G.E. SAVES CUSTOMERS \$1200 A YEAR

New Filament Doubles Tube Life

Frank P. Barnes

Good news for all TV stations using G-E low and high channel transmitters was announced this week by Frank P. Barnes, sales manager of

General Electric broadcast equipment. The company is making available at moderate cost a modification kit for conversion of the final video stage to permit use of thoriated filament GL-6039 tubes.

Multiple Advantages

With an expected life of 6,000 hours or more, better than twice that of the 9C-24 it replaces, the new tube makes possible annual user savings of approximately \$1260. "Based on a 15-hour operating day," Mr. Barnes said, "the conversion saves in one year more than twice the cost of the modification kit itself. Components of the kit can be installed by a station engineer in less than 4 hours."

Still Operating After 3 Years

Two experimental tubes installed at WRGB, Schenectady in 1949 have given over 14,000 hours of satisfactory service to date, Mr. Barnes reported. In addition, WKTV Utica has operated these tubes on Channel 13 for more than 6300 hours without evidence of deterioration. This product improvement reflects the G-E engineering principle of continuing service to broadcast customers.

KPIX GETS NEW ANTENNA BY AIRLIFT

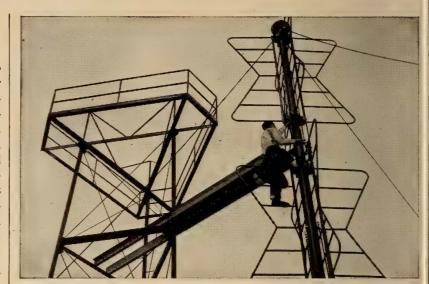

G.E. Ships Pre-tested Unit From Electronics Park

Pending FCC authorization to boost its effective radiated power to 100 kilowatts, KPIX San Francisco has purchased advanced-design General Electric equipment. A special side-mounted, 3-bay, low channel VHF antenna, rushed by air freight from Syracuse recently, will be placed atop Mount Sutro, in the heart of San Francisco. The antenna will be mounted on a tower shared with KGO-TV.

Order includes amplifier

In moving from its present location, KPIX will replace existing transmitting facilities with a complete General Electric installation. This will include an air-cooled 5 kw transmitter, already installed, and a 35 kw amplifier to be added when authorized.

On the air July 1
KPIX will be on the air with its

Performance-engineered antenna is run through rigorous G-E checks at factory. To simulate operating conditions, special tower at Syracuse was rigged to run exhaustive in-service tests before antenna was flown to customer.

new equipment by July 1. Similar unusual antenna problems solved by General Electric engineers prior to the KPIX installation include those at WHAS Louisville, and WBZ Boston.

Binary Scalers in G-E Sync Generators

Because Cal Ellis, design engineer at Electronics Park, had seen them in action on gunfire computers in World War II, he incorporated binary scalers in this popular new pulse generator, 45 of which are now in use in TV stations.

These tiny scalers provide the most accurate known method of counting electronically. Twelve neon lamps are built into each sync generator to indicate proper tube operation. The stability of binary scalers minimizes the necessity for adjustment of the G-E unit at the station.

TV Advisory Service Set Up in Washington

Broadcast officials visiting attorneys or consulting engineers in the nation's capital are invited to make use of General Electric's new TV Advisory Service at 777 14th St. NW, phone Executive 3600.

Established to save time and provide fast, accurate answers on equipment and operating problems, the service is staffed by G-E specialists. On hand to welcome your inquiries are Bob Brown, Jack Painter, Ralph Yeandle, Sam Morse and "Sheriff" Prescott. These men have had broad TV experience in engineering, field service, and applications.

All Plug-in Audio Console Announced

The "pay as you go" policy will trim equipment costs for TV or radio broadcasters who install G. E.'s unique plug-in audio console. Buy only the amplifiers you need; add more as station requirements grow—these are the big reasons behind a predicted runaway success for this new unit.

Nine mixers and seven input preamplifiers provide all combinations for normal production needs. Dual channel output facilities and ready made plug-in mounting connections are built in at the factory. Color coded control knobs permit swift, simple operation.

PROCESSING RUSHED

By LARRY CHRISTOPHER

NEW and amended television applications reached the 550 mark last Thursday as FCC rushed processing of top priority city applications looking toward initial post-thaw new station grants.

The Commission had scheduled a special meeting for last Friday and as of late Thursday night it was predicted as many as a score or so new station authorizations might follow.

Earlier in the week FCC authorized six more existing TV stations to change their channels in accordance with the final allocation of the Sixth Report and Order [B • T, April 14].

On Thursday, the Commission also issued its order to specify offset carrier operation for substantial number of existing stations, giving them until April 1 of next year to make the technical modifications. The order included a modification of the table of city-by-city channel assignments (see below). FCC explained that pending applicants will not have to modify their bids if the channel they seek is offset (10 kc above or below normal carrier frequency), since the modification will be set forth by the Commission when a construction permit for a channel is granted or a license is renewed.

Purpose of the offset operation is to further reduce chances of cochannel interference. About twothirds of the channels allocated are now offset, FCC estimated.

The channel changes authorized for existing stations under the Sixth Report included:

WLTV (TV) Atlanta — Granted change from Ch. 8 to Ch. 11, effective radiated power boost from 23.8 kw to 316 kw, increase in antenna height above average terrain from 456 ft. to 1,330 ft.

WCPO-TV Cincinnati—From Ch. 7 to Ch. 9, ERP from 24 kw to 316 kw, antenna 660 ft. Estimated cost, \$206,687.

WKRC-TV Cincinnati—From Ch. 11 to Ch. 12, ERP from 24.5 kw to 316 kw, antenna 610 ft. Estimated cost, \$178,500.

WSAZ-TV Huntington, W. Va.— From Ch. 5 to Ch. 3, ERP from 16.8 kw to 84 kw, antenna 590 ft. Estimated cost, \$91,000.

WDTV (TV) Pittsburgh—From Ch. 3 to Ch. 2, ERP from 16.6 kw to 100 kw, antenna 810 ft.

WJAR-TV Providence, R. I.—From Tuskegee ... University ...

Ch. 11 to Ch. 10, ERP from 30 kw to 316 kw, antenna 600 ft. Estimated cost, \$260,000.

FCC earlier approved change of Empire Coil Co.'s WXEL (TV) Cleveland from Ch. 9 to Ch. 8, with power boost to 316 kw [B•T, June 30].

Under provisions of last year's Fifth Report and Order, FCC also approved the long-pending applications of KDYL-TV and KSL-TV Salt Lake City for switch of their antenna sites to nearby mountain tons.

KDYL-TV was granted switch to summit of Mt. Nelson, with antenna height above average terrain 3,700 ft. Effective radiated power is specified to be reduced from 4 kw to 0.004 kw, but a request is pending for special temporary authority to use full transmitter power of 5 kw to produce about 50 kw ERP, in accord with the Fifth Report.

KSL-TV was granted move to Coon Peak, antenna height above

Total Applications Reach 550 Mark

average terrain 3,840 ft., with ERP change to 0.002 kw. Request for an STA for 50 kw ERP is expected to be filed.

Proposed new station construction now totals nearly \$208 million, a per station average of almost \$378,000. Estimated first year revenue, for 516 applicants reporting, now totals \$164 million or a \$318,000 station average. First year operating costs, for 542 applicants reporting, totals about \$159 million, or a \$293,000 station average.

All week FCC staff members were pushing processing of initial applications for the first dozen cities in Group A-2 (no existing service) and Group B-1 (less than 40 miles from service, only UHF available) lists under the temporary processing procedure [B•T, May 26]. Both Groups A-2 and B are being processed concurrently.

Topping the city priority list is Denver, which has three applicants whose bids are unopposed. They are KFEL, for Channel 2; Empire Coil Co., UHF Channel 26 (amended from Channel 9), and Colorado Television Corp., Channel 9. KMYR and Metropolitan Television both have filed for Channel 4 and Aladdin Radio and Television Corp. and Denver Television Corp. both seek Channel 7.

At Portland, Ore., number two on the A-2 list, all three commercial VHF channels are each sought by more than a single applicant. However, Empire Coil is lone applicant for UHF Channel 27 there.

Similarly, all allocated channels are sought by more than one applicant each in Tampa-St. Petersburg, third place on the A-2 list.

Springfield - Holyoke, Mass., fourth on the A-2 list, has one application pending for each of two UHF channels there. Next on the A-2 list, Youngstown, Ohio, with three UHF channels, has only two applications pending.

(Continued on page 101)

Modified City Allocations to Specify Offset Carrier Operation

FOLLOWING is the modified table of city-by-city assignments of TV channels issued by FCC last week to provide for offset carrier operation to further reduce co-channel interference. The table is the basic city-by-city allocation provided in the Sixth Report and Order [B•T, April 14], but with the offset channels specified.

Gillett, consulting engineer, Washington. Washington.

STOCKTON, Calif. - E. F. Peffer

COLOR TESTS

RCA-NBC last week initiated a series of three field tests of the RCA compatible all-electronic color television system over NBC's Channel 4 in New York.

The first test was run off last Wednesday between 9:45 a.m. and 10 a.m. (EDT) and another was held last Friday. A third test is set for tomorrow (Tuesday) in the same time slot.

Dr. C. B. Jolliffe, vice president and technical director of RCA, said the FCC had granted authorization to RCA to conduct the three television tests during regular broadcasting hours.

Set owners in the New York area can receive the test signals in black and white. Viewers are being asked to submit reports on their observations and the data received will be analyzed.

(KGDM), VHF Ch. 13 (210-216 mc); ERP 60 kw visual, 30 kw aural; antenna height above average terrain 465 ft., above ground 487 ft. Estimated construction cost \$337,255, first year operating cost \$304,993, revenue \$329,251. Post Office address: 519 E. Market St., Stockton. Studio and transmitter: 519 E. Market St., Geographic coordinates: 37° 57′ 12″ N. Lat., 121° 16′ 57″ W. Long. Transmitter RCA, antenna RCA. Legal counsel Fisher, Wayland, Duvall & Southmayd, Washington. Consulting engineer Kear & Kennedy, Washington. Sole owner is E. F. Peffer, who also owns Peffer Furniture in Stockton.

EDUCATORS' TV

Walker, Hennock Renew Fight I. E. SHOWERMAN

(See editorial page 56)

"PRESIDENT Truman expressed his willingness to go before the public and speak on behalf of this movement. It was made quite plain .. that educational television has no better friend in the United States than the Chief Executive.'

Those were the closing remarks of FCC Chairman Paul A. Walker in an address at Pennsylvania ·State College last Wednesday. Chairman Walker spoke at the college's fifth annual Radio and Television Institute on "Education's Year of Decision."

Meanwhile, Comr. Frieda B. Hennock carried the cudgels for educational TV to Emerson Radio & Phonograph Corp.'s 30th anniversary convention for distributors in New York City. She spoke Thursday on opportunities for set manufacturers in supporting that medium.

The addresses of the two leading FCC exponents of educational telecasting were liberally flavored with references to President Truman's avowed support, the outright \$100,000 grant from Emerson and the possibility of similar donations from other manufacturers and philanthropic organizations like the Ford Foundation.

"I trust that other philanthropic foundations will study the unprecedented opportunity that lies in these reservations and will discover their own ways of speeding the construction and operation of stations . . . time is of the essence," Chairman Walker asserted.

"There are increasing indications that American education does not intend to lose these [242] assignments by default," he added, noting that starting June 3, 1953, requests may be filed for change of reservations to commercial assignments.

Eight Have Applied

The FCC Chairman said that of more than 500 applications filed for CPs, eight are for educational stations, with perhaps 200 for UHF channels. Educational institutions propose stations in Berkeley, Calif.; Miami, Fla.; Manhattan, Kan.; and Albany, Buffalo, New York City, Rochester and Syracuse, N. Y.

Turning to so-called "minority tastes." Chairman Walker held that "when proper attention is given

there will be a lessening of criticism of some aspects of our commercial broadcasting system." Educational outlets, he added, "will provide a missing ingredient in our national system." He continued:

It is short-sighted to suggest, as a few have, that these stations will mean unfair competition to commercial operation. On the contrary, the educational stations and the commercial stations throughout the land should complement each other.

I am glad to note that various leading broadcasters recognize this and they are assisting the educators in

their communities in their plans for stations. Of course, I do not overlook the fact that these broadcasters are also motivated by the spirit of good citizenship in helping to give the children and the adults of their communities the very best educational service of the times.

I am sure that other broadcasters, after viewing this matter in broad perspective, will likewise contribute their knowledge and experience to this greatest advance in education in modern times.

Chairman Walker described the educators' goal as a "large-screen television receiving set in every one of our million classrooms within range of a television station," and said the medium "will pay for itself in efficiency and economy."

Chairman Walker lauded the Emerson firm for its \$100,000 gift, to be divided equally among the first 10 non-commercial, educational stations, and the company's reminder to other manufacturers of the potential new markets for sets. He also traced the fight by the Joint Committee on Educational Television, praising both JCET and the Ford Foundation, which this year has set aside \$145,-000 for educational TV.

He also alluded to the June meeting [B•T, June 30] of FCC members with the Chief Executive and told institute members that the movement has the President's "hearty endorsement."

Comr. Hennock told Emerson distributors that "almost overnight the 18 million sets now in the hands of the public could become 18 million of our finest and best-equipped classrooms, not to speak of the more than 50 million sets that will be sold in the next few years." Support of the manufacturing industry would be "an important addition to the constantly growing and widening support behind educational television," she added, commending Emerson and its president, Benjamin Abrams, for its educational grant.

Aside from the eight educational station applications already on hand, Comr. Hennock said the New York Board of Regents (which filed for five New York State stations) plans to apply for additional outlets in Binghamton, Ithaca, Malone, Poughkeepsie and Utica to complete a proposed state-wide network. Other groups are expected to file within "weeks or months," she added.

