DUFFY COPYRIGHT BILL

If you have not already done so, wire or phone your Congressman at once and explain your interests in the bill S. 3047; the importance of having it reported out at once by the Patents Committee and brought to a vote. The American Hotels Association, the Motion Picture Theatre Owners of America, and the NAB are continuing their joint support of the bill as it passed the Senate and will resist any effort to restore, by amendment, the minimum damage provision.

The members of the Committee on Patents are as follows:

William I. Sirovich, of New York; Fritz G. Lanham, of Texas; Braswell Deen, of Georgia; Thomas O'Malley, of Wisconsin; Robert L. Ramsey, of West Virginia; Matthew A. Dunn, of Pennsylvania; J. Leroy Adair, of Illinois; James P. Richards, of South Carolina; Charles J. Colden, of California; John D. Dingell, of Michigan; Charles Kramer, of California; Randolph Perkins, of New Jersey; Clarence J. McLeod, of Michigan; Fred A. Hartley, Jr., of New Jersey; Robert F. Rich, of Pennsylvania; and Gerald J. Boileau, of Wisconsin.

FEDERAL TRADE COMMISSION ACTIVITIES

Cease and Desist Orders

No. 2300. William Littman and Max Littman, New York City, co-partners trading as Imperial Laboratories, and engaged in the manufacture of permanent wave appliances and products.

William Littman is directed to cease using as part of his trade name the word "Laboratories" unless and until he actually maintains a place where scientific investigations are conducted.

Littman is also ordered to stop representing that his products are made or compounded in a laboratory when this is not true, and from alleging that permanent wave hair lotion which he sells and distributes has been perfected by leading chemists or that it will wave hair without altering the texture.

Littman is prohibited from asserting that the felt used in the sachets which he sells and distributes is treated so that it will absorb the lotion evenly, when this is not true.

The Commission ordered that the complaint in this matter be dismissed as to Max Littman.

No. 2357. Renesol Corporation, New York City, and Charles Goldblatt and Maurice Goldberg. Unfair representations through newspaper, magazine and radio advertising by the respondents is prohibited.

The respondents are ordered to cease representing Renesol or any product of substantially the same composition as a cure for epilepsy or as a remedy by which permanent relief from epilepsy or epileptic fits can be effected. They are directed to stop representing Renesol

as other than an agent for the treatment of epilepsy, the effectiveness of which depends on continued or permanent use.

Renesol is said to contain phenobarbital plus bicarbonate of soda and may be used to relieve the discomforts due to epilepsy, according to the findings.

Complaints

Unfair competition of various sorts is alleged by the Federal Trade Commission in complaints issued against the following companies. These concerns will be given opportunity to appear before the Commission to show cause why cease and desist orders should not be issued against them.

No. 2504. United States Electric Manufacturing Company, New York City, manufacturer of flashlight and dry cell batteries under the trade name "Usalite Lok-Top."

The respondent is alleged to have represented that those products had a "special patented Lok-Top," when in fact the company had no United States or other patent on its flashlights, or on the method of construction.

The complaint charges that the respondent's representations placed in the hands of dealers the means by which they might commit a fraud on the purchasing public. Hearing, Friday, September 6.

No. 2505. Abraham Platell, trading as Platell Shoe Company, 158 Duane Street, New York City.

Platell is alleged to have stamped and labeled shoes sold by him with the phrase, "Dr. Florence Scientific Arch Support," when in fact these shoes were not made in accordance with the design of or under supervision of a doctor, and did not contain special scientific or orthopedic features which were the result of medical advice or services.

Subsequent to October, 1933, Platell is said to have changed the labeling on his shoes by substituting an "i" for an "r" in the abbreviation "Dr.," thus making the designation read "Di. Florence Shoes."

