FCC TO INVESTIGATE A. T. & T. CO.

Commissioners Walker, Chairman, Case and Sykes, at a regular meeting of the Telephone Division of the Federal Communications Commission, held on the 14th day of November, 1934, issued Order No. 11, as follows:

"The Telephone Division having under consideration Sections 215(a), 215(b), 215(c), 218 and 403 of the Communications Act of 1934, and it appearing that Section 215(a) requires that the Commission shall examine into transactions of telephone carriers relating to the furnishing of equipment, supplies, research, services, finances, credit, or personnel; that Section 215(h) requires that the Commission shall investigate the methods by which and the extent to which wire telephone companies are furnishing wire telephone service and wire telegraph companies are furnishing wire telegraph service; that Section 215(c) requires the Commission to examine all contracts of carriers subject to this Act which prevent the other party thereto from dealing with another common carrier subject to this Act and shall make a report thereon to Congress; that Section 218 provides that the Commission may inquire into the management of the business of all carriers subject to this Act, and shall keep itself informed as to the manner and method in which the same is conducted, and as to technical developments and improvements thereof; and that Section 403 authorizes the Commission to institute an inquiry, on its own motion, as to the foregoing:

"IT IS ORDERED, That the Division, on its own motion and without formal pleading, enter upon a proceeding of inquiry and investigation into and concerning such transactions, methods, contracts and management of the business of telephone carriers subject to the Communications Act, for the purpose of making such a report to Congress, and for the further purpose of carrying out any provisions of the Communications Act and making such findings or issuing such orders as may be appropriate thereunder.

"IT IS FURTHER ORDERED, That copies of this Order shall be served upon all telephone carriers subject to the Act, and that such carriers be made respondents to this proceeding; and that copies of said Order be sent to the Governor of each State and to each State regulatory body having jurisdiction over telephone carriers.

"AND IT IS FURTHER ORDERED, That this proceeding be assigned for hearing at such times and places, and with respect to such transactions as the Commission by order or public notice may hereafter direct."

The Telephone Division of the Federal Communications Commission later issued the following statement in connection with its Order No. 11.

"1. It is proposed to make an investigation as speedily as funds and the organization of the Commission will permit, and with the minimum of inconvenience to persons concerned. To this end the Division announces the following tentative program:

"(A) The investigation and study of the corporate history and the financial structure of the American Telephone and Telegraph Company, including the connections and relationships with the associated Bell Companies and the other subsidiaries of the American Telephone and Telegraph Company. This examination will also include subsidiaries which manufacture equipment and supplies for the parent American Telephone and Telegraph Company and for the associated Bell Companies, including all subsidiaries or related companies which affect the communications industry, under the jurisdiction of this Commission. The examination will include the financial arrangements between the American Telephone and Telegraph Company and its subsidiaries, and the agreements, financial and otherwise, of the various subsidiaries with each other.

"(B) A general inquiry into the license and service contracts between the American Telephone and Telegraph Company and the various associated Bell Companies.

"(C) A general inquiry into the contracts between the American Telephone and Telegraph Company and the Western Electric Co., Inc., also the contracts between the Western Electric Co., Inc., and the associated Bell Companies.

"2. The initial investigation will include only the American Telephone and Telegraph Company and its associated or related companies or organizations, or services, or contracts, as outlined in the foregoing.

"3. Public hearings will be had. That ample time may be provided for preparation, such public hearings will not begin until some time after January 1, 1935, and on dates to be announced by the Division. Work of investigation by the Commission's staff, however, is expected to start forthwith.

"4. With the completion of the testimony of the witnesses of the American Telephone and Telegraph Company and its subsidiaries, the hearings will be adjourned and at some subsequent date, not far removed, witnesses will be heard from the Independent Telephone Companies which come under the jurisdiction of the Communications Act. This inquiry will be directed at the financial structures, services, agreements, and contracts of the Independent Telephone Companies engaged in interstate commerce.

