GENERAL HEARINGS OPEN

General hearings on Section 307 (c) of the Communications Act of 1934 providing that "the Commission shall study the proposal that Congress by statute allocate fixed percentages of radio broadcasting facilities to particular types or kinds of non-profit radio facilities to particular types or kinds of non-profit radio programs or to persons identified with particular types or kinds of non-profit activities, and shall report to Congress not later than February 1, 1934, its recommendations together with the reasons for the same" opened before the Broadcast Division of the Commission on Monday.

As this issue of NAB REPORTS goes to press, witnesses who propose change in the present system of broadcasting were continuing their presentation of testimony. When this testimony is concluded a summary thereof will be prepared and published for the benefit of all NAB members.

The industry's case, under the NAB, will commence next week and will continue throughout the following week.

PORTER NAMED ASSISTANT GENERAL COUNSEL

The Federal Communications Commission, this week, announced the appointment of George B. Porter of Iowa as an Assistant General Counsel. At the same time the Commission announced that organization plans provide for approximately 595 employees and explained that: "The Secretary of the full Commission, Herbert L. Pettet, under the new plan has under his jurisdiction the following sections and personnel:

"License—36; Dockets—4; Minutes—3; Public Reference, Correspondence and Records—25; Accounting—7; Duplicating and Supplies—9; Press—3; Sub-clerical section—5; a total of 92.

"The Engineering Department, of which Dr. C. B. Jolliffe is Chief Engineer, will probably be the largest division of the Commission, providing for 174 employees, of whom 110 will be in the field force, checking broadcast stations to see that they keep on their assigned frequency, thus providing good radio reception for listeners.

"This department is composed of 5 section—Telegraph, Broadcast, Telephone, International and Field. The Telegraph section, of which E. K. Jett is Chief, is to be composed of 23 persons; the Broadcast section, Andrew D. Ring, Chief—18; Telephone, W. G. H. Finch, Chief—17; International Section, Gerald C. Gross, Chief—4; and the Field section, W. D. Terrell, Chief—112.

"The second largest unit will probably be the Accounting, Statistics and Tariff section, to be composed of 160 persons. This section will be charged with the task of analyzing and summarizing the numerous reports filed, and to be filed with the Commission in response to its orders to radio stations, telegraph and telephone companies.

"Arnold C. Hansen has just been named Chief Accountant of this section. He has been Senior Examiner of the Interstate Commerce Commission in the bureau of formal cases for a number of years, and assisted Dr. W. M. W. Splawn in the House investigation of Communications Holding Companies.

"The third largest section will likely be the Valuation Department. The tentative set-up calls for 117 employees by this unit.

"The organization of the Law Department, of which Paul D. P. Spearman is General Counsel, has not been completed, nor the

Examiners' Unit. Recently the Commission named Frank Roberson, of Pelham, N. Y., and George B. Porter, of Des Moines, Iowa, Assistants to the General Counsel."
