SATURDAY

(OPENING SIGNATURE..... "HAPPY DAYS ARE HERE AGAIN")

ANNOUNCER: Lucky Strike presents Your Hit Parade, bringing you fifteen hit tunes of this week, played by Carl Hoff and the Lucky Strike Orchestra.

Each week our search for popular numbers takes us here, there, everywhere in America — to the large cities and the small towns, to the snow covered North and the sunny South to find the Fifteen tunes of the week. Countrywide radio reports bring us your favorites over the air; sheet music and record sales all over the nation inform us what pieces you take home with you. To date, out only seven weeks, 560,000 copies of "The Music Goes Round and Around" have been sold. Then when we're sure what melodies you wish to hear, we bring you Your Hit Parade — All America's program. And now Carl Hoff and the Lucky Strike Orchestra play "Rhythm in My Nursery Rhymes" the tune that holds tenth place on Your Hit Parade this week.

Since 1911, The Research Department of The American Tobacco Company has had the following objective: To control and modify by treatment cigarette tobaccos so as to produce the desired characteristics in their smoke: In other words - To produce A Light Smoke - A Light Smoke of rich, ripe-bodied tobacco. In the newspapers and magazines you pick up nowadays, you see frequent reference to the question of acidity. So, we have this fact to give you: Scientific chemical analysis of LUCKIES and other leading brands of cigarettes shows that LUCKIES are decidedly less acid than the others. Other popular brands have an excess of acidity over LUCKY STRIKE of from 53 to 100%. LUCKIES are less acid.

"Have you said thank you to each customer you served today?" Years ago this question was flashed one evening by telegraph to each clerk in the employ of a great merchant, and each telegram was signed personally by him. What do you suppose his meaning was? What was he trying to do? Simply to emphasize the importance of courtesy when combined with swift efficient service. And courtesy has always characterized the man on the other side of the tobacco counter.

Saying "Thank You" to a customer is in itself one of those small but important amenities which make life worth living, but more than that, those two words "Thank You" repeated as they are, millions and millions of times every day, have become a symbol of the tobacco business. They typify the service, the courtesy, the gracious efficiency you meet with whenever you step up to a tobacco counter anywhere. The manufacturers of LUCKY STRIKE Cigarettes take satisfaction in acknowledging this universal courtesy daily extended to you by over 950,000 retail stores throughout the country.

This is Your Hit Parade, all America's program, featuring ANNOUNCER: fifteen hit tunes of the week, presented for your pleasure by the manufacturers of Lucky Strike cigarettes. You will be interested in watching the way these tunes rate on "Your Hit Parade", for they echo all over the country and you are the people who decide the degree of their popularity. For example: swinging into favor as it did a few weeks ago "The Music Goes Round and Around" jumped into seventh place in the LUCKY STRIKE "Your Hit Parade", from there next week it jumped to first place, stayed there three weeks and now its back into fourth place. "Red Sails In The Sunset" has stayed for three consecutive months on "Your Hit Parade", and tonight as we told you it occupies seventh place just where it stood three months ago. We wonder why this is. You decide you know. We report your decision, and now we play for you "Moon Over Miami", number one song of this week - and from Guy Lombardo we learn that it was the favorite request tune at the six Washington hotels at which his orchestra

played this week on the occasion of the President's

Birthday Ball. They like that Guy so much in Washington

that they did troup him around to all those hotels that

ANNOUNCER: Lucky Strike presents Your Hit Parade -- the fifteen most popular tunes of the week, played tonight by an old favorite, B. A. Rolfe, who brings you the Lucky Strike Orchestra as special guest conductor. This is All America's program, because you pick these tunes yourselves, one hundred and twenty million of you from Coast to Coast. You pick 'em -- we play 'em. Each week our search to find your fifteen favorite tunes takes us throughout the length and breadth of the nation -- to teeming cities and quiet towns, north, south, east and west. We check the sheet music and phonograph records you are buying. Radio reports tell us your favorites over the air and from the nation's well-known orchestra leaders -- such as Guy Lombardo, Hal Kemp, Jan Garber, Orville Knapp, Eddie Duchin, Ben Bernie, Ted Lewis and others, we learn what tunes you request when you're out dancing. Put all this information together and out come the fifteen tunes you like best this week -- Your Hit Parade. And now B. A. Rolfe and the Lucky Strike Orchestra bring you the song that all America has chosen as its fifteenth ranking favorite "I'm Gonna Sit Right Down and Write Myself a Letter".

