A LETTER FROM JERRY

Hi Fans:

The other day I was walking down Wilshire Boulevard out here in Hollywood when I spotted one of my neighbors stopping a friend. "I got a cute little poodle puppy for one of my kids," he boasted.

"Lucky you," the other fellow replied. "I wish I could make a trade like that!"

Some of my neighbors sure have their troubles. Only last week one of them was caught shaving in the street by the cop on the beat. "Haven't you got a bathroom?" he asked.

"Sure, I've got two of 'em," the man said, angrily. "But I also got a wife and five daughters!" You know something? That cop took him in his squad car down to the precinct, and let the poor feller shave there.

This one I gotta tell you. The people down the street were having a real fancy party out on the terrace, near the swimming pool with a jive combo, and a lot of important Hollywood folks were there. The food was set out on long tables under Japanese lanterns, but when the hostess came around to see if everything was ready, who was there but her cocker spaniel gobbling down one plate after another. So she shooed him away, straightened things out, then called her guests in to supper.

A little later, while everybody was eating and having a good time, our lady happened to go around the front of the house. What did she see but her cocker spaniel stretched out dead in the street. Right away, she called over her husband. They agreed the food had poisoned their dog.

So they told all the guests, and right away they all got frantic and rushed to their doctors or the hospital for emergency treatment. The host and hostess were looking down sadly at their dead pet when the little girl who lived next door walked up to join them.

"Wasn't it just awful about your poor doggy?" she said. "I saw the car run over him, but

you were having such a wonderful time with all you friends, I didn't want to bother you!"

That little girl, she's sure something! Last week, in school, her teacher asked, "If I lay one egg on the table and two on the chair, how many will I have altogether?"

The little girl looked her square in the eye. "Personally," she said back, "I don't think you can do it."

And if you think she's a cute little kook, you should know about her uncle. He was such a yo-yo, the family made him go to a psychiatrist. "I don't understand why everybody insists on making me see you," he said to the doc. "What's wrong with liking pancakes?"

"Nothing at all," said the headshrinker. "I like pancakes myself."

"Great! Wonderful!" said her uncle, jumping up and clapping his hands. "You must come up to my house and let me show you my collection. I've got trunks and trunks full of them!"

Anyway, they got him into a hospital for observation. When the family came to visit him the next day, he was sure angry. "That idiot nurse who came on duty last night!" he yelled. "She plugged my electric blanket by mistake into the automatic toaster on my night table—and every two minutes, I kept popping out of bed!"

Some nurse she was! The president of a railroad somehow had swallowed a big gold watch his staff had given him on his birthday. When the nurse showed him the X-ray, the railroad man leaped out of his bed. "Let me out of here! I'm three and a half minutes late!"

Anyway, if you're looking for real swinging fun, why don't you read the **BOB HOPE** Comic Book, which is starring that revolting but lovable looney teen, *Super-Hip*? You're sure to flip at *Super-Hip*, like everybody else is doing. It goes on sale next month. Make sure you get your copy. Like all the kids are saying, "It's boss!"

GL TA W: NOW: YOUR VERY OWN **EXCITING ANT FARM** AS SEEN ON TV! AN ANT'S ENTIRE WORLD! COMPLETE WITH STOCK OF LIVE ANTS!

WHAT IS AN "ANT FARM"?

The ANT FARM is a clear, unbreakable plastic, escape-proof case, measuring 6" x 9", containing farm buildings, a windmill, silo, trees and barnyard, complete with soil, sandbar and a stand. The ants work down into the soil and use the sandbar for building their hills. The FARM is so constructed that the ants are visible from every angle, both above ground and underground.

FASCINATING!

