## SEEK TO END INFLATION OF RADIO STATION VALUES

In an effort to check the inflation of values of radio stations, particularly the wave length and license, the Federal Radio Commission adopted a motion providing that in all applications for assignments of broadcasting station licenses, there shall be submitted a sworn statement of the financial and legal transactions involved.

The new ruling, presented to the Commission in the form of a motion by Commissioner Harold A. Lafount, will in some measure curb the selling of license permits for fabulous sums out of all proportion to their value and will be further beneficial to the radio industry and the listening public because it will assure better programs by keeping advertising rates down so more money will be available for employment of talent.

"It has come to the attention of the Commission that there have been many cases of selling license permits", said Commissioner Lafount. "One concern, for instance, will secure a construction permit, build a station, then sell the station and permit for many times their value.

"Other concerns are willing to pay these exorbitant prices because they feel the expense and difficulty of obtaining a new construction permit would probably amount, in time and money, to a greater investment. Then, too, there is always the chance that their requests will be refused, especially with the air overcrowded as it is today.

"For instance, a concern may get a construction permit and build a station costing \$10,000. Another concern wanting a station says it will pay \$25,000 for the station and assignment of license. Naturally, the second concern must charge higher advertising rates to make the station pay for the original investment. Then the second concern might sell for \$50,000, and so on. Such transactions are not at all unusual, and hundreds of thousands of dollars have been involved in recent sales of this sort.

"Such actions place a commercial valuation on wave lengths and licenses, a condition directly in opposition to terms of the Radio Act. The purpose of the new ruling is to give the Commission information by which they may determine whether value is being placed on the wave length and license, or just on equipment.

"In the future, all applications for assignment of license, whether voluntary or involuntary, must be accompanied by sworn statements telling of all equipment to be transferred, of total value of such equipment, and the price to be charged, with terms and condition of the proposed transfer."

The motion, as adopted by the Commission, follows in full text:

"I move that effective today the Federal Radio Commission require all applications for assignment of broadcasting radio station licenses be accompanied by a sworn statement containing the following information:

"(a) A complete list of all assets to be transferred including intangibles and a description of all equipment.

"(b) An itemized statement showing actual cost of replacement of the individual items transferred.

"(c) An itemized statement showing present value of the individual items transferred.

"(d) A financial statement executed by the proposed assignor showing receipts and disbursements, also profit or loss, for the three months preceding the month in which the assignment is requested.

"(e) A financial statement executed by the proposed assignee showing individual items of assets and liabilities.

"(f) Where assignment is voluntary, an executed copy of the contract or lease agreement shall be attached which must provide:

- (1) That the assignee shall have complete control of station equipment and operation, including unlimited supervision of programs to be broadcast from the station.
- (2) Transfer shall be subject to the consent of the Commission.
- (3) Including the price, whether paid or promised, and all terms and conditions of the proposed sale or transfer.

"(g) Where the assignment is involuntary there shall be attached a certified copy of the court order, or legal instrument, effectuating the transfer and showing all the terms and conditions under which the transfer was made.

"(h) A copy of the articles of incorporation of assignee, if a corporation, showing its power to engage in radio broadcasting, certified by the Secretary of State of the State in which assignee is incorporated."

"In support of this motion," Commissioner Lafount suggested that the information now required by the Federal Radio Commission is not complete enough to permit the Commission to determine whether or not value is being placed upon the wave length or license, and as a result, there is considerable commercializing and trafficking in wave lengths and licenses, which I believe to be contrary to both the spirit and letter of the Radio Act."

## EDGE TELLS FRANCE TARIFF STEP UNFAIR

Acting on instructions from Washington, Ambassador Edge and other officials of the American Embassy in Paris visited Louis Rollin, the Minister of Commerce, to enter the protest of the United States against the situation arising from the imposition of quotas on radios and radio tubes, which have virtually put an end to imports of those commodities from the United States.

It is learned that Mr. Edge is considering seeing Premier Laval himself about the quota situation before the Ambassador leaves for the United States on Wednesday of this week.

## TELEVISION FOR N. Y. HOTEL

Arthur Freed, President of the Freed Television and Radio Corporation, announces that the Hotel New Yorker would be the first great metropolitan hostelry to present television to its guests.