There are more than nine hundred and fifty thousand retail dealers who sell tobacco and cigarettes throughout the country. And it's safe to say that no other business activity in America is conducted with more courtesy, thoughtfulness and service. For millions of you, the tobacco dealer's cheery smile and "thank you" starts the day off right as you purchase your morning supply of cigarettes or tobacco. A small thing perhaps, but when repeated millions of times throughout the country it becomes a mighty contribution by the retail tobacco industry to pleasant living. Next time you say, "Luckies, please" reflect upon this. Your tobacco retailer deserves your good-will -- he earns it by courteous, efficient, friendly service. His reward is a small percentage of the cost of your purchase and the satisfaction of your continued patronage.

Tonight a new top song appears on Your Hit Parade as "Alone" from the motion picture "A Night at the Opera" becomes the number one melody of the nation. Though not sensational in its rise to the top, "Alone" nevertheless has been remarkable in the steadiness of its climb.

Unlike the tune "Lights Out", about whose up and down progress on Your Hit Parade we have already told you, "Alone" appeared for the first time on December twenty-eighth in fourteenth place. Then from fourteenth it moved steadily to ninth, then to seventh, then to third, then to second, and finally it reaches the top of the heap, the number one song on All America's program.

ANNOUNCER: Lucky Strike presents Your Hit Parade, all America's program, featuring the Fifteen Hit Tunes of this week played by Carl Hoff and the Lucky Strike Orchestra. Every week Lucky Strike's musical spotlight sweeps the country to find the Big Fifteen melodies. From San Francisco's Golden Gate to New York's Statue of Liberty these are the songs acclaimed by all of you as your national favorites -- tunes that captivate the city's smartest night clubs, songs that are whistled down on the Nationwide radio reports tell us what melodies you like to hear over the air; -- orchestra leaders all over the country inform us of your requests for popular dances; and sheet music and phonograph record sales from North, South, East and West tell us what pieces you play in your homes. Then, when we've learned just what songs you want to hear, we play them on Your Hit Parade, all America's march of melody -- the program that you yourselves request. Since 1911, the Research Department of The American

Tobacco Company has endeavored to establish the

relationship between components of Tobacco and their

products of combustion. Its findings have been

repeatedly checked by independent research groups,

though there has been comparatively little publication

owing to the extremely competitive conditions within

the tobacco industry.

The objective of the Research Department was to produce, in Luckies, A LIGHT SMOKE, with consideration to acid-alkaline balance. •• Over the air, in the newspapers, in the magazines you find much reference to acidity these days.

Although it is only in recent years that science has

become fully aware of the importance of acid-alkaline balance, LUCKY STRIKE has kept pace with the research and experimental work conducted in other fields relative to acidity. That is why we put so much stress on current independent chemical laboratory tests which show that other popular brands have an excess of acidity over LUCKY STRIKE of from 53 to 100 percent. Yes, the smoke of LUCKIES is distinctly LESS ACID.

and the attitude behind the counter is ... that the

customer is always right. This courteous and understanding

service is regularly offered daily by the tobacco shops

For hundred of years, tobaccos were selected - and gradations in flavor secured -- by the roughest sort of rule of thumb methods. But the tobacco plant is nearly as sensitive to soil and climatic variations as the grape -- and tobaccos vary from year to year and from district to district almost as much as vintage wines.

One of the most important innovations made by the Research Department (and still, so far as we know, exclusive with Lucky Strike Cigarettes) was provision for chemical analysis of selected tobacco-samples before purchase: the resulting reports offer the professional buyer an accurate guide and reinforce his expert judgment based on the senses of sight, smell and touch.

