJB moved all operations from sign-on to sign-off into the tent and used the program label, *KCJB Big Top Radio Theatre*.

Three weeks later, KSJB used the tent for the *KSJB Big Top Radio-Television Theatre* to cover the Red River Valley Fair in Fargo, TV, still in the future to most Dakotans, was brought in through cooperation of DuMont Television Inc. Broadcasts from each of the fairs were fed to both stations over the DRN. Sponsor tie-in was fostered by inviting sponsors to display their products along the tent sides.

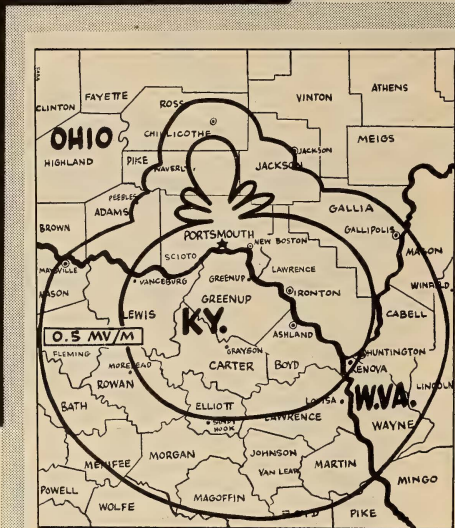

KCJB also conducted a series, *Picnic Party*, in a public park featuring area bands and amateur talent in addition to staff personnel. Series was sold on a participating basis to local sponsors, including a soft drink bottling firm, a savings bank and an ice cream company.

Every Grocery Store in the KFAB area has a Cash Register

BY CARL DENNISON

**DIVISION MANAGER
BOYLE MIDWAY, INC.
MANUFACTURERS OF AEROWAX**

Nonsense! Maybe! But it makes sense when you learn more about those cash registers.

There are approximately 6,350 grocery store cash registers in the KFAB area. They ring up over \$423,700,000 every year. A vast majority of those dollars are for sales made for KFAB advertisers. Pretty important money! And when you consider the low selling cost by using only one BIG station to help make the sales, KFAB becomes pretty important, too!

Also, Mr. Grocer is a pretty important man in the KFAB area. When you get to know him, you get to like him. You learn that he is quick to grasp new merchandising ideas, alert to new product possibilities. You start a demand for your product over KFAB and he will meet you more than half way in seeing that that demand is satisfied.

If you have a grocery item, there's space on the grocers' shelves for it—and the cash registers will ring up sales when you put KFAB to work helping create a demand. KFAB has one availability now that may interest you. Get in touch with FREE & PETERS or phone Harry Burke.

Style Selling by Radio

Juster's Has 25½ Years of Proof

JUSTER BROS., famed Minneapolis men's store, always does things in style, including its programs on KSTP there.

Ever since P. B. Juster left a small shop in Aberdeen, S. D., to invade the metropolis of the Northwest, he has thought, dreamed and sold "style."

Today Juster's is a household word far out into the rich Minnesota buying area. In national retail circles the store is widely known because of its emphasis on style.

Things weren't always so cozy, though. When "P. B.," as he is fondly called, first hit Minneapolis in 1914 he opened a store opposite the Nicollet Hotel, with Harry Browar as partner. Business boomed until 1916 when World War I struck its brutal blow.

Mr. Browar and his lawyer wanted to go into bankruptcy but Mr. Juster fought the idea and wound up by buying out his partner and nursing the store through the crisis.

As the store grew, Mr. Juster was joined by a brother and the store policy gradually changed

from a tailor-made suit house to a ready-made store with emphasis on clothing for the younger man.

First venture into radio was a quarter-century ago and the Juster business may truly be said to be a radio-promoted enterprise, with principal emphasis on institutional advertising.

The initial radio excursion in 1926 was an hour show with a 20-piece band and full talent staff, all for the staggering sum of \$50 per program. Today the store invests \$180 in each of its quarter-hour newscasts.

That pioneer show was a variety job, with dramatic skits and live music. Later, Juster's turned to disc jockey shows and then to newscasts.

Mr. Juster had a hunch as he listened to those first news programs on behalf of his store. Soon he started broadcasting from his home, where he entertained visiting celebrities—and put them on

the show. He took an active part in all the store's broadcasts, answering style questions submitted by listeners and giving commentaries on new style trends and developments in the clothing industry. These style quiz episodes developed wide audience interest, as evidenced by the large quantities of mail bringing questions for "P. B." to answer.

The main commercial approach on the broadcasts has been institutional, though Juster's direct-selling messages have been productive. The main effort is institutional because the store wants to keep hammering on its leadership as a style center, not only in the Twin Cities but in the country.

"P. B." is the authority for Juster's promotional policy as exemplified on its newscasts. He says, regarding radio:

"The pattern followed by Juster's in its radio approach has served to establish Juster Brothers

Mr. JUSTER

as one of the nation's style centers. Radio gave us the opportunity to talk 'style' to the people in our

(Continued from page 48)

territory in an effective manner.

"The response to listeners' style questions helped to establish Juster's as the Northwest's style center. We like our present news format because newscasting ties in beautifully with our aim to broadcast style news."

Juster's sponsors a 15-minute newscast three times a week on KSTP.

Agency is Bozell & Jacobs, Minneapolis, with Ken Schlasinger as account executive.

Breakdown of Budget

The store spends 6% of gross receipts on advertising, divided roughly 35% on radio, TV and billboards and 65% on newspapers. The annual radio investment is about \$18,000.

Each autumn the store sponsored a half-hour football program on WCCO Minneapolis, featuring Bernie Beirman, U. of Minnesota

coach. Coach Beirman resigned, but plans for a new show are in the works. Last year Juster's experimented with TV and has a visual program under discussion.

Get Tax Aid

CERTIFICATES of necessity for accelerated tax amortization on new or expanded defense plants have been announced by the Defense Production Administration following the conclusion of a 60-day moratorium on applications. Approved were these percentages of requests for writeoffs from electronics firms: Federal Telecommunication Labs, military items, 90%; RCA, military items, 75%; Standard Tool & Mfg. Co., electronics, 80%; Globe-Union Inc., electronic parts, two requests 75% each. Above cases were not subject to the general moratorium asked by Defense Mobilizer Charles E. Wilson.

ANTI-GAMBLING BILLS *Senate Pace Is Toss-Up*

WHETHER anti-gambling legislation will get through the Senate before its scheduled adjournment this month is a toss-up.

The Senate Interstate & Foreign Commerce Committee last Wednesday cleared its decks of the four bills it held hearings on in the past fortnight [BROADCASTING • TELECASTING, Sept. 24]. The bills are S 1563, 1564, 1624 and 2116.

While some conflicts are present in the bills, in general they would make it tougher for the gambler to get his betting information via radio.

Capitol Hill authorities noted that ordinarily the bills would not have a chance to hurdle the glut of legislation piling up at the Senate's finish line. However, key sponsors of the majority of the bills, Sens. Herbert R. O'Connor (D-Md.) and Estes Kefauver (D-Tenn.), present and past chairmen of the Senate Crime Investigating Committee respectively, have the means to push the measures if they so desire.

Approved by the committee in

numerical order:

● S 1563—Would require persons engaged in dissemination of gambling information, particularly wire services, to be licensed. Radio and television stations are exempted. Committee amended this bill to transfer the licensing authority from the FCC, as originally intended, to the Justice Dept. This is in line with Chairman Wayne Coy's recommendation.

● S 1564 — Is the so-called "knothole" bill. It is aimed at prohibiting transmission in interstate commerce of gambling information of a sporting event that's obtained without consent "of the person conducting such a sporting event." This bill has no effect on broadcasters.

● S 1624 — Would prohibit broadcasting of gambling information, transmission of bets or wagers by means of interstate communications, prohibit interstate transportation of gambling devices and extend criminal law against lottery information to include "gambling enterprises."

This bill is perhaps the vague one for the broadcaster. It refers to a ban on broadcasting information of "gambling enterprises." What the term means is unclear in the legislation. S 1563 defines "gambling information" as information concerning "horse racing or dog racing events or betting information concerning any other sporting event."

● S 2116 (introduced by Sen. Ed C. Johnson, chairman of the Senate Interstate & Foreign Commerce Committee) — Would prohibit interstate transmission of gambling information prior to time a horse race is held but permit broadcasts or telecasts of the actual event. It would make it a crime to transmit "bets or wagers, the scratches, jockey changes, weights, probable winners, betting odds or changes" prior to the running.

Change By Committee

The committee amended this bill so as to prohibit violations of the wire-tapping statutes, and exempt common carriers unless local law enforcement officials say a certain facility is being used for illegal gambling.

While some legislation conceivably could pass the Senate soon, the fate of the bills in the House is more doubtful. It is expected that the House Interstate & Foreign Commerce Committee would want to hold hearings on the bills.

If Congress continues along its present pace, which has the earmarks of a lawmaking rush in the last days before adjournment, it looks like next year's session will do the honors on anti-gambling.

in the medium since that day. At 36, Mr. Griggs today is sales manager of Griggs, Cooper & Co., a St. Paul food firm. His interest in radio, together with a practical business sense, is reflected in his advertising.

The food firm sponsors the Friday night *Diner at the Adams* show, starring Cedric Adams, over WCCO Minneapolis-St. Paul.

Griggs, Cooper & Co. uses this weekly half-hour to sell its Home Brand Foods and Minuet Crackers.

The firm recently implemented the schedule with a Saturday night spot on which Mr. Adams voices late news to the upper Midwest.

Mr. Griggs puts the bulk of his advertising budget into radio and TV. A variety of shows is featured in key markets of the Home Brand area.

Newscasts are sponsored over KDAL Duluth, Minn., WNAX Yankton, S. D., and KFYP Bismarck, N. D.

WDAY Fargo, N. D., airs the Smiley Burnett package. A half-hour television spot at 5 p.m. Sunday over WTCN-TV Minneapolis-St. Paul features the *Range Riders*.

His basic advertising policy is simply to develop merchandisable advertising to help improve distribution of Griggs' products. In this, Mr. Griggs values highly his two main allies, radio and television.

Griggs, Cooper & Co. began in 1882 as a wholesale feed house. Ted Griggs is the fourth generation of his family in the business. His father, Milton W. Griggs, is president.

Joins Firm in '38

After St. Paul Academy and Yale schooling, he spent a year with General Foods in its New York office. Then he entered the family firm in 1938 as a student salesman.

Through an unassuming willingness to work, Mr. Griggs rose to become branch manager and assistant to the sales manager before enlisting in the Air Force in 1941, before Pearl Harbor.

His service career included the initial B-29 bombing mission over Japan out of China. He won the Air Medal with three clusters, the Distinguished Flying Cross and the rank of major. He rejoined the firm's liquor division.

The company today consists of four divisions. Mr. Griggs' job is supervision over sales and advertising of three divisions, those of Home Brand, Minuet Crackers and Sweetest Maid specialty food products (selling candy to 42 states).

At the time Mr. Griggs stepped into the top sales role, major policies were being changed to keep apace with changing times. With typical thoroughness, he evaluated every sales route, account by account.

Six-foot three-inch Mr. Griggs devotes his spare time to his family. He has three boys, aged 7, 4, and 20 months. He also likes golfing, sailing and hunting.