Arrangements have been made so that every deluxe suite in the New York will feature with its built-in radio speaker, a small screen on which television pictures will be projected from a complete television receiver which will be built into the wall of the room.

## SPAIN-PORTUGAL-BRAZIL RADIO-TELEPHONE SERVICE

Direct radio telephone service was begun between Spain and Brazil and between Portugal and Brazil Thursday, January 28th, according to a statement issued from the offices of the International Telephone and Telegraph Corporation.

The Spanish President exchanged greetings with the President of Brazil, Dr. Getulio Vargas, and the Spanish Foreign Minister talked with the Brazilian Minister of Foreign Affairs.

Communication between Lisbon and Rio de Janeiro was then established through the radio telephone station of the Compania Telefonica Nacional de Espana at Madrid and General Oscar Carmona, President of Portugal, and other Portuguese officials exchanged greetings with Brazilian officials.

#### MARKET FOR RADIO SETS IN PORTUGAL

The Portuguese Government recently opened bids for the  
installation of a 20-kilowatt broadcasting station, which will lend  
itself to an increase to 80 kilowatts. This station should be in  
operation by March, 1933.

According to William W. Brunswick, American Consul at  
Lisbon, it is expected that there will be a future market for 80,000  
medium and low priced sets, the retail price not to exceed \$15 with  
\$7 for loud speakers. A limited number of crystal receivers will  
also be in demand. Dealers believe that 1, 2 and 3 tube sets will  
be the most popular.

The sets now in use in Portugal are of American, Nether-  
land, and German origin and retail at prices from \$75 to \$100, com-  
plete with tubes. Dealers prefer to import radio sets, without  
cabinets and provide cabinets manufactured from native wood. Nether-  
land and German manufacturers give from one to six months credit to  
dealers and sets are retailed on the installment plan.

Since radio sets are to be used in cities and the rural  
communities, both battery and electrically operated apparatus will  
be in demand. The current which is largely used in Portugal is  
direct, 220 volts, and alternating, 110 and 220 volts, 42 cycles;  
3 phase. There is also some use of alternating current, 220 and 380  
volts.

A list of radio dealers in Portugal may be obtained from  
the Commercial Intelligence Division of the Bureau of Foreign and  
Domestic Commerce, Washington, D. C., upon request.

Also information concerning the following "Foreign Trade  
Opportunities" may be obtained from the same source:

Radio apparatus and parts	I56005	San Juan, P. R.	Agency
Radio sets, and television apparatus	I56008	Johannesburg, South Africa	"

## NEW STATION FOR BRITISH EMPIRE BROADCASTING

The British Broadcasting Corporation has placed an order for a new Empire short wave broadcasting station with Standard Telephones and Cables Limited, English associate of the International Telephone and Telegraph Corporation. The contract includes two Type No. 4 transmitters and seventeen antennae.

The British Broadcasting Company has for some time past been planning the erection at Daventry of a special transmitting station to be devoted to broadcasts for the British Empire.

The new station has been designed entirely in England by British engineers. The design has been based on the knowledge in short wave working that Standard Telephones and Cables, Limited, has acquired as a result of many years' experience in long distance transoceanic telephony.

It is expected that the equipment will be completed by the Autumn and will be installed and ready for testing by the end of the year.

X X X X X X

## NAMES ELEVEN AIR FEATURES FOR STAR CLASS LAST YEAR

A list of eleven air features who, during the last year, reached national star prominence through broadcasting, compiled by Variety, is as follows:

The Boswell Sisters, Bing Crosby, Russ Columbo, Mills Brothers, The Goldbergs, Eddie Cantor, Walter Winchell, Guy Lombardo, Ben Bernie, Cab Calloway, and Sisters of the Skillet.

Radio's holdover stars were "Amos 'n' Andy", Rudy Vallee, Morton Downe, Kate Smith, Paul Whiteman, Seth Parker, Ted Husing, Phil Cook and Tony Wons.

The 13 whose status is adjudged by Variety as having declined below their previous national rating, or to have backed out of the coast to coast picture altogether, were Little Jack Little, Floyd Gibbons, Henry Burbig, Vaughn DeLeath, Jessica Dragonette, Olive Palmer, Paul Oliver, Gladys Rice, Happiness Boys, Graham McNamee, Breen and DeRose, Vincent Lopez, B. A. Rolfe, A. & P. Gypsies.