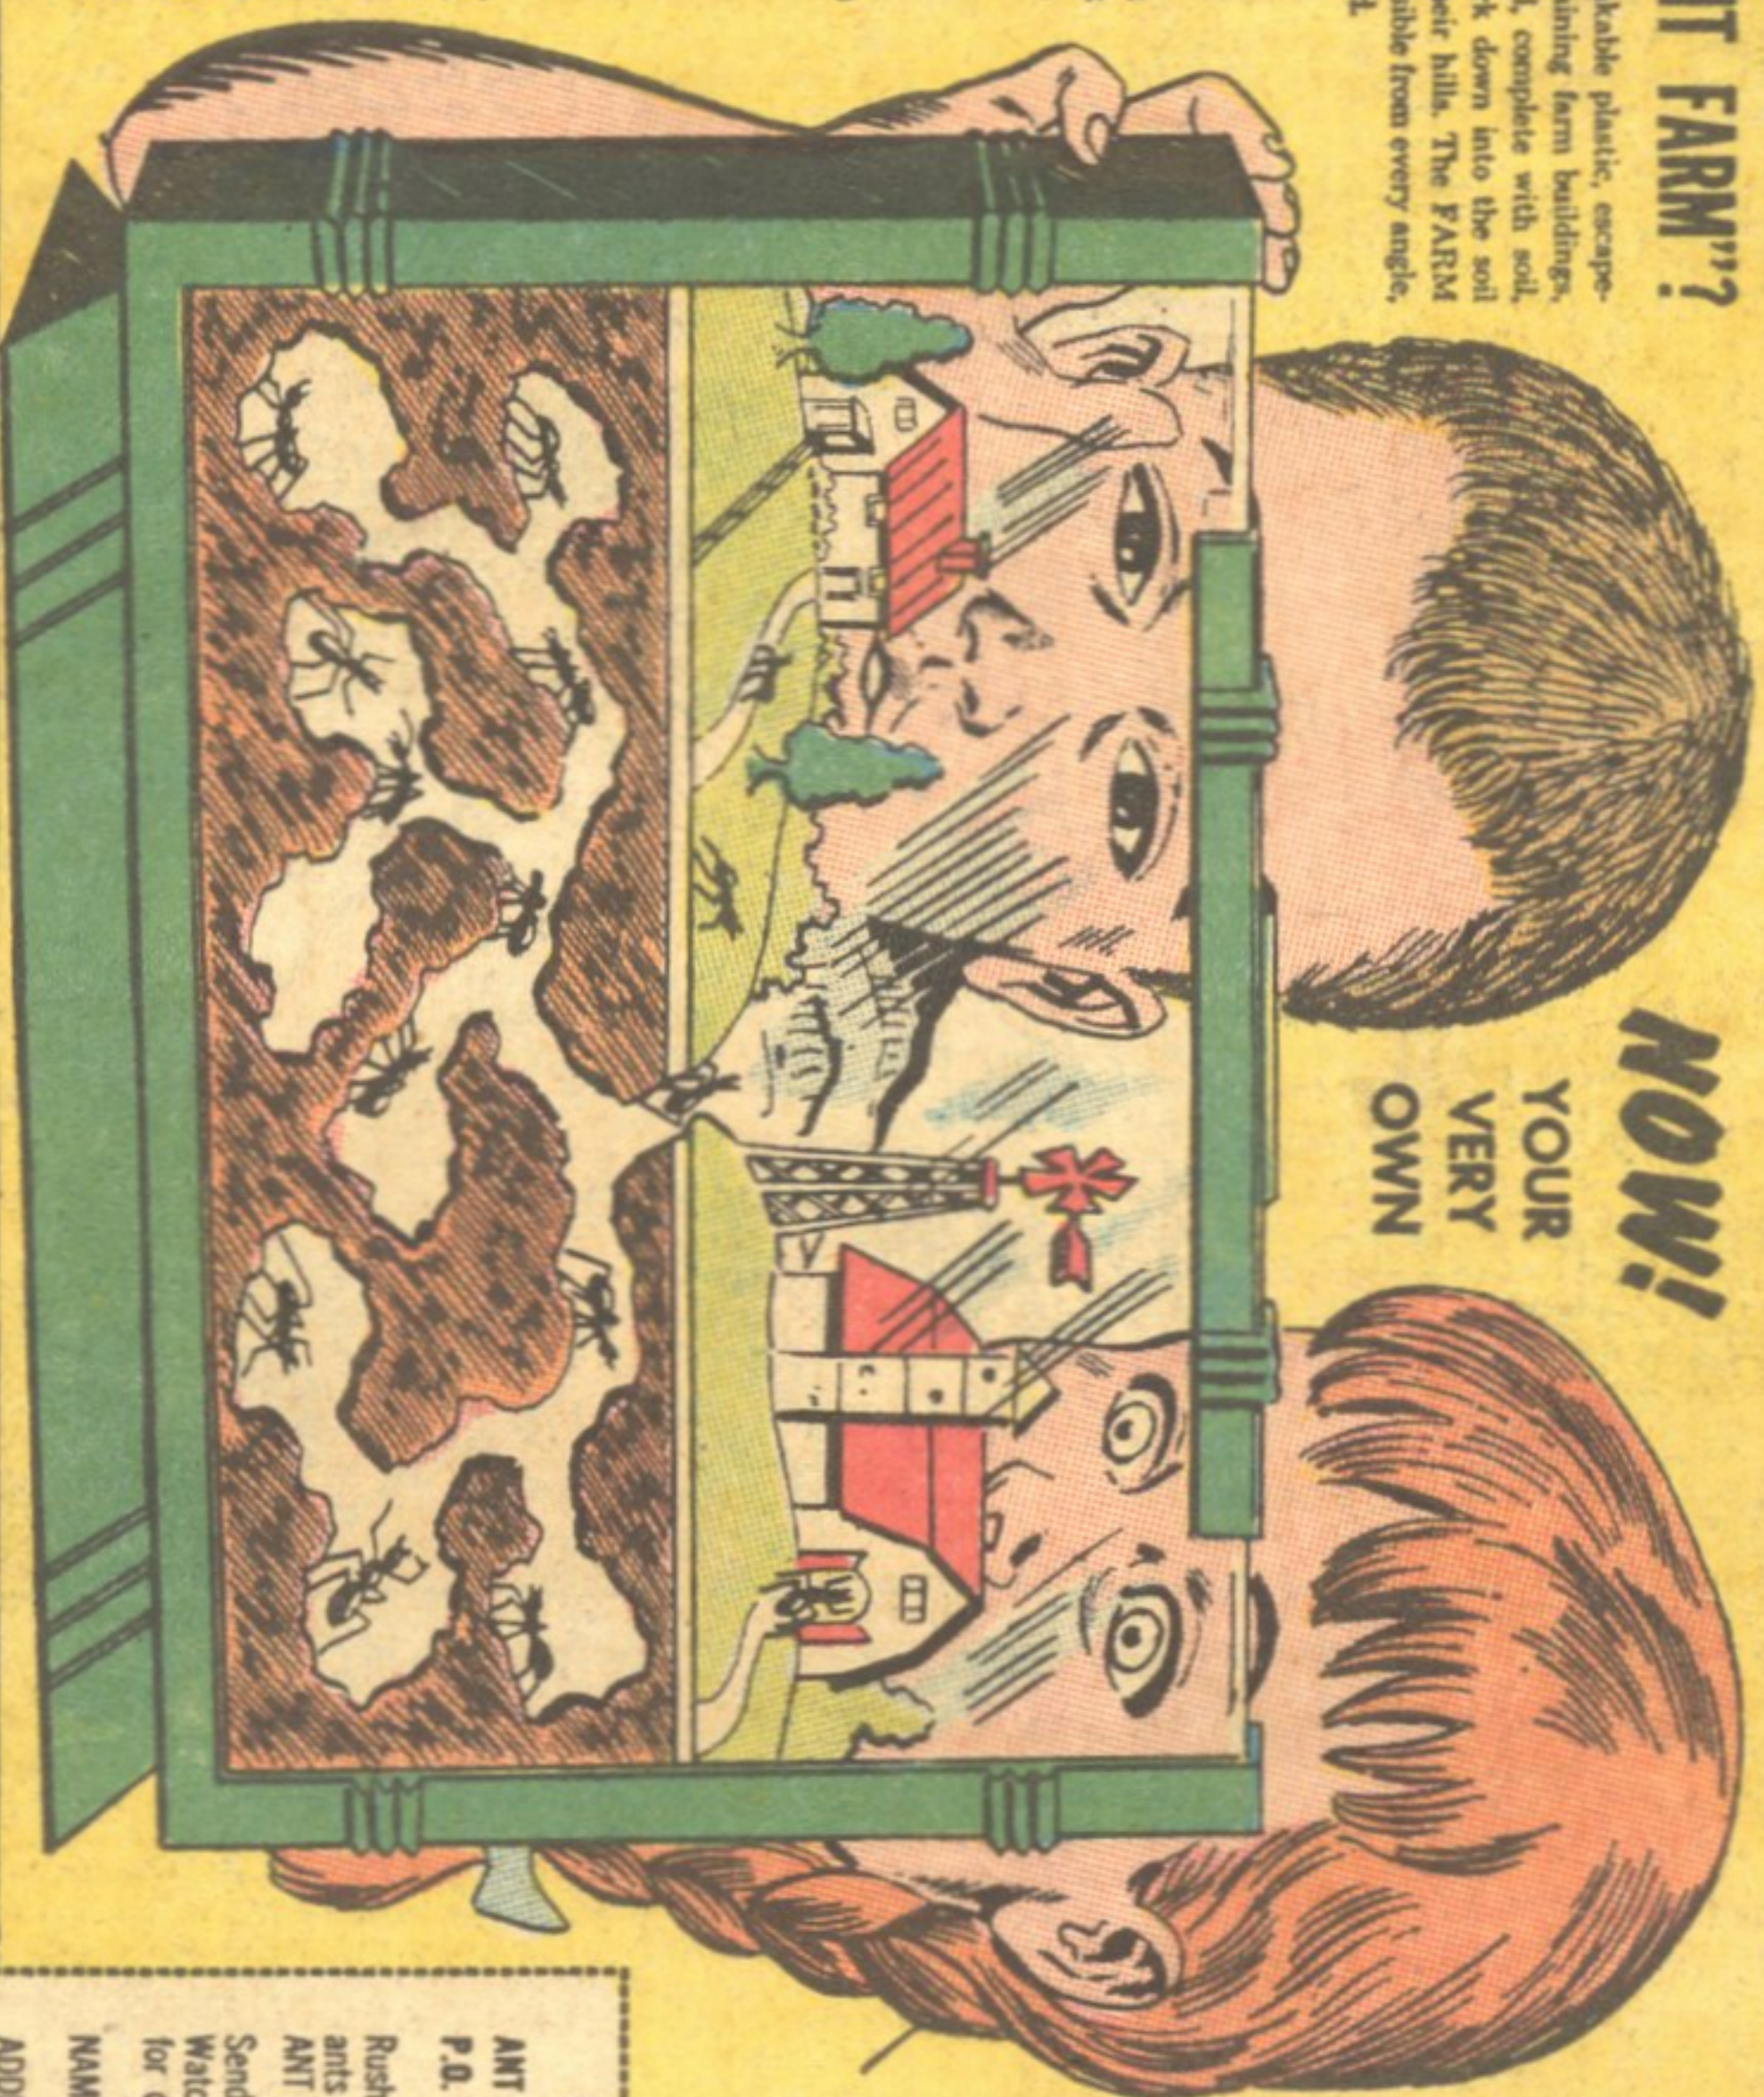

A living TV screen. The ants put on a quiet but exciting show that will keep you fascinated for hours.

EDUCATIONAL!

An education in nature study as well as work and patience.

WORLD'S TINIEST ENGINEERS!

Ants are actually the world's tiniest construction engineers. They perform feats of stamina that if they were to be duplicated by humans, it would take millions of dollars and hundreds of thousands of tons of equipment to perform the same job that one tiny ant can do. What's more, the ants seem to have a special sense for construction which has actually been studied by human engineers.

NOW!

YOUR VERY OWN

SEE YOUR TINY PETS...

Watch them dig tunnels—see them build rooms—travel as they erect bridges and move mountains before your very eyes. Ants are the world's tiniest engineers and seeing them plan and construct their intricate highways and subways is fascinating. But they do much more than that! Through the clear plastic walls of your ANT FARM you see the ant soldiers guarding the roads... the laborers carrying their loads... the supply corps storing away food for the rest of the colony. Yes, the ANT FARM is actually a LIVING TV SCREEN that will keep you interested for hours.

ANTS CANNOT ESCAPE FROM FARM ENCLOSURE!
