RAYBURN BILL CONSIDERED

The House Committee on Interstate and Foreign Commerce will resume consideration of the Rayburn bill (H. R. 8301) in executive session next Monday. Prospects are that the Committee will report the measure Monday or Tuesday in the hope that it can come up for action by the House at an early date.

The Rayburn bill, in the form introduced, does not change the present radio law but places its administration under the Communications Commission which the bill would create. In this respect the bill differs from the Dill bill, which has already passed the Senate. The Dill bill contains several undesirable amendments and it is probable that these will be considered in the conference on the measure.

An amendment, similar to the Wagner-Hatfield proposal which was defeated in the Senate, has been submitted to the House Interstate Committee and is being considered by that body. Should the Committee refuse to act favorably on the 25 per cent amendment it is very probable that a fight to have it adopted by the House will be made by either Congressman Rudd of New York or Congressman Maloney of Connecticut.

The NAB has favored the Rayburn bill in its original form but is opposed to any broadcasting amendments. The danger that amendments might be adopted caused the NAB to send a telegram to all members asking that they contact their Congressmen and make known the fact that the industry opposed any change in the present radio law.

The NAB will keep its members advised of every development in the legislative situation and all have been urged to act immediately upon telegraphic information.

DILL TO OPPOSE COPYRIGHT BILL

The Duffy subcommittee of the Senate Committee on Foreign Relations has set Monday and Tuesday, May 28-29, for hearings on the question of adherence by the United States, in the International Copyright Union—better known as the Rome Convention. At the same time the Committee will consider the Cutting bill—S. 1928—which contemplates a fundamental revision of the Copyright Law to enable the United States to become a party to that Convention.

Chairman Duffy's announcement of the hearing follows:

"A Sub-Committee of the Senate Foreign Relations Committee, consisting of Senators Simeon D. Fess, Frederick Van Nuys and F. Ryan Duffy, has been selected to consider the question of the adherence by the United States to the International Convention of the Copyright Union as revised and signed at Rome on June 2, 1928, together with a bill by Senator Cutting, S. 1928.

"A hearing will be held on these matters in the Committee Room of the Senate Foreign Relations Committee at the Capitol, on May 28th and 29th, 1934, from 10 a. m. until 12 noon on each day.

"The proponents of adherence to this treaty and to the enabling legislation will be heard on May 28th, and the opponents on May 29th.

"Those appearing should by agreement among themselves make an allotment of time. In case of a disagreement the Committee will arbitrarily allot same among those present and desiring to be heard."

The chief speaker in opposition to the proposal will be Senator Dill, Chairman of the Senate Interstate Commerce Committee and a member of the Senate Patents Committee.

Oswald F. Schuette, copyright advisor of the National Association of Broadcasters, will also be one of Tuesday's witnesses against the bill which—in addition to establishing automatic copyright in unpublished as well as published works—provides an important extension of copyrights in the broadcasting field. Before the Cutting bill can become a law, it has to pass both Houses of

Congress—an unlikely prospect at the present stage of the session. Should the bill not be passed by both Houses before the end of the present session, it would have to be re-introduced when Congress convenes in January, 1935.

The resolution to adhere to the Rome Convention, however, requires passage by the Senate only, but must receive a two-thirds majority in that body.

If such a resolution of adherence is passed, it will not change the Copyright laws, but will impose a moral obligation of the Congress of the United States to adopt the necessary amendments to these statutes to provide for automatic copyright.

ARE YOU MAKING A PROFIT?

"Are You Making a Profit and How Do You Know?" will be the subject of a talk to be given by H. K. Carpenter, WPTF, Raleigh, N. C., chairman of the NAB Cost Accounting Committee, at the annual meeting of the NAB Commercial Section to be held at Hotel Pennsylvania, New York, N. Y., June 19 and 20 in connection with the annual meeting of the Advertising Federation of America. Arthur B. Church, KMBC, Kansas City, Mo., chairman of the Committee, will preside.

"Standardizing Units of Sale and Rate Practices Under the Code" will be the subject of a talk to be given by James W. Baldwin, executive officer of the Code Authority for the Radio Broadcasting Industry.

The meeting is open to all NAB members and all who can be invited to attend the meeting.

ENGINEERS MEET MONDAY

Many broadcasting station engineers have planned to attend the open meeting of the NAB Engineering Committee to be held, concurrently with the I. R. E. Convention, in the LaFayette Room of the Benjamin Franklin Hotel, Philadelphia, Monday, May 28, 1934.

The session will be devoted to an open discussion of problems confronting the broadcasting stations in the transmission of high fidelity programs.

NRA NEWS SERVICE RESUMED

W. B. Dolph, chief, radio division of the Bureau of Public Relations of the NRA, announced this week that the NRA radio news service recently discontinued has been resumed. Numerous requests for continuance of the service had been received and the service was resumed on the basis of these requests.

ORDER PROTECTS INFORMERS

President Roosevelt has issued an executive order giving complete protection in their jobs to employees who make complaints or give information concerning alleged code violations on the part of their employers.

The order decrees that no employer subject to a code shall dismiss or demote any employee for making a complaint or giving evidence with respect to code violations under penalty of a \$500 fine or six months imprisonment, or both.

In numerous cases before the National Labor Board, employees have charged that their employers have demoted or otherwise penalized them for making complaints or giving testimony regarding alleged code violations.

The President's order reads as follows:

EXECUTIVE ORDER

"By virtue of and pursuant to the authority vested in me under title I of the National Industrial Recovery Act of June 16, 1933 (ch. 90, 48 Stat. 195), and in order to effectuate the purposes of said title, I hereby prescribe the following rule and regulation:

"No employer subject to a code of fair competition approved under said title shall dismiss or demote any employee for making a

complaint or giving evidence with respect to an alleged violation of the provisions of any code of fair competition approved under said title.

"All persons are hereby informed that section 10(a) of the National Industrial Recovery Act prescribes a fine not to exceed five hundred dollars (\$500) or imprisonment not to exceed six (6) months, or both, for the violation of any rule or regulation prescribed under the authority of said section 10(a).

(Signed) FRANKLIN D. ROOSEVELT."

The White House,
May 15, 1934.

BROADCASTING CONTROL DISCUSSED

Supporters of the American system of broadcasting had the better of the discussion of the question "To What Extent Does Radio Broadcasting in the United States Need Public Regulation?" at the ninth annual meeting of the American Association for Adult Education held in Washington this week. The discussion was led by Harry A. Overstreet, professor of philosophy of the College of the City of New York. Those who participated in the panel discussion were Lucy Wilcox Adams, acting director, California Association for Adult Education; Henry Adams Bellows, vice president, Columbia Broadcasting System; William Hard, journalist; Joy Elmer Morgan, editor of the Journal of the National Education Association; Felix Morley, editor, Washington, D. C., Post; and Levering Tyson, director of the National Advisory Council on Radio in Education.

CORRECTION

In the May 12 issue of NAB REPORTS, WMAZ was listed as having been granted full-time operation. The Federal Radio Commission has since indicated an error in the initial release from which the information was obtained. The application of WMAZ has, instead, been set for hearing, tentatively scheduled for June 6, 1934.
