NAB MEETING ALL SET

Headquarters of the NAB will be established at the Netherland Plaza Hotel, Cincinnati, Ohio, from September 14 to 22.

All arrangements for the meeting are complete and according to reports from the hotel reservations are piling up.

The Cincinnati meeting will be one of the greatest meetings of broadcasters ever held.

COLONEL BROWN SPEAKS TUESDAY

Col. Thad H. Brown, vice chairman of the Broadcast Division of the Federal Communications Commission, will address the Twelfth Annual Convention of the NAB on Tuesday afternoon. He will speak on the subject of "It's Up To You". Col. Brown was appointed to the Federal Radio Commission from his native state of Ohio and was more recently appointed by President Roosevelt as a Republican member of the Communications Commission.

As general counsel of the Radio Commission, Col. Brown addressed the broadcasters at the meeting in Cleveland, Ohio, in 1930, and has always indicated an interest in the work of the broadcasters in their efforts at self regulation.

McNARY OFF TO LISBON

J. C. McNary, technical director of the NAB, sailed from New York for Lisbon, Portugal, where he will attend the meeting of the International Technical Consulting Conference, an official body under the Madrid Convention, and present the views of broadcasters on the questions to come before that meeting. Mr. McNary, over a period of months, has actively participated in the preparation of the United States Government's proposals at the conference. Important questions of allocation of frequencies to services will be decided at the Lisbon meeting and decisions reached will be made the basis for the next International Radio Conference to be held at Cairo, Egypt, in 1937. Mr. McNary will return to the United States late next month.

KILLEEN SWORN IN

John Killeen, recently appointed Director of the Broadcasting Division of the Federal Communications Commission, was sworn in on Monday.

SYKES ON TRIP

Judge Eugene O. Sykes, chairman of the Federal Communications Commission, will leave Washington the latter part of this week for Mississippi to vote in the run-off elections in his native state. He expects to return about September 21.

F. T. C. PRAISES BROADCASTERS

The radio broadcasting industry's compliance with the Federal Trade Commission's recent requirement for submission to it of copies of advertising programs broadcast by the networks and broadcasting stations has been so general that of 598 stations in the country, only 5 have as yet failed to file copies of their advertising programs with the Commission. All of the networks have complied.

"Of these five delinquent stations," says the Commission, "one is in Alaska and another in Hawaii, so that it is entirely possible that these two stations have complied with the Commission's request and that their continuities are in the mails in transit to Washington.

"On May 17, last, the Federal Trade Commission announced that radio advertising would be subjected to its scrutiny, under authority conferred upon the Commission by Section 5 of the Federal

Trade Commission Act. The Commission announced at that time that beginning July 1st, all networks, broadcasting stations and transcription companies would be requested to file copies of their advertising programs with the Commission. During July, the Commission received 998 reports from network systems and broadcasting stations and 681 during August. Each of these reports contained advertising programs for one week. Of the programs submitted to the Commission, members of its staff have examined 117,357 and have on hand more than 50,000 which are now under examination. Of the 117,357 advertising programs already examined by members of the Commission's staff, 97,356 have been filed without action, having been passed as free from violation of the law prohibiting false and misleading advertising in interstate commerce. The remaining 19,991 programs already examined are being further checked, but it is probable that of these only a small percentage will be found to be in violation of law.

"Where programs are found to contain false or misleading statements, in violation of Section 5 of the Federal Trade Commission Act, the stations are communicated with and, generally speaking, the broadcasting companies and stations are taking the necessary steps to eliminate all objectionable matter and bring the advertising programs within the law.

"On July 30, the Commission advised the broadcasting stations that transmittal to it of advertising continuities might be discontinued until further notice. Somewhat later, the Commission will again require that such programs be submitted for another check-up. However, no letter of discontinuance was sent to the networks or the transcription companies and their programs are still being received.

"During July, under the first call for the submission of radio programs to the Federal Trade Commission, 114 stations failed to comply with the Commission's request. A follow-up letter was sent to these stations with the result that the number of stations failing to comply was finally reduced to five and these stations have been communicated with, and it is the Commission's expectation that within a short time every broadcasting station in the country will be filing its advertising programs, and that compliance will be 100 per cent.

"So general has been the compliance and so gratifying the co-operation which the radio broadcasting industry has given to the Federal Trade Commission in its effort to free radio advertising of false or misleading matter and place it on an even footing with printed advertising in newspapers and periodicals that the Commission anticipates it will be necessary to issue very few complaints against either advertisers or broadcasting stations."

DENTAL ASSOCIATION COMMENDS RADIO

The American Dental Association, at its annual convention held recently in St. Paul, took occasion to commend broadcasters for their efforts to curtail misleading, unethical and fraudulent dental advertising over the radio.