K&E BILLINGS UP

As Lewis Assumes Presidency

WILLIAM B. LEWIS, newly-elected president of Kenyon & Eckhardt, N. Y., [BROADCASTING • TELECASTING, Sept. 24], last week assumed his duties in that capacity with the addition of two new accounts totalling close to a million dollars, plus several personnel changes.

Mr. Lewis

Mr. Lewis, who started with K & E in 1944 as vice president in charge of radio and a member of the plans board, rose rapidly. In 1948 he was named administrative executive and supervisor of the Ford and Lincoln-Mercury accounts. Prior to 1944 he was with the OWI in Washington and before that, with CBS as vice president in charge of programming.

With the appointment of the Hudson Pulp and Paper and Mennen Products Co., the agency will benefit by one million dollars. Both accounts used radio and television.

Dwight Mills, who moves from president of the agency to chairman of the executive committee, was also named account supervisor for Mennen. Grayson Lathorp was appointed account executive; B. Allen, assistant account executive; J. Campbell, radio and television copy, and Bruce Dodge, radio and TV production for the Mennen account.

Among the additions to its personnel are Tom Frank, assistant sales service manager of TV at CBS-TV, who becomes business manager of the radio and television department; and Norris D. Konheim, formerly with Grey advertising, to the copy department.

Gerald Link, vice president and art director, has been elected a member of the board of directors.

In addition, all agency copy writers were transferred to the radio and television production department, under supervision of Garth Montgomery, vice president in charge of radio and television.

Howard F. Vickery

FUNERAL services were held last week for Howard F. Vickery, 50, assistant director of UNESCO relations for the State Dept. and liaison between the department and radio, television and other media representatives. He died of a heart attack in his home Sept. 23. A former newspaperman, Mr. Vickery was active principally in UNESCO public information and organization activities.

LORD Mayor of London, Sir Denys Lawson, addressed radio audience as well as his hosts, The Pilgrims of the United States, when he spoke at Waldorf-Astoria, New York, Sept. 18. Speech was carried by CBS-Radio.

His ear is to the ground

"Legwork" takes many forms in establishing the facts for a Fulton Lewis, Jr. news story. He keeps his ear to the ground—and the phones—to fit the pieces into an informed commentary. As Mr. Lloyd A. Brown, of the General Appliance Co., wrote to station KWWL of Waterloo, Iowa:

"The news coming out of Washington these days is of primary concern to all of us. Fulton Lewis, Jr. does an excellent commentary on this news, and the comments of our customers certainly bear this out.

"Our firm has shown a substantial increase in business over the comparable period last year since our sponsorship. We feel that this increase must be attributed, at least in part, to the program.

"We are well satisfied with the results and plan to continue our sponsorship indefinitely."

For network prestige and a ready-made audience, investigate the locally-sponsored Fulton Lewis, Jr. program. Though currently presented on more than 370 Mutual stations by 572 advertisers, there may be an opening in your locality. Check your Mutual outlet—or the Cooperative Program Department, **Mutual Broadcasting System**, 1440 Broadway, NYC 18 (or Tribune Tower, Chicago, 11).

When You're an Independent Advertiser You Make More Sales

Leading independent radio stations are today's best buy!

There's something about being *independent* that keeps you toughened up, ready to tackle any job that requires good, honest, hard selling. At any rate, you will find in radio today it's the leading *independent* radio stations which are doing a truly productive sales job for national advertisers. Perhaps you've been thinking to yourself, "I ought to try *Independent Radio*." Well, now's the time to act. Write for all the facts to any AIMS station listed below.

JUST READ WHAT THESE INDEPENDENT THINKERS SAY:

"We are increasing our radio schedule with KCBC because we know that our announcements have been very effective and are most important in the promotion of our business."

—To Radio Station KCBC
Des Moines, Iowa

POLITICAL SHOWS

MULTIPLE issues which have the political broadcast question were lumped together in one bill and dropped in the legislators' laps last week.

The new bill seeks a clearly-defined path in the cluttered impasse. It was introduced in the House by Rep. Walt Horan (R-Wash.).

Rep. Horan's bill (HR 5470) spells out in no uncertain terms what the use of broadcasting facilities by candidates for public office would be under the Communications Act.

It goes further than the bills introduced earlier in Congress on political broadcasts. While the bills, (S 1379) introduced by Sen. Ed C. Johnson (D-Col.), and (HR 4240) by Rep. Mike Mansfield (D-Mont.), would bring any person "authorized" by a political candidate to speak for and on his behalf

under the same coverage of the Act as it pertains to the political candidate himself, the new bill is even more specific.

The Horan bill:

(1) Denotes legally qualified candidates "in a primary, general or other election."

(2) Specifies that an authorization to speak in behalf of a candidate must be in writing.

(3) Directs that the broadcaster would have no power to censor or alter in any manner control the material so broadcast.

The legislation also would not make the broadcaster liable in any civil or criminal action in any local, state or federal court for the broadcast of the material.

The bill is designed to clear up such dilemmas as that created by the courts in the *Felix vs. Westinghouse* case [BROADCASTING • TELE-

New Bill Introduced

CASTING, April 23]. In that case, the court ruled the Communications Act does not prohibit stations from censoring talks by persons who are not candidates. The Supreme Court later refused to review the lower court's decision.

The bill would amend Sec. 315 of the Act. Pertinent parts of the bill read:

Sec. 315 (a) If any licensee shall permit any legally qualified candidate for any public office in a primary, general, or other election, or any person authorized in writing by such candidate to speak on his behalf, to use a broadcasting station, such licensee shall afford equal opportunities in the use of such broadcasting station to all other such candidates for that office or to persons authorized in writing by such other candidates to speak on their behalf.

(b) The licensee shall have no power to censor, alter, or in any manner control the material broadcast by any person who is permitted to use its station in any of the cases enumerated in subsection (a) or who used such

station by reason of any requirement specified in such subsection; and the licensee shall not be liable in any civil or criminal action in any local, state, or federal court because of any material in such a broadcast, except material personally uttered by the licensee or by any person under his control.

It has been pointed out in legislative quarters that subsection (b) may be subject to open fire since there are state libel laws to contend with. Thus, a conflict in law between the state, on the one hand, and the federal government on the other, would be created.

In the *Felix* decision, it was inferred that the broadcaster would be held responsible for the libelous matter which a supporter of a particular candidate utters on the air.

In FCC's famous *Port Huron* ruling, it was indicated the policy of equal time and "no power of censorship" would apply as well to those who spoke on behalf of candidates.

The bill was referred to the House Interstate & Foreign Commerce Committee. It is doubted whether that committee will be able to get to the Horan bill since it is deep in the McFarland bill to streamline FCC procedures, a task that should consume most of the time left before expected adjournment of Congress this month.

HARRIS NAMED

C-P-P Radio-TV Head

LESLIE HARRIS, NBC sales program manager for the past two years, resigns his post October 1 to become director of television and

radio for the Colgate-Palmolive-Peet Co. In his new capacity Mr. Harris will be supervising \$20 million worth of radio and TV shows. Among them the *Colgate Comedy Hour*; *Howdy Doody*; *Miss Susan*;

Mr. Harris

Strike It Rich; Mr. & Mrs. North and others.

Prior to his association with NBC, Mr. Harris was with Benton & Bowles, N. Y., and before that with CBS. Mr. Harris succeeds James C. Douglass who resigned as coordinator of radio and TV advertising for Colgate-Palmolive-Peet Co. to become vice president and director of radio and television for Erwin, Wasey & Co., N. Y.

Arnold Loewy

ARNOLD LOEWY, 73, founder of Loewy Adv. Agency, one of the oldest agencies in New York, died Tuesday at his home in Brooklyn. Mr. Loewy had not been active in the firm in recent years. Surviving are his wife, Mrs. Bertha Kauffmann Loewy; two sons, Henry H., and Albert T., and a sister, Mrs. Hannah Ghinger. Funeral service was held Wednesday.

Markets Grow Fast, too Norfolk Metropolitan Sales Area Population Increases 60% Since 1940

When you consider your markets for fall advertising, the Norfolk, Portsmouth, Newport News Metropolitan Sales Area is a must for any list. WTAR, WTAR-TV, or both will bring your message to every home in the area.

Population is up 60% since 1940*, making this the fastest growing market in the top 30 of the U. S. In fact, it is now 29th in the nation in population. In Norfolk-Portsmouth total retail sales are up 8.2%, food sales up 4.5%, furniture, household, radio sales up 19.2%, automotive sales up 44.2%. In Newport News, total sales are up 14.1%, food sales up 5.5%, furniture, household, radio sales up 20.0%, automotive sales up 66.1%.**

Check any Hooper and you'll see that WTAR is the preferred station in Norfolk, Portsmouth, and Newport News. In fact, WTAR delivers more listeners per dollar than any other station or combination.

Ask your Petry man for availabilities to cash in on this growing market.

SCBA STORY

So. Calif. Promotion
Shown New York

THE STORY of Southern California radio—"where mass and class unite in a perfect marketing marriage and radio advertising performs the ceremony"—was detailed in New York last week as the Southern California Broadcasters Assn. launched a multimarket campaign among advertisers and agencies.

SCBA Managing Director Robert J. McAndrews, who is directing the showings, emphasized that SCBA's cooperative radio-promotion venture is one which can—and should—be emulated by sectional groups of broadcasters throughout the country for the advancement of the entire radio medium, with BAB handling the job on a national basis.

Assisted by SCBA members who will serve in shifts of one or two weeks, Mr. McAndrews planned to present the Southern California radio story to advertiser and agency representatives in New York at the rate of four presentations a day for about two weeks, following with similar showings in Philadelphia, Chicago, Minneapolis and Cincinnati.

The SCBA presentation emphasized that advertisers "get more for (their) money from radio." In the Los Angeles metropolitan area alone, it is pointed out, "you can buy a Class A quarter-hour on all 20 . . . AM stations for \$1,574—less than a page in any one of the three leading Los Angeles dailies."

The Southern California area consists of 11 counties with a total population of 6,157,500—representing a population increase of 57% since 1940 as against a national average of 15%. Here, it is noted, retail sales have gained 254% since 1940 as against a 200% gain over the nation as a whole.

Consists of 11 Counties

In Southern California, the study continues, the number of radio families has gained 28% since 1946, so that today radio circulation "is just 1% less than everybody." With 857,900 automobile radios, the study asserts, the two-county Los Angeles area has more than any other single market.

The study cites figures to show that families in the Pacific time zone are spending more time with radio per day—3.87 hours, as compared to a national average of 3.76—than with television (1.43 hours), newspapers (1.23), or magazines (0.35).

Though the number of hours spent with radio per day per home is down 16.6% in the Pacific time zone, the study continues, total hours of listening are up 6.3%. Since only a few stations have increased their rates, therefore, "Southern California radio, on a cost-per-thousand basis, is a better buy now than ever before," Mr. McAndrews asserted.

The presentation placed out-of-home listening in metropolitan Los Angeles as highest in the nation, estimating it adds a 20% "plus" to average in-home sets-in-use.

The study said basic Class A one-hour rates on Los Angeles local

channel stations average \$65 as compared to \$168 in the next eight smaller markets; on regional stations, \$238 as compared to \$312, and on clear-channel stations, \$550 as compared to \$570.

Where the cost-per-thousand for a Class A full hour averages \$0.53 on Los Angeles clear-channel stations, a full page in the area's largest daily is placed at \$4.79 per thousand noters and in the smallest daily, at \$2.83. On the highest TV station, the cost per-thousand is put at \$1.85; on the lowest TV station, \$0.70.