Use of the abbreviation "Dr." or the imitation thereof printed as "Di." have had the capacity to unfairly divert trade from or otherwise injure competitors, according to the complaint. Platell's footwear was not designed for the purpose of correcting or alleviating any particular kind of foot trouble, except to the extent that the arch in the shoe was purported to correct or support defective arches, it was alleged.

No. 2506. Barager-Webster Co., Eau Claire, Wis. This company is said to have sold to wholesale and retail dealers certain packages or assortments of candy so packed and assembled as to involve the use of a lottery scheme when sold and distributed to consumers. The complaint charges that these practices have a capacity to unfairly divert trade from the respondent's competitors.

No. 2508. Calaf Company, Los Angeles, Calif., dealer in medicines for treatment of asthma and hay fever. The company is said to have advertised that by use of its product asthma and hay fever will disappear "like magic." The complaint points out that this is not true and that the respondent's representations tend to deceive the buying public. Hearing, September 13.

Stipulations

Unfair competition of various kinds will be discontinued by the following companies in pursuance of stipulations entered into between these concerns and the Federal Trade Commission:

Nos. 0881 and 0882. Frank R. Jelleff, Washington, D. C., and Pharma Craft Corporation, Louisville, Ky. The respondents each have agreed to discontinue unfair advertising practices in the sale of facial and antiseptic cream.

Jelleff agrees to cease asserting that the facial cream "Delv" is the result of years spent in searching for an ingredient to duplicate the natural oils of the skin and that the unhealthy functioning of an oily skin will be corrected through daily use of "Delv."

Representation that the Pharma company's "Fresh" antiseptic cream "will relieve your trouble," that it either dries into the skin or vanishes into the skin immediately, or that it relieves foot irritations, unless this allegation is limited to irritation caused by excessive perspiration attended by abrasions or infections of the skin, will be discontinued.

Nos. 0883 and 0884. **Tablet Sixty-Six Company, Los Angeles, Calif., and R. Robert Reveno, Philadelphia, operating as R. Robert Reveno & Co.** Both firms deal in treatments for rheumatic afflictions.

Tablet Sixty-Six Co. agrees to cease representing inferentially or by direct statement that its treatment, designated "Tablet 66," is a competent treatment or an effective remedy for either muscular rheumatism, inflammatory rheumatism, muscular rheumatic conditions or "incurable" rheumatic conditions, or that medical authorities have so recognized its ingredients.

The Commission, following an investigation, had reason to believe that many of the company's advertising representations were incorrect, exaggerated and misleading.

Reveno agrees to stop representing that his "Aralgia Capsules" are a competent treatment or an effective remedy for rheumatic pains, neuritis, gout, lumbago or neuralgia, and that he has "perfected" a rheumatic remedy.

No. 0885. **Breckenridge Manufacturing Co., of Detroit, Mich.,** engaged in selling a device for gas stoves called "Scientific Gas Saver," has entered into a stipulation with the Federal Trade Commission to stop unfair advertising practices.

The respondent company agrees to cease advertising that by the use of its appliance, cooking gas bills may be cut 59 per cent or 25 per cent or any other percentage not established by scientifically conducted tests. The company will also stop representing that gas bills may be cut from \$10.32 to \$4.62, or by any other amount not actually demonstrated under accurate test conditions.

Other representations to be discontinued are to the effect that the article is a "scientific" gas saver or in fact a gas "saver" at all, until competent scientific proof thereof can be furnished, and that it either burns more air or less gas than other contrivances, or that it burns any air whatsoever.

No. 0886. **Kent Laboratories, New York City.** The respondent agrees to cease asserting that its "Broncotone" is a competent treatment or effective remedy for asthma, whooping cough, lung or bronchial disturbances, bronchitis, catarrh, sore throat and colds, and that its "Gastritone" is a competent treatment or effective remedy for constipation, acids and other stomach ailments, unless the allegation is limited to such disorders as a laxative or a mild sedative would relieve.