Emerson's plan to make outright gifts of \$10,000 to each of the first ten educational TV station licensees to begin regular telecasting also was hailed by Comr. Hennock as "the most important step the industry has taken in the past 30 years."

Guest speaker at the Emerson anniversary dinner at the Waldorf-Astoria, New York, Comr. Hennock said that she expected the number of commercial applications to reach 1,000 by the year's end.
"In essence," she said, "the situa-

tion today approximates a log jam, made up in varying quantities of lack of information, inertia, vague educational fears about entering a new field, the resistance of vested interests, the pressures of those selfish interests who would profit by education's failure and, let us not forget, obstinacy of time itself.

"It is this log jam which must be broken, and once it is, educators can proceed forcefully and rapidly towards the full-scale development of educational television. Actions such as those taken by Emerson are precisely what the lumberjack

Manufacturers Should Lead

Turning again to the receiverproducing market, Comr. Hennock asserted that educational TV "means increased sales and it can mean such sales immediately-or at least as soon as these stations are built and put into operation.' The FCC Commissioner explained:

The FCC Commissioner explained:
... With an opportunity to help lead the way into new and unchartered fields, the set manufacturing industry should be among the forefront of those working to realize the vast public benefit inherent in television's use for educational purposes. Nor will its actions in this direction be without practical benefit to the industry itself. Here is an unprecedented opportunity to combine the public and the self-interest, to accomplish increased sales and a fine public service at one and the same stroke. For, manifestly, educational television operations will allow for a more rounded television service by providing programs that are in whole or in part unavailable on commercial stations.

They will thus be responsible for the sale of tens of thousands of receivers—making set buyers, for example, out of the many parents who look for something more constructive for their chilof the many parents who look for some-thing more constructive for their chil-dren over television and who may here-tofore have refrained from purchas-ing sets because of the relative ab-sence of an alternative programming directed toward the beneficial develop-ment of our young people. Furthermore, educational stations being non-commercial may soon be built in many areas in which com-mercial stations will be delayed through intense competition and the resulting

mercial stations will be delayed through intense competition and the resulting necessity for long and complicated hearings before the FCC; or where commercial stations will never be forthcoming due to the relative smallness of the population or the inadequacy of an economic base to support them. Educational stations would also be of benefit to the industry by helping to open the ultra-high (UHF) portion of the spectrum to full and regular operation.

operation. Moreover, greater educational par-ticipation in television will mean large sales of sets to classrooms themselves (of which there are more than a million in our elementary and secondary schools alone)—for the classroom of the future will no more be without its TV set than it would its blackbroad . . .

CBS TV City Model

AN ESTIMATED 150,000 persons viewed the model of CBS' television City (scheduled to start operations in Hollywood Oct. 1) which was on display at R. H. Macy, New York, for two weeks ending last Friday, CBS-TV spokesmen reported. The model will be placed on exhibit at Kaufmann's department store in Pittsburgh for the week of July 21 and at Jordan Marsh's in Boston for the week of July 28.

Heads TelePrompter Sales

I. E. (CHICK) SHOWERMAN, veteran broadcast executive, has been appointed vice president in charge of sales by TelePrompter

National Corp., organization newly formed to handle sales of TelePrompter equipment to TV stations in the United States and Canada.

New company is separate a Mr. Showerman organization and not a subsidiary

of TelePrompter Corp., which holds the patents and manufacturing rights for this TV cueing service. TelePrompter Corp. also retains the TV network and motion picture sales rights and all foreign sales rights except in Canada.

TelePrompters are licensed instead of being sold. CBS-TV was the first video network to secure the equipment under a \$1 million five-year contract of which the first three years are firm at \$200,000 a year. The other TV networks all have used the equipment on one or more occasions.

Station license fees will be based on the TV stations' own rate cards, with payment of one-fourth of the one-time evening hour Class A rate per week giving the station unlimited use of the instruments. A station set-up consists of four TelePrompters mounted on floor stands and a fifth attached to the camera. All five units are synchronized electrically so no actor can get ahead of his fellows. Copy to be read appears on glare-free yellow paper in letters just under an inch high.

Saving in rehearsal time, one of the major expenses of TV dramatic productions, was cited by Mr. Showerman as a primary advantage of the TelePrompter. He said a leading network TV dramatic series had cut rehearsal time from four to two days a week using this equipment. It also provides users with performances free from embarrassing fluff, he said, noting that because of the compact size and ease of locating the individual TelePrompters, use of these aids to memory usually is not revealed to the viewing audience.

Use of the TelePrompter at the Republican National Convention last week in Chicago, however, made this device familiar to every TV set owner in the land and, Mr. Showerman happily noted, to TV station owners, managers and program directors on his prospect list.

TelePrompter National Sales Corp. has established New York offices at 270 Park Ave. Telephone is Plaza 3-3846.

Mr. Showerman resigned from NBC in late 1950, after 22 years with the network, where he was vice president heading the Central Div., to join Free & Peters as vice president in charge of TV sales.

Television Applications Filed at FCC

Why is every major network timing the Presidential Conventions

Style 37-15" SS.
Sweep Seconds; Self Winding

Yes, all the major radio and television networks (and most independents) covering the Republican and Democratic Conventions in Chicago for nation-wide audiences are relying on Self Winding Clocks for the timing and synchronization of their programs. This also holds true for other regularly scheduled local and national programs.

Here's WHY -

- Can be automatically synchronized on the hour*
- Unaffected by AC power failures (self-powered)
- Install anywhere (AC power line not required)
- ne clock or a complete synchronized clock system

You, too, can have *dependable*, *exact* time-keeping for your local and national broadcasts. Send the coupon today for full particulars and free estimate on recommended installation to meet your requirements.

*U. S. Naval Observatory Time

AUTO-DRYAIRE* DEHYDRATOR

Model 105-507 Autodryaire* Dehydrator, illustrated here, is a proper companion for the well engineered TV transmitting installation. It is highly efficient for purging and maintain-

ing gas filled transmission lines. It has sufficient capacity to do the job and do it well for years. Operation is automatic. Clean air, at lowest dewpoints, is supplied continuously.

*REGISTERED TRADE: MARK

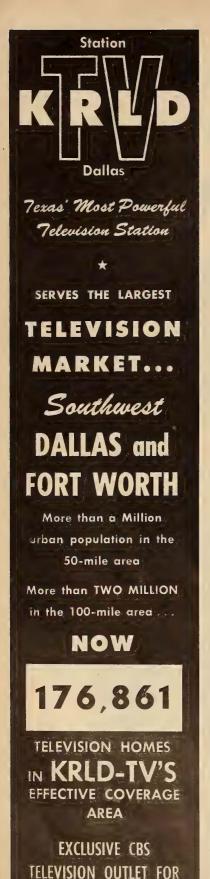

CHECK NOW! on the complete family of Auto-Dryaire* Dehydrators. Standard models with deliveries from 15 CFM to 3.0 CFM; larger capacities to specifications.

ANA Charts Cost Of Spot Placing

(Report 224)

COST of putting a 20-second film spot within reach of 1,000 viewing families during Class A time last January ranged from a maximum of \$1.54 (calculated at the one-time rate before any discount) to a minimum of \$0.04 (after all discounts), according to a table published last week by the Assn. of National Advertisers.

Prepared by the ANA Radio and Television Steering Committee for the use of ANA members, the table shows, for each TV station, the maximum and minimum costs per 20-second Class A spot and the cost per thousand sets, as of Jan. 1, 1951, and Jan. 1, 1952. Stations are grouped by seven-station, four-station, three-station, two-station and single-station cities.

A foreword points out committee recognition that "advertisers are primarily concerned with delivered circulation, which varies with the number and character of programs, including those adjoining and competing; and other factors. It was the Committee's opinion, however, that a study of this type based on actual audiences was impractical—both because of these variables and because comparable and projectable audience data were not uniformly available.

"This compilation, therefore, is based on potential circulation as measured by the number of sets in each station area—the only generally accepted and common standard obtainable for all stations. Members will need to keep this in mind in judging the significance of the cost differences shown by the table."

The 20-second film spot was chosen for the unit as "the most common type used by national advertisers," the Committee states, with evening time chosen for the same reason. Wide variations in the discounts offered by TV stations led to the inclusion of both maximum and minimum costs in the tabulation.

Copies of the study have been mailed to all ANA members. Non-members can get them for \$1 a copy from ANA headquarters, 285 Madison Ave., New York 17.

Emory U. Reports TV Impact in Atlanta

SOCIAL IMPACT of TV on Atlanta homes was the subject of a \$2,000 study completed by the journalism division of Emory U. there in which 200 families were

questioned about the effect of television on their daily lives.

The study indicated newspaper reading has increased among all Atlanta families, 40% of which owned TV sets in 1951, although the increase had not been as great in TV homes as in non-TV homes. Television families read more books and magazines and own more radios than do others, but they read less books and attended less movies than they did before TV, the report said.

Children go to bed later in TV homes, and although they do less home study, they get as good grades in school, as much exercise as before TV and their general attentiveness has increased, parents said.

Raymond Stewart, who directed the research, said the TV set owner still is active socially, especially after the initial period of ownership. Other Atlantans said TV "makes us stay home more," and cuts down on family conversation, Mr. Stewart reported.

The study was supervised by Dr. Raymond B. Nixon, then head of Emory's journalism division, and now a journalism professor at the U. of Minnesota.

This is why -

is your best buy

The BRANHAM Company

SO YOU WANT MORE FOR YOUR MONEY...

Telepulse Report for the first week in June shows WSB-TV carrying 7 out of the top 10 once-a-week shows and 9 out of the top 10 multi-weekly shows. This report covers metropolitan Atlanta only. So for a more accurate evaluation of the advertising dollar being invested in Atlanta television there is an additional consideration. Telecasting with 50,000 watts from a 1,062-foot tower over Channel 2, WSB-TV takes you into thousands of homes no other station in this area can touch. You get more for your money on WSB-TV... far more.

for World-Wide Settings in YOUR TV Studios

First Professional 16 mm TV Background Projector Provides 2,000 Lumens

46 ampere arc lamp, f/1.5 20 mm lens, air-cooled film gate, sprocket intermittent that ends film wear and holds old film steady.

TV Version of Famous Simplex X-L 35 mm Projector: 7,000 Lumens

An incomparable projector used in 80% of all theatres; now equipped for TV use with "2-3" intermittent. 80-110 ampere arc; f/1.9 2" lens.

Here, at last, is background projection made practical for any TV studio or network . . . brilliant, steady motion pictures that make any action scene in 16 mm or 35 mm film libraries available as a setting for TV programs.

No complex phasing needed with TV cameras. Simply focus camera on the background screen for a perfect picture. The GPL "2-3" intermittent pulldown, coupled with a 60 light-pulse per second shutter, automatically meets the camera's requirements. Special optical systems for each projector reduce "throw" required, save studio space.

Get full details on these outstanding projectors, now in use on major networks. Consider them in your new studio planning; add to the utility of your present equipment.

05" N. Lat., 104° 22' 45" W. Long. Transmitter RCA, antenna RCA. Legal counsites A. L. Stein, Washington. Consulting engineer Gautney & Ray, Washington. Sole owner is John A. Burnett, oil producer in Midland and Upton counties, Tex., and a consulting geologist

counties, Tex., and a consulting geologist.

†SCHENECTADY, N. Y.—Van Curler
Bcstg. Corp. UHF Ch. 35 (596-602 mc);
ERP 246 kw visual, 123 kw aural; antenna height above average terrain
1,520 ft., above ground 543 ft. Estimated
construction cost \$400,000, first year
operating cost \$300,000, revenue \$225,000. Post Office address Proctor's Theatre Bldg., 432 State St., Schenectady.
Studio location 432 State St. Transmitter location off Camp Pinnacle Road,
2.2 mi. W. of New Salem. Geographic
coordinates 42° 37' 39" N. Lat., 74° 00' 40"
W. Long. Transmitter GE, antenna GE.
Legal counsel Arnold, Fortas & Porter,

FILM PAY PACT

SAG, Producers Agree

ALLIANCE of TV Film Producers and Screen Actors Guild, after months of negotiations, reached agreement July 2 on a new collective bargaining contract.

It covers the controversial additional payments to actors for re-runs of TV films and also sets higher salary minimums for those who work in more than one video picture in a week.

Three year contract, effective July 21, provides that the actor's original salary covers first and second showing of a TV film in the same market area. The actor receives 50% of his applicable minimum salary for third and fourth re-showings in the same area; 25% for fifth re-telecast; one payment of 25% covers sixth and all subsequent re-runs.

In addition, the new contract calls for daily minimum of \$70 for single role in single picture and \$175 for guaranteed three consecutive days; weekly minimum of \$250 for single role in single picture; \$320 for two films per week; \$375 for three films per week.

Separate minimums and conditions will be negotiated for filmed commercial spots. Producers who agreed to contract produce approximately 80% of all such TV film made in the United States, according to SAG.

Besides ATFP members, they include Roland Reed Productions, Hal Roach Productions, Cascade Productions and Dancer-Fitzgerald-Sample, who also participated in negotiations. Throughout the entire negotiations the TV film producers strenuously opposed SAG's stand on additional payment to actors on re-runs.

Resistance reportedly weakened however when it was learned that major motion picture studios, now producing TV film, were nearing an agreement with SAG on the same issue.

ATAS Awards Group

AWARDS committee of the Academy of Television Arts & Sciences, Hollywood, is composed of Norman Blackburn, director of TV network operations, NBC Hollywood; Fred Henry, program director, KLACTV; Gil Ralston, head of Screen Televideo Productions; Cathy Lewis, who portrays Jane on CBS Radio-TV's My Friend Irma; and Richard A. Moore, vice-president and general manager, KTTV (TV). Hal Hudson, manager of CBS Hollywood television department, is committee chairman.