As "best testimonial," the presentation cited an SCBA survey, covering 23 Southern California stations, which showed 18 with January-June revenues running ahead of those for the same 1950 period by an average of 35%; three running behind by 1, 7, and 20%, and two reporting no change [BROADCASTING • TELECASTING, Sept. 17].

The study concludes by citing case histories demonstrating radio's effectiveness in boosting sales of a wide variety of products.

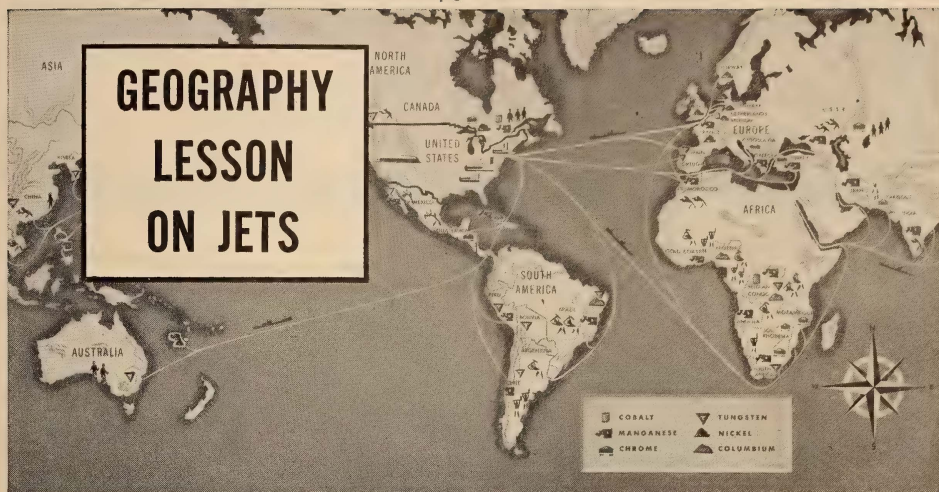

Kickoff presentation of the SCBA study for New York trade newsmen was held at BAB headquarters Monday afternoon. Stan Sperto of KFAC Los Angeles accompanied Mr. McAndrews for the first week's showings. Other SCBA representatives will alternate in assisting him at future presentations.

WXXW POWER CUT FCC Favors 1 kw Night

REDUCTION in nighttime power from 10 kw to 1 kw for WXXW Albany, N. Y., was proposed in an initial decision by FCC Hearing Examiner Fanney N. Litvin last week. The station has been operating on 850 kc with 10 kw fulltime under FCC program test authorization. Objectionable interference with KOA Denver and WHDH Boston is the reason for the reduction. KOA and WHDH also operate on 850 kc, each with 50 kw fulltime.

The hearing examiner's decision denied WXXW's bid to modify its construction permit to change its directional array. The examiner felt the proposed change would not reduce the objectionable interference to KOA and WHDH. She ordered WXXW's nighttime power reduced to 1 kw. The daytime 10 kw power was unaffected.

CONSOLIDATED net income of International Telephone and Telegraph Corp. and its subsidiaries for the six months ended June 30 amounted to \$8,693,096, showing increase of \$3,720,800 over corresponding period of 1950

The rush to re-arm makes scarce metals scarcer. This affects every user of steel products in the world. Whether you operate a machine, drive an automobile, a truck, a tractor, a tank or an airplane, your life is inseparable from the struggle to maintain an open road to the essential metals of the world.

1 SOURCES OF ESSENTIAL ORES used to make the tougher alloy steels needed for jets and for all precision machines are shown on this map.

2 STRICTLY HOME-COOKED: Picture shows workman finishing new type jet engine designed to use only those materials found in the Western Hemisphere.

3 MOLECULES MAY BE TAUGHT to align themselves in proper order with smaller quantities of the traditional alloying elements needed. Picture shows start of a chemical process used to harden steel. Steel companies are rushing experiments to find substitutes for scarce metals in alloying processes.

Are you interested in knowing more about the hundreds of things that are being done to "stretch" supplies of scarce metals? We'd like you to know something of the promising new use of boron in steel making. Also the search for tungsten is interesting. For carefully prepared background material write American Iron and Steel Institute, 350 Fifth Avenue, New York 1, New York. Ask for "SCARCE METALS" reprint from Steelways Magazine.

FIGURES* SHOW
wherever you go... there's Radio!

NUMBER OF UNITED STATES HOMES WITH RADIO SETS

1949 — 42,000,000 • 1950 — 45,000,000

TOTAL RADIO SETS IN USE IN UNITED STATES

1949 — 81,000,000 • 1950 — 90,000,000

Radio's use and popularity have increased steadily ever since commercial broadcasting started in 1920. And today, more people listen to radio than ever before in its phenomenal history. No other medium of entertainment and public service can show such astonishing growth and widespread acceptance. Evidence that radio has become an integral part of everyday life to the average American is the fact that, in addition to the millions of home radios, 17 million automobiles (47% of the total on the road

today) have radios installed. The success of radio is a tribute to the faith and loyalty of the American people as listeners, as well as to the initiative and foresight of the American people as broadcasters and advertisers. The concentration of radio in the home and overall sets-in-use is so great that public acceptance of radio is virtually 100%. It is no wonder, then, *that radio is America's greatest entertainment and public service medium.*

and FIGURES* SHOW THAT ADVERTISERS AGREE
wherever you go... there's Radio!

*Broadcasting Yearbook 1951

RADIO NET TIME SALES

1949 — \$425,357,133 • 1950 — \$453,605,722

RADIO GROSS BILLINGS

1949 — \$629,000,000 • 1950 — \$676,173,000

There must be a reason for this substantial increase in radio advertising expenditures ... and there is. Advertisers and time-buyers know from experience that radio reaches more people more effectively, and at lower cost than any other medium. Consequently,

they know their radio advertising delivers the sales results they want. And the consistent increase in radio billings each year since the 1930s demonstrates radio's popularity with sponsors. More than ever, *radio is America's greatest advertising medium.*

Sarnoff Symbol

LAST WEEK a man of 60 observed his 45th anniversary in radio. The man is David Sarnoff. He didn't invent radio, but, next to his bosom friend, Marconi, he had more to do with its development (and the development of electronics generally) than any other individual in history.

The saga of Sarnoff—from immigrant boy to board chairman of the largest entity in electronics—has been told many times. He is one of the most publicized men in America, if not the world. At 60 he is in robust health. He keeps busy. RCA and its far-flung subsidiaries constitute the most important unit in electronics. Gen. Sarnoff is the most important individual in RCA.

At Princeton last Thursday, David Sarnoff's 45th anniversary was commemorated. The RCA Laboratory there was named "David Sarnoff Research Center." One day it will stand as the symbol of the man most responsible for the Electronic Age.

... From Little Acorns Grow

FOR YEARS outstanding figures in public life have proclaimed that radio should be "as free as the press." Early in his first administration, President Roosevelt called for it. President Truman followed suit. The Republicans and the Democrats, in their party platforms, have given lip-service to radio-press parity.

But there has never been a court decision to implement those expressions—until last week.

The ruling came on the plea of a 250 w independent station in a secondary market. The issue was the right of the station (WJLK Asbury Park, N. J.) to pick up a city council hearing on a proposed ordinance imposing a luxury tax in the resort city. The Mayor and a majority of the City Council opposed the broadcast.

For intrinsic merit and judicial substance, the decision might just as well have involved the right of networks to broadcast public hearings of the erstwhile Kefauver Crime Committee. Superior Court Judge C. Thomas Schettino, after observing he had no precedent to guide him, held that radio news comes within the basic meaning of the *press* under the U. S. Constitution; that radio news reporting should enjoy the same privileges as newspapers. And he added:

On the basic human interest, our country spends millions of dollars broadcasting its civilization, through the Voice of America to peoples who are slaves in suppressed nations. Yet when we have an opportunity to do the same to some of our unenlightened local citizens we object because it is something novel or something new. **** The greater the light that can be imposed on public affairs, the better will our country be run by the officials who are elected or who are chosen to do the work.

In the news vernacular, we suggest to the higher courts, the Congress and the platform committees of the major parties, "please copy" Judge Schettino's opinion. And to the *Asbury Park Press*, and its WJLK, our congratulations for their courage in defending the sanctity of a free American radio—"as free as the press."

ANAesthetized!

THE UTTER INEQUITY existing between radio's research services which mercilessly expose the medium in minute-by-minute detail and the infinitely less informative research techniques used by printed media was never more clearly shown than in a speech by Paul West, of the ANA.

In an effort to turn aside some of the criticism raised by the ANA's three reports on radio values, Mr. West said that his organization was "no less interested in the effect of television on the advertising audiences of magazines and newspapers . . . than on those of radio."

But the reason that ANA had not produced reports on those media comparable to its reports on radio, he said, was that although there was plenty of information available on radio from independent sources (i.e., Nielsen, Hooper), there was no similar data to be had for newspapers and magazines.

No greater stimulation could be found than this to arouse a campaign to make advertisers demand comparable research from all competing media. Indeed it's their duty as prudent businessmen.

The kind of research toward which all radio should be moving is reported in this issue on page 25. The Kemper survey in Louisville put radio on an equal footing with other media, investigating the nature of all. And radio came off better than its competitors.

The longer radio permits itself to be examined in detail while other media show only their prettiest parts, the longer radio will be inviting its own destruction.

That T-L Stigma

OVER THE years, one of the most vicious practices indulged in by the FCC, wittingly or unwittingly, has been the device of the "temporary license." Sometimes meted out as a punitive measure, and sometimes innocently enough because a station has been "under investigation," the temporary license has been an automatic signal for competitive stations to raid the business of the stigmatized outlet.

It is most welcome news, as reported in this journal last week, that the FCC plans forthwith to cut into the back-log of some 150 "temporaries" [BROADCASTING • TELECASTING, Sept. 24]. The Commission has recognized the inequities that grow out of the temporary license. Staff members, in extenuation, cite the long-delayed FCC functional reorganization as a retarding factor. And, as always, it's contended that personnel shortages stemming from budget limitations have contributed to inordinate delays.

The current bumper crop of "temporaries" is mainly attributable to investigations dealing with horse race broadcasts, purported anti-trust violations, the whole question of what to do about specialized FM services like functional music, transit-casting and store-casting. These, it's now reported, are near decision.

There has been an appalling lack of uniformity in the handling of temporaries. Only those stations whose licenses happen to come up for renewal while a topic is under investigation now hit the FCC "blotter." That's the method the FCC has used from the beginning in placing the burden of proof on the station.

The immediate need is to get as many innocent stations as possible off the hook. In the process, we hope the FCC evolves a permanent solution for the temporary license problem.

our respects to:

CARLIN SCOTT FRENCH

A VICE PRESIDENT of H-R Representatives, Chicago, dictated a letter last week that was 11 years overdue.

It was a thank-you note for advice given indirectly more than a decade ago by Writer Clarence Buddington Kelland.

Carlin Scott French, the H-R vice president, read a Kelland short story in 1940 in the *Saturday Evening Post* which gave him the "foresight" to make a business move that clinched his radio career. He was in the midst of his first radio venture—a partnership in WTMV East St. Louis, Ill.

Business had been bad. So bad the telephone and power companies threatened cancellation of service.

Reluctantly, he faced three alternatives: (1) selling out to his partner, (2) buying his partner's stock, or (3) declaring bankruptcy.