No. 0887. **Century Laboratory, Inc., Chicago.** Advertising a treatment for foot troubles called "Perfect-Foot Foot Bath Powder," the Century Laboratory, Inc., agrees to stop making allegations that use of this preparation at least once a week will keep a person's feet in normal condition regardless of circumstances, and that the article is a new, scientifically compounded formula, or that it will correct practically every known kind of foot trouble.

No. 1424. **Hugo Gernsback, of 101 Hudson Street, New York City, doing business as Radio Trading Co.,** has entered into a stipulation with the Federal Trade Commission to discontinue use of the words "All-Wave" in the sale of radio sets which are not capable of reception over the entire meter range covering all broadcast and commercial transmissions.

Gernsback also agrees to cease representing in substance and effect that by the use of his radio receiving sets owners thereof can have world-wide continuous reception of short-wave transmission, with loud speaker volume, as dependably and as easily tuned in or "logged" as with long-wave or broadcast transmissions.

The stipulation points out that in the present state of the art the reception of foreign short-wave bands is difficult and uncertain and that these conditions are known to experts but not generally to the purchasing public. Gernsback agrees to stop presenting the advantages of his products in such a way as to conceal their difficulties and deficiencies.

He also agrees to stop using the phrase "Manufactured by Radio Trading Company, New York," when in fact he is not a manufacturer but purchases the products he sells from the manufacturers thereof.

No. 1425. **Triangle Underwear Company, New York City.** The respondent company agrees to cease branding or labeling its products as "Pure Silk" or as "100% Pure Silk."

The stipulation provides that if the products are weighted to an amount exceeding 15 per cent in black goods or 10 per cent in other than black goods, the word "Silk," if used, shall be accompanied by the word "weighted" printed in equally conspicuous type so as

to indicate clearly that the garments are weighted with mineral salts or other weighting substance.

This company's articles were said by the stipulation to have contained a substantial quantity of mineral salts or substance other than silk and were what is known as weighted silk.

No. 1426. **W. G. Earnhardt, of Chicago, an individual trading as Earnhardt Laboratories,** has entered into a stipulation with the Federal Trade Commission to cease misleading representations in the sale of a facial cream product called "Earnhardt's Turtle Oil Cream." Earnhardt agrees to stop using the words "Turtle Oil" alone or in connection with other words to designate his product so as to imply that the article is a cream, the oil content of which is composed of turtle oil.

Provision is made that when the oil content is substantial and does contain turtle oil in substantial amounts, the words "turtle oil," if used to describe the turtle oil content, shall be properly qualified.

Earnhardt also agrees to cease using the word "Laboratories" as part of his trade name or otherwise when he does not operate a laboratory.

No. 1428. **Beaulieu Vineyard, Rutherford, Napa Valley, Calif.** The respondent has agreed to discontinue the unfair appropriation of the good will of a foreign trade name in the sale of a domestic product.

The stipulation provides that Beaulieu Vineyard discontinue selling certain of its wines under the trade name "Chateau Yquem," as Chateau d'Yquem is the name of an estate belonging to the Marquis de Lur-Saluces, of the Province of Bordeaux, France. According to the stipulation, there is produced on this estate a sweet wine which is sold under the brand name "Chateau d'Yquem" and which has acquired a valuable good will because of its excellence.

No. 1431. **Leiba Sharn, also known as Leo Sharon, trading as Leotone Radio Company, New York City.** Advertising implying that radio receiving sets can procure world-wide reception will be discontinued by the respondent.

According to the stipulation, Sharn sold "Leotone Short-Wave Sets," advertising them as capable of regularly receiving programs from Italy, Spain, Germany and England, when in fact the meter limitation of the sets was not sufficient to cover all broadcasts.

No. 1432. **W. N. Hull and A. B. Chapman, fruit growers, Key Largo, Fla.** The respondents agree to stop using the name "Florida Key Lime Association" as a trade name alone or in connection with the phrase "Composed of 80 per cent of the Florida Key Lime Growers." The stipulation points out that no organization or association of that name composed of 80 per cent of the Florida Key lime growers is in existence.