NEW 5 kw DuMont TV transmitter has been flown to Cuba where it is being used to cover a series of events planned by the government in honor of Cuba's 50th year of independence. Transmitter will operate on Channel 7 for Radio Universal in Havana.

COMMUNITY TV

Laconia Gets Firm Signal

FIRST clear, stable TV pictures came into the mountain-locked city of Laconia, N. H., June 25 when Community T-V Corp: opened up its community TV system. Ceremonies were highlighted by an address by New Hampshire Gov. Sherman Adams.

Antenaplex system, which encompasses a high-gain, directional receiving antenna atop 2,400-ft. Mt. Belknap, six miles east of the city, was engineered by RCA Service Co., which also supervised its construction. More than 30,000 ft. of coaxial cable runs down the mountain side on 40 telegraph poles. Five amplifiers boost the TV signals—received from Boston's two stations 120 miles away—before they reach the first subscriber in the city of 12,000 families.

Directors of Community T-V Corp. are Richard F. Cooper, New Hampshire State Republican chairman; Thomas J. McIntyre, attorney and former Democratic Mayor of Laconia; Albin Malin, owner of WWNH Rochester, N. H.; Mrs. Anna Belinsky, Rochester, N. H.; Mrs. Myrtle C. McIntyre, Democratic National Committeewoman for New Hampshire.

During the ceremonies, two large-screen TV receivers were installed on the speaker's platform. One was fed from a standard rooftop antenna, the other was connected with the community TV cable. Laconia has about 300 TV sets at the present time, each with its own outdoor array.

CAPITOL STUDIO Two Added to TV Staff

CONGRESSMEN no less than other people like to appear on TV. That's why the Joint Recording Facility, which operates radio and TV recording studios in the Capitol, was given two extra men last week in the appropriation bill for the legislative branch (HR 7313).

Bill, which was signed by the President last week, approved the hiring of a \$3,600 a year TV cameraman and a \$3,300 a year film laboratory technician for the Congressional recording studio. The TV cameraman was hired three months ago, with his salary approved in the fiscal 1952 supplemental appropriation.

This brings to eight the number of personnel in the Joint Recording Facility, which is under the direction of Co-ordinator Robert J. Coar. Annual budget runs about \$26,000 a year and since 1949 the operation has been self-supporting, it is reported. The facility makes tape recordings and transcriptions as well as motion pictures and film strips for Senators and Congressmen. These are shipped to their home stations as public service fare. Users of the facility are charged a fee, which is turned in to the Treasury Dept.

Synchroslide Method

NEW method for accurately and automatically synchronizing recorded commentary with projection slides has been developed by Synchromatic Products Co., Bayonne, N. J. System, termed Synchroslide, makes it possible for taped commentary to be cued for slide changing using white "cueing patches" applied to the back of the magnetic tape. When "cued" portion passes through an electric eye mechanism, the slide projector's changing apparatus is triggered electronically to change slides.

DOMINICAN PLANS RCA Supplies TV Unit

FIRST mobile television unit for use in Dominican Republic has been purchased from RCA by "La Voz Dominicana," broadcast and television organization owned by Gen. J. Arismendi Trujillo under the government auspices.

The unit includes field cameras, monitors, microwave relay equipment and other remote TV facilities

Present plans call for operations to begin in August.

you can see the difference on WBNS-TV

A beautiful 3 acre plot is the site of WBNS-TV, where a 15,000 sq. ft. 2 story building houses an ultra-modern air-conditioned television station with up-to-the-minute facilities and a staff of 28 engineers who maintain and produce top-quality programming. WBNS-TV is one of the few stations with a stand-by transmitter and antenna system, assuring continuity of service.

film report

Production . . .

Television Screen Productions Inc., New York, is starting production of six additional episodes of *Jim and Judy in Tele-Land*, children's animated cartoon package, in addition to the 39 episodes already completed.

Tony London, producer of the Frank Merriwell TV film series, has acquired TV film rights to 352 story properties by Craig Rice, mystery writer. Series of 13 half-hour films, to be titled Craig Rice Theatre, starts production in August with Sam Neuman, motion picture writer, adapting the scripts and directing. Mr. London will produce at Eagle-Lion Studios, Hollywood.

Ann Sothern, radio-film actress, has been signed by Jack Chertok Television Productions Inc., Hollywood, to star in a new half-hour situation comedy TV film series, Private Secretary. Production starts Aug. 1 at the General Service Studios.

How To Stop Worrying and Start Living will be produced by Mr. Chertok and feature Dale Carnegie in the introduction to each half-hour film. The remainder of each program will consist of the before and after of situations as already established by Mr. Carnegie. Actors for this portion have not been signed.

* *

Snader Productions Inc., Beverly Hills, has been formed as a subsidiary of Snader Telescriptions Corp., that city, for the purpose of acquiring and financing outside television film productions. Headed by Louis D. Snader, the parent firm's president, the board of directors includes Robert Snader, vice president, Jess Corello, production manager, Jack Snader, now on military leave, and Mrs. Sue Reinecke. Officers of the new firm will be elected from the board members.

Jan Productions Inc., Hollywood, instead of Filmcraft Productions, [B•T, May 12] under changed plans, will film the TV version of It's the Bickersons. Lou Parker and Virginia Grey will portray title roles. William Rapp, package

owner-writer-director of the former NBC radio program of the same name, will adapt and direct the half-hour films with Jack Denove producing.

VIP Productions Inc., Hollywood, TV film commercial firm using the Hoge Universal Focus Camera, has taken a year's lease on Stage 7 at Motion Picture Center. Production starts immediately using the firm's newly developed process for shooting inserts without grain. Ralph Hoge, Lee Garmes and Robert Smith are partners in company.

Sales . . .

Major Television Productions Inc., Culver City, which handles the distribution of Thrilling Bible Dramas, produced by Cathedral Films, North Hollywood, has sold the TV film series in five markets. They include WNBW (TV) Washington, KRON-TV San Francisco, KLAC-TV Los Angeles, WTAR-TV Norfolk and WMCT (TV) Memphis. Programs, based on the "Life of Christ" and "Life of St. Paul," make up 26 half-hours but can be combined as hour-long shows or divided into quarter-hour segments.

CBS-TV Film Sales announced last week three sales of TV film packages. Cases of Eddie Drake and Holiday in Paris, starring Dolores Gray, have been set for WSM-TV Nashville. Strange Adventure was purchased by WFAA-TV Dallas. The three programs are to begin this month.

Voglin Corp., Hollywood, has completed four 80-second live action TV film commercials for General Foods Corp., New York, for showing on CBS-TV Our Miss Brooks. Two commercials are for Maxwell House Div. (Sanka) and two are for Iglehart Bros. Div. (Swans Down Cake Flour). Agency is Young & Rubicam Inc., Hollywood.

Guild Films Inc., headed by Reub Kaufman, has opened two new sales offices. Robert DeVinny, midwest sales representative of Harry Goodman Productions, Chicago, has joined the firm with offices at 20 East Jackson Blvd., that city. Headquartered at 1900 Euclid Ave.,

Cleveland, is Robert F. Blair, formerly representative in that city for Snader Telescriptions Sales Inc. Nat Donato, general sales manager in New York for C. P. MacGregor (radio program packagers), named eastern sales manager with headquarters at 510 Madison Ave., N. Y.

Firm is making available to TV stations *The Guild Sports Library*, group of 30-second film clips of 400 sports personalities. Contracts include unlimited use and receipt of 10 additional film clips per month. To enable local sportscasters to illustrate their programs, no sound track is included.

The Guild News Library is now being prepared which will use the same treatment on national and international news personalities and events.

Availabilities . . .

Lewis & Clark Inc., Chicago, producer of television and radio package shows, is now offering for sale a new television quiz, What's Your Eye-Q? The program combines tested elements of the local telephone quiz program with an unusual visual element, the firm claims. Informative rhymed jingles accompanied by caricatures flashed on the screen form the body of the show.

Production of a series of 26 fifteen-minute western musical programs now is under way at Lewis & Clark and is expected to be ready

(Continued on page 98)

TV PACKAGE SALE UTP's 'Big Town' to Italy

UNITED Television Programs announced last week the sale of the TV film package *Big Town* to Societa Radio Audizioni Italia (R.A.I.), Italy.

Big Town is now distributed by UTP in 29 markets not covered by Lever Bros., which converted the show from live to film early in April. Mr. Beckwith said the ARB rating for the show rose from 31.3 live to 36.7 on film.

Other sales by UTP include: "Double Play with Durocher and Day" for KOTV Tulsa and WKY-TV Oklahoma City, starting Aug. 1, to Hart Auto Sales; "Hollywood Off-Beat," for WDAF-TV Kansas City, starting July 10, to Field Chevrolet through Merritt Owens Adv. Agency, and "Old American Barn Dance" for WTAR-TV Norfolk, starting July 5.

Telenews on West Coast

ORGANIZATION of West Coast newsreel delivery service by Telenews Productions Inc., New York, has been announced by Ted Genock, Telenews editor-in-chief. "As soon as operations permit," Los Angeles bureau of Telenews-INS will begin servicing footage of regional news to West Coast TV stations, with all processing and shipping to be handled by special laboratory facilities soon to be set up in Los Angeles, it was reported.

REPUBLIC DROPS

TV Film Production Plans

DROPPING all TV film production plans for the time being, but making facilities available to outside independent producers, Republic Pictures, through its subsidiary Hollywood Television Service Inc., will concentrate on selling its stockpile of old theatrical movies to video.

This was revealed last week when Republic withdrew from talks with Screen Actors Guild for a contract covering actors in television and gave the explanation that it was cancelling all present video film production plans. RKO Radio Pictures withdrew from those talks, too, informing SAG that it had decided to temporarily by-pass TV film production.

Columbia Pictures, with subsidiary Screen Gems Inc., and Universal-International for United World Films Inc. remain the lone negotiators with SAG. However, all major studios have been represented during SAG talks through presence of Charles Horen, labor representative of the Assn. of Motion Picture Producers.

Announcement Soon

Reporting negotiations as "progressing satisfactorily," John Dale Jr., executive secretary of SAG, said an agreement announcement was expected to be made "within a few days." He said the guild was not negotiating with other major studios at this time because of their announcement that "they have no present plans for making any television entertainment films."

The deal worked out with Columbia and U-I will set the pattern for other major producers to follow.

SAG also is negotiating with Jack Chertok Television Productions and MCA, whose subsidiary Revue Productions makes video films. Contracts are identical to those signed by Alliance of Television Film Producers and several unaffiliated independent TV production companies July 2.

DENVER 'TELECAST' KMTV (TV) Claims Assist

GLENN HARRIS, program manager, KMTV (TV) Omaha, is claiming a strong assist in Denver's "pioneer telecast" of Gen. Dwight D. Eisenhower's address June 23. Mr. Harris said KMTV aided the "first telecast ever to emanate from America's largest non-television city, Denver..."

The telecast was carried on a coaxial cable from Denver's Brown Palace Hotel to the local telephone company, where it joined the network relay system. From Omaha, the program was split and fed to the East and West Coasts. Mr. Harris added that only a few persons in Denver were able to see the telecast through a closed-circuit relay.

BEST FOR TV FILMS

USED BY

BRITISH VIDEO

Commercial Activity Seen

BRITISH advertising—and British capital—is already embarking on anticipatory activities for the advent of commercial television in the United Kingdom, following the action of the House of Commons in authorizing the introduction of broadcast video advertising at such time as the national defense program will permit [B•T, June 16].

A new corporation, reported by the London Daily Herald to be backed by more than \$250 million, is being formed with the objective of "technical and program development of television and sound radio throughout the world." Principals of the as yet unnamed organization are said to include Sir Alexander Aikman, chairman, Electric & Musical Industries; Norman Collins, chairman, High Definition Films and former TV head of the BBC; Viscount Duncannon, of the London financial house of Robert Benson, Lonsdale & Co.; Sir Alexander Korda of London Film Productions; Sir Robert Renwisk, director, Associated Electrical Industries and president, Television Society, and C. O. Stanley, chairman, Pye Radio, set manufacturer.

British Vitamin Products Ltd., through its advertising agency, Auger & Turner, has applied to the British Postmaster General "for time in the first sponsored television program," according to a letter quoted in Advertiser's Weekly.

TV IN PEORIA Store Uses Closed Circuit

REPORT on use of closed circuit TV for a department store on a 13-week basis—the first demonstration of commercial television in Peoria, Ill.—is circulated by Arbingast, Becht & Assoc., agency for Block & Kuhl Co. in that city.

The agency noted that it capitalized on the high interest in TV in a non-television market and said the store still reports "increased, directly-traceable sales" to the series which ended June 13.

Last March AB&A Radio-TV Director George Cremeens conceived the idea for Block Party with product demonstrations and public service features. Within six weeks, the store reported that TV receiver sales had multiplied. Program was produced each weekday from the store's Skyline restaurant and telecast over closed circuit to 57 TV sets in the store. Show was aired on radio by WMBD-AM-FM, which supplied equipment and personnel.

TOTAL of 38¼ hours per week was allocated to NBC-TV and WOAI TV San Antonio, network affiliate there, when direct connection with NBC by cable and microwave relay became effective July 1. This represents 68.3% of total air time allocated to the city on the network link.

CANADA TV

CBC Priority to Delay Privately-Owned Video

INDEFINITE delay of privately-owned TV stations in Canada was implied July 4 in the Canadian government's announcement that its Canadian Broadcasting Corp. must open a TV station in each province before any private TV station is allowed to go on the air.

The government loaned CBC \$2 million to finance the first year's operations of CBC video outlets at Toronto and Montreal, scheduled to open in September. Construction of the stations also is being financed by a \$6 million federal loan.