X X X X X X

## NO ACTION ON THAD BROWN NOMINATION

Consideration of the nomination of Thad Brown to fill the vacancy on the Federal Radio Commission left by the resignation of Judge Ira E. Robinson is still held up at this writing.

"President Hoover's desire to reward a devoted political follower is being blocked by Senator Couzens (R., Mich), who is indefinitely delaying Senate action on the confirmation of Thad H. Brown for membership on the Federal Radio Commission," writes Leo R. Sack, correspondent for the Cleveland Press, Cincinnati Post and other Ohio Scripps-Howard newspapers.

"Brown, former Ohio Secretary of State, is the man to whom President Hoover addressed his formal letter four years ago announcing his willingness to be a candidate for President. Thus he entered the strategic Ohio primaries against the late Senator Willis.

"Senator Couzens says Brown is a 'politician', and he objects to the practice of filling Commissions with politicians. He so informed the President, but Hoover, upon the advice of Postmaster General Brown, nominated Thad Brown anyway.

"Couzens is assembling data which he hopes will convince other Senators that Brown should not be confirmed. Democratic Leader Robinson is reported to share his views.

"Meanwhile Couzens refuses", Mr. Sack concludes, "to be hurried into fixing a date for a hearing on the nomination by the Senate Interstate Commerce Committee of which he is Chairman."

X X X X X X

## NEW YORK TIMES CUTS RADIO SPACE

The New York Times, which heretofore printed the programs of every New York City station in full, today (Monday) condensed its program announcements to a box two columns in width and about a half column in length, captioned, "Today On The Radio", containing only what Orrin E. Dunlap, Jr., Radio Editor, considers the outstanding features. It was indexed according to time and contained only reference to about 45 features.

The New York Times has been devoting three pages on Sunday to advance radio station programs, but beginning two weeks hence this space has been cut to two pages.

X X X X X X

## ZENITH PASSES UP SIDE-LINES

The following letter has been sent by Paul B. Klugh, Vice-President and General Manager of the Zenith Radio Corporation, Chicago, to all Zenith distributors:

"During the past three years we have spent considerable time and money upon the subject of refrigeration. Several times during this period we were on the verge of going into refrigeration but for one reason or another were delayed, for which we are now thankful.

"Because of the great number of people now in refrigeration and the imminence of undesirable competition, we have definitely decided not to go into refrigeration, but to place all of our resources and energies on Zenith. We believe that the manufacture and sale of radio sets is a man-sized job requiring the undivided attention of the best minds we can bring into our organization. Today, more than ever before, specialization is necessary and we don't believe it is possible to divide attention between radio and refrigeration and do a good job with either. We feel that the concentration of thought which comes from thinking, studying, analyzing and living Zenith radio twenty-four hours a day, three hundred sixty-five days a year, will produce good results and will mean much in the years to come.

"We are making this announcement to our distributors because many of them know that we have been seriously considering refrigeration and we feel that they are entitled to a definite announcement from us. We likewise feel that they will applaud our decision and our announced policy because it assures them that the Zenith Radio business will be developed persistently and aggressively."

X X X X X X X X

## RADIO NOT HURTING SHEET MUSIC DEALER DECLARES

The contention of certain members of the song-writing fraternity that radio broadcasting has seriously affected the sales of sheet music and thus cut into their incomes is not altogether borne out by the testimony of store owners specializing in that commodity. There are a number of these small stores along Broadway and on other busy thoroughfares which do day after day a "land office" business, according to the New York Times.

"No falling off in the sale of sheet music that I can see", the proprietor of one of them remarked recently, climbing a ladder to reach a piece on a rack near the roof. "Of course, we sell records and various instruments, but the sheet music is our best item. Here's a dandy new item, for instance, the music publishers are always getting out something new."

The storekeeper had in his hand a music album containing "forty famous blues.". "It's just what the people wanted", he said. "They've been coming in here asking for books of the 'blues' for the longest time. The trouble with these song writers is a lot of them never write a real hit. But there are more hits - as they would be reckoned by sales volume - today than there ever were. Where there used to be one real hit song at a time - you know, something that got into the messenger-boy whistling class - now there are three or four."

X X X X X X

#### TELEVISION MERGER IS CONTEMPLATED

Absorption of remaining stock of the Jenkins Television Corporation by the DeForest Radio Co., is contemplated and stockholders of both companies have been asked to approve such acquisition.