This is typical of the care necessary to the production of A LIGHT SMOKE -- A LIGHT SMOKE of rich, ripe-bodied tobacco. A Light Smoke is less acid than a heavy one. That is why it is particularly interesting to know that the smoke of LUCKY STRIKE is distinctly less acid than that of other leading brands. It is a rather surprising fact that the leaves of the same tobacco plant may vary far more than the leaves from plants of quite different types. The top leaves of all tobacco plants tend to give a definitely harsh, alkaline taste. The bottom leaves tend to acidity in the smoke. It is only the center leaves which approach in nature the most palatable, acid-alkaline balance, consideration of which is so essential to A LIGHT SMOKE. In Lucky Strike Cigarettes, the center leaves are used. There's no saying more true than "a word to the wise is sufficient". LUCKIES are less acid. Recent chemical tests show that other popular brands have an excess acidity over LUCKIES of from 53% to 100%. We give no warnings about excess acidity; we make no rash claims. "YOUR HIT PARADE"

8:00 - 9:00 P.M.

FEBRUARY 22 1936

SATURDAY

(OPENING SIGNATURE. "HAPPY DAYS ARE HERE AGAIN")

ANNOUNCER: Lucky Strike presents Your Hit Parade, the fifteen most popular songs of this week from one end of the country to the other, played for you by Carl Hoff and the Lucky Strike Orchestra.

This is Your Hit Parade - YOURS in every sense of the word, for these are your selections - the sum total of the songs YOU request at the places you dance - the tunes YOU have most frequently purchased on sheet music and on records - the melodies you like to hear best over the air. Each week Lucky Strike scours the country, checks reports from cities, towns and villages from Maine to California, contacts band leaders, radio stations, music publishers, record manufacturers, to find what tunes 120 million of you consider "tops" and from this vast store of information come the big fifteen songs that all America rates as the favorites of the week from coast to coast....... Your Hit Parade.

And now the Lucky Strike Orchestra swings into "I'm Shootin' High", fifth ranking tune from one end of the country to the other.

("I'M SHOOTIN' HIGH"......................ORCHESTRA)

ANNOUNCER: "It's Been So Long". A newcomer to Your Hit Parade last week, but already so popular that it jumps from fourteenth to seventh place in one short week.

(MUSIC SWELLS AND FINISHES)

SEGUE TO:

ANNOUNCER: Only two tunes in Your Hit Parade this week were among the big fifteen in 1935 - and tonight one of these - "Moon Over Miami" - for the fifth time is second in popularity the country over.

"All cigarette tobacco, though 'cured' by the grower before sale, is unsuited for use without further aging: Lucky Strike tobaccos are aged from more than one-and-a-half to three years."

This is only one of the many steps taken to assure you, in Luckies, A LIGHT SMOKE of rich, ripe-bodied tobacco. "A LIGHT SMOKE," you know, "is less acid than a heavy one."

And so it is important for you to know that "recent chemical tests show that other popular brands of cigarettes have an excess of acidity over Lucky Strike of from 53 to 100%. Luckies are A LIGHT SMOKE of rich, ripe-bodied tobacco - LUCKIES are less acid."

ANNOUNCER: Ever since the day when the use of tobacco became popular in the genial coffee houses of 17th century England, smoking has somehow been associated with the warm, friendly things in life, - with the kindly business of good living. And through the years, this pleasant attitude has always been reflected in the cheerful, courteous service of the man who sells you your smokes. Although his unit of sale is small, you have come to expect the efficient friendly attention to your demands that you invariably receive when you enter his store. The purchase you make at the tobacco counter undoubtedly adds something to your physical enjoyment of life. And the thoughtfulness of the man behind that counter plays its part too in making life just a bit more pleasant. Just pause for a moment and consider this the next time you ask for Luckies. too, will realize why the American Tobacco Company takes such satisfaction in its long and happy association with the 950,000 retail dealers who sell cigarettes throughout the country.

("I'M GONNA SIT RIGHT DOWN AND WRITE MYSELF A LETTER"..DICK & ORCHESTRA)

(FADES FOR ANNOUNCEMENT)

ANNOUNCER: "I'm Gonna Sit Right Down and Write Myself a Letter" stands fifteenth nationally, but for some reason this tune clicks faster in the South. In Biloxi, Mississippi, Henderson, Kentucky, and Selma and Dothan, Alabama, it's the Hit of the Week.