On the night he had to choose, he thumbed through the *Post*, saw the Kelland story and read it word for word. The methods of an ambitious and ingenious businessman touched off his own ingenuity, and the next morning he found a fourth—and successful—alternative.

He talked with the president of the local bank for half an hour and walked out with \$30,000. Carlin French bought the rest of the station "and made money the first month and every month after that" as long as he owned it.

Mr. French elected radio as his career after crediting it with the demise of the old Chicago *Herald-Examiner*, for which he was advertising director. Despite his efforts, radio's inroads became increasingly evident and the paper ultimately was reduced to tabloid size and then folded.

His pre-radio history with the Hearst newspaper empire had been energetic and varied.

He first worked for the *Herald-Examiner* after graduation from the Chicago Academy of Fine Arts. Convinced since the age of 6 he would be a career cartoonist, he aroused the ire of both parents with his preoccupation.

Born in Lexington, Ky., Mr. French spent most of his youth in central Illinois towns, mainly Virginia, where his father was a Church of Christ minister. Wherever the church, young Carlin could be found mid-sermon sketching in the hymn book. Outside church, he concentrated on scratch paper, walls and old letters.

While still in grade school, he invested in a cartoon correspondence course the money he earned as a grocery clerk (starting at 5 a.m. and working until midnight each Saturday for

HOW TO KEEP 'EM DOWN ON THE FARM

If you had a cash income of over 2 billion dollars last year you'd stay on the farm, too. And that's how much *cash* Canadian farmers took in during 1950.

Farming is big business in Canada, and it's carried on in practically every section of the country. Everyone knows about the grain farms of the Prairies, but Canada grows everything from apples to soybeans. In the south of Ontario tobacco is the big crop, while in British Columbia the whole Okanagan Valley is a giant orchard. And don't forget Canadian cheese and bacon, there's always a steady export market for these.

In just twenty years the farmer's income has risen over 450%. They're spending money, too, for cars, radios, furniture, in fact anything that a city home would have.

For the past few years the rural areas have accounted for over 40% of all Canadian retail sales, and unfortunately, many manufacturers have missed this rich market by putting all their advertising eggs in the city basket. There's only one medium which reaches with equal effect the reader of the city daily, the small town weekly, and the farm paper. That's *radio* which ignores distance and delivery routes. In many rural areas radio is the only dependable mass medium.

So just figure how much of the Canadian farm market should be yours, and then remember:

"In Canada you sell 'em when you tell 'em!"

A message from the 103 member stations of the

Canadian Association of Broadcasters

whose voices are invited into over 3 million homes every day.

Respects

(Continued from page 60)

the farm trade).

An only child, he whipped around Virginia (pop. 2,000) in a Model T Ford and regretted leaving high school for nearby Eureka College because Virginia boasted twice as many girls as boys.

"When you're in high school and have a Model T, that's the most important statistic in your life," he says.

After two years at Eureka he went to the Chicago Academy of Fine Arts. Two years later he was free-lancing as a layout artist for International Harvester Co., Oscar Mayer meat products, Pine Bros. cough drops and Sara Lee salad dressing.

At the age of 22, he was "earning \$300 a week but collecting \$20."

That was when he aligned with the *Herald-Examiner* as author-artist of a cartoon strip, "The Alden Family," featuring a capricious grandpa, romantic girl and a small lad. The series ran six months, until "one of the many editors caught up with me."

He confined himself to sketching for two of the paper's weekly magazine supplements distributed to real estate and used car dealers, finally ending up as editor, writer, makeup man, circulation manager and publisher. To complete his one-man operation, Mr. French began selling advertising and handling promotion. In another move upward, he was hired as supervisor of the "boiler factory," the name given to the paper's classified ad department telephone room.

Advances With Papers

Five years of this led to duties as classified advertising manager of the *Daily Oklahoman* and the *Oklahoma City Times*, morning and evening papers published by one company.

He loved Oklahoma life—"The climate was perfect, the people the nicest I ever met." But—"I never heard a train whistle that I didn't want to leave. It was so far from every place."

He snapped up an offer as assistant classified ad manager of the *New York Journal American*, another Hearst paper. Two years later, when the late William Randolph Hearst ordered the Chicago *Herald-Examiner* to carry more classified ad lineage than any other paper in the world, Mr. French was dispatched westward to tackle the job.

In a year, with the aid of 200 salesmen, he accomplished the feat. And he then became advertising director.

The same purposefulness and daring guided his steps at WTMV. Asserting that his station was "not going to be all things to all people," he analyzed the St. Louis competition and the kind of entertainment people wanted. He noted the "home-folks" quality of the people and that every tavern in the area

hired western and hillbilly musicians each weekend. His station was the first locally to program that kind of music.

Moving into sports as the WTMV audience mushroomed, he snared an exclusive St. Louis Cardinal baseball contract, with Dizzy Dean, the star pitcher, announcing. He added Rogers Hornsby, who holds the all-time batting record, and Grover Cleveland Alexander, a famous pitcher, to narrate live sportscasts.

Combining his knowledge of radio and newspapers, Mr. French joined Lorenzen & Thompson at Chicago headquarters to carry out the assignment of establishing a radio department to represent stations. The firm, which maintained nine offices, previously only represented newspapers. In 1948, Mr. French joined Transit Radio as western sales manager, headquartered in Chicago.

When Transit Radio was absorbed by H-R Representatives he became a vice president. Mr. French maintains several other radio interests and is a major stockholder in WATO Oak Ridge, Tenn., which he helped put on the air. He and his wife, Chubby ("who isn't, so I can call her that"), live on the city's near north side.

They both "play at golf." Chubby has three strokes to go "before she beats me, and then I'll quit."

They like to take their vacation in the winter and last year went to Havana. This year, because of business, they've been restricted to watching hula dancers on TV and scanning travel folders.

New KNEM Building

KNEM Nevada, Mo., celebrated its second birthday last month by moving into the new KNEM Bldg., located on a nearby hill at the transmitter site. William R. Tedrick, KNEM general manager, drew the plans and supervised construction of the new concrete and masonry structure. The building contains complete studio, office and transmitting facilities. KNEM, owned by the Missouri Broadcasting System, operates on 1240 kc fulltime with 250 w.

NEW FACILITIES TO BETTER SERVE YOUR NEEDS

Look at these features of the new 5/10 KW AM Transmitter*

- For the first time in any commercial transmitter, Continental's improved high-efficiency amplifier incorporates equipment for matching the transmitter output to sharply tuned loads encountered in directional arrays.
- Exclusive of the automatic voltage regulator, the transmitter is completely self-contained, thus simplifying installation.
- Full, unobstructed view of all functional equipment is possible through the new "Transview" cabinet design and handsome vertical chassis construction. All components are forced-air ventilated.
- MAXIMUM STABILITY of tuning assured by vacuum-type capacitors in output stage.
- HUM-FREE OPERATION of control system through DC-operated relays.

DPA TASK FORCE

Attacks Radio-TV Unemployment

THE GOVERNMENT is taking concrete steps to alleviate growing unemployment among the nation's mass-production electronic firms.

In recognition of the acute picture confronting home radio and TV receiver plants in New York, Philadelphia and Chicago, the Defense Production Administration has appointed a special Electronics Task Force, with a view toward channeling more defense contracts to these plants.

Edmund T. Morris, who shifted his duties from Westinghouse Electric Corp., Baltimore, Md., to the government earlier this year, was named chairman by Manly Fleischmann, DPA administrator. Mr. Morris also is chairman of the government's Electronics Production Board and the Electronics Product Division of the National Production Authority.

Appointment of the special group was prompted by widespread industry disruption caused by the time lag between commitment and actual placement of military orders for electronics equipment. Another prime factor has been repeated cutbacks in civilian goods leaving a slack in plant production and resulting in unemployment.

The task force met initially Sept. 21 under the chairmanship of Mr. Morris and faced squarely up to reports that employment in home radio-TV set plants in those cities has dropped to about 50% of pre-Korean levels.

Serving under Mr. Morris will be Benjamin Abrams, Emerson Radio and Phonograph Corp.; Wil-

liam Balderston, Philco Corp.; Col. Leigh Hunt (USAF), Munitions Board, Dept. of Defense; M. F. Darling, IBEW (AFL) Chicago; Daniel Arnold, Radio-TV conference board, International Union of Electrical, Radio & Machine Workers (IUE-CIO), Camden, N. J.

The two labor representatives were asked to provide "accurate, current figures" on employment and production estimates for the fourth quarter beginning today (Oct. 1).

In announcing the appointment of the group, Mr. Fleischmann said it would study "the possibilities of placing additional defense work in the mass production plants of the electronics industry."

The establishment of the task force came only shortly after the Radio-Television Mfrs. Assn. agreed to set up a clearing house to aid in bringing together prime and sub contractors on defense contracts. The move was taken by RTMA's Small Business Survey Committee [BROADCASTING • TELECASTING, Sept. 24].

The whole scope of electronics production touching on military

contracts was reviewed by the task force in its first meeting. Many items, Mr. Morris' unit concluded, are not adapted to mass production techniques now existing for home radio-TV receivers for these reasons: (1) a "high degree of engineering" is required; (2) there is the factor of fluidity of design, and a high ratio of mechanical devices incorporated into delivered equipment.

Suggested Procedures

Here are other specific recommendations laid down by the Electronics units:

- Military procurement services should request prime contractors to place sub contracts in areas with a surplus of skilled labor and production facilities.

- Radio and television manufacturers should seek "aggressively" sub contracts, working through the armed forces regional councils.

- Defense agencies should monitor the placement of future contracts on heavily loaded prime contractors and study existing contract "loads."

- "Leader-type" contracts and provision of suitable incentives for prime and sub contractors should be encouraged.

- Production companies should be associated with design contractors from the time development contracts are placed.

- Manufacturers of electronic components should submit samples for testing by the Armed Services Electronics Standards Agency (ASESA).

NARBA CHANGES

Three Advise FCC

FCC REPORTED notice of new stations and assignment changes from three countries last week under terms of the 1941 North American Regional Broadcast Agreement.

Mexico, Canada and the Dominican Republic announced changes as follows (probable commencement dates in parenthesis):

MEXICO

XEDV Zapopan, Jalisco, new class II station, 700 kc, 500 w, daytime (Jan. 1, 1952).

XEFL Rio Bravo, Tamaulipas, new Class II, 1110 kc, 250 w, daytime (Jan. 1, 1952).

XEDT Durango, Durango, new Class IV, 1400 kc, 250 w, fulltime (Dec. 1).

XEFO Poza Rica, Veracruz, new class III-B, 1480 kc, 5 kw-day, 500 w-night (Jan. 1, 1952).

XEFF Matehuala, San Luis Potosi, new Class IV, 1490 kc, 250 w, fulltime (Jan. 1, 1952).

XEDJ Durango, Durango, SWITCHING from 1400 kc to 860 kc, 1 kw-day, 500 w-night (Dec. 1).

XEML Mexico, D.F., DELETED.

CANADA

CHBD Saskatoon, Sask., new Class II, 1170 kc, 1 kw, fulltime, directional (July 1, 1952).

CKOM Saskatoon, Sask., new Class IV, 1340 kc, 250 w, fulltime, non-directional (now in operation).

DOMINICAN REPUBLIC

HIST Santiago, switching from 1090 kc to 610 kc, 1 kw, fulltime, non-directional, Class II (Nov. 1).

HOB Bella Vista (Santiago), switching from 610 kc to 1090 kc, 250 w, fulltime, non-directional (Nov. 1).