If this plan is carried out, the present DeForest Co. will operate under the corporate name of DeForest-Jenkins Radio and Television Corporation. Although both companies have been operating as separate entities, DeForest owns a controlling interest in Jenkins. The majority stock was acquired several years ago. C. Francis Jenkins, television inventor, is minority stock owner in the DeForest Company.

Jr. Jenkins views the contemplated transaction favorably, believing it will supply the necessary impetus to develop television. Leslie S. Gordon, President of the DeForest Company revealed that his company has been obliged to finance the Jenkins Corporation recently, resulting in a growing indebtedness. This indebtedness would be cancelled by absorption of the Jenkins assets and the subsequent activities of an enlarged organization, Mr. Gordon explained.

Mr. Gordon points out that the commercial development of television has been slower and more costly than was originally contemplated. The valuation of Mr. Jenkins' patents has been set at \$2,000,000.

:  
: BUSINESS LETTER BRIEFS :  
:

The regular Sunday afternoon lecture audience at the workhouse on Welfare Island heard M. H. Aylesworth, President of the National Broadcasting Company, sketch the history of radio, offer opinions as to its future, yesterday afternoon.

Several questions about "Amos 'n' Andy" were answered by Mr. Aylesworth. He also predicted the steady rise of television and told several anecdotes.

-----

As an extension of its recently inaugurated frequency checking service for broadcast stations, R.C.A. Communications, Inc., is planning the erection of a laboratory on the West Coast similar to that now in operation at Riverhead, Long Island.

For several years RCA has maintained the Riverhead laboratory to keep close check of the frequencies on its own trans-oceanic stations and those of foreign correspondents.

-----

Australia believes the outlook for radio imports, particularly low-priced units, is good.

-----

A clock constructed by David Olson, an engineer at the Bofors factory, Stockholm, tells besides ordinary time the course, rising and setting positions of the sun and moon, also dusk and dawn, phase of the moon, the year, the month, the week, the date and owner's name day and astronomic indications.

A rotating star map shows movements of the firmament and two revolving globes give the exact hour in different parts of the world. The clock has a radio apparatus, a loudspeaker and a gramophone that are started automatically at a certain minute.

-----

The Magnavox Company, Ltd., of Chicago, and its subsidiaries will move thier executive and sales offices to Fort Wayne, Ind., and consolidate them with the production, engineering and purchasing offices.

X X X X X X

## APPLICATIONS RECEIVED BY FEDERAL RADIO COMMISSION

January 28 - WAAT, Bremer Broadcasting Corp., Jersey City, N. J., C.P. to install new transmitter and increase power from 300 w. to 500 w.; KGNF, Great Plains Broadcasting Co., North Platte, Nebr., modification of license to increase power from 500 w. to 1 KW; KVL, KVL, Inc., Seattle, Wash., C.P. to make changes in equipment; KSEI, KSEI Radio Service Corp., Pocatello, Idaho, C.P. amended to request 250 w., 750 w., local sunset, instead of 250 w., 500 w. local sunset; KXRO, KXRO, Inc., Aberdeen, Wash., determine license power by direct measurement of antenna input.

### Applications, Other Than Broadcasting

January 28 - WLD, Pere Marquette Railway Co., Ludington, Mich., special license to test field strength of station on 410, 425 kc., 100 w. for one week only; WPI, Inland Waterways Corp., Memphis, Tenn., license covering C.P. for 3105, 3120, 4780, 6210, 6250, 438, 229 kc., 100 w., 250 w., 1 KW, public coastal; WQDQ, Aeronautical Radio, Inc., New Orleans, La.; KGUD, San Antonio, Tex. KGUA, El Paso, Tex.; KGUB, Houston, Tex.; KGUH, Waco, Texas; WQDP, Atlanta, Ga., modification of point-to-point aeronautical license for decrease in power to 150 w.

