## Army Grenade

(AS USED IN HAND COMBAT)

Yes, this is your chance to be the first in your neighborhood to have this realistic "weapon". It's an exact replica of the one used by the army and our marines in fierce hand-to-hand combat, to wipe out machine-gun nests, demolish trenches, "get" concealed snipers, defend against massed attack.

Just cock the firing mechanism, load the cap and you're ready! Imagine — you're a marine creeping up on that machine-gun nest, your grenade is in your hand. You creep close, low. Now you're in range, you pull the safety pin with your teeth and throw! Bull's eye, right into the nest. Blast! The machine gun flies out broken. Now silence. Your buddies cheer — the advance starts up again!

This grenade explodes 4 seconds after pulling pin as it strikes ground. Can't break. Heavy gauge steel firing mechanism. Uses standard caps. Can be exploded over and over. Comes complete with throwing instructions. (Parents: This toy grenade is completely harmless!) Clip ad, write your name and address clearly in margin and send it with \$1.00 plus 25c shipping charge — cash, check or money order to:
