Vol. 2 - No. 47  
SEPT. 26, 1934

### OCTOBER 1 HEARING STATEMENTS

The October 1 hearing before the Broadcast Division of the Federal Communications Commission is admittedly the most important event in the history of American broadcasting. It has received wide publicity. Its outcome will determine whether or not 25 per cent of all facilities will be taken away from licensed stations and given to educational, religious, and similar organizations.

And yet many NAB members have not sent in their sworn statements in response to the NAB's urgent call for information.

Although the questions to be answered were sent to every member of the NAB along with NAB REPORTS, many members are now wiring that they never received them. This means simply that the questionnaire was disregarded upon its receipt.

The case for the broadcasters will be as strong or as weak as individual members make it. The NAB cannot make the case. It can only present in the best possible manner such facts as stations submit. The NAB has been busy night and day preparing for the hearings. Your cooperation is not only essential, it is absolutely imperative. It is an appalling fact that despite the notices sent out by the Commission, the statements sent out through NAB REPORTS, and the comment at the Convention, so many stations have shown a discouraging disregard of the most important hearing ever to be faced by the broadcasting industry. It is not yet too late. Send in your statements immediately.

### NAB HEADQUARTERS A BEEHIVE

With the vast amount of work left over from the Cincinnati meeting stacked high and heaps of correspondence awaiting attention, NAB headquarters is a beehive of activity with the preparation for the October 1 hearing before the Federal Communications Commission. With the hearing date only several days off, all routines are being sidetracked at headquarters in order that every minute of time may be devoted to the enormous task of preparing for the hearing.

Your executive staff, barely recovered from the strenuous days of the Convention, has plunged headlong into the October case. So if you haven't received a reply to your letter it is simply because the days are much too short and your staff much too limited to handle every detail during a period when a Convention, a copyright suit, and the most important hearing in the history of the industry fall at the same time. Please be patient!

### 375 ATTEND CINCINNATI MEETING

Registrations at the Cincinnati meeting totaled 375, according to the official tabulation.

Proceedings of the Convention will be printed and one copy sent to each NAB member. Additional copies may be purchased at a price to be determined. Every effort will be made to have the record printed at the earliest possible date.

### RESOLUTIONS ADOPTED AT NAB SESSION

Following are the resolutions adopted at the Cincinnati meeting:

#### Resolution No. 1

RESOLVED: That the National Association of Broadcasters hereby extends its hearty thanks to the management of the Netherland Plaza Hotel, to the members of its Convention Committee, under the chairmanship of Edwin M. Spence, and to the members of the Cincinnati Convention Committee, under the chairmanship of Powel Crosley, Jr., for their admirable services in making the Twelfth Annual Convention of the National Association of Broadcasters an outstanding success.

#### Resolution No. 2

RESOLVED: That the National Association of Broadcasters hereby expresses its sincere thanks to the Honorable Clarence C. Dill, the Honorable Hampson Gary, the Honorable Thad H. Brown, the Honorable Edwin L. Davis, the Honorable Sol A. Rosenblatt, and the Honorable Russell Wilson, for their notable contribution to the interest and value of the Twelfth Annual Convention of this Association.

#### Resolution No. 3

RESOLVED: That the National Association of Broadcasters hereby extends its sincere thanks to the Billboard for its fine cooperation in the work of the Twelfth Annual Convention.

#### Resolution No. 4

RESOLVED: That the National Association of Broadcasters hereby expresses its cordial appreciation of the efficient, conscientious and able service rendered during the past year by its Managing Director, Mr. Philip G. Loucks, and its full approval of the manner in which he has conducted the affairs of the Association's office.

#### Resolution No. 5

RESOLVED: That the National Association of Broadcasters hereby pledges its full cooperation to the Federal Trade Commission in its efforts to safeguard the people of the United States against all forms of fraudulent, untruthful or willfully misleading advertising, and urges upon every broadcaster the necessity for maintaining a standard of advertising truthfulness which will justify and strengthen the faith of the public in the dependability of radio advertising.

### Resolution No. 6

RESOLVED: That the National Association of Broadcasters having heard at its Twelfth Annual Convention the reports of its officers and committee chairmen covering their activities during the past year, hereby accepts and approves such reports.

### Resolution No. 7

RESOLVED: That the National Association of Broadcasters hereby recommends that the Cost Accounting Committee appointed for the past year by President McCosker be continued with the same personnel until the completion of the standard accounting system which it now has in hand, and that this system be completed, if possible, not later than November 1, 1934.

That on the completion of this standard accounting system, the Managing Director is hereby directed to have copies thereof prepared and sent to all member stations, if possible not later than December 1, 1934.

That all member stations are advised to make the necessary adjustments in their accounting methods, so far as such adjustments may be found practicable, to bring their methods into conformity with the proposed standard systems.

### Resolution No. 8

RESOLVED: That the National Association of Broadcasters hereby approves and adopts an amendment to the By-Laws of said Association which was duly submitted to its members in advance of the meeting at which this resolution was adopted, as provided by said By-Laws, said Amendment being as follows:

To repeal By-Law No. 1, and substitute therefor the following:

Effective October 1, 1934, *quarterly* dues shall be payable each January 1, April 1, July 1, and October 1, on the following basis:

(a) Each member operating a station authorized to operate 40 hours or less per week shall pay a sum equal to one-third of the highest rate published by such member for one quarter hour of broadcasting time.

(b) Each member operating a station authorized to operate 41 to 60 hours per week shall pay a sum equal to one-half of the highest rate published by such member for one quarter hour of broadcast time.

(c) Each member operating a station authorized to operate 61 to 80 hours per week shall pay a sum equal to two-thirds of the highest rate published by such member for one quarter hour of broadcast time.

(d) Each member operating a station authorized to operate 81 hours or more per week shall pay a sum equal to the highest rate published by such member for one quarter hour of broadcast time.

### Resolution No. 9

RESOLVED: That the National Association of Broadcasters hereby directs the chairman of its Commercial Section to appoint a committee of five to study what is pertinent information for the advertising agencies and the advertisers who are buyers of radio advertising, and to invite discussions with representatives of the American Association of Advertising Agencies and the Association of National Advertisers, with a view to setting up a bureau for the broadcasting industry, such committee to report with recommendations to the Board of Directors for action as quickly as possible.

### Resolution No. 10

WHEREAS, there is a need in the broadcasting industry for further standardization of units of sale and rate card practices, be it, therefore,

RESOLVED: That the National Association of Broadcasters hereby authorizes the Commercial Committee to publish as the recommendations of said committee, the following:

1. That units of sale be standardized as follows: one hour, one-half hour, quarter hour, five minutes, one minute transcriptions, one hundred words, half minute transcriptions, fifty words or less.

2. That all quantity discounts be given within a period of one year, with discounts retroactive to the first broadcast within that year, discounts to apply within the same time classifications.

3. That operating companies or holding companies operating more than one subsidiary be permitted to buy under a group plan allowing discounts for each of the separate companies under a blanket order to apply even if more than one agency is involved in placing time.

4. That all stations put on their rate cards, in addition to the regular standard units of time, under a separate heading called—

“special service features,” such features as time signals, weather reports, sports events, participation programs and any other service features, with an adequate description of what the individual station allows.

5. That no station quote quantity discounts on consecutive times other than 13, 26, 52, 100, 150 and 300.

### Resolution No. 12

RESOLVED: That the National Association of Broadcasters establish and maintain an agency recognition bureau at the Washington office of the Association; and that such machinery as may be necessary be set up by the Managing Director with such funds as may be deemed necessary and approved by the Board of Directors as a part of the regular annual budget; that, in general, agency recognition be extended to only those agencies which can satisfy the bureau as to credit responsibility, character or operation and radio service facilities; that said bureau be given full power to study applications of agencies for such recognition and to determine whether or not such recognition should be extended, subject to approval of the Board of Directors; and that the bureau furnish a list of those agencies which are extended recognition, together with all supplements thereof, with the strong recommendation of the Association that its members pay agency commission only to those advertising agencies extended recognition by the said bureau.

### Resolution No. 13

WHEREAS, the Code Authority regulations permit the granting of special rates with the sole proviso that these rates be filed with the Code Authority, and

WHEREAS, it is the belief of the Commercial Committee that such special rates may be used as a means of making concessions contrary to the intent of stabilized rates provisions of the Code, be it, therefore,

RESOLVED: That the National Association of Broadcasters petition the Code Authority to take steps to amend and clarify or to repeal its regulations permitting this practice.

### Resolution No. 14 (A)

RESOLVED: That the National Association of Broadcasters hereby reaffirms the resolution adopted at its 1933 convention referring to the elimination of announcements for electrical transcriptions produced especially for broadcasters, and directs the convention resolutions committee to draft an appropriate resolution for this purpose to be transmitted to the Federal Communications Commission.

### Resolution No. 14 (B)

RESOLVED: That the National Association of Broadcasters hereby reaffirms the following resolution adopted at its 1933 annual meeting:

“WHEREAS, The use of the electrical transcription method of broadcasting programs is generally accepted by both stations and by listeners and has become an important economic factor in the operation of broadcasting stations; and

“WHEREAS, There is definite evidence of serious loss in income to stations because of existing requirements that electrical transcription programs must be announced; and

“WHEREAS, There has been sufficient progress in the manufacture of electrical transcription programs that the reproduction of the majority of such programs are now generally considered as excellent; and

“WHEREAS, The broadcasting industry would be greatly benefited by the removal of existing restrictions, therefore, be it

“RESOLVED: That the National Association of Broadcasters hereby respectfully urges the Federal Radio Commission to alter the existing regulations requiring that electrically transcribed programs made especially for broadcasting be so announced.”

RESOLVED, FURTHER: That the National Association of Broadcasters hereby directs its officers to bring this resolution, without delay, to the attention of the Broadcasting Division of the Federal Communications Commission, and to take whatever steps may be necessary and practicable to secure prompt revision of the regulations in accordance with this resolution.

### Resolution No. 15

WHEREAS, The National Association of Broadcasters recognizes that merchandizing of radio programs and assistance in merchandizing of the products of advertisers stimulate the use of broadcasting as an advertising medium and enhance the value of the medium, be it, therefore,

**RESOLVED:** That the National Association of Broadcasters hereby urges the fullest possible cooperation in merchandizing that is consistent with good business practices; but since the merchandizing requirements of advertisers are wholly lacking in uniformity the Association recommends, in fairness to all advertisers, that the cooperation of the stations be limited to such activities as do not entail direct expense, and that where any direct expense is involved such costs be borne by the advertiser.

#### Resolution No. 16

**WHEREAS,** the custom of the National Association of Broadcasters to hold its annual convention during the fall months works a hardship on its members who find it difficult to leave their duties during one of the busiest seasons of the year, and

**WHEREAS,** the conveniences and interests of the great majority of members would be best served by holding the annual convention during the early summer months,

**THEREFORE, BE IT RESOLVED:** That this Convention direct its Board of Directors to schedule the 1935 convention during June or July on such dates considered best by the directors.

#### Resolution No. 17

**RESOLVED:** That the officers and directors of the National Association of Broadcasters be instructed to support the suit of the United States Government against the American Society of Composers, Authors and Publishers, the Music Publishers Protective Association and their affiliated defendants, to the end that royalties for the public performance of music may be determined by free and open competition among copyright owners.

#### Resolution No. 18

**RESOLVED:** That the National Association of Broadcasters hereby petitions Congress to amend the existing copyright law by omitting the language which fixes the minimum innocent infringement penalty for the public performance of musical compositions at \$250 and attorney's fees, leaving the Court free, in each instance, to fix such penalty as in its discretion the Court shall deem proper.

#### Resolution No. 19

**RESOLVED:** That the Board of Directors of the National Association of Broadcasters be and it is hereby directed to organize a music pool, either by a reorganization of the Radio Program Foundation or otherwise for the purpose of obtaining for radio broadcasting stations the air rights to such music as may not otherwise be available or which may be made more readily available by such a pool, and to enlist the cooperation of all radio stations and their program department in promoting the widest possible use of such music.

#### FLOUR PROGRAM PROPOSAL STUDIED

James W. Baldwin, executive officer of the Code Authority, this week initiated an investigation into a proposal by General Mills to purchase "run-of-the-station" time on a "plus revenue" basis for a schedule of 26 five minute daytime transcription programs. The investigation is being made under the provisions of Article VII of the broadcasters' code.

#### CODE AUTHORITY BULLETIN 12

The Code Authority this week sent to stations Bulletin No. 12, which reads as follows:

##### World Series Baseball Games

"We are informed that the Officials of the Major Baseball Leagues have elected to commercialize the broadcasting of the 1934 World Series games; and that they have sold the exclusive rights to broadcast the 1934 World Series games to the Ford Motor Company. In consequence of this, the broadcasting of any of the 1934 World Series games including either the name of the Sponsor (Ford Motor Company) or any description of the sponsor's products must be on a commercial basis consistent with the provisions contained in Article VII, Section 1, paragraphs (a) and (b) of the Code of Fair Competition for the Radio Broadcasting Industry.

##### Short Rate—Contracts Must Be in Agreement With Rate Card

"The Code Authority has received inquiries from stations concerning the inclusion of the following clause in certain of their contracts:

"The advertiser reserves the right to cancel this program without short rate if governmental regulations or legislation require such a cancellation."

"The question arises whether such a condition is consistent with the provisions contained in Article VII, Section 1, paragraph (a) of the Code.

"That Section provides in part as follows:

"Each broadcaster and network shall forthwith publish and file with the Code Authority a schedule of all its rates regularly and currently charged to advertisers for the use of broadcasting time, together with all discounts, rebates, refunds, and commissions which shall be allowed to the users of such time or to their recognized agents, such schedule to be known as the Rate Card. \* \* \*

"Regular procedure for the modification of a rate card is also provided for in Article VII, Section 1, paragraph (a) of the Code, which provides in part as follows:

"No Rate Card or rate charged thereunder shall be modified until fifteen days after the filing with the Code Authority of the Rate Card with the proposed modifications."

"The inclusion of any such condition in a contract, therefore, cannot be accepted as a modification of a Rate Card.

"The Code Authority, therefore, rules that the inclusion of any such condition in a contract, if it is inconsistent with the stations' or networks' Rate Cards, is in violation of the code.

"JAMES W. BALDWIN,  
Executive Officer."

#### MILLIKAN TO OPEN NACRE SESSION

Dr. Robert A. Millikan, internationally famed scientist and Nobel prize winner now on his way to England, will open the fourth annual assembly of the National Advisory Council on Radio in Education talking by short wave from London, where he will be in attendance at an international physicists' meeting.

The radio conference is to be held in Chicago, October 8 and 9. Dr. Millikan is president of the Council which was organized to further the art of broadcasting in American education and which is described in a recently issued statement as "an organization independent of faction, non-partisan in its procedure, disinterested as to personnel and non-commercial in operation."

Nation-wide interest in the future of radio is expected to draw to Chicago from all parts of the country scientists; economists; government officials; librarians; broadcasters; heads of schools, colleges and learned societies; clergymen; labor representatives; music-lovers; parent-teacher officers and others interested in education over the air.

#### MANAGING DIRECTOR ASKS INVESTIGATION

More than 150 letters seeking to purchase time on radio stations on terms in violation of Article VII of the broadcasters' code were turned over to the Code Authority by the Managing Director with a request that the Code Authority make an investigation to ascertain whether or not stations have accepted any of the proposals. The letters were sent to NAB headquarters by members from time to time and in the aggregate they offer every type of "chiseling" proposal imaginable.

James W. Baldwin, executive officer of the Code Authority, said he would investigate each of the proposals and take whatever action is warranted upon the conclusion of his investigations.

#### RECOMMENDS AGAINST TWO NEW STATIONS

Gino Amatucci applied to the Federal Communications Commission for a construction permit to erect a new broadcasting station at Latrobe, Pa., to use 1210 kilocycles with 50 watts power. Ralph L. Walker(e) in Report No. I-7 recommends that the application be denied.

The Examiner found that the applicant had failed to establish that he is financially able and technically qualified to construct and operate a broadcast station; and that there is a substantial need for additional radio service in that community.

Lawrence B. Amelung also applied to the Commission for a construction permit for a new broadcasting station to be erected at Washington, Mo., to use 1420 kilocycles, 50 watts power and unlimited time. Examiner Walker in his Report No. I-6 also recommended that this application be denied for substantially the same reasons.

## ASKS COMMISSION TO REAFFIRM DECISION

Broadcasting Station KGFK, Moorhead, Minn., applied to the Federal Radio Commission to grant it permission to move to Duluth, Minn. On January 30 the Commission granted this permission but protest was made. George H. Hill(e) in Report No. I-4 recommends that the Communications Commission affirm the action of the Radio Commission.

The Examiner found that the Duluth-Superior area is far more capable of supporting high quality service from a regional and local station than is the Fargo-Moorhead area.

He also found that no particular damage will be done to Station WEBC, Superior, Wis., by reason of the operation of KGFK in Duluth and that "no service will be taken away from Moorhead which cannot be adequately rendered by Station WDAY."

## RECOMMENDS DENIAL WWSW APPLICATION

Broadcasting Station WWSW, Pittsburgh, Pa., applied to the Federal Communications Commission for permission to change its frequency of 1500 kilocycles to 890 kilocycles now used by WMMN, Fairmont, W. Va. WWSW also asked to increase its power from 100 to 250 watts and from 250 watts LS to 500 watts LS. Ralph L. Walker(e) in his Report No. I-5, recommends that the application of WWSW be denied and that the application of WMMN for renewal license be granted.

The Examiner found that the need for additional coverage by Station WWSW is not such as would "warrant the granting of its application at the expense of Station WMMN."

## STEIN JOINS LEGAL STAFF

A. L. Stein of Chicago has joined the legal staff of the Federal Communications Commission. He was born at Eveleth, Minn. He received his preliminary education in the high school and junior college of that city and then entered the University of Wisconsin where he majored in public utilities and finance, receiving his academic degree in 1927. Thereafter he attended the Harvard Law School, graduating in 1930. For two years he was associated with David E. Lilienthal as an editor of the "Public Utilities and Carriers Service." He has recently been engaged in the active practice and teaching of utility and corporation law in Chicago.
