# Read why DAISY is the RIGHT GUN

## For EARLY TRAINING and FUN . . .

Since 1888 Daisy Air Rifles have used the same safer spring-type action—the safer short range—the safer low “factory limited” power! *Today* Daisys are approved for the marksmanship programs of National Rifle Association, the Boy Scouts of America. *Today* Daisys are used in schools, camps, air rifle clubs and homes to teach proper gun handling faster, more safely, more economically. Daisy is the accepted “first” gun.

Many Dads enjoy using the Daisy for inexpensive home target practice. Daisy shooting is also F-U-N for the whole family—from seven to seventy years old!

Buy your junior a Daisy and teach safety through skill. See Daisy Air Rifles on display today at your favorite hardware, sports goods or department store. Mail coupon now for instructive, free Daisy literature!

## OTHER DAISY TRAINING ADVANTAGES

It's easy and fun to train juniors with a famous Daisy because: (1) the official NRA spring-type range is only 15 feet—shorter than your auto; a garage or 20' room will do; (2) store cartons filled up with old magazines make a safe backstop; (3) a Daisy costs as little as \$5.95; (4) ammunition costs only 5¢ for about 125 shots.

**GUN BOOK:** Gun Section pictures America's most famous historical rifles and pistols each described by gun collector authority. Also explains how a Daisy works. Lists NRA Qualification Course for BB guns, shows NRA BB gun medals!

**CLUB BROCHURE:** Big 20-page Book tells how to organize, conduct a junior air rifle club; explains how parents, children, communities benefit from this popular new 15 foot spring-type air rifle marksmanship program. Write now!

**IMPORTANT!** Because Daisys are often confused with other type air rifles, we emphasize: Daisy is NOT a high-power pneumatic, gas, pellet or compressed air gun. It cannot be “pumped up” to increase power. It has always been a spring-action, short range, low power, low-priced BB gun—best for training boys and girls seven through fourteen.

# JUNIOR SALES CLUB BATTING TIPS

## 2 CORRECT BATTING STANCE

Place your rear foot midway between the sides of the batter's box, slightly behind home plate, toes facing the plate. Your front foot should be even with the plate, toes angled toward front of plate.

## 3 BATTING STRIDE

A short stride — about 6" — is best. The stride serves two purposes: it puts the weight of your body behind your swing, and it directs your body toward a ball that's not coming directly over the heart of the plate.

## 1 CORRECT GRIP FOR SWING HITTER

Hold your bat at the end. You can hit a longer ball with this grip because you have a fuller swing and follow-through.

## CORRECT GRIP FOR CHOKE HITTER

Hold the bat several inches up the handle. This grip doesn't drive the ball as far as the swing grip because the swing is not as full; gives more control, allows you to place hits better.

## 4 THE SWING

Hold the bat away from your body. Swing so it's level with the ground to meet the ball squarely. Never swing upwards or downwards. Always keep your eye on the ball and snap your wrists at the moment of impact.

## 5 COMPLETE FOLLOW-THROUGH

Your power and control come from your wrists. Complete follow-through gives ball more speed and distance. Remember, practice makes perfect!