In a report also on July 4 a joint committee of the Assn. of Canadian Advertisers and the Canadian Assn. of Advertising Agencies gave advertisers an idea of what to expect during the first few years of television.

Highlight of the report: Enthusiasm is not high for commercial TV in Canada, mainly because of high costs, few sets, and limitations placed on commercially sponsored video by CBC.

Unless advertisers increase budgets to take care of TV in the two major markets, radio and other media will suffer in order for the sponsors to use video at current high costs, it was pointed out.

The report also points out that advertisers should be aware of the long term implications of the CBC TV policy. The committee recalls to advertisers that A. D. Dunton, CBC chairman, at the recent annual meeting of the ACA stated that while advertisers were invited to participate in the development of the new medium, it was implied that their position was one of sufferance rather than participation on a partnership basis.

CBC policy on production of commercial shows also does not appeal to advertisers, the report shows. The CBC has decided, over the protests and objection of the joint ACA and CAAA committee, to produce and direct all TV programs which originate in their studios. This policy may well result in a situation where advertisers will be forced to bear the brunt of responsibility for mistakes in the eyes of

TV TRANSMITTER

RCA Ships to WSAZ-TV

FIRST major high-power TV transmitter unit since the thaw was shipped last week from the RCA Victor plant at Camden, N. J., to WSAZ-TV Huntington, W. Va., according to W. W. Watts, vice president in charge of the engineering products department. WSAZ-TV is now operating on Channel 5 with a standard 5 kw transmitter.

Mr. Watts said a new TV era is marked by resumption of deliveries. He turned over the equipment to Leroy E. Kilpatrick, WSAZ-TV chief engineer, explaining it is the first of many highpower transmitter-amplifiers to be delivered by RCA Victor. WSAZ-TV is applicant for a CP to operate on Channel 3 with 83.4 kw ERP.

the public. It will also mean that the advertiser who is dissatisfied with the production of his TV program can no longer hold his advertising agency responsible for the quality of program, but must rely on the good intentions of the CBC.

The committee reported that by the end of April 1952, a total of 91,404 TV sets had been sold in Canada, and that the Radio-Television Mfrs. Assn. of Canada estimated 70,000 sets would be sold in Canada in 1952. This estimate was prior to consumer credit restrictions being lifted and may be conservative. Based on growth in comparable U.S. cities it is anticipated that the 60,000 sets now in the Toronto area will grow to 112,000 within the first year of telecasting from a local station, and to 250,000 by the end of the third year. In Montreal it is estimated that there will be 15,000 sets by the end of September 1953, and 225,000 by the end of the third year.

The committee, headed by J. A. Lawrence, Borden Co. Ltd., Toronto, and G. C. Clarke, Standard Brands Ltd., Montreal, plans to continue its studies and to present them to members of the ACA and CAAA.

CBS-TV CASTING

Split Into Two Sections

DIVISION of CBS-TV's casting department into two sections—one for booking variety-musical attractions and another for auditioning and casting dramatic talent—was announced last Tuesday by Hubbell Robinson Jr., vice president in charge of network programs.

Both divisions will be headed by Robert M. Banker, who was appointed CBS-TV casting director last month. Mr. Banker's present department personnel will handle dramatic show auditions and castings.

Bookings for variety-musical shows will be supervised by Helen Keane, formerly with Music Corp. of America's booking department.

WATV (TV) Sender

ANNOUNCEMENT of the sale of a 50 kw and a 5 kw VHF TV transmitter to WATV (TV) Newark was made July 1 by the Television Transmitter Div. of Allen B. Du-Mont Labs. Inc., Clifton, N. J. WATV bought the 5 kw transmitter for use when the station moves to its new site at the Empire State Building in the near future and the 50 kw transmitter in anticipation of expansion to higher power at a later date.

TV UNBIASED

Swayze Tells Ad Clubs

TELEVISION is the most unbiased medium of news reporting because the viewer sees events as they happen, according to John Cameron Swayze, NBC-TV Camel News Caravan commentator, speaking before a combined Los Angeles and Hollywood Ad Clubs meeting at the Biltmore Hotel last week.

Each news medium—radio, TV or the newspaper—has its place, Mr. Swayze noted because newspapers give "the complete story" and radio with its elasticity gives "a fast, up-to-the-minute picture of the news." While TV has neither of these attributes, he said, "it has the extra dimension of the pictorial to aid it in telling a news story."

No matter how much the newspaper or radio reporter-newscaster attempts to keep out editorializing, "the story is still clothed in his words, and is his interpretation which goes to the public," he said. Television, the perfect reporter, records what is happening, and transmits it to the consumer without processing, he concluded. Mr. Swayze was on the West Coast for the transcontinental premiere of Caravan June 30.

PLANS for raising memorial fund of \$1,500 for a TV receiving station in new Journalism Bldg., U. of Texas, Austin, have been announced. Station is intended as a memorial to school's journalism students who were killed in World War II.

N.Y. FILM SITE NTFC Hears City Plans

COOPERATION in establishing a TV film center in New York [B•T, June 23] was pledged Wednesday by Walter T. Shirley, commissioner of commerce and motion picture and television coordinator for the city.

Mr. Shirley told 75 persons attending the National Television Film Council's fourth anniversary luncheon that New York should have a Manhattan site available at all times for producers. He said facilities should be so attractive that New York business will not "be lured away to Hollywood."

Mr. Shirley said he had formed a committee to work with the film industry to secure a site, and urged the council to cooperate with other film trade groups to insure the project's success. He made no direct mention of how the project could be financed, but in a question-andanswer period suggested the industry itself might arrange for proper financing, either from within, or by interesting other private backers.

Mr. Shirley said he has conferred with other film groups in the city and that all agree the need for a TV-film center is the paramount issue in the New York-Hollywood tussle. He said his committee has worked with one from another trade group (apparently referring to the Film Producers Assn. of New York), and both now are con-

THIS is new two-tower array of the Bell microwave relay system completed for WJIM-TV Lansing, Mich., and part of the \$250,000 Bell system completed by AT&T. Signal is beamed from Detroit to 274-ft. tower at Milford, to a second tower at Danville, to receiver in Lansing and then to the WJIM-TV tower.

sidering several mid-Manhattan sites. He called on the council to "iron out differences" with other trade groups and to "get behind the TV-film center idea 100%."

Melvin L. Gold, council president, told Mr. Shirley his recommendations would be considered at a meeting of the executive board.

MT. SUTRO KPIX (TV) Gets Lease

ABC announced last week it had granted a 10-year lease to KPIX (TV) San Francisco for re-location of its television transmitter atop the ABC-owned Sutro Mansion facilities in San Francisco.

In making the announcement, Frank Marx, ABC vice president in charge of engineering, said that "it is anticipated that Mt. Sutro will become another 'Empire State' site for Bay Area television stations due to its ideally situated location in that city."

He explained that Mt. Sutro "is almost the geographic center of San Francisco and makes one of the most perfect natural locations in the country for the transmission of television signals, without interference from surrounding terrain or man-made obstacles."

Mr. Marx noted that FCC's TV allocations allotted 10 channels to the San Francisco area and said he believed that virtually all new stations would want transmitter facilities at the ABC-TV transmitter site.

KPIX becomes the second San Francisco video outlet to originate its transmissions from this location. ABC-TV's owned station KGO-TV has been operating from the Mt. Sutro site since May 5, 1949. KPIX is expected to begin transmitting programs from its new site sometime this month. The ABC-TV tower measures 530 feet and Sutro Mansion is located some 830 feet above sea level.

SAFETY KITS Distributed by Ad Council

SOLICITING the help of television in preventing traffic deaths for the vacation months ahead, the Advertising Council sent a new kit of public service advertising material on safety to every TV station in the country, plus the four TV networks

Accompanying letter from Wesley I. Nunn, advertising manager of Standard Oil Co. (Indiana), and voluntary coordinator of the year-round council "stop accidents" campaign, stated that "television could become a tremendous factor in helping to prevent accidents."

Prepared without charge by the campaign's volunteer agency, Young & Rubicam, Chicago, the TV kit also contains film spots, posters and announcements.

Morris Forms Film Firm

NELSON MORRIS, formerly advertising photo consultant for Grant Adv., McCann-Erickson, Young & Rubicam and other advertising agencies, has formed Nelson Morris Productions, TV motion picture company, with headquarters at 538 Fifth Ave., New York. All production will be staged in Mexico, Mr. Morris said.

WOMEN VIEWERS

Lawrence Cites N. Y. Survey

WOMEN in the greater New York area spend nearly 15 million hours a week watching daytime television, Craig Lawrence, general manager of WCBS-TV New York, told a news luncheon at New York's Blair House Thursday.

Quoting from the findings of a survey made by Advertest in May, Mr. Lawrence said that while the percentage of women watching daytime TV had declined slightly in the preceding year, from 39.5% in May 1951 to 38.4% in May 1952, those women who do watch daytime TV had increased their hours of viewing from 10 to 13 a week. This fact, coupled with the increased number of homes with TV means that the total number of daytime hours New York women spend in front of their TV receivers now totals 14,936,064 a week, a rise of 60.9% in the past year.

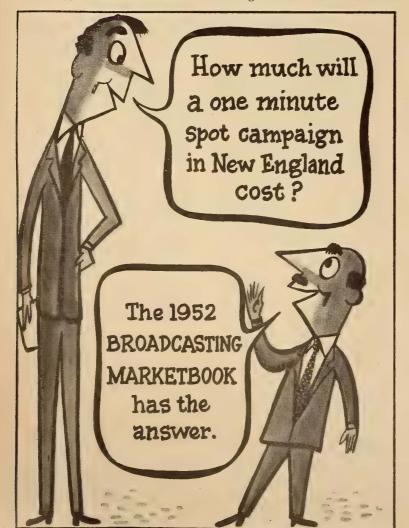

WCBS-TV fared even better, Mr. Lawrence reported, with a rise of 100% in average daytime quarter-hour rating and a gain of 154.6% in the number of viewing homes per average quarter-hour. Although the station's rates have risen, he pointed out that the new "daytime dozen" package which offers a 45% discount to advertisers using 12 or more spots a week on WCBS-TV lowers the rate for them to 21% less than a year ago.

"This plan was evolved," he said, "to encourage spot advertisers to make more use of daytime television and to do it on a basis of greater frequency and repetition." Although introduced only about a month ago, the 12-a-week plan has already added four sponsors, he reported: Best Foods for Nucoand Hellman's Mayonnaise, General Foods for Maxwell House Coffee, Loew's Theatres and Rival Dog Food.

Facts and figures discussed by Mr. Lawrence are contained in a new brochure—"In the Daytime, too, It's Channel 2"—issued by WCBS-TV, which occupies that channel.

Mr. Abrams, honored at the dinner for his 30 years as Emerson's president, announced that the board of the Radio Television Mfrs. Assn. has authorized its chairman to appoint a committee to study ways and means of furthering the development of educational TV stations. Mr. Abrams had proposed that the manufacturers of radio and TV receivers should spearhead a drive to raise a \$5 million fund to achieve this purpose. Announcement of the committee members will be made shortly.

Plans for the third part of the Emerson project—formation of an educational council composed of statesmen, educators and business executives to guide the development of educational TV—are also progressing, Mr. Abrams said. He reported an enthusiastic response to the complete program from educators and public and industry leaders and said that an important announcement may soon be made.

AFL FILM GROUP

Hints Advertiser Boycott

PROTESTING foreign TV film production and intimating a boycott of advertisers who use such shows, Hollywood AFL Film Council Tuesday asked all labor organizations to fight the "current practice."

The increasing number of producers and advertising agencies making TV films abroad deprives many U. S. citizens of employment and causes loss of taxes on salaries and wages, a resolution declared.

The AFL Council charged that these TV film productions abroad are for "tax-saving purposes or to take advantage of cheap production and labor costs."

The council asserted it was unfair to go outside the U. S. to make films to be used to sell American products to American citizens, and in asking labor's support, threatened to desseminate to other labor organizations and groups the "identities of such products and the advertising agency, manufacturers and distributors" involved.

TELENEWS STAFF

Appointments Announced

TELENEWS Productions has anmounced the appointment of four new staffers in its expanding news operation, three in the New York headquarters newsroom and the other in Dallas.

Gordon Yoder, newsreel cameraman, will work out of Dallas, covering the Southwest. Additions to the New York staff were Robert Leckie, formerly of the New York Journal-American and the Buffalo Courier-Express, as a writer, and Jules Siegel and Van Kardisch as assistant editors. Mr. Siegel was formerly on the news desk at WNYC New York and Mr. Kardisch was with the Levittown, L. I. community newspaper.

CARS used by camera crews of Telenews Productions Inc., N. Y. have been equipped with two-way high-frequency radios in order to increase operating speed. Radios are used for direct contact between home office and camera crews and for car-to-car communication.

STATE DEPT. FUNDS TV Request Fails

A RECOMMENDATION that television be included on an equal basis with radio broadcasting in the State Dept.'s 1953 appropriations budget was rejected by Senate-House conferees in an 11th hour move over the July 4 weekend.

The Senate receded on its own adopted amendment at House urging, thus defeating a suggestion by Sen. Karl Mundt (R-S.D.), avid proponent of trans-oceanic television [B•T, June 30].

Other significant changes in the 1953 funds measure (HR 7289) as both chambers cleared it July 5 for the President's signature:

The overall international information program was sliced to \$87,325,000—a compromise between Senate and House figures—with perhaps proportionately less for Voice of America shortwave broadcasting operations than originally estimated.

Monies to be "made available to one or more private international broadcasting licensees for . . . developing and broadcasting" special programs were pared from \$200,000 to \$100,000.