Official notice of this action was set forth in a letter to Philip G. Loucks, managing director of the NAB, from Harry B. Pinney, secretary of the Association. The letter in part reads:

"It is our pleasure to advise you that at the present annual meeting of the American Dental Association, held in St. Paul, in a report offered by Dr. C. Willard Camalier, as Chairman of the Dental Educational Publicity Committee of the Board of Trustees, to the House of Delegates, which was approved by that body, the Secretary was instructed to extend to you the deep appreciation of the American Dental Association for the splendid cooperation given it in its efforts to curtail misleading, unethical and fraudulent dental advertising over the radio by individual dentists."

Dr. Frank M. Casto, Cleveland, Ohio, recently elected president of the Dental Association, paid a courtesy call upon the NAB following the St. Paul meeting.

CENSORSHIP "POPPYCOCK" SAYS STEWART

In an interview over the National Broadcasting Company's network this week, Dr. Irvin Stewart, chairman of the Telegraph Division of the Federal Communications Commission, says talk of radio censorship is "poppycock".

"In the newspapers and over the radio, much ado has been made lately about charges that the Commission would be instrumental in censoring news. Would you care to comment on these charges?" Martin Codel, publisher of *Broadcasting*, asked Commissioner Stewart in the radio interview. The Commissioner replied:

"I most certainly would like to comment upon them. They are absolutely untrue, without even the saving grace of plausibility. They show complete ignorance of the Communications Act and of the actions of the Communications Commission under that law. If there had been the slightest grain of truth in the charges, the press associations would have been the first to register protests. But those associations know that the Commission has neither the power nor the desire to play the censor. The fact that such fanciful and unfounded charges can be made and circulated by radio and in the press is the best possible evidence that there is no censorship. To anyone who knows the Commission as well as you do, I am tempted to dismiss the charges, however honestly they may have been advanced, with the only expression which I believe they deserve—'poppycock.' The dictionary defines 'poppycock' as 'empty talk, foolish nonsense, hosh.' With that definition, the word fits the situation perfectly. As some persons may have been misled by the charges, however, I want to emphasize that the Commission does not have the power, the desire or the intention to engage in censorship in the slightest degree; and I want to add that no one, in the administration or out, has ever suggested to us that censorship in any degree was desirable. And when I make these statements, I make them as one in a position to know and who does know what he is talking about."

N. A. C. R. E. MEETS OCTOBER 8 AND 9

October 8 and 9 are announced as the dates for the forthcoming annual assembly of the National Advisory Council on Radio in Education which will be held in Chicago. Five sessions will be at the Drake Hotel and one in the Hall of Science at the Century of Progress Exposition.

"The Importance of Radio Broadcasting in a Changing Social Order" is to be the general subject of the conference. Among the speakers will be Secretary of the Interior Harold L. Ickes; Dr. John H. Finley, associate editor of *The New York Times*; Walter Damrosch; John Erskine; President Robert M. Hutchins, University of Chicago; President Walter Dill Scott, Northwestern University; Dr. Frederick P. Keppel, President of the Carnegie Corporation of New York; President Robert M. Sproul, University of California; President Lotus D. Coffman, University of Minnesota; Colonel Frank Knox, publisher of the *Chicago Daily News*; Dr. Harry Woodhurn Chase, Chancellor of New York University, and others.

Carl H. Milam, secretary of the American Library Association, is chairman of the committee on program which includes Levering Tyson, director of the N. A. C. R. E., President Hutchins and President Scott. Private versus government control of radio will be one of the live topics of discussion. Robert A. McMillan, President of the Council, will open the conference with greetings transmitted by short wave from London.

AMENDMENT TO ORDER NO. 2

The Broadcast Division, composed of Hampson Gary, Chairman, and Commissioners Brown and Sykes, today took the following action:

"It is ordered that Order No. 2, as amended, promulgated by the Commission August 28, 1934, be amended by inserting after the word 'each' of paragraph 1.a, of said order as amended, the following: 'Provided, however, that if said licensee Corporation has of record on said date one thousand stockholders or more, such Corporation shall be required to file with the Commission a list only of such stockholders owning one percentum or more of stock in said Corporation,' so as to make said sec. 1.a, read as follows:

"1.a A list of the stockholders of record, together with the address and the amount of stock held by each; provided, however, that if said licensee Corporation has of record on said date one thousand stockholders or more, such Corporation shall be required to file with the Commission a list only of such stockholders owning one percentum or more of stock in said Corporation.

"It is further ordered:

That the next to the last paragraph of said Order No. 2 as amended, be amended by inserting following the parenthesis and before the word 'or' in line four as appears on the minutes of the Commission the words 'as required by Section 1.a, hereof as amended.'"
