Vol. 3 - - No. 9
FEB. 7, 1935

RECOMMENDS COMMISSIONERS' CONFIRMATIONS

The Senate Committee on Interstate Commerce on Tuesday reported favorably to the Senate the nominations of Commissioners Sykes, Brown, Stewart, Payne, Walker, and Case. It is expected they will be confirmed before the end of the week. Commissioner Prall was previously confirmed by the Senate.

The report of Chairman Wheeler's committee followed extensive hearings which were concluded last Saturday morning.

COPYRIGHT UNION TREATY CONSIDERED

The Senate Foreign Relations Committee on Wednesday considered in executive session a resolution providing for the ratification of the International Copyright Convention. Adherence to the convention was opposed by the broadcasters and many other users of copyrighted works of all kinds during the last session of Congress. These groups are still opposed to ratification.

Adherence to the convention would bind the United States to pass new copyright legislation in line with the terms of the convention. The convention provides for automatic copyright, abolition of all formalities such as registration and notice, divisibility of copyright, and, among other things, would recognize the moral right of any composer or author to protect mutilation of his work by injunction.

The Committee, it is understood, will continue consideration of this matter next week. Ratification was supported by the State Department during the last session of Congress.

Senator Duffy, Wisconsin, is chairman of the subcommittee considering the matter.

SHEPARD HEADS MASSACHUSETTS COMMITTEE

Organization of the Massachusetts State Committee of the National Association of Broadcasters was completed at a meeting of broadcasters held at Boston on Tuesday. Managing Director Loucks served as chairman pro tem and explained the purposes of the committee and conducted the elections which resulted in the selection of John Shepard Third, WNAC, Boston, as chairman; J. J. Storey, WTAG, Worcester, vice chairman; and A. S. Moffat, WMAS, Boston, secretary. In addition to the above, the following were present: Roy Harlow, WAAB, Boston; Ira L. Grimshaw, WBZ, Boston; Joseph Groce, WEEI, Boston; J. A. Holman, WBZ-WBZA, Boston; F. N. Maddix, WBSO, Babson Park; Al Pote, WMEX, Boston; E. E. Hill, Worcester; Robert Donahue, WLLH, Boston; Irving Vermilya, WNBH, New Bedford; W. T. Welch, WSAR, Fall River; and J. A. Farrer, Boston attorney.

The meeting considered several bills pending before the Massachusetts legislature and agreed to appear as a body before the Joint Judiciary Committee of the Legislature in opposition to bills which would require all stations to keep accurate records of all words spoken or sung over stations and which would subject stations to penalties for defamatory statements. Chairman Shepard, it was agreed, will appear as spokesman for the Committee at the hearings to be held Thursday morning.

STATE LEGISLATION

Oregon House Bill 148, introduced by Congressman Harrison, January 28, prohibiting the advertising of alcoholic beverages in any manner, noted in NAB Bulletin January 31, has been killed, but Senator Zimmerman et al. of Oregon introduced February 4 Senate Bill 154 which also prohibits the advertising of liquor, including radio.

Iowa has introduced and passed in the House a radio receivers tax bill. This bill has now gone to the Senate Judiciary Committee for action.

Illinois House Bill 143, introduced January 29, 1935, by Congressman Adamowski, brings radio broadcasting advertising under the provisions of the fraudulent advertising act.

New York Assembly Bill 765, introduced January 30 by Congressman Doule, adds a new section 555 to the Penal Law, making it a misdemeanor for any person other than a licensed physician or surgeon to broadcast surgical or medical advice.

Wisconsin Assembly Joint Resolution 42, introduced by Congressman Blomquist, provides for a special joint legislative committee to confer with the Federal Communications Commission on the improvement of radio broadcasting in Wisconsin.

Washington H.T.N. XYZ provides for a new emergency revenue bill revising the business and occupational tax law, inheritance, and other statutes, and contains a retail sales tax of two and one-half per cent in lieu of the former half of one per cent tax on retail business.

LINE CHARGES TO BE STUDIED

A sweeping investigation of the corporate setup and charges of the American Telephone and Telegraph Company has been ordered by the Senate under the terms of a resolution reported favorably this week to the Senate by the Senate Committee on Interstate Commerce. A sum of \$750,000 is provided for the investigation, which would be undertaken by the Federal Communications Commission.

Charges for broadcast lines and public address systems would be investigated under the terms of the measure.