HIV Bani, moving from La Vega. Still Class III on 1310 kc, 500 w, fulltime, non-directional (Nov. 1).

ADVISORY BOARD

Benton Plan Supported

THE BENTON plan to set up a National Citizens Advisory Board for Radio and Television made its appearance in the House last week.

Rep. Kenneth A. Roberts (D.-Ala.) dropped a companion measure (HR 5471) in the hopper last Tuesday. It was referred to the House Interstate & Foreign Commerce Committee.

The Congressman said he would speak with committee Chairman Robert Crosser (D.-Ohio) on the bill as soon as they could get together.

On the Senate side, where the Senate Interstate & Foreign Commerce Committee has held some hearings on the issue [BROADCASTING • TELECASTING, Sept. 10], there has been no action scheduled.

Rep. Roberts, in introducing the measure told BROADCASTING • TELECASTING, he did so because he felt that "television, and radio, too, are important as educational and public service mediums." He said he thought a study of trends in the industry would "assure protection for the public."

LUCIO BASCO, Rome correspondent for bi-lingual WOV New York, obtained exclusive interview from Italian Premier Alcide DeGasperi before the statesman sailed for U. S. Taped interview was played on WOV and distributed to five other Italian-language stations.

Miss Nancy Clifford
Newby and Peron, Inc.
Chicago, Ill.

Dear Nancy:

Hit shore pays ter build up a follerin' fer yer clients in th' markets which is steady right through prosperities, depressions, recessions, er what hev yuh! An thet's th' kind uv market Charleston, West Virginia — th' hometown uv WCHS — is! Yessir, Nancy, ther's all kinds uv industries here, an' thet means steady business! Why, th' chemical plants alone pays 75 million dollars a year ter their employees in this area—an' thet's oney ONE uv many industries here! Air you seein' to hit thet yer clients is well represented here! An' don't forget—WCHS gives yuh more uv these well-paid employees fer listeners then all th' other four stations in town put 'tether!

Yrs.

Revisions in the 1951 Marketbook

Editor's Note:

The 1951 BROADCASTING • TELECASTING Marketbook involved more than a million separate computations. In so prodigious an operation it was inevitable that there would be some errors.

We made a few—the corrections are printed on this page. With each is printed the page, column and place in the column where it should appear to make it easy for your secretary to insert them over the incorrect lines. Just clip off on the dotted lines, then, when you find the proper place, clip off the direction line printed in *italics*.

Page 7, Col. 2, South Carolina metropolitan areas, insert after Columbia:

GREENVILLE, 168,152 (1950 pop.); 136,580 (1940 pop.); 44,313 (1950 homes); 39,527 (1950 radio homes); 89.2 (% radio).

KRSC Defends Action

KRSC Seattle has been threatened with legal action by promoters of the Harry Matthews-Grant Butcher middleweight bout held on the West Coast.

The dispute between the station and the promoters grew from a radio blackout called by Jimmy Fitten, matchmaker, and the two fighters' managers in an effort to boost gate receipts. KRSC, however, re-created the bout round by round from the studio. This action precipitated the threat of legal recourse.

Ted Bell, KRSC program director, declared the recreation could not have cut into gate receipts because the fight was not broadcast until after its conclusion "and we did not plug our planned coverage until 6 p.m. the night of the fight."

Mr. Bell noted the station ran free spots during the week preceding the fight, urging listeners to attend, and telling them where tickets could be obtained.

WHUM HOLIDAY

Host to N.Y. Execs.

MAKING the trip in a chartered plane, New York agency time-buyers and officials of H-R Representatives were guests of WHUM Reading, Pa., at a "carnival party" in Reading fortnight ago. Hosts were Mr. and Mrs. Humboldt Greig and Mr. and Mrs. Arthur Heim of WHUM.

Among those who made the trip were:

Jayne Shannon, J. Walter Thompson Co.; Betty Powell, Geyer, Newell & Ganger; Frank Coulter, Young & Rubicam; Ruth Jones, Benton & Bowles; Murray Roffis, Maxon Inc.; Frank Daniel, Lennen & Mitchell; Helen Hartwig, Lucy Kerwin, Kenyon & Eckhardt; Don Quinn, Pedlar & Ryan; Jack Neale, Compton Inc.; Elenore Scanlan, BBDO; Ethel Weider, Biow Co.; Vera Brennan, Scheideler, Beck & Werner; Dick Fichthorn, Allan Lane, Jack Shuler, Johnny Deegan, Priscilla Pomeroy, and Mel Wayne, WHUM; Jean Carroll, Sullivan, Stauffer, Colwell & Bayles; Helen Wilbur, Doherty, Clifford & Shenfield; Robert Silvers, Hittin & Riegle; Frank E. Pellegrin, Frank M. Headley, Allan Kerr, Paul R. Weeks, H-R Representatives; Anne Small, Cecil & Presbrey; Betty Nasse, Dowd, Redfield & Johnstone; Mary Dunlavy, Harry B. Cohen Inc.; Robert Reuschle, McCann-Erickson; Fred Cusick, Dancer-Fitzgerald-Sample; Tom McDermott, N. W. Ayer & Son; Lillian Selb, Foote, Cone & Belding.

Coy Prediction

ADVANCES in electronics, particularly in radio, television and facsimile, will move freight and passengers with increasing speed and safety, Chairman Wayne Coy of the FCC predicted in an address marking the 100th anniversary of the sending of the first train order by telegraph. The ceremony was held in Harriman, N. Y. Chairman Coy speculated that whole yards or terminal areas might be made visible to a dispatcher by television with all activities observed by railroad executives.

NRFA POLICY

THE chiseling fringe is back at its nibbling, judging by scattered but violent reactions from broadcasters.

In the mountain states, Jack Paige, vice president of the 39-station Intermountain Network, blew his top when a letter arrived from National Retail Furniture Assn., Chicago. His explosion came when he read paragraphs advising retailers to buy newspapers space and solicit free radio time.

"I, for one, wonder just how long publicity organizations such as yours can expect to continue asking radio for free time while at the same time directing the attention of the retailer to the fact that his greatest medium is the newspaper," Mr. Paige wrote NRFA.

"You will be interested to know that your material has served one purpose . . . and that is an edict issued to all our commentators on the 39-station Intermountain Network never to use, under any con-

Paid Space, Free Time Plan Hit by Paige

sideration, any material supplied by any public relations bureau such as yours. . . . Also please be assured that the furniture stores in this town who have long recognized radio as one of their finest mediums will receive complete and thorough cooperation from this station in this, as well as any other promotions. Our cooperation with them will come through their recognition and not because of your threatment."

The furniture group recommended in a 12-page home fashion brochure that newspapers will get out special sections if retailers support it, Mr. Paige said. The

brochure then noted that radio stations will promote the home fashion campaign of NRFA—free.

An effort to buy station announcements at 50 cents each drew the wrath of Arthur J. Barry, president of WEOK Poughkeepsie, N. Y. Mr. Barry wrote Maurice Greenberg, of Eastern Wine Corp., New York, as follows:

In reply to your letter dated Sept. 19, requesting a schedule of 50 to 100 announcements at 50 cents each, wish to advise our maximum discount rate for one-minute spots is \$5 each. This is the rate now being paid by all our advertisers, including a competing wine advertiser.

I doubt very much if you would be willing to offer us a case of Chateau Martin wine at one-twelfth of the standard price.

ADVERTISING—merchandising offer under which sponsors may receive promotion of their grocery-store products in 250 Bohack Supermarkets in New York area has been announced by WOV New York.

Now it's here . . .

SAN DIEGO

ELECTIONS to determine the collective bargaining representative for certain technical employees at five San Diego, Calif., stations have been ordered by the National Labor Relations Board.

Stations involved are KFMB-AM-TV (Kennedy Broadcasting Co., formerly Jack Gross Broadcasting Co.), KCBQ (Charles E. Salik), KGB (Don Lee Broadcasting System), KSDD (San Diego Broadcasting Co.) and KSON (Studebaker Broadcasting Co.).

In all cases except that of KSON, employees will choose between NABET (CIO) and IBEW (AFL), or select neither. At KSON, NABET is the sole union involved.

A consolidated hearing was heard on NABET's five-station petition and affirmed by three members of the board. The elections will be held within 30 days after the date of direction, Sept. 27.

In the Don Lee case, IBEW in-

WMCA SPONSORS

Adds 17 New Accounts

SEVENTEEN new advertisers for both spot announcements and programs have been signed by WMCA New York.

Included in roster are:

Dexter Motors, through Henry L. Davis Co., N. Y., to sponsor *Football Huddle*, preceding Notre Dame football games, plus corresponding spot announcements; Philco Radio & Phonograph Corp. sponsoring Notre Dame football series, through Sternfield-Godley, N. Y.; Italian-Swiss Colony Wine, through Honig-Cooper, San Francisco, presenting quarter-hour *Football Scoreboard*, following all games on WMCA. Mutual of Omaha, through Roberts & Reimers, N. Y., sponsoring ten-minute segment of *Ted Steel Show*, Mon.-Fri., and Borden Co., through Young & Rubicam, N. Y., signs 13-week contract for nine weekly participations in same show; Caryl Richards Permanent Wave, through Emerson-Rogers, N. Y., weekly quarter hour.

New sponsors for Barry Gray post-midnight show include: Best Foods (Old Homestead salad dressing), through Benton & Bowles, N. Y.; Spain & Spain Furriers, direct; Master Yogurt, through Peck Adv., N. Y.; Dexter Motors; Mars Television, through Lester Harrison, N. Y., and Show-of-the-Month Club, direct.

Spot campaigns starting this month are: Dolcin Corp. (Kedrin), through Victor Vander Linde Co., 20 spots per week; River Brand Rice Mills, through Donahue & Co., N. Y.; American Safety Razor Co., through BBDO; Messing Bakeries, through Donahue & Co.; Florence Halpern Neckwear, direct; Lee Television, through Mar-free Adv., N. Y.

NLRB Orders Elections At Five Outlets

tervened for its Local 569, claiming that it originally had a contract covering employees at four Don Lee outlets, including KGB, on behalf of other union locals. The one-year contracts have been automatically renewed each year before June 30. Last April NABET notified the employer of its claim for representation and filed a petition. The AFL union protest was rejected by NLRB in favor of the CIO claim.

Taking each case, the board ruled that these comprise adequate units for collective bargaining:

(1) All engineering, technical and production employees at KFMB-AM-TV, excluding directors, producers, writers, announcers, talent and professional employees.

(2) All engineers and technicians at KCBQ, excluding the chief engineer and transmitter supervisor (supervisors under the Taft-Hartley Act), professional employees and other supervisors.

(3) All engineers and technicians, including the vacation relief man, but excluding professional employees and supervisors, at KGB.

(4) All engineers and technicians, including the chief engineer, but excluding professional employees and supervisors, at KSDD.

(5) All engineers and technicians, excluding professional employees and supervisors, at KSON.

Cost of Living

PRICES on television sets "generally" were lower in August than during the preceding month, the Bureau of Labor Statistics reported in a cost-of-living survey issued Sept. 21. The revised index of consumer prices, however, remained about 9% above the pre-Korea period and 185.5% of the 1935-1939 average, reflecting no change from the record mark set last July 15. Bureau said a drop in household furnishings and food items was more than offset by boosts in rents and tangible goods.

RCA TUBES ...

The standard of comparison

GOODBYE-rectifier worries!