ANNOUNCER: This is Your Hit Parade - Lucky Strike's presentation of the fifteen most popular songs of the entire nation this week. These are your favorite tunes - the songs you have requested most frequently at the places where you dance - the numbers you have purchased most often in sheet music and on phonograph records -- the melodies most played on nearly two hundred leading radio stations contacted by Lucky Strike each week - a huge compilation of the preference of over 120,000 people in every section of the country. And now, here's your tip top tune -- the nation's leading song for the third consecutive week. Only five others have ever held the lead so long -- Here it is -- the tune that has been played over the air this year more times than any other hit - America's number one melody - "Alone".

SEGUE TO:

("YOU HIT THE SPOT"...........DICK AND ORCHESTRA)

(FADE FOR ANNOUNCEMENT)

ANNOUNCER: And now, you dancers in Missouri - Wisconsin Pennsylvania - Ohio and California, here's a tune that you
have requested of your favorite orchestra leaders all week
- "You Hit the Spot" - thirteenth ranking song in all
forty-eight states tonight.

(MUSIC SWELLS AND FINISHES)

"The blending of tobaccos to secure a given flavor -uniformly, season after season and year after year -is both an art and a science. Every fresh blending
of Lucky Strike tobacco contains more than 100
different types produced on thousands of different
farms. These farms comprise not only areas in
Virginia, North and South Carolina, Georgia,
Tennessee, Kentucky, Maryland and other States, but
tobacco-lands in Macedonia and Xanthia in Greece,
Smyrna and Samsoun in Turkey -- where the finest
Turkish tobacco is grown."

The skillfull blending of these fine tobaccos is essential to the production of A LIGHT SMOKE -- and Luckies are A LIGHT SMOKE of rich, ripe-bodied tobacco -- a smoke that is wonderfully easy on your throat because an exclusive process known as "IT'S TOASTED" removes certain harsh irritants naturally present in all tobacco. And, because the question of acidity is so much discussed today, we ask you to remember that "independent chemical laboratories and research groups say to you that the smoke of Luckies is less acid."

"Proper blending" of the many fine tobaccos that

go into your Lucky Strike "means that every shred

ANNOUNCER:

of these varied tobaccos has absorbed something of the flavor and aroma of every other shred, and has given in return something of itself. The Research Department, following its original tests of samples before purchase, makes two further analyses in every case: one, a test of all tobaccos before blending; second, an elaborate test of the completed blend. The result is a uniformity of flavor in Lucky Strike cigarettes which we believe is unique in the cigarette field. And here is an interesting thing a thing that will interest all smokers - that LUCKIES are less acid. The smoke of LUCKY STRIKE is distinctly less acid than that of other leading Hanmer #23 brands. Results verified by independent chemical laboratories and research groups prove that other popular brands have an excess of acidity over LUCKY STRIKE of from 53 to 100%." SATURDAY

(OPENING SIGNATURE. . . . "HAPPY DAYS ARE HERE AGAIN" . . .)

ANNOUNCER:

Lucky Strike presents "Your Hit Parade"! For the next hour the manufacturers of Lucky Strike Cigarettes will bring you the fifteen most popular songs in America this week ... played tonight by Ray Sinatra and the Lucky Strike Orchestra.... the songs that 120 million of you are humming and singing this week the tunes that have caught the public fancy. And here's a curious fact -Dynamic, agressive America has gone romantic - for on 34 of the 45 weeks that "Your Hit Parade" has been on the air, your tip-top hit-of-the-week has been a romantic ballad. Each week Lucky Strike covers the nation from Coast to Coast in search of your musical preference. From the country's principal orchestra leaders we learn what numbers you've requested at places where you dance. Sales of sheet music and phonograph records in cities, towns and villages everywhere show us what tunes you've bought to play in your homes and scores of radio stations tell us what are your favorites over the air. It's literally true when we say "You pick 'em - we play 'em," because it's America's all-request program - "Your Hit Parade." And now we open with the twelfth ranking song of the country tonight, the words of which were written by an author who weighs 287 pounds and, believe it or not, he gave it the title "I Feel Like A Feather In The Breeze." ("I FEEL LIKE A FEATHER IN THE BREEZE"........... ORCHESTRA)

ANNOUNCER: A smoker recently said to us:

WOMAN: Wherever I go today I hear and see a great deal about

acidity, and acid-alkaline balance. Is this balance

between acids and alkalis important in the smoke of a

cigarette, too?