The resolution (S. J. Res. 46), which was introduced by Senator Burton K. Wheeler of Montana, chairman of the Committee, reads as follows:

"Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That it is necessary, in aid of legislation by the Congress and for the use of governmental agencies, including State regulatory commissions, for the information of the general public, as an aid in providing more effective rate regulation, and for other purposes in the public interest, that accurate and comprehensive information be procured and compiled regarding the American Telephone and Telegraph Company and other telephone companies.

"Sec. 2. The Federal Communications Commission is hereby authorized and directed to investigate and report to the Congress on the following matters with respect to the American Telephone and Telegraph Company and all other companies engaged directly or indirectly in telephone communication in interstate commerce, including all of their subsidiary, affiliated, associated, and holding companies, and any other companies in which any of them have any direct or indirect financial interest, or which have any such interest in them, or in which any of their officers or directors hold any office or exert any control, or whose officers or directors hold any office or exert any control in them—

"(a) The corporate and financial history, and the capital structure and the relationship of such company and of its subsidiary, affiliated, associated, and holding companies, including the determination of whether or not such structure may enable them to evade State or Federal regulation or taxation, or to conceal, pyramid, or absorb profits, or to do any other act contrary to the public interest.

"(b) The extent and character of intercompany service contracts and all transactions between the telephone companies and their subsidiaries, affiliated, associated, or holding companies, and particularly between the American Telephone and Telegraph Company and the Western Electric Company and other manufacturers of electrical communication equipment; the methods of publishing telephone directories and placing and charging for advertising therein; the cost of and sale prices of telephone equipment, material, or devices to telephone operating companies or users; the profits upon such sales and the effect of such sales upon the rates or upon the rate base of operating companies when used as a basis

for telephone charges in the various States or in interstate commerce; and the probable savings to telephone operating companies and the public by purchasing equipment under a system of competitive bidding.

"(c) The reasons for the failure generally to reduce telephone rates and charges during the years of declining prices; and the extent, if any, to which local subscribers or the users of toll service have borne the cost of the research developments for telephone equipment and appliances, radio, motion picture, and other inventions, including the maintenance and support of Bell Telephone Laboratories, Incorporated.

"(d) The effect of monopolistic control upon the reasonableness of telephone rates and charges, upon the methods of competition with independent telephone companies, and upon the character of services rendered, and the alleged unfair or discriminatory practices with respect to such companies, and with respect to radio broadcasting or public speaker 'hook-ups.'

"(e) The effect of mergers, consolidations, and acquisitions of control by telephone companies, including the determination of whether there has been any 'write-up' in the purchase price of property, equipment or intangibles, the fairness of the terms and conditions of any merger, consolidation, or acquisition, and the public interest therein, and the effect thereof upon rates or service.

"(f) The accounting methods of the companies, particularly with reference to depreciation accounting, apportionment of investment, revenues and expenses between State and interstate operations, employee pension funds, and valuation of properties for both rate and tax purposes.

"(g) The methods of competition with other companies or industries, including the determination of whether or not there has been any sale or refusal to buy from or sell to competing companies, or suppression of patents, and the expansion of the companies into fields other than telephone communication, including teletype service, telephoto service, telegraph service, broadcasting, motion and sound picture production and distribution, and the manufacture of electrical equipment, so far as such expansion may relate to or affect communications.

"(h) Whether or not the companies have sought through propaganda or the expenditure of money or the control of channels of publicity to influence or control public opinion, legislative or administrative action, or elections.

"SEC. 3. As used in the resolution the term 'company' shall include all subsidiary, affiliated, associated, and holding companies or corporations and all companies directly or indirectly associated or connected with telephone companies, either by direct or indirect stock ownership, interlocking directorates, voting trusts, holding or investment companies, or any other direct or indirect means.

"SEC. 4. The inquiry into certain practices of telephone carriers subject to the Communications Act of 1934, recently instituted by the Federal Communications Commission pursuant to its Telephone Division Order Numbered 11 and Statement of November 14, 1934, may be consolidated with the investigation required by this joint resolution in the manner and to the extent deemed desirable by the Commission.