The decision to delete any reference to television reportedly stemmed from the reluctance of conferees to take such a "farreaching step" without sufficient study by members of Congress, according to committee authorities. It was pointed out that the subject had not been raised during hearings by the Senate Appropriations Committee before Sen. Mundt offered his amendment on the floor.

The Mundt recommendation would have provided that the State Dept. could use money this new fiscal year for TV as well as radio broadcasting. It is Sen. Mundt's conviction that authority for this is contained in the Smith-Mundt Act of which he was co-author.

Conferees' action on voting international information funds was a compromise between the \$86,575,000 allotted by the House and the \$88,556,516 given by the Senate. It was estimated earlier that perhaps \$20 million would be earmarked for radio broadcast operations.

Out of the \$87 million-plus will have to come money to enable two radio relay stations to begin operation later this year. But expenditures for five new stations and two additional floating transmitters; plus proposed language projects, were categorically turned down.

The feeling of the International Information Administration and its administrator, Dr. Wilson Compton, is that new facilities already constructed should be pressed into action as soon as practicable. Dr. Compton also has suggested the transfer of some VOA programming to overseas locations, with greater stress on use of local facilities in Europe [Closed Circuit, June 30].

Senate and House conferees were in sharp disagreement over making money available to private firms (such as World Wide Broadcasting Corp., WRUL Boston). Finally, Senators suggested \$100,000 be set aside for this purpose to which the House members agreed.

OLYMPIC BAN

TV-Newsreel Protest Made

SPOKESMEN for combined American TV-newsreel agencies revealed last Wednesday—and simultaneously registered a protest—that the Olympic Committee will ban U. S. TV newsreel coverage of the international games.

They said they had information that the committee plans to "commercialize" the Olympics by making a feature film of the contests for "profitable distribution."

In a cable to E. Von Frenckell, Olympic committee chairman, Francis McCall, news director NBC-TV; Jack Haney of UP-Movietone News, and E. P. Gennock, Telenews editor-in-chief, urged a reversal of the action.

VFW POSES SUIT

If 'Medal' Series Is Filmed

LEGAL action was threatened by the Veterans of Foreign Wars after the group's ultimatum to W. R. Frank to cease further announcements and production on a proposed *Medal of Honor* TV film series. The VFW has engaged Al Rogell Productions Inc., Hollywood, to film the television version of its similar existing radio series [B•T, Luna 23]

Mr. Frank, a Minneapolis motion picture exhibitor now in Hollywood, said he believed highlights in the lives of Congressional Medal of Honor winners are in the public domain. The half-hour scripts in the VFW sponsored series are titled Beyond the Call. Jon Yost, radio-TV director, Russell C. Comer Co., producer of the radio version, is preparing the TV series.

RCA VICTOR Transcriptions!"

Good program ideas and top talent deserve RCA Victor transcription quality and service. Your material—spot announcements to full-length shows—should get the benefit of RCA's technical experience and research.

PETRY PEOPLE AT WORK

Picture Book Tells Story to Stations

WHAT happens when the candid camera catches 108 people at work, just the way they are—with no poses or touchups?

Edward Petry Co., national station representative, has come up with one answer—a graphic picture story which it has just presented to its station clients. And back of this picture story is another: How it all started from a random remark by a station manager.

The plan was developed last November when the company's officers decided to let stations see its 108 employes at work. Nothing novel in that, perhaps. But Edward Petry wanted a completely realistic approach. Said the firm's president:

"I want this story of our company to be real all the way through. None of the pictures is going to be touched up. If a man is working in shirtsleeves, or if a girl wears glasses when she types, let's make sure the photographer takes the pictures just that way."

While not aiming for the candid approach of major picture weeklies, the Petry firm used the unposed picture technique to achieve the utmost in realism. After seeing the book, one West Coast station manager commented: "I've always been very conscious of all the Petry

NEWS on KMBC-KFRM is TOPS...

... because KMBC-KFRM stays on 'top' of the NEWS!

And there is no greater value today than radio news!

KMBC-KFRM news programs are the most-listened-to newscasts in the heart of America. They enjoy their high ratings because of the reputation for accuracy and immediacy built by the KMBC-KFRM News Department.

Here is a tremendous sales potential in one of the nation's richest markets...the great Kansas City Primary trade area.

Call KMBC-KFRM or ask your nearest Free & Peters' colonel for complete details on the mighty voice of the KMBC-KFRM Team and for newscast availabilities

• • • 6th oldest CBS Affiliate • • •

salesmen I correspond with all the time but I never realized that you have two people in the office for every salesman out on the street."

As a result, the 88-page picture book has station men talking about the story of people "who make it possible for Petry salesmen to spend more time selling." The book comprises 156 photographs and only two pages of copy.

Putting the story together was a complex production. The job was set out with hand-set type and hand-mounted photographic blow-ups in each of the reproductions. Separate radio-TV organization charts were bound into the book, and a four-color silk screen process was used to set apart major job functions of all employes. Remaining pages were done in two colors—black and terra cotta on buff board.

The Petry Production Dept. also busied itself, digging out personnel biographies, going out on "location" with photographers and preparing copy. Production employes helped catch subjects in unposed and at work at Petry offices, at the agencies and at advertisers.

Actual shooting lasted about a month, with a national picture service handling photography in New York and six other Petry offices. A team of seven photographers took more than 2,400 candid shots, from which the company selected 156.

One hurdle was to get "workaday" shots of some 70 secrétaries, chartists, switchboard girls, bookkeepers, messengers, etc. Each employe received the same amount of time and film, regardless of his or her position. As a result, the bound copy contained pictures and thumbnail sketches from president to the mimeograph boy.

Key to the feeling and purpose is given by Mr. Petry in his introduction:

This picture story of the Petry Co. was not born of any special inspiration. It came into being when a station manager said, "I wish all the other people at my station could meet each one of you and get to know exactly what you do."

This is the result of that random remark. Not the way we aim to be or not the way clever camera work could make us look. All the Petry people are here—doing actual things for stations that we do every day of our business lives.

Texas Meet Sept. 17

SEMI-ANNUAL meeting of the Texas Assn. of Broadcasters will be held Sept. 17 at Fort Worth, it was announced last week by Richman Lewin of TAB. The date precedes by a day the NARTB District 13 meeting in the same city.

Photographer was on the spot at the Compton Agency snapping this "workaday" picture of (l to r) Hanque Ringgold, Petry's eastern manager; Guy Richards, Compton media chief, and Bill Maillefert, Petry radio salesman. This was one of 156 shots used by firm in its picture story sent to station clients.

IIA STRUCTURE Advisory Group Analyzes

PRESENT semi-automous position of the International Information Administration is preferable to separation from the State Dept., the U. S. Advisory Commission on Information has advised Congress.

Commission reiterated its earlier views on organizational structure covering the Voice of America and other information activities, but reserved final opinions until all proposed changes are put into effect. Its position was outlined in a sixth annual report to Congress.

The advisory body, headed by Mark A. May, director of Institute of Human Relations at Yale U., also endorsed recent Senate action approving an inquiry into the overseas program [B • T, July 7]. Resolution was co-sponsored by Sens. William Benton (D-Conn.) and Alexander Wiley (R-Wis.), with the former favoring a study of possible separation of IIA.

The report was signed by all but one of the five commission members, Justin Miller, NARTB board chairman and general counsel. Judge Miller has been on leave of absence from the group since he was named chairman of the Salary Stabilization Board last November.

WOV REVENUE

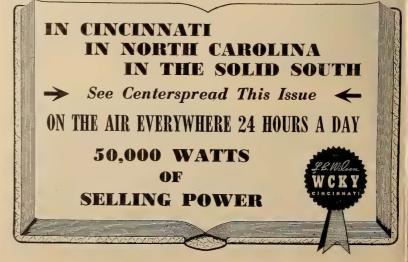

Weil Cites Steady Rise

REVENUE at WOV New York for the first half of 1952 rose 130% over the same period 10 years ago.

Figures released last Tuesday by Executive Vice President Ralph N. Weil reveal the station has had a steady growth since 1942. Mr. Weil said that sales figures for the first half of 1952 were, in fact, 26% greater than the station's revenue for the entire year of 1942. Analysis of revenue also showed that the first half of 1952 ended with an increase of 14% over a year ago and 43% over five years ago for the same period.

Form Hand and Myse

NEW law partnership of Hand and Myse, Transportation Bldg., Washington, D. C., has been announced. Frank B. Hand is a former examiner of the Interstate Commerce Commission. Daryal A. Myse is a former FCC and Federal Power Commission attorney and counsel for the Wisconsin Public Service Commission.

FCDA STATUS

Hurt by Capitol Hill Budget Cuts

AT LEAST two vital government civil defense functions are facing a recession of activity because of lack of funds, it was learned last week.

At the Federal Civil Defense Administration, authorities are reciting an oft-told story bearing on the action of an economy-minded 82d Congress, which pared agency funds to

the bone before it adjourned.

The two projects most immedi-

The two projects most immediately affected by axe-wielding on Capitol Hill are these:

Overall public education and information activity in radio, television and other media.

• Closed circuit theatre TV demonstrations and other public training devices.

Both the Senate and House took a dim view of national civil defense efforts and the intent of the agency to alert and prepare the nation for possible attack by lopping off upwards of 90% from its requested '53 budget. The cuts will be felt all down the line, in communications, public affairs and other operations.

Conelrad (control of electromagnetic radiations) is perhaps only an incidental victim in this instance, although the question of who shall pay for sequential lines to hook up clusters of stations is still unresolved. Stations themselves are bearing the cost of changing their equipment as a prerequisite to participation in the plan.

More severe cutbacks will be felt by FCDA's Office of Public Affairs and its Audio-Visual Division, which prepares public education and information data. Audio-Visual also has produced three closed circuit theatre TV demonstrations to recruit and train volunteer personnel. So successful are the programs, they no longer are "experiments" and are, in fact, under study by other government agencies. The most recent was that evolved to train policemen over a 10-city theatre TV network [B•T, June 23].

Far-Reaching Effects Seen

FCDA had sought \$600 million for the new fiscal year. Congress allotted only \$43 million of which \$8 million is earmarked for overall operations. The last-named two figures are substantially below fiscal 1952 outlays.

FCDA authorities said they are unable to ascertain where the cuts would be made, but asserted that these vital programs would be adversely affected this fiscal year. Congress did not specify where any lecreases should be made. But it s known that the emergency agency has taken its appeal to the Budget Bureau in a bid to scrape up nore money for all functions.

With respect to public informaion work—apprising the citizenry by radio-TV and other media of protective measures—these activiies are certain to suffer. As in previous fiscal hearings, time donted in the public interest by staions and networks, some through prangements with the Advertising council, drew generous praise from FCDA Administrator Millard F. Caldwell Jr. Public Affairs office had asked \$5,375,000 and the House gave \$1.6 million.

The agency's ventures in theatre television were, perhaps unfortunately, not mentioned by its officials during hearings before Senate and House Appropriations subcommittees, although this project has proved itself an economical training medium. It was revealed, however, that FCDA anticipates contractual services totaling \$8,807,520 for radio-TV and other activities—a figure now destined for a downward revision.

According to the breakdown, \$343,600 would be spent for TV shows, audio-visual aids, motion pictures and other devices; \$59,000 for radio transcriptions; \$100,000 for video spot films; and \$39,000 for production of television programs.

Radio-TV Lauded

Administrator Caldwell praised radio-TV-press for "magnificent support at no cost to us" and said that over 7,000 hours of broadcast time have been donated by networks and stations.

Aside from preparing scripts and furnishing speakers for public interest programs and working generally with radio-TV broadcasters, FCDA's Audio-Visual Div. also is charged with formulating emergency program schedules to be aired by broadcasters in the FCC-Air Force alert plan.

Late last May, Jesse Butcher, Audio-Visual chief, and FCC personnel conferred with New York State broadcasters and civil defense authorities on technical and programming phases of Conelrad [B•T, June 2]. Government officials also promised to meet periodically with NARTB, networks and stations—all industry segments—to work out this vital operation.

Again, while other factors are present, the lack of funds could result in curtailment of Conelrad personnel at both FCDA and FCC levels. FCDA authorities have awaited Congressional budget action before drafting a Conelrad program blueprint and meeting with broadcasters. Concurrence of key emergency agencies like the National Security Resources Board also is needed under the President's Executive Order of last year.

FCDA already has agreed to pay for certain telephone lines at local CD points. It was held probable that the Air Force would shoulder the cost burden for installing sequential lines connecting stations participating in Conelrad. This implies, of course, compensation to AT&T and relative priorities for lines to be used by CD personnel and those hooking up stations. Com-

Mr. Bell wearing the winning peanut-squirrel chapeau. ➤

munications monies also would be pared in the amended budget.

Slicing of federal FCDA outlays each year has been a constant cause of concern to Administrator Caldwell, former governor of Florida, to the degree that he has appealed to President Truman to choose a successor. It is deemed unlikely that Mr. Truman will replace him during in these political "lame duck" days, despite Mr. Caldwell's obvious dissatisfaction with lack of Congressional cooperation on budget requests.

KRNT'S ZANY HATS

Bell Cures 'Hatsafrania'

KRNT Des Moines doesn't attempt to keep its promotion successes under the hat. Rather it took hats —ladies' hats—to give KRNT's Don Bell, disc jockey, a stunt idea.

Mr. Bell originated the "Don Bell Zany Hats Contest," by feigning a post-Easter illness that was "diagnosed" as "Hatsafrania" brought on by the female sex's insatiable delight for unpardonable hats.

The remedy, supposedly, was for Mr. Bell to surround himself with outstanding samples of women's headdress. Mr. Bell then appealed to his listeners to help out his case. They did and the winning couples were presented with two-week vacation trips. When the contest got into full swing, choice chapeaux poured in and filled a vacant candy store.