No. 1433. **American Products and its subsidiary, the Zanol Products Company, both of Cincinnati,** dealers in food products, toiletries and household cleansers, have entered into a stipulation with the Federal Trade Commission to stop making misleading representations of their business.

These companies agree to cease asserting that they pay their agents up to \$52.50 a week or any other sum, and to stop over-estimating and exaggerating the probable profits of the business. They will also cease alleging that they furnish a Ford Sedan free and that they do a five-million-dollar-a-year business, when such is not the fact.

Closing of Case

No. 2331. **The Federal Trade Commission has closed its case against Sinclair G. Stanley, doing business under the name of Z. G. Herbs Co., Chicago.** The complaint charged false and misleading representations in the sale of his product, **Z. G. Herbs Tea No. 17.** Closing of the case was ordered because the respondent entered into a stipulation with the Commission to cease and desist from the practices alleged in the complaint.

SECURITIES ACT REGISTRATIONS

The following companies have filed registration statements with the Securities & Exchange Commission under the Securities Act:

The Laclede Gas Light Co., St. Louis, Mo. (2-1565, Form A-2)
Agawam Racing & Breeders Asso., Inc., Agawam, Mass. (2-1566, Form A-1)

G. E. Employees Securities Corp., Jersey City, N. J. (2-1567, Form A-2)

Public Service Company of New Hampshire, Manchester, N. H. (2-1568, Form A-2)

Savannah Electric & Power Company, Savannah, Ga. (2-1569, Form A-2)

American Fidelity Corp., Ltd., San Diego, Calif. (2-1573, Form G-1)
Morgan Industries, Inc., Philadelphia, Pa. (2-1574, Form A-1)
Oil Ridge Oil & Refining Co., Wilmington, Del. (2-1575, Form A-1)
Summit Gold Mining Corp., Vancouver, B. C. (2-1576, Form A-1)
Underwriters Group, Inc., New York City. (2-1577, Form C-1)

RECOMMENDS AGAINST NEW NEBRASKA STATIONS

The Omaha Broadcasting Company filed a petition with the Federal Communications Commission asking for a construction permit to erect a new station at Omaha, Nebr., to use 1500 kilocycles, 100 watts power, and unlimited time.

R. H. Hyde(e), in Report No. I-87, recommends that the application be denied. The Examiner found that the proposed service would not be essentially different from that of existing stations and he did not find that granting the application would serve any public interest.

Application was also filed with the Commission by William A. Schall, also for the erection of a station at Omaha to use the same frequency, power and time asked for by the Omaha Broadcasting Company.

R. H. Hyde(e), in Report No. I-86, recommended that this application also be denied for much the same reasons as set forth in the previous decision.

DENIAL OF WNBf APPLICATION RECOMMENDED

The Howitt-Wood Radio Company, Inc., Binghamton, N. Y., applied to the Federal Communications Commission asking that it grant a special experimental authorization to operate Station WNBf, Binghamton, to use 1240 kilocycles, 500 watts night and 1,000 watts LS, with unlimited time. The station now operates on a frequency of 1500 kilocycles, 100 watts, and unlimited time.

John P. Bramhall(e) recommended in Report No. I-88 that the application be denied. The Examiner found that no need for additional daytime service in that area was shown; also that the granting of the application would increase the facilities of an already overquota state. It would also cause interference, and would not serve any public interest.

VENTURA APPLICATION DISMISSAL RECOMMENDED

The Hauser Radio Company, Ventura, Calif., applied to the Federal Communications Commission for a construction permit for a new broadcasting station to be erected at Ventura, to use 1310 kilocycles, 100 watts power, and unlimited time on the air.

P. W. Seward(e), in Report No. I-89, has recommended that the application be dismissed with prejudice. Counsel for the applicant appeared at the hearing recommending that a motion to dismiss the application be granted.