"5. The program of investigation will take into consideration the provisions of the Communications Act which authorizes cooperation with State Regulating Commissions.

"6. Other interested parties will be permitted to intervene and will be heard following the testimony of witnesses for the American Telephone and Telegraph Company and its subsidiaries and for the Independent telephone companies, and subsequent to a short adjournment following the testimony of witnesses for the Independent telephone companies.

"7. Interested parties, other than the telephone companies designated as respondents, may attend any or all of the hearings and participate therein.

"8. The facts and the data obtained through the investigation and through these public hearings may be used as a basis for a special report to Congress and will be available for and will be considered in any future investigations of telephone rates, made by this Commission."

CODE AUTHORITY MEETS

The Code Authority for the Radio Broadcasting Industry held a meeting in Washington, D. C., on November 15th and 16th. An agreement was reached on the method of conducting an investigation of the hours of labor and the wages of radio artists and performers as required by Article VI, Section 3 of the Code.

Announcement of other actions taken by the Code Authority will be made shortly.

ROSENBLATT GETS ADDED DUTIES

The National Recovery Administration announced yesterday that Sol A. Rosenblatt has been appointed Director of Field Administration and Enforcement. Mr. Rosenblatt will perform the duties of that office in addition to his duties as Division Administrator.

CLEAR CHANNEL INVESTIGATORS MEET

A second meeting of engineers and others interested in the Federal Communications Commission's investigation of secondary coverage will be held Friday, November 23, at the Commission's offices.

Definite plans for the co-operative investigation will be formulated at the meeting, with the intention of proceeding with the field work as soon as possible.

CODE AUTHORITY BULLETIN PUBLISHED

James W. Baldwin, Executive Officer of the Code Authority for the Radio Broadcasting Industry, announced that he would mail Code Authority Bulletins 13, 14 and 15 to all stations during the present week. The Bulletins include, among other items, opinions on Cosmopolitan and American magazine programs.

With reference to the tenders made to various radio stations by Cosmopolitan magazine, the bulletin includes an excerpt of a letter addressed to Mr. Daniel Henderson, Director of Promotion, as follows:

"This is to inform you that we consider the terms and conditions contained in your letters to radio broadcasting stations for the presentation of Cosmopolitan Radio Dramas an attempt to frustrate the purpose and intent of the Code of Fair Competition for the Radio Broadcasting Industry, and radio broadcasting stations will be advised accordingly."

The bulletin adds that "the Code Authority has auditioned Program No. 1 entitled 'The American Magazine Program' and finds that the programs contain lines of definite commercial value to the American Magazine. Broadcasting stations and network companies are, therefore, directed to refuse to broadcast these programs on a sustaining basis."

MANAGING DIRECTOR HUNTS BEARS

Philip G. Loucks, NAB Managing Director, has been away from Washington during the past ten days on a hunting trip with Harry Shaw, former NAB president. He is expected to return November 26.

FCC REQUESTS \$2,000,000

The Federal Communications Commission asked the Bureau of the Budget for an appropriation of \$2,000,000 for the fiscal year beginning July 1, next.

It is understood that the Bureau refused that and at first allowed only \$1,000,000 but that this was later raised to \$1,500,000 where it is now understood to stand. There are officials of the Commission who feel that with that amount of money it will be impossible for the Commission to do an efficient job.

The Commission will also ask the coming session of Congress for some \$500,000 for the period from January 1 to June 30, 1935, in addition to the appropriation which it now has under the old Federal Radio Commission. At this time some 70 additional employees have been taken into the new Commission as compared with the old Radio Commission. Additional personnel is still needed and will be added as the Commission's appropriations allow.

KFUO CELEBRATES

KFUO, St. Louis, will celebrate its tenth anniversary, Sunday, December 9, in a special broadcast from 3 to 4:30 P. M.