A few samples of the "hats" turned in: Winner — peanut and squirrel theme, second place—miniature wigwam made of chamois and tiny golf sticks with a waiting red convertible (all Mr. Bell's trademarks), and third place—Johnny Ray recording as the brim decorated with a little white cloud of cotton with a crying face that actually dripped tears with the squeezing of a tiny syringe.

tribution of supplies and equipment for these industries in the Denver and Rocky Mountain areas.

The purchase agreement for KOA calls for \$1 million cash, of which \$100,000 has been paid as down payment, and a promisory note in the amount of \$1.25 million by Hope Productions to NBC. The note is for five years at $4\frac{1}{2}\%$.

The Denver group is putting up \$875,000 cash, based upon loans to their accounts by the Denver and Colorado National Banks, while Mr. Hope and his associates as individuals are putting up \$125,000 cash and Hope Productions the note for \$1.25 million.

In addition, each group is providing \$50,000 working capital for KOA. To finance the television operation, each group will purchase \$200,000 in additional debentures.

The Hope group and the Denver group each will have right to elect an equal number of directors. In addition, the application explained, the class of stock to be held by the Denver group will give it the right to elect an additional director "who shall be a disinterested non-stockholder resident of Denver, subject to approval of the class of stock held by Hope Productions"

KOA assets to be acquired by Metropolitan Television includes cash of \$25,000 and total current assets over current liabilities, exclusive of cash, is warranted to be not less than \$50,000 at the closing date.

NBC reported net sales of \$1,-112,763 for KOA-AM-FM in 1951 and earnings before federal taxes of \$239,450. Net sales and earnings for 1950 were \$983,447 and \$232,739, while for 1949, net sales totaled \$959,141 and earnings \$203,738.

Depreciated Cost Report

As of May 31, NBC reported the depreciated cost of all KOA property as \$72,546 and KOA-AM \$36,018. Original property cost for KOA was cited as \$327,447 and KOA-FM \$85,057 (technical equipment only for FM).

As of the same date, the KOA assets to be transferred were carried on the NBC books at about \$225,000, FCC was informed, and liabilities to be assumed by Metropolitan Television were carried at about \$13,500.

NBC's balance sheet, as of May 31, reported total assets and liabilities of \$45.6 million. Current assets were nearly \$25.2 million and current liabilities nearly \$18.5 million (including almost \$8.6 million accrued federal taxes). Plant and equipment was listed at almost \$31 million, less \$14.2 million reserves. Capital stock was listed at \$6.5 million and earned surplus almost \$19.9 million.

Bob and Dolores Hope, as of May 29, reported current assets of almost \$3.8 million, of which \$2

WELCOME to Charles Douglas (r), new account executive at WCKY Cincinnati, comes from Charles H. Topmiller, station manager. Mr. Douglas was Indianapolis-Cincinnati assistant regional manager for Real Silk Hosiery Mills.

million is market value of oil lease investments. Miscellaneous liabilities of about \$590,000 were listed, giving them capital of \$3 million plus. Mr. Hope and Bing Crosby are associated in oil ventures at Fort Worth with W. A. Moncreif and C. E. Hyde.

Mr. Hope also is president and 56.25% owner of Hope Enterprises Inc., organized in 1946. The talent and package firm has 21 stockholders and is owned 25% by NBC.

The James L. Saphier Agency listed net worth in excess of \$110,000 as of May 31, the application reported.

Hope Productions reported total assets and liabilities of about \$25,000.

Current contracts of KOA, as of June 23, were reported to total 182. These included 92 for 52 weeks, 11 for 39 weeks, 19 for 26 weeks, 17 for 13 weeks and 37 for less than 13 weeks. KOA in addition has an oral agreement with Standard Oil of Indiana to air the entire 1952 U. of Colorado football schedule. This pact involves \$10,000, of which \$3,200 represents time charges and the rest program costs.

KOA also reported oral agreements for time or announcements with Bluehill Foods Inc. for supplying certain products in December, Yellow Cab Co. for display advertising, Orpheum Theatre-RKO for screen trailers and Rocky Mountain Jewish News for advertising space.

NBC's portion of the transfer application was handled by Gustav B. Margraf, vice president and general attorney, and Joseph V. Heffernan, financial vice president. Metropolitan Television's application was prepared chiefly by Mr. Radetsky and by Mr. Davis. Washington counsel for the assignee is Pogue & Neal and McKenna & Wilkinson.

OPPORTUNITIES for a career in TV are outlined in new brochure, "Your Future in Television," published by SRT Television Studios, 316 W. 57th St., N. Y., branch of one of country's oldest broadcasting schools. Booklet is available on request.

EASLEY OPENS New Offices in D. C.

CONSULTING radio engineer Robert L. Easley, against whom mail fraud charges were dismissed, has announced the opening of new consulting engineering offices at 1311 G Street, N.W., Washington, D. C.

Dismissal of the Dept. of Justice complaint against Mr. Easley, for which he was indicted by a federal grand jury early this year [B.T, Jan. 21], was made on the government's motion. It was granted June 9 by Chief Justice Bolitha M. Laws of the District of Columbia U. S. District Court. The dismissal motion was made because of the inability of the chief government witness to travel to Washington due to his physical disability, the U. S. District Attorney's office reported. The witness was H. N. Lee of the Opp (Ala.) Chamber of Commerce.

Mr. Easley previously has been named or involved in law suits filed by WHAR Clarksburg, W. Va.; WLIL Lenoir City, Tenn.; WRNO Orangeburg, S. C.; and WNOK Columbia, S. C. [B•T, Nov. 27, 6; July 17; May 1, 1950].

BUSINESS volume by WKBV Richmond, Ind., for first six months of 1952 was 20% ahead of same period last year, station reported Thursday.

The KATZ AGENCY

SET SALES

RTMA to Compile for Sept.

MONTHLY figures showing retail sales of radio and TV sets will be compiled on a nationwide basis by Radio-Television Mfrs. Assn., with first reports to be available in September. The plan was proposed by President Glen McDaniel at the June RTMA board meeting and is financed on a voluntary subscription basis.

Frank W. Mansfield, Sylvania Electric Products, developed the statistical plan in cooperation with William F. E. Long, RTMA statistical director.

A panel of representative radio-TV dealers will provide monthly data on radio and TV set sales and inventories. Electric League offices also are taking part. Individual dealer reports are on a confidential basis.

Three-week test run conducted in Maryland, Virginia and the District of Columbia was described as highly successful. The new plan, a broadened version of surveys conducted for a year by Dun & Bradstreet under RTMA sponsorship, will show for the first time the sales and inventory data at the dealer level by regions, TV screen sizes and radio receiver types.

RTMA last week announced it had arranged three technical sessions covering TV and including UHF and color techniques as features of the 1952 Radio Fall Meeting to be held at the Hotel Syracuse, Syracuse, N. Y., Oct. 20-22. The preliminary program announced by Virgil M. Graham, associate director of the RTMA Engineering Dept. and chairman of the meeting committee, includes a UHF session sponsored by the Institute of Radio Engineers group; quality control session sponsored by the IRE group handling this activity; color TV sessions sponsored by the receiver group, and a session sponsored by the elecronic devices group. A general session on TV will close the meet-

ADMIRAL Corp., Chicago, is stressing ale of TV sets in areas between 25 and 200 miles from transmitters in ringe areas.

NARTB SURVEYS Transcription Rule Use

SURVEY of radio and TV experience with the FCC's rule requiring identification of transcribed and filmed programs is being conducted by a special NARTB committee headed by Michael R. Hanna, WHCU Ithaca, N. Y.

NARTB has asked FCC to remove its rule requiring identification of recorded programs and spots, contending the rule is outmoded and that the cumbersome announcements no longer are reasonable in view of extensive use of recorded techniques and progress in quality. Exception would be made in the case of news and commentary programs.

The NARTB action grew out of the February board meeting at Mr. Hanna's suggestion. Serving on the special board committee with him are William Fay, WHAM Rochester and Walter Compton, WTTG (TV) Washington.

New Sterling Div.

STERLING Adv., specializing in fashion and soft goods accounts, has established a new industrial division under joint direction of Donald M. Martin, former advertising manager of General Dyestuffs Corp., and Paul B. Slawter Jr., formerly of the House of J. Hayden Twiss Adv., New York.

McFarland Bill

On President's Desk

PRESIDENTIAL signature on the McFarland Bill (S 658) was expected this week as the White House reviewed comments from the FCC, Dept. of Justice, Budget Bureau and other interested agencies.

FCC comments were submitted Thursday, when the Commission drafted a statement listing objections but endorsed no strong recommendation to veto the measure.

Staff report raking the bill from stem to stern was turned down by the Commissioners in favor of a more reasonable statement of their position.

Commission has objected right along to some parts of the procedural and review provisions, with particular opposition to the separation of staff from Commissioners.

Requests for comments from interested agencies is routine by the White House on all bills affecting the executive department.

To drum up support for the President's signature, NARTB last Wednesday wired key members asking that they express support of the bill in communications to the White House so that the President would know broadcasters favor the legislation.

Two Choices

President Truman has two choices for vetoing the bill if he should choose to do so. One is to veto it outright, and since Congress is now adjourned and is not expected to return until after the elections, there would be no chance of over-riding the veto. The other method is to not sign the bill. Since Congress is adjourned, this pocket veto would become effective 10 days after the close of Congress. Congress adjourned July 7.

Meanwhile, the President last week signed the Independent Offices Appropriation Bill (HR 7072). This appropriates \$6,408,460 for 1953 fiscal FCC operations [B•T, June 30]. He also signed the District of Columbia Boxing Commission Bill (HR 5768), which requires boxing promoters to give up 10% of their income—including that from sale of rights to radio-TV and newsreels—to the Boxing Commission [B•T, July 7].

NBC Signs Shore

SIGNING of singer Dinah Shore to a long-term NBC contract was announced by the network last Thursday. Miss Shore is the star of the *Dinah Shore Show* (NBC-TV, Tues. & Thurs., 7:30-7:45 p.m. EDT) which went off the air June 26 for eight weeks. The program will return to the network from Hollywood on Tuesday, Aug. 26, in the same time period. Chevrolet dealers will again sponsor the program in the 1952-53 season.

NIVE Cincinnati stations and two northern Kentucky stations have joined in a concerted effort to promote annual presentations of the Cincinnati Summer Opera Assn. in its season of five weeks. WLW WCPO WKRC WCKY and WSAI Cincinnati, WNOP Newport and WZIP Covington, Ky., are supplying announcers to read the story line at each performance. In addition, the stations are using spot announcements and special programs to promote the opera season.

RECORD-BREAKING

WGAY Silver Spring, Md., has begun a new record show in which the platters less liked by listeners are, literally, smash hits. New releases are played on Make or Break with listeners deciding whether record should be retained for the station library, or "broken" on the air. Majority of first five calls de-

REPEAT BROADCAST RATED

WGAR Cleveland's earlier plea for traffic safety over the Independence Day weekend, Unwanted First, rated a repeat broadcast July 3. The show was inspired by Ohio's record of the highest traffic death rate per capita on 1952's Decora-Day weekend. Show was specially prepared by Charles Day and Jack Dooley, WGAR newsmen.

programs promotion premiums

CHILD'S DREAM

WTOP-TV Washington's Ask-It Basket, Saturday morning childrens show, featured a local fire department hook-and-ladder truck July 5. Cameras were trained on the hook-and-ladder as it pulled up to its home fire company, sirens wailing. Six children, chosen from 173 who wrote asking to appear on the program, swarmed over the huge red truck. A fire department lieutenant explained the equipment on the vehicle.

'TELO-CHAIN' PROGRAM

ON chain-letter pattern, Telo-Chain quiz program launched in Canada with CKNW Vancouver, where staff member Rolly Ford is reported to hold copyright. Letter is drawn from mailbag on each 10-minute show. Listener, who is required to register name and phone number each week with boxtop or label enclosed, must identify "mystery voice" and supplies name and phone number of next contestant until five successive phone calls are completed.

WCAU CONTEST

WCAU Philadelphia airing The American Stores Co.'s promotion, "Mrs. American Stores of 1952." Contest, which starts today (Monday) and runs for eight weeks, is being plugged via the 1,200 stores in the Philadelphia area and by WCAU on its American Stores Rings Your Bell 10:15-30 a.m., Mon.-Fri., featuring Gladys Webster. Winner who best describes why she likes to shop at The American Stores and why she would like a "second honeymoon" gets two-week trip to Bermuda. Runner-ups to grand prize get home freezer, TV and radio set or watch. Daily winners receive merchandise certificates.

KFAB JUMBO CARD

BREEZY "jumbo" postcard sent to trade by KFAB Omaha utilizes theme "It's Summertime and the Listening Is Easy. . . . " Cards are in varied colors, show, via eyecatching cartoons, use of radio from farmer at tractor to steelworker on skyscraper. Series of nine, cards are mailed at three-day intervals.

-----KSTP AWARD STATION

IN folder featuring circle cut out of smiling face with legend: "One Man Show," KSTP-AM-TV Minneapolis highlights yearly awards received from trade magazines, Billboard and Variety. Competition at former was in promotion, the latter for news coverage.

WRC's 'MR. ECHO'

CONTEST started last Monday on WRC Washington and precedes "WRC Day" to be held Aug. 2 at local Glen Echo Amusement Park. "Mr. Echo" is well-known Washington performer whose voice must be identified by listener with a jackpot prize including week-end trip for two to Atlantic City the feature. Voice is aired intermittently during day. Replies must give in 50 words or less why WRC is favorite Washington outlet.