You are looking at two of the finest mercury-vapor rectifiers your money can buy. Both tubes have identical electrical characteristics. Both are famous for long, trouble-free service. RCA-872-A fits jumbo power tube sockets. RCA-8008 fits super-jumbo, heavy-duty sockets.

Good-by service worries, too

Your RCA Tube Distributor is set up to give you "top notch" service on broadcast tubes. For fast tube deliveries... and the latest technical data... call him. He's as near as your phone.

RAYMOND S. PERRY, general sales manager Federal Telephone & Radio Corp., Clifton, N. J., elected vice president and director.

STANDARD RATE & DATA, moves executive and publishing offices to 1740 N. Ridge Ave., Evanston, Ill. Company sales office will be maintained at 333 N. Michigan Ave., Chicago, headed by J. W. WILLIAMS.

JOHN J. GLAVIN, production manager Cinecolor Inc., L. A., to Five Star Productions, Hollywood (TV film commercials), as general manager. Mr. Glavin will supervise all color work in addition to handling the coordination of firm's five production departments.

ALEXIS THURN-TAXIS, director CBS-TV New York, released from his contract. He has returned to Hollywood to become assistant to Louis B. Mayer, formerly MGM executive in charge of production, who recently established Beverly Hills offices.

HAL TATE, who syndicates *Who's Talking* for radio and TV out of Chicago, father of boy, Martin, Sept. 12.

WAYNE OLIVER, field representative, western section, TV Authority, named west coast representative protem, replacing **PETER PROUSE**, who recently resigned to join Jack Douglas Productions, TV film producers [BROADCASTING • TELECASTING, Sept. 10]. Other protem appointments include that of **HENRY REESE**, member of TVA Board and AGMA executive group as field representative. Second field representative is expected to be named at a later date. All appointments become effective Oct. 1. Final approval of selections awaits decision of national board.

TERRY SOUTHAIR, district manager Columbia Records Inc., named division manager in charge of greater New York, New Jersey, upstate New York and New England areas. **BILL O'BOYLE**, district manager, named division manager in charge of Middle Atlantic and Southeast areas. **BILL NEILSEN**, district manager, named division manager in charge of Middle West. **PAUL PEPPIN**, district manager, appointed division manager in charge of West Coast, Northwest, and Southwest.

R. RUSSELL PORTER resumes directorship of department of radio at U. of Denver. Mr. Porter returns after year's leave of absence to coordinate 25th anniversary of school's Social Science Foundation.

STANDARD RADIO TRANSCRIPTIONS SERVICES, N. Y., moves to new and larger offices at 444 Madison Ave., Suite 2008. Telephone: Plaza 3-4620.

Equipment . . .

JOSEPH P. GILLIES, vice president-operations of government and industrial division and director of TV and radio division Philco Corp., Phila., appointed vice president and general

manager of government and industrial division. **WILLIAM J. PELTZ**, manager of government and industrial operations, appointed vice president-operations of TV and radio division.

PENTRON Corp., Chicago (tape recorders), announces new duo-speed portable tape recorder. Recorder features new push button control. It is available with dual track or single track heads for broadcast use.

Technical . . .

HOWARD LEPPLE, chief engineer WLWD (TV) Dayton, appointed TV engineering administrative assistant of Crosley Broadcasting Corp. He will coordinate technical phase of three TV stations (WLWD, WLWC Columbus, and WLWT Cincinnati), and new TV plant construction. **J. M. MACDONALD** appointed assistant technical director of Crosley. He will supervise AM, FM and TV activities, including Voice of America plant. **LESTER STURGILL** replaces Mr. Lepple at WLWD. **CAL BOPP**, chief engineer WLWT, to Crosley Mfg. Div., to work on color TV.

HARRY GRELCK appointed field supervisor in charge of field operations for NBC's New York Radio Technical Operations, succeeding **MAX JACOBSON**, who has transferred to Television Technical Operations [BROADCASTING • TELECASTING, Sept. 24].

Dr. PETER C. GOLDMARK, vice president in charge of engineering research and development, CBS Labs, and inventor of the CBS color television system, was one of recipients of Color Award for 1951 from Rahr Color Clinic on last Monday's *Margaret Arlen Program* on CBS-TV.

LIONEL WITTENBURG and **HENRY SHEPPARD**, WTCN-AM-TV Minneapolis, named assistant TV studio supervisors. They will assist **JOHN M. SHERMAN**, WTCN-TV technical director.

JERRY JOHNSON, chief engineer WTWN St. Johnsbury, Vt., father of daughter, Paula Suzanne.

DONALD PIKE and **HERMAN FOLKERTS** named studio supervisors NBC TV network.

STATION BREAKS

KSTP Makes Special Offer

KSTP Minneapolis-St. Paul announced last week that effective immediately it is offering non-guaranteed-time station breaks (20 seconds) with all standard contract provisions applying at 50% of the regular station break rates.

Miller C. Robertson, KSTP vice president in charge of sales, said, "This service is available in all time brackets, in any quantity or frequency desired, and is definitely not 'floating time'."

NLRB RULING

On C-P-P in Puerto Rico

A UNIT of actors, actresses and narrators employed by the branch office of the Colgate-Palmolive-Peet Co. on its four Puerto Rico radio programs is appropriate for collective bargaining purposes, the National Labor Relations Board ruled last Tuesday.

The dispute involves the union, Gremio De Prensa, Radio y Teatro de Puerto Rico, which had requested the unit. The company contended the individuals are independent contractors and not employees within the meaning of the labor-management act. Only the firm's Puerto Rican branch office is involved.

In directing an election, NLRB bracketed in the unit "nonfixed" actors, sound effects men, emcees and a disc jockey but excluded commercial announcers, recorders and other employees. Election was directed within 30 days.

The employer advertises its products in Puerto Rico, according to the board, on four daily dramatic radio programs: *Fab Drama*, *Octagon Drama*, *Palmolive Theatre* and *Colgate Theatre*. Company maintains its own Radio Artists Department "to guarantee top talent," the board explained.

Some of the actors who appear on C-P-P programs also work for other sponsors and radio stations (not identified), but are precluded from appearing on any program sponsored by a direct competitor, it was explained.

Adams Named

JOHN ADAMS, chief engineer of of KFDX Wichita Falls, Tex., has been elected president of the National Assn. of Radio Engineers. Also elected are Bill Elkins, executive vice president; J. B. Edwards, treasurer, and Howard B. Culbertson, editor.

Mr. Adams

Thomas Hargis

THOMAS HARGIS, radio news writer for the State Dept.'s Voice of America and former newspaperman, died Sept. 23 of a heart attack. He joined the VOA news desk in New York last May after a long career with papers in New York, Philadelphia and Camden, N. J.

NON-EXCLUSIVE cross-licensing patent agreement between Western Union Telegraph Co. and Western Electric Co., making inventions of each company available to the other, has been announced. Western Electric signed also for AT&T.

From where I sit by Joe Marsh

Guess They Felt Pretty "Sheepish"

My wife and I went to Central City Saturday for the football game and it was a top-notcher. But I began to wonder if it was worth the trouble when we got in a traffic jam coming home.

Heavy traffic makes me mighty impatient. When I came to a side road that seemed to point towards the main highway, I turned onto it. This little road bumps along for maybe a mile, then fetches up short by the railroad—a dead end.

So, I turned around and darned if there weren't twenty cars behind me! One driver had followed—figuring I knew a short cut—then a string of them swung after him, like sheep.

From where I sit, there's no sense in just "following along." Whether it's choosing a road, a movie star, or what beverage to drink at mealtime, it's always better to make your own decisions. Personally, I often like a glass of beer with my dinner, but most of all, I like the freedom of making up my own mind about it!

Joe Marsh

CORRIDOR GROUP caught during NARTB District 10 session (seated, l to r): Ralph Evans, WHO Des Moines and WOC Davenport; Paul Loyet, WHO Des Moines; Paul Fry, KBON Omaha; Howard Peterson, KMA-KMTV Shenandoah-Omaha; Joe Hartenbower, KCMO Kansas City. Standing, George Kercher, Edward Petry Co.; George Smith, KFOR Lincoln; Bill Newens, KOIL Omaha; Robert K. Richards, NARTB; Greg Reesor, RCA Thesaurus.

DISTRICT 10 DELEGATION at Omaha (seated, l to r): Ralph Foster, KWTO Springfield; Frank Fogarty, WOW Omaha; Owen Saddler, KMTV (TV) Omaha; Henry Hook, KGLO Mason City. Standing, Don Kearney, ABC-TV; Chet Thomas, KXOK St. Louis; Cy Kaplan, World Broadcasting System; Ernest Saunders, WOC Davenport; Lew Van Nostrand, WMT Cedar Rapids; Don Davis, WHB Kansas City.

NARTB DISTRICT 10

INVASION of free enterprise by tax-supported institutions seeking to set up commercial radio and TV stations was condemned as "unfair competition and improper use of the taxpayers money," in a resolution adopted Tuesday by NARTB District 10, winding up its two-day meeting at the Hotel Blackstone, Omaha.

Such encroachments constitute "an attack upon freedom of the press, radio and television," the

district charged. Officials of Iowa, Nebraska and Missouri are to be notified of the convention's action, as well as educators and U. S. government officials. The district called upon officials "where such invasions have occurred to provide for their seasonable termination."

As at most of the current series of district meetings, attendance ran ahead of last year—127 officially registered as compared to 121 at the district's convention a year ago.

President Harold E. Fellows, of NARTB, discussed industry problems at a question-answer session and gave a formal address on "Radio in an Expanding Economy" at a joint luncheon held Tuesday with the Omaha Ad Club (see story this issue).

William B. Quarton, District 10 director, presided at sessions. On the Resolutions Committee were Joe Hartenbower, KCMO Kansas City, chairman; Ken Gordon, KDTH Dubuque, and L. L. Hilliard, KOLT Scottsbluff.

Richard P. Doherty, NARTB employe-employer relations director, discussed management yardsticks and conducted a workshop on staff and employment problems. Carl Haverlin, BMI president, and Oliver Gramling, assistant general manager of Associated Press, addressed the meeting. Mr. Gramling showed the AP news film.

Other resolutions adopted by District 10 condemned attempts to break down radio's rate structure; thanked Omaha broadcasters and Knights of Ak-Sar-Ben for hospitality; congratulated President Fellows and NARTB staff on their work; voiced appreciation of address by Don Kearney, ABC-TV New York; approved BMI clinics; lauded work of BAB; opposed Benton legislation; urged setting aside of time for state association sessions during future district meetings; endorsed administration of Director Quarton.

Richards Speaks

Robert K. Richards, NARTB public affairs director, told the delegates it was his conviction, based on NARTB studies and conferences with broadcasters, that the basic radio service must be news. He said development of sound local news coverage would lead to greater profit and prestige for stations. About 7% of station time is devoted to local news coverage, he estimated.

Mr. Kearney, speaking on spot TV programming, said the present program structure in daytime is

built around feature films, home economics and interview shows, sports matinees and audience participations.

Local TV program costs could be kept within reasonable bounds, he said, by astute programming direction. In the evening on local time most program structures include sports shows, news, musical variety programs and "owl" movies, he said, with some late film periods having outstanding ratings. Mr. Kearney advised TV broadcasters to keep spot rates competitive with network rates.