"SEC. 5. For the purposes of this resolution the Federal Communications Commission is hereby authorized to hold hearings; to contract for stenographic reporting service; to utilize its regular personnel, facilities, jurisdiction, and powers insofar as practicable; and to employ for the purposes of this investigation such additional experts, including engineering, accounting, legal, and other assistants as may be found necessary, without regard to the provisions of other laws applicable to the employment and compensation of officers and employees of the United States, and to make such other expenditures, including necessary travel expenses, and expenditures for printing and binding, as it deems necessary. The Commission is also hereby authorized to have access to, upon demand, for the purposes of examination, and the right to copy, any books, papers, correspondence, memoranda, and other records of any person, partnership, company, or other organization being investigated, whether such books, papers, correspondence, memoranda, or records are in the possession of the company under investigation or are in the possession of other persons, firms, or corporations; to require by subpoena the attendance and testimony of witnesses and the production of books, papers, correspondence, memoranda, and other records which the Commission deems relevant or material to the inquiry, at any designated place of hearing within the United States; to administer oaths and affirmations, to require persons, partnerships, companies, or other organizations to submit to the Commission in writing reports and answers to specific questions, furnishing such information as the Commission may re-

quire relative to the inquiry. Such reports and answers shall be made under oath or otherwise as the Commission may prescribe and shall be filed with the Commission within such reasonable period as the Commission may prescribe, unless additional time be granted in any case by the Commission. In case of contumacy or the refusal to obey any subpoena or other order issued hereunder, the Commission may invoke the aid of any court of the United States, within the jurisdiction of which such inquiry is carried on, or where such party guilty of contumacy or refusal to obey resides or has his place of business, in requiring obedience to such subpoena or other order and any such court of the United States shall have jurisdiction to issue its order enforcing such subpoena or other order of the Commission in whole or in part; and any failure to obey such order of the court may be punished by such court as a contempt thereof. All process in such cases may be served wherever the defendant may be found.

"SEC. 6. There is hereby appropriated, out of any money in the Treasury not otherwise appropriated, the sum of \$750,000, to be made immediately available to the Federal Communications Commission for the purposes of the investigation and report herein authorized and directed, and the Commission shall make special reports to Congress on its progress and its findings in this investigation."

BILL TO CLARIFY FTC ACT

A bill to clarify the Federal Trade Commission Act, introduced by Chairman Wheeler of the Senate Interstate Commerce Committee (S. 944), was reported favorably to the Senate Tuesday. The bill would amend Section 5 of the Federal Trade Commission Act of 1914 by substituting for the first two paragraphs of Section 5 the following language:

"Unfair methods of competition in or affecting commerce and unfair or deceptive acts and practices in or affecting commerce are declared unlawful.

"The Commission is empowered and directed to prevent persons, partnerships, or corporations, except banks and common carriers subject to the Acts to regulate commerce, from using unfair methods of competition in or affecting commerce and unfair or deceptive acts and practices in or affecting commerce."

RADIO LISTENERS ABOVE AVERAGE

Results of an educational self-test broadcast recently on the weekly radio program of the U. S. Office of Education reveal a more-than-average intelligence on the part of radio listeners.

The test broadcast by the Office of Education was conducted in the field of mathematics and was one of a series of similar tests which that branch of the government plans to broadcast in response to popular demand.

The tests were so designed that a normal group of adults would give correct answers to 5 of the 10 questions. The average of the radio listeners, however, was 7 out of 10.

In commenting upon the results of the test, Commissioner of Education John W. Studebaker stated that "Information gathered by the Federal Office of Education convinces us that those who provide public entertainment are overly pessimistic about the quality of American audiences. They have swallowed the myth that we are a nation of 12-year-olds."

COMMISSION GETS DEFICIENCY

The President has signed an omnibus bill which contains a deficiency appropriation of \$480,000 for the Communications Commission. This amount of money is available from now until the end of the fiscal year, June 30, next. It is believed by members of the Commission that this will allow the Commission to go ahead with its many activities in the meantime.

RECOMMENDS NEW STATION

Abraham Shapiro applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Astoria, Ore., to use 1370 kilocycles, 100 watts power, and 7 a. m. to 8 p. m. time on the air. Ralph L. Walker (e), in Report No. I-20, recommended that the application be granted as to daytime hours but be denied in so far as it requests hours after local sunset.

The Examiner found that the applicant is qualified to construct and operate the proposed station and that there is no consistently satisfactory broadcast reception in the area the applicant proposes

to cover. But he found that "the operation of the proposed station after sunset will interfere with the fair and efficient radio service of stations now in existence, while daytime operation will not result in such interference."

LLEWELLYN GETS HEARING

George Llewellyn, former radio inspector at the Atlanta office of the Federal Radio Commission, was given a hearing before the Communications Commission on Wednesday of this week relative to charges which resulted in his dismissal from the Commission's staff in 1932.

COMMUNICATIONS COMMISSION LEGISLATION

The Senate Committee on Interstate Commerce on Wednesday favorably reported out S. 1336, an amendment to the Communications Act which would allow the Federal Communications Commission to employ a chief accountant at \$9,000 a year.