'OL' PROSPECTOR'

WTVN (TV) Columbus' promotion built around a station personality, "The Ol' Prospector," drew thousands to Ohio's largest amusement park, Buckeye Lake Park. Every concession in the park carried cards listing the station's call letters and "The Ol' Prospector." In addition, Bosco, sponsor of "The Ol' Prospector," was promoted through use of a huge banner on a stage in the

MUSIC STEPPING STONES

KOIL Omaha has just completed the 4th series of a unique radio program entitled, Stepping Stones To Stardom. Latest series was climaxed when 12-year-old boy pianist was awarded a \$1,000 piano by a local music company. Another company awarded five runners-up a \$50 study award each. Program has been on the air since April, 1949. In that period, 773 amateur musicians have competed.

WHBC COVERS 'BOMBING'

ABC

WHBC Canton, Ohio, covered a simulated bombing attack of that city. From atop a tall building in downtown Canton, news announcer Al Francis, reported the "bombing" into a tape-recorder for rebroadcast later. A B-25 bomber,

accompanied by jet fighter protection, dropped 10,000 leaflets. The leaflets read, "This could have been a bomb! Your life and your children's lives can be saved by being warned of an enemy attack." Sponsored by the Canton Air Defense Filter Center, the "bombing" was designed to induce residents to join the Filter Center in "Operation Skywatch" to guard against surprise enemy attacks. ----

CALL LETTERS DISPLAY

WTVJ (TV) Miami has made arrangements with Illustrated Current News to place 100 display pieces bearing the station call letters in business windows throughout the area. Charles E Silver, southern representative for ICN, is supervising the campaign.

_----

WXEL's 'BARGAIN BAR'

WXEL (TV) Cleveland, Bargain Bar, Mon-Fri., 4-4:30 p.m., acts as clearing house for household articles put up for second-hand sale and features Rena and Bob Ledyard, husband and wife team. Televiewers invited to appear with item or to write about the article for sale. Those who wish to buy, telephone the station. Program re ceived among others 20 offers for turtle aquarium, 55 requests for bird cage and 15 offers for demolished auto sold for junk.

INDEPENDENCE OBSERVANCE

WGY Schenectady observed the 176th anniversary of the nation's birth through a series of transcribed one-minute announcements, written and spoken by area residents on the subject, "I Speak for Democracy." Announcements were spread over five day period.

'TUNES AND CARTUNES'

WNBK (TV) Cleveland's Tunes and Cartunes, aired Mon.-Fri. 6:30-6:35 p.m., has invited viewers to send photographs to Dick Dugan, station cartoonist. Mr. Dugan will make a caricature of the photograph and will feature it on the show along with a drawing of the most newsworthy local or national figure. Program also fea-

WORC KID'S PARTY

WORC Worcester, Mass., promotion for its WORC Kid's Party brought more than 7,500 children to White City, a local amusement park, June 27. Rides for the youngsters were free through the courtesy of the station. WORC said that the local mothers who had a "day off" were especially apprecia-

Degree to Brunet

MEADE BRUNET, a vice president of RCA and managing director of RCA International Div., has been elected a trustee of Union College, Schenectady, N. Y. He received a Bachelor of Engineering degree from Union in 1916 and is chairman of the college's public relations council.

TROPHY awards for radio-TV news coverage in 1951 presented by Radio & Television News Club of Southern California to (I to r) Jack Beck, director of news broadcasts, CBS Pacific Network, who accepted for Cameron Cornell (special events coverage) and Ed Murrow (trans-continental news reporting); Clete Roberts, KLAC-TV, world coverage; J. C. Haskell, branch merchandiser, Southern Div., Richfield Oil Corp., for firm's Japanese Peace Treaty coverage; Sam Balter, KLAC, sports reporting; Leo Wilhelm, Los Angeles district manager, Bing Crosby Minute Maid Corp., whose firm donated trophies; Dave Anderson, NBC radio Hollywood newscaster and club president; Al Gordon, KFWB, news commentary; Chet Huntley, ABC radio, Hollywood, news commentary; and Jim McCulla, KMPC, news presentation. They were among 15 winners [BoT, June 30].

Strictly Business (Continued from page 14)

and a definite place, and, needless

to say, he plans to continue in both.

Modern broadcasters will well understand why Mr. Rocca was first attracted to radio. On the old WJSV Washington (now WTOP-AM-FM-TV), he was able to buy six spots daily for five days, at the rate of \$150 per week. What's more, he had Arthur Godfrey to deliver the commercials. That was when Mr. Godfrey was a local personality.

"Godfrey was a wonderful salesman even in those days," Mr. Rocca said. "I still stick with him whenever I can. You know, with station breaks, and the like.'

After Mr. Godfrey, there followed a series of other arrangements, none of which were satisfactory to Mr. Rocca. In 1940, in addition to writing all his commercials, he began using his own

How much of that was vanity? "None," replied Mr. Rocca. "I find that by the time I would get thru working with a professional copy writer, and announcer, it would take me longer to get what I want than if I did it myself.

"Besides," he added, "I know exactly what I want to say, and how I want to say it. I like to sell my cars to the radio and television audiences exactly like I would if I were talking to a man face to face. I don't like the detail work but it's really much simpler for me this way."

On the score of his recalcitrant attitude toward detail work, Mr. Rocca said that he hasn't personally sold a car in 10 years, despite his agency's outstanding sales record.

Writing his commercials doesn't always come easy, Mr. Rocca explained. "Sometimes, I spend as much as five hours on a one-minute spot. I know my stuff is corny, and so is my voice, but we sell cars." Although Mr. Rocca knows his delivery is not up to professional announcing standards, he knows also that there is no arguing with a balance sheet-and his "corny" efforts produce results.

Leo Jr. Lends Hand

There apparently is relief from the detail work of broadcasting for Mr. Rocca. His son, Leo Rocca Jr., has expressed an interest in broadcasting. Young Leo Rocca already has transcribed several spot commercials.

Two things about Mr. Rocca's commercials have remained unchanged-his salutation and his sign-off. Mr. Rocca opens with— "This is Leo Rocca speaking, your Dodge and Plymouth dealer in Washington," and closes with, "This is Leo Rocca saying thank you." His whole pitch has the air of friendly conversation.

One of Mr. Rocca's strongest selling points is his guarantee of two years or 25,000 miles on every new Dodge or new Plymouth sold. The pushing of this guarantee is one of several themes into which he brackets his series.

Mr. Rocca, at 54, can reflect with warm satisfaction that he made his mark in his home town. He was born in the nation's capital, Feb. 28, 1898, and schooled there. The lure of business-he has always been in the automobile or auto accessory business - was stronger than the desire to get a college degree so he left George Washington U. after completing two years.

He is not a joiner and resists most offers to speak at luncheons or dinners, or even to serve on

"I'd rather spend the time on the farm with my family," he commented. The farm to which he referred is a 225-acre estate called "Hollybrook" in nearby Herndon, Va. On the farm, he breeds Black Angus cattle and has a lake stocked with bass. Other than just being with his family, and selling cars of course, fishing is his main hobby.

His family, in addition to 17year-old Leo Jr., is composed of a daughter, Leonora, 14, and his wife, the former Leonora Worley of Washington, whom he married in

"I don't feel free to tell you how much I spend on radio and television advertising," Mr. Rocca said, "But you can put down that I spend a whole lot more than that \$150 I began with in 1935." Agency for Leo Rocca Inc. is Harwood Martin Adv., Washington.

McGILLVRA, Rep. New York • • • Chicago

N. Y. STATE CD

Plans 'Hams' Training

NEW YORK STATE Civil Defense Commission has begun an Amateur Radio recruitment program, aimed at a goal of 40,000 volunteerswith or without technical background-to train in assisting operators working with emergency New York state Amateur Radio Networks. Latter are maintained on a 24-hour basis.

Lieut. Gen. C. R. Heubner, director of the state CD Commission, explained that Amateur Networks, now employing about 2,000 expert "hams," may well provide one of the few available channels of communication in any atomic attack.

Crosby Negotiations

BING CROSBY and the Coca-Cola Co., New York, have terminated their negotiations by mutual agreement, it was announced last week. The singing star had been negotiating with the soft drink firm for sponsorship of a half-hour series on radio and TV [B•T, July 7, June 25]. With Mr. Crosby planning to finance an ice cream company, it was considered in the nature of competition to Coca-Cola. Meanwhile, it was reported that General Electric is now negotiating with Mr. Crosby.

Radio Builds Library

REX DALE, disc jockey for WCKY Cincinnati, received a suggestion from a listener in December 1951 that an appeal be made for educational books to be sent to children of Nagasaki, one of two Japanese cities A-bombed toward the close of World War II. Mr. Dale made daily appeals over his Make Believe Ballroom. Another listener became sole collecting agency for the books. As a result of this concerted effort, more than 400 books were sent to Nagasaki. This fall, a new library will be opened in Nagasaki, containing the books from WCKY's listening area. WCKY commented, "This is another instance where radio, acting in the interest of public service influenced a number of people in such a manner, where no other media could have succeeded so well."

for distribution late this summer. The program stars a western trio and features folk tunes as well as westerns.

Film People . . .

Robert Klaeger has been appointed vice president in charge of production by Transfilm Inc., New York. He previously supervised motion picture production for Transfilm and in this capacity is said to have worked on more than a thousand television commercials and a score of documentary motion pictures.

Buck Houghton, literary department of MCA, Beverly Hills, shifts to Revue Productions, subsidiary of the agency, with supervision of story department.

Robert Stevenson, director Columbia Pictures feature film "To the Ends of the Earth," to the studio's subsidiary, Screen Gems Inc., Hollywood, for "John Honeyman" in NBC-TV Cavalcade of America TV film series.

Burton Rowles Jr., after a leave of absence, has returned to Transfilm Inc. as director of creative planning for industrial and documentary motion pictures. In his previous association, Mr. Rowles wrote the Ford Motor Co.'s first three "Americans at Home" documentaries, directed "Conway Boy" for the State Dept. and produced six 15-minute TV films for the A. C. Gilbert Co. (toys).

Lou Gray, producer of Range Rider TV film series for Flying A Television Pictures, Hollywood, named assistant to Armand Schaefer, firm's president. Mr. Gray will supervise overall production for firm in addition to producing Gene Autry TV film series. Assigned to Range Rider is Hugh McCollum, short subjects producer at Columbia Pictures.

Gene Lockhart and Charles Chaplin Jr. were signed by Pennant Tele-

vision Productions Inc., Hollywood to respectively star in "A Matter of Circumstance" and "Three Minutes" in Date With Destiny TV film series. Ed Woodworth, firm's president, is in New York for conferences with ad agencies.

John Shanks, comptroller, Snader Telescriptions Sales Inc., Beverly Hills, joins Pennant Television Productions Inc., Hollywood, as treasurer and comptroller.

Robin Blink, daughter of Milt Blink, executive vice president of United Television Programs, Chicago, married July 1 to Larry Gordon of Kansas City, in Chicago.

Reavis Winckler, publicity-promotion director of Jerry Fairbanks Productions, Hollywood, to Filmcraft Productions, that city, in a similar capacity.

Paul Gordon, assistant to Edward Lewis, producer of CBS-TV Schiltz Playhouse of Stars, father of girl, Cathy, June 21.

Miscellany . . .

Guild Films Inc., Hollywood, will handle the national distribution of a quarter-hour TV film series, Lash of the West, produced by Ron Ormond. The programs, 13 of which have been completed, star Lash La Rue and are already being shown on KNBH (TV) Hollywood under the title Tales of Famous Outlaws.

Ellis Dungan, technical advisor on CBS-TV Smilin' Ed McConnell and His Buster Brown Gang, is en route to India to film additional background and animal footage for the TV series. Producer Frank Ferrin, packager-producer of the taped NBC radio version, signed a fiveyear contract with Brown Shoe Co., St. Louis (makes Buster Brown shoes) [BoT, April 21].

Top Network Station \$90,000,00

A well established top network property—the only station in an attractive southern market with retail sales in excess of \$25,000,000.00. Due to favorable position we can arrange very liberal financing.

New Applications . . .

AM APPLICATION

Woodland, Calif.—Wagner Bestg. Co., 780 kc, 1 kw daytime. Estimated construction cost \$21,217.04, first year operating cost \$36,000, revenue \$38,000. Applicant is composed of John Andrew Wagner (60%), San Jose, Calif., contractor and rancher; John Russell Wagner (20%), co-manager of KVON Napa, Calif., and Carrie Helen Wagner (20%), housewife. Filed July 1.

TRANSFER REQUEST

KFH-AM-FM Wichita, Kan.—The Radio Station KFH Co. Requests approval of plan providing for the relinquishment of negative control contingent upon grant of licensee's application for television station [see story this issue]. Upon grant of television application, 25 persons would purchase 7,000 shares of stock in corporation for \$50 per share (total of \$350,000 new capital). Wichita Eagle Co. is owner of 10,956 out of 22,000 shares (49.8%) but beneficially owns total of 11,000 shares (50%). If proposed plan is approved and television grant made, new stock would reduce percentage now held by Wichita Eagle to slightly less than 38%. Filed July 7.

1888 Dr. Augustin Frigon 1952

DR. AUGUSTIN FRIGON, 64, director of planning of Canadian Broadcasting Corp., died suddenly

Dr. Frigon

Wednesday night in the Laurentian resort town of Sixteen Islands, north of Montreal. He had been ill for some time. Dr. Frigon was

appointed assistant general manager of CBC at its inception in 1936 and became

general manager in 1944. Last December he was appointed diector of planning, CBC Chairman 4. D. Dunton moving him into the senior post to relieve him of strain of administrative duties.

Known internationally for his lectrical and electronic achievements, Dr. Frigon was a junior member of the original Royal Commission that recommended a nationalized broadcasting system in 1929. He held a scientific doctorate from the U. of Paris, and degrees from Montreal Polytechnic Institute, Massachusetts Institute of Technology and Paris School of Higher Electricity.