Discussion at the TV panel session started with a query from W. H. Clark, KFSB Joplin, on the cost of running a TV station in a small market. Charles H. Tower, NARTB assistant employe-employer relations director, said NARTB studies indicated around a \$1,000 daily minimum. He said NARTB had found in its latest TV cost study that a small group of TV stations were being operated under \$200,000 a year, but not much under that figure.

Ralph Foster, KWTO Springfield, asked how long present-day cost estimates on TV would stand. He was told costs undoubtedly will increase. Owen Saddler, KMTV

Omaha, and Frank Fogarty, WOW-TV Omaha, answered other questions.

Asked about the Broadcast Measurement Bureau situation, NARTB President Fellows said about \$112,000 is still owed, with NARTB to recover around \$10,000. No further assessments will be made on NARTB members, he said.

Ed Breen, KVFD Fort Dodge, asked about the status of Broadcast Audience Measurement. Mr. Fellows said BAM is still alive but lack of industry endorsement has precluded any definite action thus far.

Chet Thomas, KXOK St. Louis, asked Mr. Fellows what NARTB is doing about the the Assn. of National Advertisers rate battle. Mr. Fellows said NARTB has kept out of active participation but declared the affiliate's committee is "very active." Later a resolution was adopted which condemned groups trying to depreciate the medium.

Fellows Answers Questions

Replying to a query by George Higgins, KMBC Kansas City, about NARTB's attitude on state broadcasters associations, Mr. Fellows said state groups are highly important, particularly from the legislative standpoint. He endorsed their work "enthusiastically."

At the Broadcast Advertising Bureau clinic Tuesday afternoon William B. Ryan, BAB president, urged broadcasters to commit themselves now to BAB membership after BAB and NARTB are completely separated next April. He indicated BAB's budget next year will run between \$350,000 and \$400,000, with American Newspaper Publishers Assn. operating with a sales budget of around \$125,000.

Members of the BAB panel were G. Pearson Ward, KTTS Springfield; Arden Swisher, KOIL Omaha; Lew Van Nostrand, WMT Cedar Rapids, and Richard W. Evans,

SIX-MAN SEGMENT of NARTB District 10 convention (seated, l to r): Harry Burke, KFAB Omaha; Arthur Church Jr. and George Higgins, KMBC Kansas City. Standing, Earl Dougherty, KXEO Mexico, Mo., Jerry Gill, Associated Press; Bill Stubblefield, Associated Program Service.

KCMO Kansas City. Lee Hart, KCB assistant director, spoke on sales aids.

Col. George A. Duerr, Fifth Army information section headquarters, pointed to the importance of verifying facts in the case of military news.

WQAN SWITCH

Denied by Initial Decision

SWITCH to 1450 kc from 630 kc was denied WQAN Scranton, Pa., in an initial decision by FCC Hearing Examiner Hugh B. Hutchison last week. The station had requested 250 w fulltime on 1450 kc. It is now operating with 500 w daytime only on 630 kc.

The examiner concluded the proposed operation would interfere objectionably with WPAM Pottsville, Pa., and would not cover as large an area as it now serves during the day. The proposed nighttime operation would not comply with FCC's standards of good engineering practice, he said. The decision stated WQAN would only serve 70% of Scranton's population at night under the proposed operation.

What does it take to be first?

Among all Savannah Stations

ROBERT B. OSBURN, Toni Co., Chicago, to Lever Bros. Co., N. Y., as assistant advertising brand manager of Lux toilet soap, Lux flakes and Silver Dust.

VOA DODGES ISSUES

Rep. Hillings Charges

CHARGE that the Voice of America has failed to "meet the Russian charges head-on" and "tended to dodge issues raised by communist propaganda" was leveled last Monday by a Congressman newly returned from Europe.

Rep. Pat J. Hillings (R.-Calif.) told the Young Republican Club of the District of Columbia that many Voice listeners overseas also feel they are being propagandized by the U. S. State Dept. He urged VOA officials "take steps to debunk the false charges of the Reds whenever the occasion arises."

FAIR COVERAGE

Reported by Stations

WNAX Yankton, S. D., **WHAS** Louisville, Ky., **WSAM** Saginaw, Mich., **KCRC** Enid, Okla., and **WGR** Buffalo, N. Y., reported last week on their fair coverage and public service shows. **WNAX** originated 22 broadcasts from large tent in heart of Clay County (Iowa) Fair. Station reports that an estimated 10,000 persons attended "WNAX Radio Playhouse" during Fair week.

WHAS originated many local shows from "WHAS Big Top," tent seating about 350 people, at Kentucky State Fair. Station passed out 16-page souvenir booklets about **WHAS** personalities to Fairgoers. **WHAS** also presented entertainment while off the air during festivities. **KCRC** wrapped up three weeks of broadcasting public service events by placing second in parade during annual "run for land" into Cherokee Strip celebration. Station not only participated but broadcast on-the-spot coverage of event. Two previous weeks station broadcast coverage of Sooner State Dairy Show and County Fair.

WSAM aired 106 of its special "home" programs from specially built "radio home" at Saginaw County Fair. Station's exhibit was visual portion of **WSAM's** week long "radio special edition" observing National Home Week which fell during same dates as Fair. Door panels carried NBC identification, house number was station's frequency, 1400, and lamp post carried street sign reading "Radio Home Blvd. and Kilocycle Ave." **WGR** aired coverage of Erie County Fair for sixth consecutive year. Station originated large portion of local broadcasts from Fair grounds. It also serviced persons attending with public address system, paging and exhibitor commercial spots. All station talent visited fairgrounds once during event for entertaining and to autograph pictures for fans.

ARTURO TOSCANINI has returned to New York from Italy and is slated to open his broadcast season as conductor of NBC Symphony Orchestra Nov. 3.

PLATTER-CHATTER SHOW

WTAG Worcester, Mass., *Shirley and Pen*, Mon. through Fri. 5:05 p.m., started Sept. 14, starring Shirley Matson and Pen Brown. Stars and engineers dug up old carbon mike for show's premiere broadcast. Fun show features records and chatter.

TOP PROMOTION

WIBW Topeka sending trade and advertising brochure with "snack tray" attached. Piece headed "Want to serve yourself more Kansas sales?" Inside has small green plastic "snack tray" saying "Hire WIBW to do the job for you smoothly, quickly, economically." Back page reports, "Here's proof that WIBW packs a powerful sales punch . . . 29 farm accounts have been on WIBW for a total of 206 years!" At bottom is list of advertisers.

EDITORS SERIES

WIBC Indianapolis, 1:30, Sun., Sept. 30, started series *The Hometown Editor Speaks*. Station has invited 285 Indiana newspaper editors to participate on show, discussing problems in their home communities. Program primarily designed to better acquaint Hoosiers and newcomers with state.

TEAR SHEET

KCBS San Francisco sending trade and advertisers large folding tear sheet based on newspapers and trade journal coverage of its new power increase. Piece headed "KCBS made news when it pulled the big switch!" Inside was clipping and pictures taken from many magazines, metropolitan dailies and weekly newspapers from coast-to-coast.

programs promotion premiums

'KID'S DAY'

WTWN St. Johnsbury, Vt., as part of observance of National Kid's Day, Sept. 22, used staff of local high school students. Students appeared on shows, read commercials and were shown the typical day in a radio station.

'CRUSADE' SERIES

WRFD Worthington, Ohio, *Crusade for Freedom*, Sun. 3:30 p.m., series to create interest and enlist support of rural listeners to job being done by Radio Free Europe. Series created by Bob Geis, station's production manager was inspired by feature article about RFE appearing in Aug. 13 issue of BROADCASTING • TELECASTING. Program was introduced by Gov. Frank Lausche, who proclaimed September "Crusade for Freedom Month." Series dramatized facts gathered from RFE's operations telling how "through satire, ridicule and exposure, Radio Free Europe shows disintegration among Communist intruders and their puppets." Many local and national figures have appeared on show as guest speakers.

SWEET PROMOTION

KTUL Tulsa, sending trade and advertisers small box of hard candy. Note atop candy says "The

sweetest buy in radio . . . KTUL Tulsa." Hard peppermint candy has call letters and CBS affiliations imprinted on it.

'ROUTE 17'

WVOS Liberty, N. Y., in cooperation with two local newspapers launched campaign to compel state lawmakers to pass legislation for monies to reconstruct Route 17. Highway is main artery to vacation area and is rich source of much revenue. Traffic jams have been frequent and a great many accidents have been caused by the faulty road. Station used spot announcements, public service announcements and gave full support to printed petitions and newspaper articles. Campaign named "Stop Death on Route 17" solicited many post cards to be sent to lawmakers in Albany.

PLUGS OPENING DANCE

WDVA Danville, Va., was sole advertising medium used in promotion of local "Tobacco Market Opening Dance." Station in cooperation with several local merchants informed public of affair. WDVA reports people flocked to events, traffic jams were heavy.

CHAPEL FUNDS

TWO WLBI New York, Polish commentators, Natalie and Michael Kecki, recently turned over \$2,500 in cash contributions to Carmelite Sisters of Yonkers, N. Y. It was collected so sisters could start construction of new chapel. Two commentators aired news of intention to build chapel at convent and funds started pouring in. At last report contributions were still coming.

SCORE SCOOP

KSL Salt Lake City carried first broadcast interview with new Miss America, Colleen Hutchins, on her return to Utah. Station Program Director Ted Kimball flew to Denver and boarded plane that was carrying her home. When plane landed, Mr. Kimball handed engineers 15-minute tape recording. Recording units set up at airport fed tape by direct line back to station for immediate broadcast. Preceding tape release, Announcer Paul Royall climbed through baggage door with mike and got brief interview with Miss Hutchins before she left plane.

Further ideas or samples of the promotion items mentioned on this page are available by writing to the individual companies.

Sales Managers

Sales managers of stations everywhere are selling home builders and allied services with HOUSING HEADLINES . . . a 15-minute news commentary transcribed weekly in Washington. Contains vital information on home buying, how-to-do-it tips, popular feature interviews.

Sell

Sell is what you can do with HOUSING HEADLINES. Here is a valuable "foot-in-the-door" to the \$12 billion home building industry. Many stations are selling additional spots and programs once HOUSING HEADLINES has been presented.

The

The public is intensely interested in news about housing. And home builders everywhere are interested in sponsoring this series. HOUSING HEADLINES is the builders' own show with news commentator John Batchelder to bring the latest information in a natural market.

Home Building

Home building is one of America's biggest industries. Builders, contractors, suppliers, banks and building and loans spend vast sums yearly to reach the American public. HOUSING HEADLINES will help your station get it's share of this yearly advertising bonanza.

Market

Market-wise advertisers will recognize the tremendous potential of HOUSING HEADLINES . . . a radio show that attracts and maintains audience appeal. The cost is low and includes free publicity and promotion for the sponsor. Sales managers . . . up your station's billings . . .

with "Housing Headlines"

NBC MYSTERY SERIES

In Fall Plans

SERIES called *Mystery Nightcap*, to be broadcast 10-10:30 p.m. nightly, is being introduced into NBC's fall-winter program schedule as a magnet to attract a wide audience for the radio network's late-evening programs. NBC's theory is that everybody loves mysteries and that by 10 o'clock a lot of people are tired of television and ready to listen to a good radio program.

The mystery series was described as the "real news" in NBC's fall programming plans by John K. Herbert, vice president in charge of radio sales for NBC, who on Tuesday discussed with the advertising press the network's new program structure, which he called "as aggressive a line-up as NBC has ever put out."