FCC ON INTERLOCKING DIRECTORATES

The Federal Communications Commission this week issued this statement:

"The Commission will regard the following as substantial compliance with the showing required by paragraph (c) 7 of Commission Order No. 4 as amended by Commission Order No. 6: (1) if the applicant is an officer, director, trustee, receiver, attorney or agent of any business corporation he must make a complete disclosure of such position and state the general character of the business conducted by such corporation; and (2) if the applicant has a financial interest in any corporation furnishing equipment, supplies, research, services, finances, credit or personnel, directly or indirectly, to any communication company, he must make a complete showing of his interest and state the general character of the business conducted by such corporation, only in cases where five per cent or more of such corporation's annual gross business consists of furnishing equipment, supplies, research, services, finances, credit and/or personnel, directly or indirectly to communications companies. If the applicant holds a position named in (1) in a corporation described in (2), he must make the disclosures called for in both (1) and (2)."

"Regularly licensed and practicing attorneys will not be required under number (1) above to show clients represented by them, unless such client corporations are engaged in conducting a communica-

tions service as a common carrier or come within the description in number (2) above."

INFORMATION WANTED

Anyone having information concerning the whereabouts of Mr. L. W. Shilby and his associates, H. B. Lee, William Martin, Owen Ray, Dan Delano and Grant Schaeffer (or Mr. Grant) is requested to communicate with NAB headquarters.

AAAA BULLETIN PUBLISHED

Frederic R. Gamble, executive secretary of the American Association of Advertising Agencies, announced this week the publishing of Section C, "Market and Newspaper Statistics," Volume III. Section C deals with the 46 cities having more than 100,000 population having ABC Audit Reports for periods ending March 31, 1934.

Section C is similar in form to Sections A and B, which covered, respectively, the 27 cities having audits to September 30, 1933, and the 22 cities having audits to December 31, 1933. All sections are loose-leaf and can be secured under one cover.

The studies contain figures on population, number of families, English reading persons, income tax reports, audited newspaper circulation, local rates, national rates, and the differential between local and national rates, lineage, and an analysis of sections of ABC Audit Reports dealing with inducements.

"Market and Newspaper Statistics" is a part of a program for the advancement of newspaper advertising being conducted by the AAAA Committee on Newspapers.

Copies of Sections A and B are available to other than AAAA members at \$2.50 per section, and Section C is available at \$5.00, the approximate cost of production.

A. N. A. ON AGENCY COMMISSIONS

According to "Editor and Publisher," Albert E. Haase has recently completed a report for the Association of National Advertisers on the advertising agency commission system, which was summarized as follows:

"1. Advertising agent is agent of advertiser only . . . owes the advertiser an undivided loyalty.

"2. Advertiser pays the agency. . . . The money flows directly from the advertiser through the agent to the medium.

"3. Agents set present rate of compensation. . . . The owners of advertising mediums are not of prevailing importance in determining the rate. They have been influenced and guided in their decision by agents.

"4. Major fault of discount system (commission system) is its seeming rigidity. . . . No single factor has done more . . . to create an outward show of resistance to change . . . than the improper use of the word 'rebate.'

"5. Discount system has been modified in actual business practice . . . four basic arrangements are now in use.

"6. Advertiser is free to make any terms he wishes with advertising agent. . . . The agent cannot, legally or ethically, accept the obligation of serving as the advertiser's agent, if he is already bound by, or, if he afterwards signs an agreement with, advertising mediums or others which conflict with his obligation to his principal—the advertiser. . . . Any single agent or owner of an advertising medium can, with perfect safety, set down terms upon which he will do business, but when he undertakes to prescribe a course of conduct for businesses other than his own, then he is confronted with the highly important question of restraint of trade. . . . There is no need for the sudden overthrow of the discount system as a cover-all system. As advertisers, agents and mediums come to know and understand their own rights and duties and act accordingly, this cover-all system will, in all probability, gradually disappear without injury to anyone."