ANNOUNCER: Yes, indeed it is. "Recent research has shown that it is

difficult to over-emphasize the importance of a delicately-

adjusted balance in producing A LIGHT SMOKE, particularly

A LIGHT SMOKE of rich, ripe-bodied tobacco."

WOMAN: And do you consider acid-alkaline balance in the tobacco

you use and the way you make Luckies?

ANNOUNCER: Indeed we do. "How successfully this balance has been

considered in LUCKIES may be best ascertained from the

fact that the smoke of LUCKY STRIKE is distinctly less

acid than that of other leading brands. Recent chemical

tests show that other popular brands have an excess of

acidity over LUCKIES of from 53 to 100 percent. LUCKIES

are decidely LESS ACID."

ANNOUNCER: "Collegiate" - played for you by the Lucky Strike Orchestra.

(MUSIC SWELLS AND FINISHES)

SEGUE TO:

ANNOUNCER: On January 4th, two new tunes appeared on Your Hit Parade.

One of these -- "The Music Goes Round and Around", had a
meteoric rise and just as quickly fell from the first
fifteen. "Lights Out", the other song, climbed slowly
and steadily from week to week - from fifteenth place
to second ranking song of the entire nation tonight.

(MUSIC SWELLS AND FINISHES)

"Some years after the organization of the Research
Department of The American Tobacco Company, a series of
experiments were undertaken in the laboratory to determine
whether pre-heating of tobaccos to temperatures much higher
than those ordinarily employed in their preparation would
not carry the "natural process" of curing and aging
"a step further."

It was these experiments which led to the development of that famous and exclusive Lucky Strike process known as - IT'S TOASTED - which removes certain harsh irritants naturally present in all tobacco. It is your throat protection against irritation, against cough.

And so, it is not surprising that, in Luckies, you have A LIGHT SMOKE of rich, ripe-bodied tobacco. Nor is it surprising to learn that the smoke of Luckies is distinctly less acid than that of other popular brands. Naturally "A LIGHT SMOKE is less acid than a heavy one". And so we ask you, as you enjoy the rich taste of your Lucky Strike, to remember that "each puff is less acid".

This is Your Hit Parade - the big fifteen songs of the week brought to you by the manufacturers of Lucky Strike cigarettes. Each week all of you - North, South, East and West - men, women and children - tell us the songs you like best - you tell us by your purchases of sheet music and records - by your requests to orchestra leaders at the places where you dance, by the tunes that are your favorites on radio stations everywhere. Then, after this information is carefully compiled and tabulated, the selections you rate as tops are brought to you on Your Hit Parade. And now for this week's Number One Tune of the country from coast to coast. It's been played over three national networks more than 250 times since the first of the year. For the fourth straight week --"Alone" is first choice of over 120,000,000 Americans everywhere.

Years ago, when life was much simpler than it is today, the proprietor of the town's smoke shop knew almost all of his customers by name. His cheery smile of greeting and warm kindliness was the symbol of the friendly feeling which seemed to envelop you the moment you stepped into the pleasant atmosphere of his store. Although the complexities of modern business sometimes make it impossible for the man behind the tobacco counter today to know all of his customers intimately, the friendly courtesy and cheerful service of the "good old days" are traditions that are still maintained by over nine hundred and fifty thousand retail tobacco dealers. There's a certain something about the thoughtful attention of that man behind the tobacco counter which adds a warm glow to the pleasure that he sells you. The American Tobacco Company takes this means of extending its greetings to these men who play such an admirable part in bringing you your favorite smoke.