"We're in business to do business," Mr. Herbert declared. "We're in the cost-per-thousand race in competition with newspapers, magazines and television," he said, stating that in justice to its stockholders, its affiliates and itself, NBC "can't overlook any way to get the advertiser the most for his money."

"We'll look at anything that will bring the advertiser a larger audience and the listener better programs," Mr. Herbert said. He cited the proposal that NBC sell announcements in its "chime time" as a new idea which was given thorough examination, adding that it was finally dropped as "not practicable at this time."

NARTSR Denounces

When first broached to advertisers, this "chime time" plan was promptly and bitterly denounced by the National Assn. of Radio and Television Station Representatives as an unfair and unwarranted entry by NBC into a type of advertising which properly belongs to the stations [BROADCASTING • TELECASTING, Aug 6].

Running through NBC's evening and Sunday afternoon schedule (re-produced herewith), Mr. Herbert disclosed that 31 of the 53 half-hour periods are already sponsored and that those still unsold are priced attractively. Prices for the complete program packages range from \$2,176 for *The Whisperer* at 5-5:30 p.m. Sundays to \$8,820 for the 7-7:30 p.m. Sunday segment of *The Big Show*.

NBC's fall programs will be promoted with an extensive campaign of on-the-air and newspaper advertising, largest in the network's history, according to Jacob Evans, manager of the NBC radio network advertising and promotion department. Last year's campaign, he reported, had an overall value in excess of \$12 million and this year's will be even larger.

Conducted cooperatively with NBC affiliated stations on a 50-50 basis, the 1951 campaign is being supported by 145 NBC stations, Mr. Evans said, including all the

major market affiliates. A total of 750,000 lines of newspaper space is being used during September and October, with 6,000 lines appearing in the paper of each station's choosing. In addition to the block listings of commercial programs as part of the network's daily evening line-up, each sponsored network show will also be given a 160-line ad of its own.

The 145 cities in which the NBC newspaper ads will appear represent 87% of all major markets in the country, Mr. Evans said. "With many of the advertisements scheduled for more than one paper in these cities, I am positive that no other network can offer clients such consistent and substantial support in printed media."

Major part of the commercial program promotion will be provided by radio, Mr. Evans said, with the stars of the shows advertising them through announcements liberally spotted through NBC's chain break and sustaining program time. As an example, he pointed out that at the conclusion of each *Mystery Nightcap* broadcast the star of the following night's program will ask listeners to tune in his show, thus building up the 10 o'clock NBC listening habit.

The radio campaign, which began Sept. 1 and will continue through

until the end of the year, includes more than 200 announcements for program sponsors each week. Two types of announcements are used: Inserts of 15 to 60 seconds in NBC sustaining programs and 5-second cues immediately preceding the network identification breaks. Proof of the effectiveness of such on-the-air advertising, Mr. Evans said, was given by BAB's 1949 report that 53% of radio audiences hear about other radio programs from radio itself.

Whole campaign, Mr. Evans stated, will be used on the slogan, "People Sell Better Than Paper," which also keynotes NBC's current trade paper advertising.

Heavy Promotion

Charles R. Denny, NBC executive vice president, pointed out that while the 10 p.m. *Mystery Nightcap* series is being heavily promoted by NBC, the network this fall will have fewer than at present, but that it has scheduled them chiefly in the late evening hours. It was noted that Thursday, when the *Lucky Strike Hit Parade* program is broadcast at 10-10:30 p.m., is the only day in the week when a mystery is not aired at this time, but that it is not necessary to have one in this Thursday spot as it is preceded by three programs of that

NEWER THAN TELEVISION!

Sure, television's great . . . but in the Quad-Cities (Davenport, Iowa; Rock Island, Moline and East Moline, Illinois), all eyes are on a *brand new medium*. It's the only morning newspaper published in and for this \$402,000,000 market—the new Morning Democrat. Together, the Morning Democrat and the evening Daily Times give you the most complete coverage of this rich, major market. It pays to put your product where the reception is always good!

PS:

SHOWING the enthusiasm that is the crux of the current Detroit radio promotion campaign are these members of the United Detroit Radio Committee as they look over new car cards (l to r): Hal Neal WXYZ; Wendell Parmelee, WWJ; Art Gloster, CKLW; Joyce Chapman, WJBK; Jim Quello, WJR; George Millar, WKMH; Ernie Holder, WEXL; Charles Stout, of the < committee's agency, C. R. Stout Adv.

type: Mr. Keen, Dragnet and Counterspy.
Concluding his presentation of the NBC fall radio line-up, Mr. Herbert declared: "This is a good year for radio. The feeling of a year ago that radio was dying and that maybe we'd better get out from under has now all changed. The pencil men who provide the facts on which the advertising decisions are based have figured out that radio's cost-per-thousand is such that it's a must buy today."

Boost For Radio

UNITED Detroit Radio Committee has announced that material developed in campaign to sell radio will be available to other stations interested in conducting similar campaign. Drive is built around slogan, "Wherever You Go, There's Radio" [BROADCASTING • TELECASTING, Sept. 17]. Kit available includes ad mats, mailing pieces, spot copy plus details how UDRC launched Motor City campaign. For information contact committee, Room 1316 Penobscot Bldg., Detroit 26.

Francis C. Heaney

FRANCIS C. HEANEY, 53, owner of Abbott Advertising, Chicago, was killed Tuesday when his plane crashed near Cairo, Ill. He was commuting from a farm he owned in Mississippi to his home in West Chicago, Ill. He is survived by his wife, Sarah, of Glenn Road, N. J., and three daughters.

ROCHESTER

FALL campaign of the six Rochester, N. Y., radio stations, designed to expand audiences and convince advertisers that radio is the best buy of all media, has been started under the banner of the local Radio Broadcast Management Council.

This local cooperative project has been a pioneer in the field, having been set in motion last winter [BROADCASTING • TELECASTING, Feb. 5]. It set up a pattern similar to that now followed by Detroit, Tulsa and other cities [BROADCASTING • TELECASTING, Aug. 27, Sept. 17, 24].

The autumn drive was launched in a series of civic talks by Jack Knabb, president of Jack Knabb Advertising Co. and public relations counsel for the council. Plans call for special programs at school assemblies, business organizations, clubs, PTA's and churches, with radio station tours for interested youngsters.

Executives, program managers, disc jockeys, sportscasters and other staff personnel are taking

Mr. Knabb

Mr. Wiig

part in the drive to build up radio interest and audiences. Participating stations are WARC, WHAM, WHEC, WRNY, WSAY and WVET. Managers of the six stations have met regularly since last winter, studying the Rochester radio situation and mapping campaign plans. Gunnar O. Wiig, manager of WHEC, is present chairman of the council.

Latest cooperative project centers around employment of the Pulse Inc. to make four 1951-52

SCOTUS AGENDA

May Include Radio Cases

WHETHER the Supreme Court will take up the questions of newspaper ownership and transitecasting may be known Oct. 8, the first "order" day after the justices resume high court sessions Oct. 1.

Both cases are before the court on requests for writs of *certiorari*—first on appeal by Scripps-Howard Radio, Inc. [BROADCASTING • TELECASTING, Sept. 10, Aug. 13], the second on appeal by Washington Transit Radio Inc. (WWDC-FM), Capital Transit Co. and the District of Columbia Public Utilities Commission [BROADCASTING • TELECASTING, Aug. 13, June 18, 11].

Lorain (Ohio) *Journal*—which is appealing a U. S. District Court conviction under the monopoly laws for refusing to accept advertising from advertisers who used WEOL Elyria, Ohio [BROADCASTING • TELECASTING, Jan. 8]—will be heard in oral argument by the Court during the week of Oct. 15.

In a brief filed Sept. 19, the *Journal* set out its case for reversal of its conviction.

Of major interest to broadcasters is one of its basic premises: That WEOL is not engaged in interstate commerce.

Journal pleadings claimed that the FCC granted a license to WEOL as a local station, covering north-

ern Ohio. It even included photographs of WEOL promotion and coverage maps to bolster that point.

Claiming that it is purely a local newspaper, the *Journal* denied the right of the government to convict it of a crime in interstate commerce. It did not take punitive action against national advertisers who might also have used WEOL, it pointed out.

It admitted that it did put local advertisers on the spot by refusing their advertisements if they used WEOL, but excused the practice as a matter of business survival, thusly:

The *Journal's* refusal to publish ads of local users of WEOL was not an attempt to monopolize interstate commerce. . . . The *Journal* was not itself engaged in interstate commerce; hence it could not monopolize such commerce, particularly by local acts. Its refusal was a legitimate competitive weapon. Control of a local business situation is itself a property right; the use of such control is no more unfair than the use of superior size, greater efficiency, lower cost, better quality or any other selling argument which takes customers away from a business rival. The struggle for business survival is a selfish one; the Sherman Act does not enact into law a doctrinaire counsel of perfection. The right of a company to choose its customers is universally admitted and the government cannot police its use to favor and protect a so-called interstate rival.

As local ads are the chief source of revenue of a local radio station, the federal government when it licensed WEOL must have intended the latter to take away the *Journal's* advertisers to support itself. The *Journal*, however, was under no duty to fall in with these plans. A federally licensed radio station is not an arm of the government; the Sherman Act should not be utilized to guarantee the survival of the so-called interstate competitor; it is not to be used as a form of subsidy or insurance. The federal license launched the radio station to succeed or fail in the market place like any other company; refusals to deal which are legal under State law are not rendered illegal merely because used against the alleged interstate rival.

Interstate Concept

Attack on the interstate concept of radio broadcasting is contained in the following excerpt from the brief:

The *Journal* not being engaged in interstate commerce the government must try to find it in WEOL, licensed for local broadcasting only. The government showing is an artificial and synthetic one only; WEOL is heard in Michigan; it buys canned records in California; it rebroadcasts out-of-state baseball and football games; it gets United Press news by teletype. The Government also seeks to eke out an interstate showing by resort to NLRB cases in the building trades industry, involving out-of-state purchases of materials. These analogies are valueless in the present case; the

point is that WEOL asked and got a license to fill a local Ohio need. Every purchase it makes in Hollywood or New York is directed to that end, to serve its hearers in Ohio. Its Ohio advertisers do not advertise to have their ads heard in Michigan or . . . in Pennsylvania; they get no good out of transient evenspreading outside Ohio.

LIBERTY CHANGES

Newsroom to New York

LIBERTY Broadcasting System changes were announced last week, including transfer of the network's main newsroom from Washington to New York.

John T. Flynn will be in charge of six newsmen in New York, which heretofore employed two men. The New York address is 509 Madison Ave.

Also announced was the transfer of John M. Dunnagan, head of the Washington LBS office, to the home office in Dallas. Mr. Dunnagan will serve in Dallas as vice president in charge of client relations.

WGH Fashion Show

FALL "Fashion Preview," a concerted effort of Mildred Alexander, women's affairs director for WGH Newport News, Va., and 15 leading apparel shops in the Norfolk-Portsmouth-Newport News area, was reported a greater success this year than last [BROADCASTING • TELECASTING, Oct. 9, 1950]. In addition to presenting upcoming styles, it introduced "The 10 Best-Dressed Women of Tidewater," a WGH promotion, and it marked Mrs. Alexander's third year as women's director. Some 2,800 persons paid \$1.30-and-up for each ticket and jammed Norfolk's City Auditorium. Last year 500 persons attended. All proceeds of this year's event went to Navy relief and to the local cerebral palsy clinic.