X X X X X X

## DECISIONS OF THE RADIO COMMISSION

The Commission on January 28th granted the following applications:

WSHB, Inc., New Orleans, La., C.P. to move transmitter and make field tests to determine new location; WHO-WOC, The Central Broadcasting Co., Davenport, Des Moines, Iowa, modification of C.P. for approval of equipment and increase in power to 50 kw; WDEL, WDEL, Inc., Wilmington, Del., license covering local move of transmitter and studio, 1120 kc., 250 w., 500 w., local station, unlimited time; WBOW, Banks of Wabash, Inc., Terre Haute, Ind., license covering move of transmitter locally, 1310 kc., 100 w., unlimited time; WJMS, Johnson Music Store, Ironwood, Mich., license covering erection of new station 1420 kc., 100 w., daytime; WRBL, WRBL Radio Station, Inc., Columbus, Ga., license covering change in equipment 1200 kc., 50 w., unlimited time; KERN, Santa Maria Radio, Santa Maria, Calif., modification of license to change name of licensee to The Bee Bakersfield Broadcasting Company; KFWI, Radio Entertainments, Ltd., San Francisco, authority to measure antenna; WHN, Marcus Loew Booking Agency, New York City, permission to conduct field intensity surveys to determine new site for transmitter of their station; KWCR, Cedar Rapids Broadcast Co., Cedar Rapids, Iowa, modification of license to increase hours of operation to sharing with KFGQ; WNBW, Home Cut Glass & China Co., Carbondale, Pa., license covering changes in equipment and installation of automatic frequency control, 1200 kc., 10 w., unlimited time.

Also, W9XAA, Chicago Federation of Labor, Navy Pier, Chicago, modification of C.P. to change location and extend completion date to July 24th; WJT, R.C.A. Communications, Inc., San Juan, P.R., renewal of point-to-point license; WGA, Globe Wireless, Ltd., Garden City, L. I.; KGX, Cypress, Calif.; KGS, Island of Oahu, T.H., KGQ, Musselrock Calif., renewal of point-to-point licenses; WFCC, Radio-marine Corp. of America, New York, 30-day authority to operate station aboard vessel "Porto Rico" as 3rd class service; KDWR, authorized to operate station aboard vessel "Invader", for period not to exceed 60 days; KUCJ, KUCD, Mackay Radio & Telg. Co., San Francisco, 60-day authority to operate station KUCJ aboard vessel "Point Reyes" and KUCD, aboard vessel "Point Arena"; KFAC, Los Angeles Broadcasting Co., Los Angeles, Calif., authority to continue temporary use of full time after Feb. 1 on 1300 kc., 1 kw.

### Renewal of Licenses

The following stations were granted regular renewal of licenses: KFBI, Milford, Kans., and KJR, Seattle, Wash.

### Set For Hearing

WAWZ, Pillar of Fire, Zerephath, N. J.; KARK, Ark. Radio & Equipment Co., Little Rock, Ark.; KNOW, Kut Broadcasting Co., Austin, Tex., renewal of license; Jack Prichard, Terre Haute, Ind., renewal of amateur license

### Applications Dismissed (Applicants' Request)

Western Michigan Broadcasting Co., Muskegon, Mich., C.P. 1500 kc., 100 w., share with WKBZ; The Ann Arbor Railroad Co., Frankfort, Mich., assignment of license.

### Synchronization Tests Extended

WBAL, Consolidated Gas Electric Light Co., Baltimore, Md., extended for 90 days from Feb. 1, 1932, synchronization tests with WJZ New York on 760 kc., during period when channel 1060 kc., is being used by WTIC, Hartford, Conn.; WTIC, Travelers' Broadcasting Service, Hartford, Conn., extended for 90 days from Feb. 1, 1932, synchronization tests with WEAF, Belmore, N. Y., on 660 kc., during period when channel 1060 kc., is being used by WBAL, Baltimore, Md.

### Action On Examiners' Reports

Harry Byron Lee, Lamar, Colo, denied C.P. for new station to operate on 1310 kc., 100 w., daytime hours, sustaining Examiner Walker; KFUP, Fitzsimons General Hospital, Denver, Colo., denied voluntary assignment of license and C.P., sustaining Examiner Walker; KFXJ, Western Slope Broadcasting Co., Grand Junction, Colo., denied by default modification of license, but renewal of license granted, sustaining Examiner Walker; John E. V. Jasper, Sherman, Tex., denied by default C.P. for new station 1500 kc., 50 w., share with KGKX, sustaining Examiner Yost; The Voice of Montgomery, Montgomery, Ala., denied by default C.P. for new station 1500 kc., 100 w., share with KGKB daytime, sustaining Examiner Yost.