He became a professor at the Montreal institute in 1910 and then set up a consulting service. He was instrumental in installing four 50 kw stations in Canada as well as low power repeating stations in remote communities. He held many engineering honors and belonged to leading engineering societies. At one time he was president of Quebec Electrical Commission and the Montreal branch of the Engineering Institute of Canada.

Weed & Co. representatives

WLWT (TV) Cincinnati claimed the only independent television origination directly from the Republican National Convention in Chicago with this program July 6, eve of the big political rally. The camera is that of WNBT(TV)-NBC New York, but the program was WLWT's with Crosley's veteran newsman, Peter Grant. L to r: Mr. Grant, news commentator Bill Henry and announcer Ben Grauer. Woman in picture is unidentied.

Peak Station Coverage at Chicago

(Continued from page 38)

city's civic auditorium, and planned to follow suit when the Democratic convention meets the week of July 21. With no TV station yet licensed in the state, spokesmen for the O. L. (Ted) Taylor outlet reported, the closed circuit provided the only means for Kansans in that area to witness the proceedings direct. Admittance to the auditorium was free.

TV-less Denver also saw thousands of people crowding into the exhibition rooms of the Shirley-Savoy Hotel to watch convention proceedings on closed circuit video made available by KOA and KLZ there. The stations, cooperating with 17 local set distributors, also placed sets in 50 individual rooms for use by the press, radio clients, agencies and guests of the distributors.

Standing-room-only accommodations and a waiting line required many viewers to watch in shifts the complete pool coverage and special programs from CBS and NBC. Weeks of preparation and thousands of dollars in equipment, including a mile of cable in the hotel, made the showing possible. according to the stations.

Radio coverage of the evening sessions was beamed to the West

Indies, Central and South America by international shortwave station WRUL under the sponsorship of Philco International Corp., according to Ovid Riso, vice president of Philco International.

WPIX (TV) New York and its owner, the New York News, capsuled coverage of the conclave, presenting newsreels, still pictures, and last-minute news in half-hour highlight productions at 2, 8, and 11 p.m. daily. WPIX News Director Walter Engels headed the station's Chicago staff while newsreel photographer Frank Hurley supervised filming operations. Newscaster John Tillman coordinated in New York.

Waco, Tex., had its own front seat at the convention when KWTX that city set up a TV convention party. The radio outlet placed 50 video receivers on display in front of its studios and viewers pulled up chairs to witness CBS-TV and NBC-TV coverage. The local Junior Chamber of Commerce served up cold drinks, ice cream and pop corn. Located in a TV-less town, KWTX has applied for VHF Channel 11.

KTHT Houston laid claim to exclusives on actual broadcast cov-

DENVER closed circuit TV convention coverage was made possible by KOA and KLZ and set distributors there. At this set are (I to r) William Walker, KOA producer; Charles C. Bevis Jr., KOA general manager; Clayton Brace, KLZ television research director, and Hugh Terry, KLZ vice president-general manager.

KSD-AM-TV St. Louis originated special direct pickups from Chicago each day of the Republican convention last week. Working on the series were: (1 to r) Seated, George M. Burbach, general manager of the stations, and Frank Eschen, special news events director; standing, Austin Bridgman of the stations' news staff and Arch King, staff member of the Post-Dispatch, licensee of KSD-AM-TV.

erage of proceedings before both the GOP National Committee and its Credentials Committee, although they were barred for a time to radio-TV. Station owner Roy Hofheinz led the KTHT news staff, smuggling microphones into the sessions. Edited broadcasts on the contested delegates were aired July 3 and 4, and later fed to Texas Coast Network stations.

As a result of its battle for radio freedom, KTHT claimed, the Credentials Committee finally opened the sessions to the broadcast media last Tuesday after the station aired closed proceedings the previous evening.

WCBM Baltimore sent local correspondents John Fulton Lewis and Greg Halpin to Chicago to report activities of the Maryland delegation to the station's estimated 2.5 million listeners.

WEEB Southern Pines, N. C. boasted that it was "probably the smallest station in the U. S. that is sending a man to cover the convention." According to Jack Younts, WEEB president, Arch Coleman tape-recorded a 15-minute segment each day for WEEB, WEWO Laurinburg and WGWR Asheboro, all North Carolina.

WLWC (TV) Columbus, Ohio, in addition to its network pickups from Chicago, telecast a special convention preview of the city's GOP delegates, with Richard Mall presiding over a panel of officials and newspaper experts.

Debut of the first live network TV program in the Pacific Northwest featured Vice President Alben Barkley and Sen. Warren Magnuson (D-Wash.) on film in a special dedication on KING-TV and Seattle

KNBC San Francisco, whose newsmen assisted last week with NBC coverage of the Republican meeting, mapped plans for special broadcasts this week in advance of the Democratic National Convention starting next Monday.

KSTL, WTMV and WEW, members of the Greater St. Louis Broadcasting System, were hosts on BC Headache Powder Day at Sportsman's Park, St. Louis, to more than 300 members of the wholesale and retail druggist groups of the area and their families. Among those present were the officers of the Missouri Pharmaceutical Assn., and of the Retail Druggist's Assn. of St. Louis. Shown standing in front of one of the sections of the park where their guests were seated are: (I to r) Frank J. Prendergast, WTMV; George Volz, WEW and Wm. E. Ware, KSTL.

FCC Rushes Processing

(Continued from page 69)

Wichita, Kan., sixth on the A-2 list, has the most applicants of any city in the U. S. There are 10 requests pending for three commercial channels.

Of the first dozen cities on the B-1 listing, there are about a half dozen which have applications unopposed by others. These include Bridgeport and New Britain, Conn., New Bedford, Mass., and York, Pa. Fall River, Mass., and Racine, Wis., have no bids pending for double UHF channels available in each.

There are applications pending in only two of the territories, Hawaii and Puerto Rico, which are not subject to the city priority system of the temporary processing procedure. In San Juan there are three applicants for two VHF channels. Empire Coil Co. and WKAQ San Juan both seek Channel 2 while WAPA San Juan is sole applicant for Channel 4.

At Honolulu, where five VHF channels are assigned, two applicants seek Channel 2, two pend for Channel 4 and one seeks Channel 11. The latter is the bid of Royaltel, composed of Herman B. Rosen and associates, identified with Royal Amusements Ltd., movie distributor and exhibitor. Meanwhile, KGMB Honolulu last week notified FCC it is preparing an application for Channel 9, which leaves Channel 13 still open.

Texas leads the states in number of pending applicants, having more than 50. There have been no new bids or amendments filed since April 14 for Delaware, Vermont, Utah and Wyoming.

Some 200 of the pending applicants seek UHF facilities, according to an informal check by FCC, with some 35 of these for VHF

markets.

The majority of the new station requests, it is indicated, are from established broadcasters, while the next largest representation is newspapers.

Prominent personalities are identified with a number of new station requests, including Gov. Adlai Stevenson of Illinois and actors Bing Crosby, Bob Hope, James Stewart, Jack Benny and Mary Pickford Rogers.

Bob Hope and Hope Productions are 50% owner of Metropolitan Television Co., Channel 4 applicant at Denver and purchaser of KOA there from NBC for \$2.25 million, subject to FCC consent (see story page 25).

Bing Crosby is 48% owner of KXLY-TV, 315 W. Sprague, applicant for Channel 4 at Spokane. KXLY Spokane is 50% owner of the new firm.

James Stewart is interested in

ALA BACKS RWG

Offers Strike Support

AUTHORS League of America announced late Thursday it would throw its "full support" behind a strike of 67 members of the Radio Writers Guild (an ALA affiliate) against ABC, CBS and NBC in New York. The strike began July 2.

ALA Vice President John Hersey pledged his group's backing after a meeting at the Hotel Shelburne with three representatives of the RWG Thursday afternoon. Mr. Hersey said plans are being formulated to set up a "strike fund" to help the involved writers and added that a letter is being drafted to some 7,000 ALA members outlining suggestions that can help the strikers.

One recommendation to be included in the letter is the formation of picket lines to be manned by some of the well-known members of ALA, if and when they are available.

Mr. Hersey conferred with a strike strategy committee consisting of Jack McGiffert (CBS), Graham Grove (NBC) and Vince Dempsey (ABC). Also representing the ALA at the conference was Evelyn Burkey, assistant executive secretary.

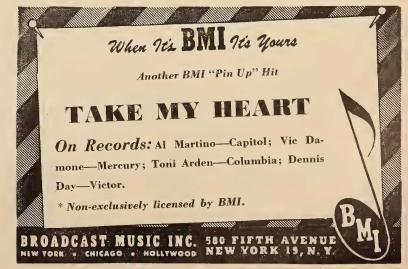

One of the subjects discussed at the meeting was the feasibility of withholding all TV and radio material from the networks by members of ALA who are said to include 90% of the authors, dramatists and screen, TV and radio writers in the country.

The main issue in the strike is over the guild's demand for extra fees for news and other programs if they are sponsored [B•T, July 7].

Denver Television Co., Channel 7 applicant at Denver.

Mary Pickford Rogers has been a long-time applicant at Winston-Salem, N. C., seeking Channel 12.

Gov. Stevenson is minority stockholder in Sangamon Valley Television Corp., seeking Channel 2 at Springfield, Ill. Applicant is 32.5% owned by WTAX Springfield and 27.5% owned by WSOY Decatur, fil.

Set manufacturers will be ready with dualchannel models as well as UHF types and converters by time new stations go on air, according to James D. Secrest, RTMA general manager. Some dual-channel receivers are already on market, he noted.

New TV application for Channel 2 granted KFEL Denver was filed at FCC 11:10 a.m. Friday, just minutes after Commission acted on Denver authorizations. It was noted, however, new bid of Knox LaRue would have been out of running even if filed earlier in morning since 24-hour rule precluded its consideration.

WILLIAM D. FISHER, radio-TV director at Gardner Adv., St. Louis, named vice president. He is former associate radio-TV director Young & Rubicam, Chicago. Other new Gardner vice presidents are WILLIAM L. SPENCER, copy chief there for six years; GEORGE HOWELL SHIELDS, formerly of Leo Burnett, Chicago, now account executive on Ralston Cereals, and PAUL LEHNER, with Gardner 17 years, account executive.

TOM TOYE, account executive WINS New York, transferred to New York sales office of WLW Cincinnati as sales representative for WLW and WINS. Both stations are owned and operated by Crosley Broadcasting Corp.

THOMAS F. McANDREWS Jr. to Ted Bates & Co., N. Y., as film producer in television commercial department. He formerly was with Kenyon & Eckhardt, CBS, and Republic Pictures Corp.

JOE SABIA, program director WHOB Gardner, Mass., to announcing staff of WKNE Keene, N. H.

ERNEST W. TURNER, executive art director, Minneapolis office, and PHELPS JOHNSTON, creative director, Chicago office, elected vice presidents of Campbell-Minthun Inc.

THOMAS R. BROWN has been named treasurer of Rand Adv., N. Y. He has been with Compton Adv. and Kudner Agency, both N. Y., and was former assistant general manager of Anahist Co.

RADIO AND TV PUT GEN. EISENHOWER OVER

NOMINATION of Gen. Eisenhower as Republican candidate for presidency was widely applauded by broadcasters attending Chicago convention, on ground that he believes in medium, and will foster course of minimum regulation and no censorship in normal times.

Broadcasters pointed out that it was because of radio and TV that Gen. Ike was enabled in four months to overcome four years of planning and organization by his chief opponent, Sen. Robert A. Taft.

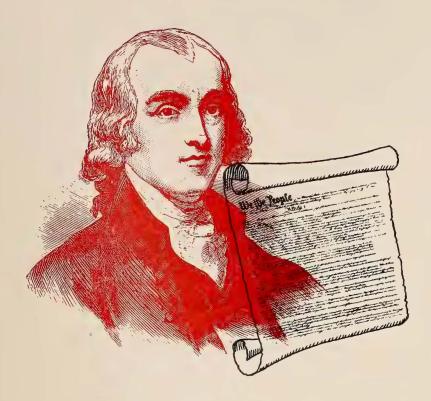

There was rancor and bitterness evident before Ike's nomination was wrapped up Friday. Broadcasters were not spared. Charges were made that 90% of radio and TV commentators on networks supported Ike and were biased. This, of course, was promptly denied, with statements generally that commentators were as objective as they could be under circumstances.

Gen. Ike is no neophyte in radio. His brother, Dr. Milton S. Eisenhower, president of Penn State, is old-timer in radio, having served as radio director and then information director of Agriculture Dept. under Secretary Jardine in Hoover administration. Gen. Ike's naval aide during World War II was Capt. Harry C. Butcher, former CBS Washington vice president and now owner of KIST Santa

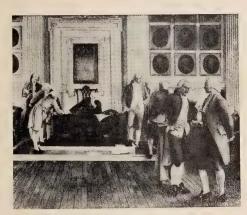

Where Taft organization was hard to get along with during convention, Eisenhower staff cooperated all down line with radio and television. There was some feeling that Taft group would be disposed to make it tough for broadcasters at next Congress.

This threat, however, appeared to evaporate following Gen. Ike's call on Sen. Taft immediately after nomination, at which pledged to do everything possible to assist in Eisenhower campaign.

JAMES MADISON's "era of good feeling"

Signing of the Constitution

James Madison's second term as President of the United States
was marked by a tranquility and growth that
labeled it "the era of good feeling." But it was
not complacency or do-nothingness on the part of
this great Virginian that brought it about. To the
contrary, Madison's record (for example, his
stirring essays in the Federalist which spurred the
ratification of the Constitution and earned him the
title "Father of the Constitution") is one of
aggressiveness and selfless service.

Havens and Martin Stations, The First Stations of Virginia, believe that "good feeling" and service go hand-in-hand. In and around Richmond they demonstrate this daily to the advantage of numerous blue-ribbon radio and TV advertisers.
